# Hon. Secretary's Message

Dear Reader,

Warm Greetings for the New Academic Year!

Education, it is often said, is the passport to the future as tomorrow belongs to those who prepare for it today. This is an era of firm competition and success can only be achieved if one makes the right kind of effort at the right time. Foresight, relentless drive to succeed and tremendous acumen in recognizing the needs of the industry and integrating knowledge with professional inputs are the secrets behind the success of Team RSET in our educational journey that has always kept us at the forefront of education, value creation and a sustainable model of growth and achievement for seven and more decades.

The thrust of education at the institutions of Rajasthani Sammelan Education Trust is not to produce mere degree holders but the bright young men and women equipped with an all-round personality. The vision of the institutions is to impart quality education in all core disciplines of knowledge by developing global leaders who are confident, smart, intelligent, gifted and engaged with life from commerce, management and media studies to football, cricket and other games.

With best infrastructure, techno-savvy ambience, latest gadgets to equip one to stride with competitive fervour, ever increasing new job oriented courses, career counseling and highly enthused qualified teachers - we earnestly endeavour to help our students in realizing their dreams and make them better human beings. I am pleased to state that every year, our Trust is adding a new step in the field of education and other related areas. Last year we had started Nalini Shah Music Academy which is running successfully and has given an opportunity to students to learn Indian vocal and instrumental music as well as Western instrumental music along with their studies within the campus.

In the past three months, when the things were brightening up with the waning of COVID-19 Pandemic, our institutions were gearing up for hybrid academic delivery. But the devastating onset of the second wave of Pandemic belied all expectations and hope. However, this situation was boldly faced by our institutions by completing academic activities, examinations and extra-curricular activities through online platform. With the starting of the new academic year of 2021-22, admissions have been done through online platform followed by online teaching-learning and extra-curricular activities.

Research is an integral part of higher education. I am pleased to state that Ghanshyamdas Saraf College is a centre for Ph.D in Commerce which is approved by Mumbai University. The research centre is headed by Dr. Shripad Joshi. At present, six students are registered under him and are pursuing Ph.D. The Research centre also has the facility of doing Ph.D in Economics which is headed by Dr. Shagun Shrivastava. Dr. Jayant Apte, Principal of the college is also a Ph.D guide of C.K. Thakur College at Panvel.

Under Remson's Centre for Management Research, faculty of Durgadevi Saraf Institute of Management Studies are also involved in research. Every year, DSIMS is organizing International Research Conference under the aegis of the Centre. This year too, DSIMS organized 7th International Research Conference on the theme 'The New Normal in Businesses - Readiness and Resilience' through Zoom platform. The Conference was

**Kailash Kejriwal, Hon. Secretary, RSET**

graced by the presence of highly acclaimed national as well as international academicians, institution builders and corporates. DSIMS is also bringing out an online Journal "The Management Quest" under the research centre.

On 21st June 2021, International Yoga Day was celebrated virtually by all institutions where in students performed the asanas at home under the guidance of physical education teachers. It is interesting to state that Ramdhar Maheshwari Career Counseling Centre conducted many Career Development webinars to assist students to evaluate their interest and guide them to choose proper stream.

The New Education Policy has been announced in July, 2020 which is expected to reform the Indian Education System further taking into consideration the aspirations of the new generation, the global best practices not sacrificing the Indian value system nurtured over centuries. Although the Pandemic has slowed down the impetus of implementation from the central authorities, some of our institutions are taking significant steps in line with the ethos of the New Education Policy.

Today, we are imparting education to approximately 16,000 students in our institutions of Rajasthani Sammelan Education Trust. We are sure that the students cared and nurtured by all our institutions will definitely turn into rich human resources for our country as they become matured individuals.

Dear Reader,

The COVID 19 crisis is still not over. However, despite of lockdown during the present Quarter i.e. April to June 2021, all our Institutes (Four Schools, Four Colleges, Two PG Institutes, A Counselling Centre, Hostels, Women's Hostel and Boys' Hostel, Sports Academy and an Online Academy) functioned smoothly, using online mode both for academic and administrative activities. During this period all the activities like teaching-learning, admissions, examinations, results and extracurricular activities were conducted flawlessly. This was possible due to the tireless efforts by all our HOIs and ably supported by the IT Staff. Our Contractual Staff like House Keeping, Security and Technical Services have equally pitched in to ensure that complete support was given to the organisers.

Due to the second wave COVID-19 Pandemic in India during April and May, there has been a major impact on annual academic examinations especially the pan India board examinations for students of Grade X and XII. Boards had to cancel the board examinations for the academic year 2020-21. The results were declared based on certain parameters such as the earlier subject marks in various examination. We are happy to announce that all our students have passed with excellent grades with 100 % success rate. We are happy to inform you that our present IGCSE and IBDP batch has performed excellently in the board examination in the March 2021 and May 2021 series respectively.

The concerned schools and colleges have conducted their quarterly Governing Body and Managing Committee meetings where the report of activities conducted during the quarter were shared in the Director's/ Principal's report. The Management appreciated the Principals and their Staff's hard work during the Pandemic for effective utilisation of virtual platform for the successful conduct of all the activities of the schools and colleges.

Our Institutions are constantly endeavouring to follow the best practices in the field of education by giving our students a global exposure like international student exchange programme, participation in EUMIND (Europe Meets India) project were our institutes received accords and accolades. Our PG Institute, DSIMS has taken part in organising International Research Conference 2021 virtually at DSIMS.

We at RSET, strongly believe in following the Indian traditions and culture and thus give a great emphasis in organising the events like International Yoga Day where most of the Institutions took part in conducting Yoga online/offline on 21st June, 2021 and made the event a grand success.

Our NCC/NSS/Rotaract students from various institutes are very active in taking part in Social activities like celebrations of Commonwealth Day, World No Tobacco Day, Blood Donation drive and Beach Cleaning activities. Our Institutions were actively involved in donation drive where the needy people were given the large number of blankets.

Our counselling centre RMCC has been assisting students to evaluate their interest, strengths and areas of improvement. Career guidance at RMCC has helped numerous students to make informed subject/stream choices. A webinar was conducted on career counselling and guidance for students to orient them about the career counselling process and the career development program in April 2021. Various additional webinars were also conducted by RMCC for the students to develop their skills for effective communications, coping with emotions, interpersonal skills, problem solving and decision making. The students mentioned that they were able to learn many innovative strategies that would help them learn more effectively.

All our Schools and Colleges have made a mark for themselves by achieving greater heights in the field of Education. Recent surveys conducted by the various Social Media have undoubtedly established that our schools and colleges rank very high as the best schools/colleges in Mumbai and in India.

We at PDSA are awaiting lockdown due to COVID-19 Pandemic to end soon so that educational institutions can open and we are able to start our regular coaching and our teams can participate in various matches/tournaments of prestigious organizations and institutions. In the meantime sports sessions have been conducted online so that students don't give up and lose their interest in sports.

One of our Institute namely Nalini Shah Music Academy ( NSMA) is an educational institution specialized in the study, training and research of music has been progressing well in achieving its objective of promotion of music and identifying talents and training students in Hindustani and Western Music. Dedicated set of Teachers are actively involved in training the students towards the desired goal.

In the end I would like to thank the President RSET Shri Ashok Ji Saraf and all the key Management Committee Members of RSET for giving a free hand, encourage and motivate all the HOIs to carry out the Institutional activities that have ensured the excellent learning outcome of all our students.

Dear Reader,

COVID-19 outbreak has caused a downward spiral in the world economy and caused a huge impact on the education system. The sudden closure of campuses as a social distancing measure to prevent community transmission has shifted face-to-face classes to online learning systems. This has thrown the focus on utilization of eLearning tools and platforms for effective student engagement which may have limitations of accessibility and affordability for many students. The pandemic has exposed the shortcomings of the current education system and the need for more training of educators in digital technology to adapt to the rapidly changing education climate of the world. In the post-pandemic situation, the use of eLearning and virtual education may become an integral part of the education system, especially in higher education system. The higher education institutions and universities need to plan the post-pandemic education and research strategies to ensure student learning outcomes and standards of educational quality.

As our country reeled under the disastrous first and second wave of the COVID-19 Pandemic, the Olympic Games Tokyo 2020 concluded as the most successful in India's 120 year history of competition. The seven Indian champions have travelled far and wide to make that happen. With seven medals - one gold, two silver and four bronze - Tokyo 2020 has been the most decorated Olympic games in India's history. The seven stars who scripted the success story are Neeraj Chopra (Gold) in Javelin throw, Ravi Kumar Dahiya (Silver) in Wrestling - 57 Kg., Mirabai Chanu (Silver) in Weightlifting - 49 Kg. women, P.V. Sindhu (Bronze) in Women's single Badminton, Lovlina Borgohain (Bronze) in Women's Welterweight Boxing, Indian Hockey Team (Bronze) in Hockey, Bajrang Punia (Bronze) in Wrestling - 65 Kg. Union Minister of Youth Affairs and Sports Anurag Thakur felicitated the seven Olympic medalists, namely Neeraj Chopra, Ravi Kumar Dahiya, Mirabai Chanu, PV Sindhu, Bajrang Punia, Lovlina Borgohain, and the men's national Hockey team, at a gala felicitation program at the Ashoka Hotel in New Delhi. They were also felicitated by Shri Narendra Modi at his residence.

Many Bollywood celebrities passed away in the past few months. Legendary actor Dilip Kumar, who won world-wide fame playing tragic heroes and was the star of films like Devdas (earlier one) and Mughal-

E-Azam left for heavenly abode in the month of July, 2021. Prime Minister Narendra Modi called Dilip Kumar a 'cinematic legend' & 'blessed with unparalleled brilliance' as he condoled the demise of the veteran actor.

At the academic front, staff and students of educational institutions continued to adapt themselves to new methodologies to ensure continuity in teaching-learning, examinations as well as extra-curricular activities in the past few months. Distance learning tools became new normal through online teaching-learning platforms of Zoom, Google classroom, Google meet etc.

In RSET campus, all the institutions right from schools to colleges and professional institutes have well adapted themselves to online teaching learning. Online examinations were conducted by GOLD Academy with the support of IT Department of RSET. Institutions of higher education conducted final examination through an agency having expertise in holding online examinations. The institutions of higher education also organized many national and international webinars and conferences and important events such as Foundation Day, Degree Distribution ceremony, PGDM Convocation and Guest Lectures through online platform.

Some of the libraries of the institutions have been providing online support to the users through OPAC (Online Public Access Catalogue) wherein they can search in library catalogue to locate books and other collections from their home. Schools and colleges of RSET also conducted statutory meetings of Governing Boards, School Sub-committees, Child Safety Committee and Parent Teacher Association well in time through Zoom platform.

The Management has been taking all possible measures by sanitization of the campus from time to time. In the month of July, the Trust also organized successfully a vaccination drive in association with Dr. Balabhai Nanavati MAX Super Speciality Hospital to inoculate the employees and their family members in Dhurmal Bajaj Bhavan. The vaccination drive was sponsored by Shri Ramniranjan Ruia, Member Managing Committee and Trustee of Nandkishore Bhadermal Ruia Charitable Trust. Almost 300 staff and their family members were vaccinated on that day.

We are hopeful that the present situation due to COVID-19 Pandemic will be under control in the near future and our campus will be vibrant again with students attending lectures physically.

Dear Reader,

Warm Greetings at the beginning of the new academic year!

I am very happy to know that the new academic year started with many activities conducted by institutions of Rajasthani Sammelan Education Trust through online platform. The most important one was International Yoga Day which was celebrated online on 21st June by the students of all institutions with great enthusiasm. Students as well as their parents performed various yogic asanas at their respective homes under the guidance of their teachers through Zoom. Yoga is a spiritual, mental and physical practice that has been around since ages. Yoga does more than burning calories and strengthening muscles, it is a workout which involves both body and mind. Hence, it is indeed heartening to note that inspite of lockdown, institutions of RSET have celebrated 'International Yoga Day' in a sincere way. It is indeed a matter of great satisfaction that many meritorious & needy students who were awarded Jankidevi Bilasrai Bubna freeship are successfully pursuing education in their respective institutions of RSET. Due to lockdown, Jankidevi Bilasrai Bubna Boys' Hostel has only foreign students studying their respective courses online by staying in the hostel. The Management has provided all possible facilities for comfortable stay of these students.

I am very happy to know that all the four schools of RSET i.e. Kudilal Govindram Seksaria Sarvodaya School (SSC Board), Kudilal Govindram Seksaria English School (SSC Board), Mainadevi Bajaj International School (IGCSE Board) and Ramniwas Bajaj English High School (ICSE Board) have given 100% result at the standard 10 examination. In Ramniwas Bajaj English High School all the students have passed with distinction. I convey my hearty congratulations to all the teachers and students for such excellent results.

I wish a bright future to one and all in the institutes of RSET.

Over the years, Rajasthani Sammelan Education Trust has been successful in establishing eleven educational institutions, a counseling centre, an online academy, a boys' hostel as well as a women's hostel, a sports academy and a music academy. Dear Reader,

Warm greetings to one and all for the new academic year!

Since March 2020, COVID- 19 Pandemic and the lockdowns have resulted in the closure of all educational institutions around the globe. As a result the method of imparting education has changed dramatically from classrooms to e-learning wherein teaching is done remotely using digital platforms. Given all the constraints during this period (April-June 2021) all the institutions of RSET functioned normally using online mode both for academic, administrative and extra-curricular activities. During this period the students of MMS 2020-22 batch of DSIMS did their Summer Internship Projects (SIP) with the corporates resorting to work from home to keep themselves safe. DSIMS also conducted Foundation Day ceremony, PGDM convocation, MMS Degree distribution ceremony and its flagship cultural event 'Sabrang' through Zoom video call.

Ghanshyamdas Saraf College concluded the academic year 2020-21 with a few extracurricular activities from various committees, along with the smooth conduct of regular year-end examinations for First, Second and Third Year students of B.Com and Self- Finance courses from April- May 2021. The exams were conducted online through 'Eklavya', the agency having suitable experience to conduct online examination. Other institutions also completed examinations and extra-curricular activities during this period through online platform. I am pleased to note that the newly established Nalini Shah Music Academy is working successfully by giving training to students in Hindustani and Western Music. It also provides training of instrumental music. Some students of NSMA will appear for 'Sangeet Prarambik' examination organized by Bharatiya Sangeet Vidya Vihar, Kolkata'. Rajasthan Sammelan Education Trust in association with Dr. Balabhai Nanavati MAX Super Speciality Hospital successfully conducted the COVID-19 Vaccination Drive to inoculate 300 employees and their family members free of cost in the month of July.

I convey my compliments to the President and his team for steering all the institutions successfully in these difficult times.

Welcoming and Felicitation of Mr. Amit Malik sir

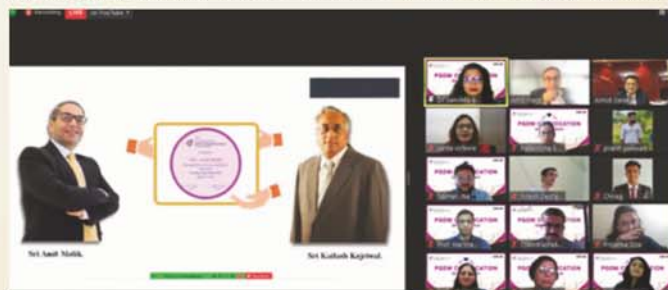

President RSET and Chairman DSIMS Shri Ashok Saraf welcomed Mr. Amit Malik, Mr. Sanjay Muthal, invited dignitaries, trustees of RSET, parents and graduating students. Shri Ashokji applauded the students and faculty members on the momentous occasion of successfully completing the academic program in the face of challenges posed by the pandemic. Shri Ashokji bestowed the graduating students with his strong message of being the future torchbearers of the country, thankful to parents, managing time to keep pace with the ever-changing world, acquiring good leadership skills, embracing technology, and following good ethics. To be successful in professional life, Ashokji reiterated the philosophy of service before self, to consider national interest first, corporate interest second, team interest the third, with least priority accorded to self-interests. He wished the students the very best in their careers and urged them to bring fame and name to the Institute, to their parents, and above all, bring glory to the country.

Dr. Sarita Vichore presented the Director's Report covering significant activities and achievements of DSIMS during Academic Year 2019-20. She welcomed the Big Moment day for graduating batch sharing the life that students shared with DSIMS fraternity during the past two years. She rekindled fond memories of lectures, computer laboratories, library, International Immersion to Switzerland and Germany and all the times that the student had enjoyed in the Institute premises. She emphatically mentioned that though the pandemic crippled the intensive, in-person classroom teaching model, nonetheless,

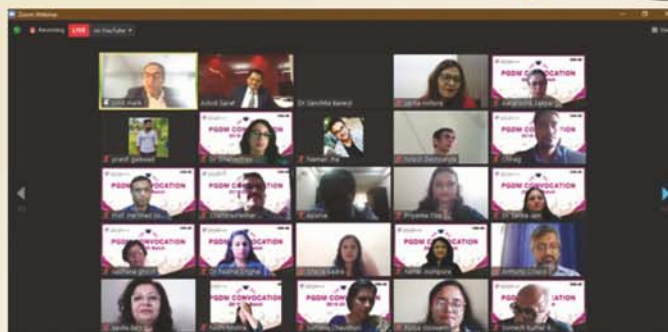

the Institute objective was clear, i.e., delivering upon the Institute mission in the face of an emerging global pandemic. She mentioned that owing to AICTE regular, it is during this period that Institute witnessed the emergence of yet another Business School, the Durgadevi Saraf Global Business School. Director's Report covered the Academic Excellence, Readiness and Resilience exhibited by the Institute during the ongoing pandemic, Social Outreach, International Collaboration, International Immersion, good Placement, and recognitions of DSIMS faculty members' and students' achievement. She announced that DSIMS is ranked 5th Best B School in Mumbai according to the Times B School Survey, 2021. DSIMS also received the 11th HEF Annual Award for Innovative Institute, and Leadership and Innovation Award 2020 in the Emerging Business School category. Dr Sarita mentioned about the recent recognition of Dr Sarita Vichore and Dr Sarika Jain as the PhD Guide affiliated to Mumbai University. Dr. Sarita said that in the pandemic, the Institute championed the cause of agility and maintaining business as usual and achieving one milestone after the other such as bootcamps, SEPs, rural immersion programs, Domain wise Conclaves, Student Mentoring and successfully organizing a truly International Remsons International Research Conference 2021 spanning speakers and authors from three continents. She appreciated the efforts taken by the faculty members in achieving the academic excellence.

Mr. Amit Malik in his convocation address advised the graduating students that they should focus on the increasingly digitized

world and create ways to navigate the uncertain VUCA world, which is daunting. And every daunting challenge opens an opportunity. His foresight on the future of education in the increasingly digital world holds true in contemporary context, when there is an increasing confluence of imparting online education, across the nation and geographies. He urged the students to change with the changing times and be agile and responsive to all ambiguities. He mentioned that life is about individual excellence interwoven in a tapestry of teamwork. Mr. Malik however cautioned that success may bring arrogance, but failures imbibe humility in all of us. The key ingredient to be successful in today's fiercely competitive landscape is the constant urge and ability to innovate, to bring something new to this world. And innovation is only about a changed mindset. He wished that the students should aspire to become job creator. Instead of daring to dream, he said that they should dream to dare and convert the million challenges of India into opportunities. Quoting George Bernard Shaw, Mr. Malik summarized his words of wisdom thus: "Some men see things as they are and ask why. Others dream things that never were and ask why not."

The Guest of Honour, Dr. Sanjay Muthal welcomed the students as they gravitate toward the real world upon graduation from the Institute. The real world is creative and vibrant, and India stands Blessed as we witness the blossoming of the best-in-class Unicorns in our country today. The only imposing limit is the mindset, which can break all adversaries and shackles and gushes on to success and prosperity. He said that history has taught us resilience and story of excellence of human race is far

beyond the purview of a single virus, as in times immemorial, whenever we have been faced with a challenge, we have emerged victorious. Respecting humanity, respecting planet, and respecting ecosystems, to become more kind, inclusive and compassionate, Dr Muthal in his prescriptive note advised the students to cautiously tread path, whilst keeping in mind the lessons of endurance and ability to change with situation that the pandemic has taught us.

## Educational TRIVIA

Did you Know ? ✓!!!

A school in the Philippines is made entirely of recycled pop bottles.

The school named Bottle School is one of its kind in Asia. It took about 9,000 bottles and dozens of volunteers to build the structure. Each bottle was filled with sand, water and straw to keep them sturdy. Then, a cement-like substance was used to hold the bottles in place as they were stacked on top of each other to create walls.

### Training & Placement Program:

TAP sessions were held throughout the months of March, April and May 2021. The sessions for March were held for all three batches of TAP -

Foundation, Intermediate and Advance. The students across the three spaces were trained on various topics in contingent to placement aspects being made better. Overall learning outcomes were that students came out with a clear understanding of the professional arena; they were made to understand the impact of having effective good CVs and presence on social spaces such as LinkedIn and were made aware of internal appreciation.

The sessions for April were in continuation to what was done in March, this time around the students were made to work on group work and ethics, intra-team communication, peer reviews, understanding co-workers and their working styles among other topics. The major outcomes seen were that students could now understand what it takes to survive with people they do not know but will be their co-workers in the work environment. They also understood what it takes to survive their first jobs in a new environment; what to expect and not expect in such spaces and similar survival skills.

During the May Sessions the three batches were tested on different grounds to see their understanding of the modules provided to them for training. The students were tested on one on one basis as well as in groups (in certain cases) For the Advance Batch, the testing was done by working professionals from the field. The major outcomes here were the students understood their real standing when it came to testing their training real time. The students also were made to understand what is expected of them in the real world and were made to look into their limitations. The students were, in reality, shown a mirror so they could see their mistakes and correct them before being made ready to go off for work in the professional arena.

Qualified students from the Advance Batch were given internships in some reputed organisations.

#### Month of June:

We had renewals along with the new admissions and June was again a busy month for the Hostel. We had begun to receive admissions from the month of May itself and it was really soothing to see our hard work being paid off so well. The admissions and queries were being received from all parts of the country.

New admissions & students are coming from other prestigious Institutes of Mumbai for our next tenure. The students who were aspiring to get into our hostel also gave really pleasant feedback about our institute. Many of the students were busy in their professional courses and their examination. The other were seeking admission in their respective universities. The parents of both old and new students have again been very motivating with their appraisals and suggestions. The students had also maintained the dignity of the hostel by abiding with the rules and regulations laid by our authorities.

New students coming from other cities were also anxious about joining the hostel and getting settled in a new city. Mumbai is famous for providing people all over with a vast arena of ambitious courses and environment which is very easy to settle into. The queries leads were converted to fees collection. The admissions were received from different parts of the country for different courses. Looking at the response we could easily make out that more and more people were interested in accommodating their wards considering the safety and security of the hostel. They were really impressed by our hostel.

#### The Annual cleaning & Repairing work:

Due to continuous lockdown, sports sessions have been conducted online so that students don't give up and lose their interest in sports. We at PDSA have been making sure to encourage students through various online activities. Every now and then we have been motivating and supporting our students to take online sports sessions. Similarly officials of Junior National Basketball Association who used to visit our PDSA campus with their international players keep conducting online sessions and competitions. Our students used to always participate in those virtual competitions and on 19th May 2021 one of our talented student Arnav Kharade won the competition conducted by Jr.NBA. More than 400 athletes had participated in this competition and our student won in the competition. Congratulations Arnav on this outstanding achievement. Wish you many more laurels to come.

We at PDSA are awaiting lockdown due to COVID-19 Pandemic to end soon so that educational institutions can open and we are able to start our regular coaching and our teams can participate in various matches organized by prestigious organizations and institutions.

# Being HUMBLE

*By*

**Dr. Radhakrishnan Pillai**

Director,  
Chanakya International Institute of  
Leadership Studies (CIILS)  
Ramakrishna Bajaj Sanskrit Bhavan,  
Kalina Campus, Santacruz (East)  
University of Mumbai

Over the centuries, as a tradition, we Indians have shown a lot of respect to teachers. The 'guru' is given the highest position in our society. And naturally, that extends to parents giving a lot of importance to education of their children.

Various governments, NGOs, individuals and private organisations have been working towards educating the masses over the years. And the good news is that our literacy rate has nearly touched 80%. This is a big number for a country of 135 crore people. And the day is not far when we will have 100% literacy.

But in this upward graph of literacy, the pandemic had quite the negative impact on the education system. While the urban areas easily adopted technological changes, the rural still has to cope up. You must have heard how school dropout rates are increasing. Many families, especially from the lower income groups, are pulling their children out of schools so that they can start working. This is a big concern.

The educated and well-to-do parents can afford new mobiles, laptops and Wi-Fi connectivity. The first-generation literate children may not have these luxuries. The government departments, educationists and policy-makers are working to resolve the problems. But, can we also

look for a solution from an alternative perspective? This is where Chanakya would come in. Remember, he is a teacher who taught students like Chandragupta Maurya, who was from the lower strata of the society.

**He said, "And (he should have) constant association with elders in learning for the sake of improving his training, since training has its root in that" (1.5.11)**

Chanakya says that learning happens not just in schools and colleges. They actually happen through association with elders. What does elders mean? The Sanskrit word is vriddha, meaning those who are grown-up and also wise. So, if children are not able to go to schools, it is best that they spend time with elders and more experienced people. Chanakya says that by doing this, training improves. And the root of any training is constant association with elders. So, how do we practise it in our generation, especially when the education system has gone online.

**Here are some things that we can do...**

**1. Spend more time with elders**

Look no further when you have elders at home. The pandemic has

taught us that we got quality 'family time' because of the lockdown. Formal education has been affected, but children are learning more from their elders at home. This is the best time one can have with their grandparents too. They have all the experiences of life, but hardly anyone to share them with. So, children should take the opportunity to learn from elders at home.

Also, elders can teach children in a different manner. If your grandparents are far away, use technology and learn from them. Yes, a call to your grandparents can teach you a lot.

## 2. Invent new ways of teaching rural kids

The most affected during the pandemic were the rural children. They do not have the benefits of going to school. The elders of the villages should try and reach out to them. They can form a committee with school teachers and work out a strategy.

A working committee can be formed and the elders (non-teachers too) can teach children online or can find other methods of teaching. It can be fun for children too. Not just formal classes, but the elders can also teach them about the various professions that they are following and encourage children in taking up different careers.

For instance, if someone has a business in the city, the entrepreneur can take a class online and teach children something new and different. Or one can send money to buy equipment that can help them access technology.

## 3. Rope in senior students

I did this experiment at my Chanakya International Institute of Leadership Studies (CIILS) at Mumbai University. When my new batch of students for the Masters in Leadership Science (MA-LS) joined last year, there were no physical classes.

How could I make them learn better than just online classes? I brainstormed with the students of the previous batches. We started a 'mentorship programme' wherein the seniors would guide the junior students. It was so much fun for the seniors as well as the new students. When there is a gap between the teacher and student, the alumni can fill the gap. And the learning curve just goes up. Try this, it really works for every student, teacher and even parents, this is one of the most challenging phases of our times. Yet, if we apply innovative techniques, we all can look back and say, "Yes, those were the best days of my life with new learnings in new ways..."

I would also like to take you through a short story of 'Being Humble'. It is said that, "Humility is a strange thing. The moment you think you have it, you have lost it".

So true. Being humble is a quality that we all have to consciously develop, yet if we are not aware it can lead to arrogance. The more successful you are the chances are ego can set in. The only solution is to keep yourself grounded in spiritual values.

Chanakya in his Arthashastra mentions that among the top qualities of a leader - humility is one of them. Truly powerful people are humble, and humility is power.

There are many ways that Chanakya the great guru, trained his student Chandragupta to develop humility. From time to time he tested if Chandragupta had developed arrogance. So, he would make

him do strange activities. He would make him disguise like a common man and walk among the citizens. That way, he would come to know the reality of what people are feeling and become empathetic.

One day, Chandragupta was sitting in his palace and was asked to meet his guru in his ashram. When the king proceeded to meet his guru, he had to go through a forest as the ashram was far away from the capital of the kingdom. During the journey, suddenly there was a roar of a lion and all his guards ran away. Chandragupta was all alone. Suddenly a group of tribals caught him and took him away. The tribals then took him towards a ritual ceremony where he would be made as a human sacrifice.

Frightened when Chandragupta was facing the tribals, the leader of the group asked him, "I know you are the emperor of our country. After we kill you, what will happen to your kingdom?"

Chandragupta apart from the fear of losing his life, was also fearing that if he is gone, the country will suffer a lack of leadership. No doubt Chandragupta was a great leader, but he thought 'who will then run this vast country?'

He therefore asked the tribal group to spare his life for the sake of his citizens and the country.

Suddenly Chanakya appeared on the scene and smiling he said, "You have a feeling that the nation cannot survive without your leadership. But, you also need to learn that - even without you, the country will do well"

Further the guru continued, "No doubt you are a good leader and doing your job well. But develop the humility that there can be better leaders than you as well in the future. Your job is to do your work well and leave the rest to god"

The student had realised that, the whole scene was a plan made by Chanakya to teach him a lesson on humility.

Once a successful person was asked, "You are flying so high in your life, how come you keep yourself grounded?" With a smile he answered, "I never thought I ever took off....". That is a way humble people feel about themselves. Even though others consider them successful, internally they feel that they are just like any other normal person.

Rudyard Kipling, the children's poet wrote,

"If you can talk with crowds and keep your virtue,  
Or walk with Kings—nor lose the common touch,  
If neither foes nor loving friends can hurt you,  
If all men count with you, but none too much;....  
.....Yours is the Earth and everything that's in it,  
And—which is more—you'll be a Man, my son!"

Be humble and become a winner in life..

We were being taught by industry experts and subject matter experts which were helpful to get a clear insight into the film, entertainment and content industry. Apart from the academic experience, I also had an astonishing experience working for the cultural fest Mumbai Media Champs where I learned a lot of things like team-leading and managing, effective communication. All of this helps me today at my work when I brief my team, all the memories of me briefing my cultural team in the college keep showing up.

The unique curriculum offered by DSIMS helped me to refine my soft skills which plays an important role in your personal as well as corporate life. DSIMS also gave me a chance to learn BLOOMBERG, which is an analytical tool and its knowledge is also appreciated in corporate world.

Best time of my life at DSIMS was when all the students use to come together to arrange an event may it be YUVA, VERSUS, or a BLOOD DONATION CAMP, our specialization never stopped us from coming together and make every event a best one. This was also appreciated by our institute.

My experience during my Summer Internship Programme (SIP), helped me a lot to be corporate ready. We were also fortunate to have a wonderful placement cell consisting of faculties and students working hard and making sure that all the students get placed in a good company.

I would like to give credit to DSIMS and its faculties who helped me in enhancing my self-growth and my career growth. I also look forward to continue my association with DSIMS forever.

# Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthan Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthan Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthan Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthan Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthan Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthan Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on [rs@rajasthanisammelan.org.in](mailto:rs@rajasthanisammelan.org.in)
