We also had a grand Scholarship Award Ceremony in the month of January wherein Scholarships / Freeships were awarded to deserving students from IRB Scholarship Endowment Fund, BKT Endowment Freeship Fund and Jankidevi Bilasrai Bubna Endowment Freeship Fund. A special mesmerizing musical programme was also a great attraction of the evening.

Along with various activities, we have always taken care of our infrastructure. The renovation work of our Jankidevi Bilasrai Bubna Boys' Hostel is going on at a fast pace and we plan to start it very soon. Before I end, I express my gratitude to all our Donors - past and present who have supported our Trust over the decades through their philanthropy and have helped us to move forward in our educational journey. Our Donors have never expected anything from us except to keep our journey of educational endeavours moving forward, true to its mission and dedicated to providing educational experience of uncompromised excellence by all the institutions run by RSET.

HON. SECRETARY'S MESSAGE

Dear Reader,

Wish you a very Happy New Year!

In an era of firm competition, success can only be achieved if one makes the right kind of effort at the right time. Foresight, relentless drive to succeed and tremendous acumen in recognizing the needs of the industry and integrating knowledge with professional inputs are the secrets behind the success of Team RSET in our educational journey that has always kept us at the forefront of education, value creation and a sustainable model of growth and achievement for six and more decades.

Rajasthan Sammelan Education Trust provides a rich and diversified culture to hone the young brains so as to get success in the present challenging scenario. We believe in imparting quality education based on ethics. RSET educational campus is a place that reflects an aura of global learning. At present, we are running 12 educational institutions that have approximately 15,000 students, an Online Academy, a Women's Hostel, a Counseling Centre and along with many other facilities provided to staff and students to facilitate teaching-learning in the educational campus. We are also in the process of starting a Boys' Hostel in the vicinity of our campus that will provide 170 male students coming from other cities to stay in a peaceful environment to realize their dream of higher and professional education. We are hopeful to start the Boys' Hostel very soon.

We have been able to provide successfully different types of educational experiences to our students in the campus right from the school level. Kudilal Govindram Seksaria Sarvodaya School, the oldest school of RSET is a Hindi medium school attached to SSC Board and we have very bright and talented students in the school. We also have Kudilal Govindram Seksaria English School attached to State Board of Maharashtra that is performing equally well and is giving 100% result at the S.S.C. Board examination every year.

Attached to ICSE Board, Ramniwas Bajaj English High School is the most sought after school in the Malad - Goregaon area. We have also successfully provided the experience of international board curriculum to school children through Mainadevi Bajaj International School in our campus. Over the past decade, the number of schools affiliated to the two most popular international boards i.e. Cambridge & IB saw an almost three fold increase in India. As per a statistics given by The Times of India, Maharashtra topped the chart for both the boards. Since curriculum is more application based, promotes critical thinking, communication, collaboration & research, demand for these International Schools affiliated to the Cambridge & IB Boards are increasing day by day.

Although the fees charged from students in each school vary to a very large extent, we have provided all latest technological

Kailash Kejriwal, Hon. Secretary, RSET

support to all institutions for teaching learning, modern infrastructure and have created alumni network and at the same time teaching them basic values of life.

All our institutions of higher education are affiliated to Mumbai University that include Ghanshyamdass Saraf College, Ladhivedi Ramdhar Maheshwari Night College of Commerce, Deviprasad Goenka Management College of Media Studies and Durgadevi Saraf Institute of Management Studies. In the past few months, all our institutions have made us proud by winning awards and accolades. Directors, Deans and Faculty members have been conferred awards given by prestigious institutions. Many of our faculty members made us proud by completing their Ph.D degree in the past few months. Our institutions of higher education have conducted many prestigious conferences and seminars that have received a huge response from scholars, corporates and research scholars.

Along with academics, our students have been encouraged to take up many outreach projects through NCC, NSS and Extension programmes, social clubs and Daan Utsavs. It is a matter of great pride that our school as well as college students have excelled in sports at District, State, National and International level. Through Pravinchandra D. Shah Sports Academy, we are also nurturing the talents of our students in sports. Expert coaches are appointed by the academy to train the students regularly. Time to time workshops are also held by internationally acclaimed coaches.

I take this opportunity to thank each and every Donor, past and present, Trustees, Managing Committee members and well wishers who were involved with the development and progress of the educational activities of our Trust. I also convey my best wishes to our students for achieving greater success and scaling newer heights in their education and career ahead.

CEO'S MESSAGE

Education is not the learning of facts, but training of minds to think. - Albert Einstein

Dear Reader,

The past three months of October, November and December 2017 were packed with large number of activities which include various learning outcomes through academic, sports, social, cultural, co-curricular and extracurricular activities which have trained the minds of over 15000+ students who are on our role. The entire month of October was occupied with term exams in most of our Institutions. The placement cells of our colleges kept up the good work to procure job opportunities for our students. Our faculty too made strides in Research Projects, authored text books and participated in conferences. Our NCC and NSS units have done very well. Our NCC cadets have won many prizes in various forums. Our NSS volunteers have been exposed to an outdoor camp for several days. Mock 'fire drill' for all the schools was conducted on 08th November 2017. Educational trips, excursions, students' competitions, faculty development programmes, guests' lectures and seminars have ensured the holistic development of the staff and students. The mock fire drill that was carried out will ensure that in case of any eventuality the safe exit of every student is taken care of. Considering the safety of our children we have left no stone unturned by hiring the professional agencies to conduct various activities/programmes like, Good touch Bad touch, importance of menstrual hygiene in girls, etc. All the schools and colleges have done extremely well in their Annual Sports Day events conducted at Goregaon Sports club and our own PDSA ground. Inter school sports championship of our four schools at PDSA has ensured that if "you are physically fit then you will be mentally fit too". Fun and frolic was not behind as the students from the age of 3 to 18 have got involved in various activities like the watching movies, painting, storytelling, singing etc.

I strongly believe that the parents' active participation will surely build up the confidence and morale of both the staff and students. So the HOIs have conducted PTA meetings which have been attended by all the parents. These parents have given some valuable suggestions and the same have been implemented too. When one talks about the sports and its facilities for the students our PDSA is always in the forefront. We have conducted the special training for our students on our own state of art turf (PDSA ground) for training in Basket Ball, Kabbadi, Football and Basket Ball by

famous coaches of National and International fame.

Social awareness programmes like the beach cleaning activity, celebrations of the Indian festivals, celebrating the birthday of our National leaders like Dr APJ Abdul Kalam with an emphasis on good reading habits have been very encouraging and successful.

In other activities, we have ensured that all the students of the DSWH (Girls Hostel) have gone through the thorough health checkup undertaken by 'Ayaksha' (who are providing the health checkup for all the students of our schools) by employing general physician, ENT specialist, ophthalmologist and dentist. Goyal (GOLD) online academy of RSET already has thousands of online students on its rolls. It has further chalked out ambitious plan to make the venture more interesting and popular by adding long list of value based activities that will enhance the strength of the course contents for the BCom students.

On the administrative front, all our agencies like the House Keeping, BMS and security services, canteen are actively supporting and carrying out their roles to the immense satisfaction of management. The strong team of the 46 smart House Keepers is ensuring that the entire RSET campus is maintained spic and span. The BMS has made small teams of the skilled personnel to resolve the day to day issues on urgent nature. They have also made a meticulous plan to ensure that all the AMC agencies dealing with ACs, Lifts, Water Purifiers, Transformers, Firefighting system, fire extinguishers etc. are giving the proper service and all defects are rectified at the earliest. The buildings that needed to be painted were done in holidays so that the smooth functioning of the schools and colleges are not affected. The repairs of the Campus gates were also carried out so that the security agency can ensure the proper gate opening/closing policy properly. Both the agencies viz House Keeping and BMS are regularly taking out the pictures of all the day to day action and has been circulated to all the concerned for their knowledge and understanding. The security agency has strictly ensured that the staff/students and visitors are entering the campus with valid identification. This has considerably improved the discipline amongst the large number of students who otherwise took the system for granted.

Two of our very special achievements which RSET is very proud of are:

Firstly, our TYBCBI student Sayali Jadhav represented the Indian Kabbadi Team which won the Asian Kabaddi Championship 2017 at Tehran. She, along with Captian Ujwala Mhatre was the only other player from Maharashtra selected to represent India. The Indian team defeated South Korea in the finals of the Asian Championship. Sayali has a long track record of several victories at the University, District and State level and we are proud that she is the Student of GSSC. Needless to say that, she has been suitably rewarded at RSET.

Secondly, our Student, Cadet Manali Bhandari is the only cadet from 8 Maharashtra Girls' BN to be selected for the prestigious Republic Day Camp (RDC) at New Delhi. It is a matter of great pride that she is a student of GSSC.

To sum up, the last quarter of 2017 ended up with most fulfilling and satisfying note for RSET, justifying the proverb "All that begins well ends well"

MESSAGE FROM DIRECTOR OF SCHOOLS

It is yet another new year and a fresh opportunity to commit ourselves to the ideals of an education that will enable our children to become sensitive human beings who learn to be appreciative and tolerant of different perspectives, cultures and ways of life. With tolerance for differences at its lowest ebb across the world we need to instill a balanced approach in our children and make them aware of the need to celebrate diversity.

There is no part of the world that is not suffering from this malaise. In the western world the home of democracy, the United Kingdom, has decided to break away from the world's largest experiment in unity, the European Union, and has turned inwards with serious consequences for the multicultural presence in that country. The richest country in the world, the United States of America, has opted to ban nationals from seven countries from entering it and is pushing for a wall along the border with its neighbor to prevent its citizens from crossing over. The Burmese tragedy, where Rohingyas were systematically brutalized and chased out of the country has left a permanent scar and ruined the lives of hundreds of thousands highlighting intolerance.

In the light of this it is valuable to review the ideals of international mindedness promoted by the International Baccalaureate Organization and an organization that grew along with the IBO - the United World Colleges. Mission and vision statements are at two levels; at one level these statements are formulated by the founding fathers of institutions and are set down in documents. At the other level these statements are practiced and become a way of life for all who are part of these institutions. Having worked with and observed these two pioneering educational institutions over the past 20 years, I can say that at the base of their philosophies is a desire to see the creation of young individuals with a broad, sensitive and tolerant perspective to life who will work towards the making of a more peaceful and equitable world.

However, what international mindedness looks like and its practice in different kinds of educational contexts ranging from rural to urban to metropolitan on the one hand and affiliated to different boards (SSC, ICSE, CIE, CBSE, IB) on the other, is quite a challenge. What will international mindedness mean to a school which is gearing up for good board results from as early as Grade 6? Does a global outlook even have scope of being explored in classrooms with 60 students

Nitin Padte, Director of Schools, RSET

managed by a single teacher? So is a broad, tolerant, culturally sensitive outlook a privilege of the rich schools (IB, CIE)?

The IB understands International Mindedness in terms of its Learner Profile Attributes. Among other attributes it wants its students to be Thinkers, Reflective, Balanced, Principled, Caring and Open-minded. If some of these attributes are adopted in the daily functioning of a school, we could be making a small transition towards a more tolerant society. But what does it mean to adopt these attributes in your daily learning?

The schools of Rajasthan Sammelan Education Trust do this in a variety of ways. As a matter of philosophy the Sammelan does not encourage any caste, race, religion or gender based discrimination and hence it can be seen that in its student community as well as among its staff there is quite a broad and varied distribution. The schools encourage the celebration of cultures from across the world that includes food festivals, language days and performances. Students from all the schools are involved in community service initiatives such as Daan Utsav, beach cleanup and others that show a caring attitude towards the environment as well as towards the marginalized sections of the community.

In the given context, however, the question that remains to be answered is whether these steps are adequate. In the New Year the schools of RS will rededicate themselves to work towards the creating of a better world.

Education is the foundation upon which we build our future.

India is once again at the forefront of international scenario for the events that are poles apart from each other. On 18th November, 2017 Ms. Manushi Chhillar won the coveted crown of 'Miss World' 17 years after Ms. Priyanka Chopra brought home the prestigious title in the year 2000. The world bowed down to mesmerizing blend of beauty, charm and compassion of Ms. Manushi Chhillar as she bagged the coveted title of Miss World 2017. Renowned personalities across India and all over the globe wished her on the social media account including Hon'ble Prime Minister Shri Narendra Modiji.

Close to the heels of this proud moment comes re-election of Justice Dalbeer Bhandari to the fifth and the last seat of the International Court of Justice after the U.K. withdrew its nominee in the face of overwhelming support in the U.N. Assembly for the Indian judge. Britain's withdrawal from the election to the prestigious world court meant that there will be no British Judge on the U.N.'s most powerful court for the first time in its history. It was indeed a great diplomatic victory of India that can be described aptly by a line of the poem 'The Passing of Arthur' by British poet of 19th century, Alfred Tennyson 'Old order changeth, yielding place to new'

At the economic front, backing the reforms carried out by the present government, the international credit rating giant Moody's has upgraded India's credit rating to Baa2 from Baa3 after a gap of around 13 years. The agency claimed the initiatives including demonetization and Goods and Services Tax (GST) taken up by the Government would strengthen India's credit powers, boost growth prospects and global competitiveness.

At the political front US President Donald Trump's daughter and White House Advisor Ms. Ivanka Trump led the US delegation to the Global Entrepreneurship Summit held at Hyderabad and also participated in panel discussion along with other panelists- Mrs. Cherie Blair, a legal professional & wife of former U.K. P.M. Tony Blair, ICICI Bank CEO Ms. Chanda Kochhar and DELL EMC Ms. Karen Quintos. During this time, in early December, Mr. Sadiq Khan, Mayor of London visited 3 Indian cities of Mumbai, Delhi and Amritsar to promote new business links between India and London as well as visas and other opportunities to work together more closely with India.

Back home at RSET Campus, past few months witnessed many prestigious awards and accolades conferred on our institutions, Directors and Deans for attaining excellence in the field of education. Mainadevi Bajaj International School received the Best International School award at the Times Education Icon Award. The award was given to Shri Rajkamal R. Bajaj, Trustee, RSET and Shri Ashok M. Saraf, President RSET by Dr. Indu Shahani, Dean, ISME and former Sheriff of Mumbai. Many faculty members presented research papers at the conferences and their papers have been published in reputed journals.

However, our institutions did not lag behind in the area of various games and sports. Annual Sports Day of all institutions were celebrated in a grand manner with various track events as well as other games with celebrity sports personalities gracing the occasion as the Chief Guest. Ms Srushti Rey from Durgadevi Saraf Junior College participated in Lawn Tennis Tournament as Maharashtra Team Captain held at Delhi and organized by Sports Ministry and won Gold Medal. It was indeed a proud moment for all of us at RSET when Ms Sayali Jadhav from Ghanshyamdas Saraf College represented the Indian Kabaddi Team at the Asian Games that won the final match against Korea held at Tehran. Many students of Kudilal Govindram Seksaria Sarvodaya School, Kudilal Govindram Seksaria English School, Ramniwas Bajaj English High School & Mainadevi Bajaj International School made us proud by winning gold medals at State & National level sports competitions.

We are marching onwards to become an academic centre committed to excellence and learning, dedicated to create a community of well educated, globally exposed citizens. In our campus, education is fun, teachers are friendly and at the same time they maintain discipline with the learners. We give enough opportunity to students to enjoy by participating in extra-curricular activities as well as take part in sports for their physical well-being. It is our long and continuous journey to attain excellence in the educational endeavours.

During hands-on chemistry activities, students directly and safely investigate chemical properties and reactions by utilizing laboratory apparatus and instruments. These activities are essential for learning chemistry and improving science literacy. Therefore, Suwadevi Doongermal Patodia Chemistry Lab of Mainadevi Bajaj International School has become an integral part of teaching-learning of the school. It allows students to explore chemical concepts, view changes in matter and acquire scientific skills in an atmosphere similar to a professional scientific environment.

I am pleased to note that Suwadevi Doongermal Patodia Chemistry Lab has been fully utilised by the students of MBIS for their Chemistry practical. The students are duly supported by the Lab Assistant who keeps the lab ready well in advance with equipments and chemicals. I am very happy to note that RS CA Study Centre & ICAI Extension Counter started three years ago in RSET campus is running very successfully & is providing a peaceful atmosphere to students to study for a long time. In the past few months, some of the Directors, Deans & Faculty members have been honoured by prominent organizations for their distinguished services in their respective areas of education. Many faculty members have also attended prestigious conferences & seminars & have also presented their papers. It is indeed praiseworthy that the Management members of Rajasthan Sammelan Education Trust have also supported many students by Freshships & scholarships to complete their education. The Trust is also in the process of starting a Boys' Hostel very soon.

I convey my compliments to the Management for all the good work done in the area of education.

Justice Shri S. M. Jhunjunwala

• **You have been associated with Rajasthani Sammelan Education Trust for a long time. How do you see the journey of transformation at RSET?**

On passing High School Examination in the year 1951 from then University of Rajputana (now University of Rajasthan), I came to Mumbai (then known as 'Bombay') and got admitted to 'R.A. Podar College of Commerce & Economics' at Matunga for further studies in the Faculty of Commerce and graduated in the year 1955 from Bombay University (now known 'Mumbai University'). Thereafter, I continued my studies in the Faculty of Law and joined Government Law College at Mumbai for graduation in Law and passed LL.B. Examination in the year 1957.

During this period, being desirous to get involved in educational activities rendered for benefit of the Society, I came in contact with then stalwarts of Rajasthani Sammelan Education Trust viz. late Shri Ghanshyamdasji Jalan, late Shri Hariramji Saraf, late Shri Vishwanathji Poddar and others, who were then associated with the educational project of Rajasthani Sammelan Education Trust viz. 'Sarvodaya Balika Vidyalaya' now known as

Kudilal Govindram Seksaria Sarvodaya School at Malad (West). The school was started with the aim of providing education only to girl students. However, with passage of time, the reins of Rajasthani Sammelan Education Trust having been taken over by younger generation lead by enthusiastic and visionary Shri Ashok M. Saraf, there has been phenomenal change in the educational activities of the Trust. The entire attitude, outlook as well as arena of activities have changed towards betterment in providing education in different sphere and fields with all advanced technology in forthright manner with farsightedness.

• **You have interacted with many stalwarts in Rajasthani Sammelan Education Trust in the past and also in the present, do you find any change in their vision and mission in the area of educational endeavours?**

I was associated with Rajasthani Sammelan Education Trust since the earlier times as well as till today. The earlier stalwarts like Shri Ghanshyamdasji Jalan, Shri Hariramji Saraf, Shri Vishwanathji Podar, Shri Lalchandji Dalmia and others were also visionaries as per the social environment of the time. It was a time when our country attained Independence and was in the process of establishing its identity in the political & socio-economic

Scenario of the World. At that time, the leaders of Rajasthani Sammelan Education Trust thought of empowering girl child by educating them and started Sarvodaya Balika Vidyalaya. Great Philanthropist Shri Kudilalji Seksaria donated land for the school building and with great efforts the school was started as a primary school which in due course became a secondary school. In the coming years, Durgadevi Saraf Junior College followed by Ghanshyamdas Saraf Girls' College were started to provide facilities of education to women students up to graduation.

Since the past one decade and more, under the dynamic leadership of Shri Ashok M. Saraf and his team, Rajasthani Sammelan Education Trust witnessed unprecedented growth and expansion. As per the needs of the time both degree and junior colleges became co-educational. The campus underwent massive expansion and renovation in terms of infrastructural facilities along with starting new institutes of Management as well as Media Studies, an ICSE school, an International school and other facilities such as a Counseling Centre, a Women's Hostel etc. Hence, the journey of educational endeavours started by the founding fathers has been successfully continued by the present generation of leaders. Hence I salute the founding fathers who realized the need for empowering girls by providing facilities of education. I admire the present team that has progressive vision & are continuously involved in providing all possible facilities of education to the young generation.

• **What role do you see for young philanthropists in the area of Education?**

Education is a great leveller and the scope of education has gone beyond imagination. In this vast field, young philanthropists have greater and better role to play. With their help and assistance, more and better services can be rendered for better and befitting upliftment of all needy and deserving in the Society who can take over the reins to lead the Country towards further advancement and prosperity.

• **You are a very accomplished personality. What life lessons would you like to share with our students?**

Today's students are future of our Country. They have to be sincere, honest, hard-working, illustrious, polite in tongue but bold in action, respectful to fellow-beings, teachers, elders, parents and should dedicate and devote themselves to an Utopia to take the flag of our Country still higher and higher. We have sailed ourselves but they are the future sailors. In this direction, RSET is taking steps in forthright manner with farsightedness. In this regard, special mention is to be made to the leadership of Shri Ashok M. Saraf along with his devoted and dedicated team members as well as teachers and staff of all the institutions managed by RSET.

The Annual Day for RBHS was scheduled on Wednesday, 24 January 2018. It was portrayed as a dance drama interwoven with musical performances; the theme, being 'Technology and Relationships' and it was aptly titled, 'Tech Talk'.

The plot revolved around the relationships of various people in a family who meet after 2 years. Initially a generation gap is evident between them. Eventually they bond over their knowledge or lack of knowledge about the latest trends and technological advancements. Through the interactions of different characters various humorous situations were created portraying the pros and cons of technology in a subtle manner. Eventually the grandparents make the grandchildren see the importance of having real meaningful interpersonal relations while the grandchildren manage to emphasize the advantages of using technology to maintain real relations with their grandparents.

The central message was: Technology is a tool to be used to our advantage, as a medium of communication, to strengthen

interpersonal relations and to bring the world closer. The Annual Day saw 100% participation planned with about 13 scenes and 19 dances interwoven with musical performances as well. The school was abuzz with activities and the enthusiastic participation of the students, teachers, non-teaching staff as well as the support staff went a long way in contributing to the success of the show. GIVING WINGS TO YOUR DREAMS

Mainadevi Bajaj International School:
A Scintillating Show!

What do you do when you're exposed to the most wonderful, eclectic performances on the stage? You clap vigorously, your cheer enthusiastically and you laugh uproariously. Yes, you do all that but you also bless the performers, in this case, the students of MBIS, who lit up the stage with their performances and proved yet

Chief Guest Smt. Kavita Agarwal presenting trophy for IGCSE Topper to Ms. Nupur Agarwal

again that sheer hard work, quest for perfection, and guidance from experts can make the Annual Day the most happening event this side of the earth!

The world has truly evolved ...we have come a long way from cave age, hunting animals, epidemics, starvation and this evolution has resonated in every field: Technology, Entertainment, Women Empowerment and Patriotism. With the theme of 'Evolution'

blazing in their hearts, students expressed themselves through dramatic presentations, speaking eloquently and passionately, rousing the audience to deep thought while entertaining them too through themes and dance moves.

As the sun bid adieu to 25th January, the stage came alive with neon lights and scintillating performances. We all know that communication has come a long way from pigeons carrying messages to transparent screens relaying information and it's still evolving. This message was passed on through MBIS Radio station where its Radio Jockey indulged in some interesting conversations with the guests followed by dances performed by students. If technology has evolved so has entertainment and our young toddlers from Grade 1 and 2 came up with brilliant take on some very famous dialogues from movies. While a young learner got into the role of Amitabh Bachchan, another replicated Hema Malini's dialogues from Sholay. For a moment

Students of Early Years performing a comic act on Bollywood superstars

we thought they were the actual actors! Such was the impact! Hardly had the 'young actors in the making' finished their act, than more students came on stage with beautiful props and sang and danced to some catchy tunes. The atmosphere truly reverberated with constant applause from the audience.

Not to be left behind were students from Middle and High school who became the messengers of Women Empowerment and evoked strong pathos from the audience. They empowered the audience through a thought provoking skit which raised issue of gender discrimination and sent a strong message of gender equality. The performances were powerful and from the heart. As the night air rent with sounds of Cheer! Bravo! We silently acknowledged our student artists. As the evening progressed, the audience was taken through another aspect of evolution. Patriotism. We all have different ways of showing patriotism. It too has evolved from fighting first war of Independence to pledging to keep our country clean. The students rendered verse in acknowledgement of our motherland and raised the tricolour. They created a ballad with each one of them becoming the character that they played. A human chain wove the flag through the audience and brought it back to the stage amidst loud cheer and joy. Each member of MBIS family remembered the days of preparation, discussion and planning that went in putting up the great show. All this was candidly video recorded and many of the students and faculty were caught unawares when they saw

Shri Kailash Kejriwal, Hon. Secretary RSET, felicitating Guest of Honour Smt. Seema Bajaj with memento

themselves on the screen in different phases of Annual Day in the making. They say, all good things must come to an end and so the moment of Grand Finale arrived when students, teachers and the Principal all assembled on stage and many of us joined in the revelry saying goodbye to the parents. The PDSA grounds of RSET witnessed a true amalgamation of talent, passion and dedication. Thank you, students for believing in us just as we believe in you. Au revoir!

UNLEASH YOUR POTENTIAL

Ramniwas Bajaj English High School (Pre-Primary Annual Sports Meet)

The Preprimary Annual Sports Meet was held on Thursday, 30th November 2017 at the Pravinchandra D. Shah Sports Academy Ground of the RSET Campus. The theme was CIRCUS and all the races were designed in such a manner that the various characters of the Circus came alive on the sports field. To add to the ambience, the ground was transformed into a Circus tent with streamers of

The Preprimary Sports Day on PDSA Ground

colorful flags and also big colorful faces of clowns all around.

The Chief Guest, Ms. Swapnali Yadav, an international swimming champion, was welcomed by the school band and the babies of the pre-primary section. Despite being an event of the pre-primary section, all the rituals of a Sports Day were performed; right from a prayer, to the parade, to the torch bearers' run, oath taking ceremony and various displays were put up by the children which showcased several aerobic and gymnastics skills.

The preliminaries were indeed interesting since they were performed by little children. All the 3 to 6 year-olds of RBHS, of the Pre-primary Section, participated in the event.

The races were designed based on the circus. A story line was followed throughout wherein the races began with the children going to the circus, buying their tickets at the circus, finding their seats etc. As the event progressed, the races centered on the performers at the circus; be it the clowns or the animals or the trapeze artists or the animal trainers or even the ballerina dancers!

The children rode bicycles and tricycles and even pushed their one-legged scooters on the field while participating in the races. Besides, several tasks of varying competencies were laid out on the tracks for the children to accomplish in order to win the races. The aim of this

event was to achieve physical development coupled with honing fine motor skills and also to inculcate a sense of healthy competition in the young children.

Ramniwas Bajaj English High School (Primary and Secondary) Annual Sports Meet RBHS yet again worked to make a difference. The Sports Meet was held on Monday, 20th November, 2017 at Goregaon Sports Club [GSC]. Balloons cause unintentional littering in the ocean. Moreover, birds, turtles and other animals commonly mistake balloons for food, which can harm or even kill them. To evade a threat to the environment, the school did not release balloons and flex this year. Instead, the school unveiled the theme board to mark the opening of the Annual Sports Meet. The theme was Welcome to the City of ABCD-Affection, Bollywood, Courage and Dynamism.

The displays and fun races revolved around this theme to depict that the city of Mumbai never sleeps due to the sporting, affectionate and dynamic nature of its citizens. There was also an array of displays-Music, Yoga, and Mass Drill, Martial Arts, Pyramid formation and a sporting Dance performance along with Athletic Track Events. The Band Display, March Past and the Torch Bearers' Run were the highlights of the day. It was a proud moment to watch all the Sports Achievers from June –November 2017 participating in the Torch Run Ceremony. The parents' race garnered great response and enthusiasm.

It was also our proud privilege to have Ms Vandita Raval, the World Champion in Artistic Gymnastics as the Chief Guest for our Annual Sports Meet.

The Principal, Ms Padmaja Kutty inspired the students to develop courage and a winning attitude with her motivational words. RBHS is delighted to have 100% participation of students in the Annual Sports Meet and the event was appreciated by parents and guests alike for its creativity, seamless co-ordination and team spirit.

The spirit of sportsmanship was maintained throughout the event and the team stood true to the fact that 'Courage to give flight to your dreams and the ability to believe in yourself makes life worth living'. The event was well appreciated by all for its creativity, seamless co-ordination and team spirit.

Mr. Gandhi briefly explained the true meaning and skills required to gain success in any business.

The event proceeded with Mr. Varun, Founder of IB Hubs, and a major sponsor of the event addressing the students. He displayed a video which featured existing start-ups. The video demonstrated the process of identification of needs from a problem and addressing it with creative ideas and converting them to profit making ventures. Later, Mr. Punarjeet Singh, the spokesperson from IIT- Kharagpur briefed about the entrepreneurship cell of his institute. He explained various programs and competitions organised by his cell across India throughout the year. The initiatives such as Global Entrepreneurship Summit (GES), Emprassario, EAD, etc provide a platform to start-ups at different stages for mentoring and funding. The final and most awaited speaker for the day was none other than the man behind the wonder car, Mr. Dilip Chhabria, Founder of DC designs. He shared his success story from working at General

Motors to establishing his brand DC designs. It was his passion for cars and design, which drove him to build an entrepreneurial business model in a country where words like design, aesthetics and styling have been trail blazed by him. Just as, Entrepreneur is a path less followed, he too chose to pursue a course in Transport Design which was not so popular then. It is said that, "Actions speak louder than words". Similarly, Mr. Chhabria too preferred to present his exceptional portfolio of cars instead of merely talking about it. The students were awestruck by watching his marvellous designs and couldn't refrain themselves from inquiring about it. The legend graciously answered all the questions of inquisitive students and pointed out that determination and faith are inevitable elements

THE HAPPINESS MANTRA

Dr. Upendra Kaushik, Chairman,
Bhavan's V.M. Public School, Vadodara (Gujarat)

Dr. Narayan Iyer-CEO,
IDF (Indian Development Foundation)

The ultimate source of a happy life is the attention we pay to our inner life." Personality of an individual plays a great role in his happiness at work. Happiness is a state of mind which comes with a positive attitude. There's a difference between a smile and being happy. Smile can be superficial but happiness comes from within and it is necessary that the person is convinced about certain thing. It is also based on the karmas of a person. Those who do good karmas are happy, those who do bad karmas, are always worried. In the words of Henry Van Dyke, "Happiness is inward, and not outward; and so, it does not depend on what we have, but on what we are." Nobody can force you to be happy; it is a feeling which comes from within and this feeling comes when you are satisfied. This satisfaction comes when the child has a feeling of achievement, for which a freedom has to be given. Kitaro Nishida rightly said, "If my heart can become pure and simple, like that of a child, I think there probably can be no greater happiness than this." Teachers and parents need to identify his/her interests and then make sure that he/she is engaged in activities which are to his/her likings and interests. Let the child become what the child wants and not what the parent wants. If we want to be happy, we have to get back to our original self. As per Epicurus, "do not spoil what you have by desiring what you have not; remember that what you now have was once among the things you only hoped for."

As Henry Thoreau, the American poet, author and writer said, "The tragedy of life is that most men lead lives of desperation and go to the grave with the song still in them". If someone goes through adverse situations in life, he should come out of it and seek

happiness in other things because that's not the end of life. The positive attitude is the core factor for happiness. Forgiveness is another value which helps to be happy. Happiness has a multiplying effect, when one person is happy, he spreads happiness. One cannot be happy in isolation; happiness should be shared. Happiness is not perfected until it is shared. Sharing and caring brings more happiness. When we are flooded with gratitude for the excellence of the experience and in retrospect we are happy. David Steindl-Rast said, "Greatfulness is the key to a happy life that we hold in our hands, because if we are not grateful, then no matter how much we have we will not be happy – because we will always want to have something else or something more."

The biggest mistake we humans make in our relations is that we listen half, we understand quarter, we think zero and we react double. Try to become not a man of success but become a man of value. As Calvin Coolidge, the Ex. American President said: "No

person was ever honoured for what he received; honour has been the reward for what he gave”.

Dr. S. Radhakrishnan used to recite this poem during his Gita lectures : "There is a land of the living and there is the land of the dead, the bridge is love, the only survival, the only meaning. There is only one happiness in life, "to love and beloved".

But, happiness means different things to different people. There is no yardstick for happiness. One person is happy caring for pets, while other may be happy in gardening, while another one would be happy talking to elders, So, it differs from individual to individual.

Psychological well being of people is a prime factor among various parameters used for measuring the Happiness Index. The relationship between the teacher and students in the classroom matters a lot. Teacher's positive attitude can change the whole class environment. Teacher can start small activities in the class. He/she should not be biased, should not impose his/her views or the schools'. There should be more interaction in the classroom. Students should be given the opportunity to express their views and opinions. There should not be an environment of fear or terror. A teacher should command respect in the class. He/she should play the role of a guide and philosopher. The school should have counsellors to understand the problems of the students in general and specific. Teacher should observe all his/her students and if he/she finds abnormal behaviour of any child, should tackle it first at his/her level and in case it cannot be sorted out, refer to a counsellor. Happiness does not depend only on the child; it depends on the environment which is created by the school, parents and fellow students. All should contribute positively to more and more happiness through sharing and caring. Curriculum and other steps taken to empower the young children with a sense of psychological wellbeing to a large extent depends upon the geographical area in which child is living and the family background child is having. It is the attitude that matters. Values also play a major role, which do change with time and circumstances but they are important for happiness.

Do not put a child in restrictions; he/she will get irritated. Follow the timeline and the discipline, become a living example in front of him/ her, child will automatically follow. When the parents are involved in the time management, they should involve the children at that time. Adjustability, adaptability, co-ordination, cohesiveness and co-operation help a lot.

Happiness Index

The Global Happiness Index (GHI) 2017 released by the World Happiness Report, accorded India a rank of 122 out of 155 countries. The measurement is based on indicators such as the GDP per capita, healthy life expectancy, social support, freedom to

make life choices, generosity and perceptions of corruption.

India was behind the majority of South Asian Association for Regional Cooperation (SAARC) nations, apart from war-ravaged Afghanistan, that stood at 141. Among the eight SAARC nations, Pakistan was at 80th position, Nepal stood at 99, Bhutan at 97, Bangladesh at 110 while Sri Lanka was at 120. However, Maldives did not figure in the World Happiness Report.

India's low rank is attributed to poor performance in social capital, freedom to make life choices, generosity and perception of growing corruption. The civil society and government should be more proactive in initiating people-centric programmes. Cultural diversity and resilience is a positive index of a happy community and India has strong cultural diversity and history of meaningful positive co-habitation. These ideas may be promoted by the head of the school in the school environment through various co-curricular activities. For example : respect for elders, respect for opposite sex, respect for different cultures, respect for the ideas and values of others, love for younger, mannerisms and etiquettes, knowing the history better in a simplified manner through music, dance, debates, declamation, essay-writing, quizzes, value based lectures through activities, etc. Begin everyday with an expression of gratitude. Look at the mirror and thank GOD for life and for everything that has come your way. Instead of nursing a grievance for denial of your desires, extend thanks for what you already possess. An extension of the above attitude is to express how happy you are, to help someone. To achieve a balanced success, our planning must include work, personal life and family. Happiness is an integrated affair.

Role of schools to improve happiness index of students:

- Value-based teaching.
- Cordial environment in school.

- Concern for each other.
- Organising co-curricular activities as per age group as well as local conditions.
- Observing behaviour of schools.
- Making classroom teaching activity based and playful.
- Better co-ordination between school and parents.
- Maintaining the profile of each student.
- Taking them out for visits outside to see the real world.

Activities should not be imposed on the students. Activities should be started at an early age of the child, keeping in mind his/her interest and hobbies. The child should be a good learner and teacher should be a guru. For more happiness, there should be more interaction between the teachers and the students in a free

manner and children should be allowed to express their views and opinions. They should also be told what is right and what is wrong.

The school should tell the students the harmful effects of social media and what precautions they should take and highlight the significance of personal touch and interaction.

The National Curriculum Framework and the pedagogical strategies adopted by the schools should integrate the concept of happiness in a more focused manner with well defined inputs. It will guide the school administrators, principals, teachers and parents to decide the different kinds of activities which should be there at the school and at home to make children happier. It will help in maintaining the proper balance between the activities in which the child is involved at home and in the school.

In the words of Swami Vivekananda, let every child understand that all power is within you, you can do anything and everything.

Here are some of the Happiness Mantras

- Be positive
- Have clear thoughts
- Believe in purposeful life
- Be Humble
- Always express gratitude
- Have passion
- See the goodness in the world
- Help the needy
- Be a good learner
- Accept the truth

Happiness is after all a choice. Let's be happy and spread happiness.

SUCCESS IS WHERE PREPARATION AND OPPORTUNITY MEET

The preparation for the Annual Sports Meet started with the Heats being conducted on 10 November 2017 at GSC for a rehearsal of the various displays and athletic track events for students to qualify for the final day.

With great enthusiasm, energy and sportsmanship spirit, the Annual Sports Meet for 2017 – 18 was held on 20 November 2017 at Goregaon Sports Club [GSC] under the guidance of the Principal and the Sports Committee.

There was also an array of displays Music, Yoga, Mass Drill, Martial Arts, Pyramid formation and a sporting Dance performance along with Athletic Track Events.

The Band Display, March Past and the Torch Bearers' Run were the highlights of the day. It was a proud moment to see all the Sports Achievers from June – November 2017 participating in the Torch Run Ceremony. All the displays enhanced the spirit of team work and humility amongst the students.

The Chief Guest for the event was Ms. Vandita Rawal, a World Champion in Artistic Gymnastics. It was not an honour but also a privilege to have an International Sports Personality grace the Annual Sports Meet.

The occasion was also special as RBHS yet again worked to make a difference.

To avoid unintentional littering into the ocean and evade a threat to the environment, the school did not release balloons and flex this year. Moreover, birds, turtles and other animals commonly mistake balloons for food, which can harm or even kill them.

Instead, the school unveiled the theme board to mark the opening of the Annual Sports Meet. The theme was 'Welcome to the City of ABCD-Affection, Bollywood, Courage and Dynamism'. The displays and the fun races revolved around this theme.

Fun races were organized for the Primary section.

Parents actively participated in the Parent Races. The Teachers' race was also fun filled.

The Annual Sports Meet of the Pre Primary section was held on 30 November 2017 at PDSA.

The theme was CIRCUS and all the races were designed such that the various characters of the Circus came alive on the sports field. To add to the ambience, the ground was transformed into a Circus tent with streamers of colourful flags all around and big colourful faces of clowns all around.

The Chief Guest, Ms. Swapnali Yadav, an international swimming champion, was welcomed by the school band and the babies of the Pre-primary section. Despite being an event of the pre-primary section, all the rituals of a Sports Day were performed; right from a prayer, to the parade, to the torch bearers' run, oath taking ceremony and various displays were put up by the children which showcased several aerobic and gymnastic skills.

The preliminaries were indeed interesting since they were performed by little children. All the 3 to 6 year-olds of RBHS, of the Pre-primary Section, participated in the event.

The races were designed based on the circus. A story line was followed throughout wherein the races began with the children going to the circus, buying their tickets at the circus, finding their seats etc. As the event progressed, the races centred around the performers at the circus; be it the clowns or the animals or the trapeze artists or the animal trainers or even the ballerina dancers!

The children rode bicycles and tricycles and even pushed their one-legged scooters on the field while participating in the races. Besides, several tasks of varying competencies were laid out on the tracks for the children to accomplish in order to win the races. The aim of this event was to achieve physical development coupled with honing fine motor skills and also to inculcate a sense of healthy competition in the young children.

The event was well appreciated by all for its creativity, seamless coordination and team spirit.

On 11 November 2017 students of the Primary section participated in the MSSA Inter School Swimming Competition.

The **last quarter** of 2017 ended on a very fulfilling, albeit hectic note. The major exams being over in November, it was the season for all things 'Extra Curricular', such as Sports Day and Talent Hunt. However, associations like the Placement Cell kept up the good work to procure job-opportunities for our students. Our faculty too made strides in Research projects, authored text-books and participated in Conferences.

We received an overwhelming response from our students. Some of the BMM students wrote poems and essays on Dr. A.P.J. Abdul Kalam. One of the students prepared a Bibliography on Dr. A. P. J. Abdul Kalam's Books while another student make his amazing sketch with great enthusiasm.

Few students suggested that DGMC should have collection books of all books written by Dr. A. P. J. Abdul Kalam in our library. To add to it, another student came up with an interesting suggestion to incorporate at least one activity every month in the library to discuss about the contribution and works of all Indian legends.

Cine Voyage (4th&13th and 16th December '17):

The students of B. A. in Film, Television and New Media Production under the guidance of their faculty have taken the initiative to organize Cine Voyage, a festival that integrates and helps the young lovers of cinema to get the chance to interact and learn from the most

reputed veterans in the field of film making. With participation from various media colleges from across the city of Mumbai, Cine Voyage has successfully been a hub where all media enthusiasts can explore and enhance their knowledge into the various processes involved in making a good film.

The second edition of Cine voyage commenced on 4th December with noted writers and lyricists Siddharth Singh and Garima Wahal inaugurating the festival. The duo is lyricists for movies like Bajirao Mastani and scriptwriters and dialogue writers of Ram-Leela. They have also written Raabta, Toilet – Ek Prem Katha and Brothers. They conducted a 'Writing Workshop' where in students were exposed to the fundamentals of script writing and shared their journey of creating believable characters with dramatic value and the art of writing songs.

Followed by this insightful session, there was a panel discussion scheduled in the evening at RSET's Durgadevi Saraf Hall at 7 pm. The panel consisted of Mr. Sudhanshu Saria, director of the critically acclaimed film Loev, Rakhee Sandiliya, director of the movie Ribbon starring Kalki Koechlin and Sumeet Vyas, Milind Dhaimade, director of the recently released film Tu Hai Mera Sunday. The moderator for the discussion was Mr. Sudish Kamath, an independent film critic & filmmaker and the topic for the panel discussion was 'Independent Films – The New Aesthetic Emerging with Changing Mode of Production, Distribution and Exhibition'. The panelists expressed their opinions on topics ranging from the process of writing a feature-length script, the challenges and limitations under which one has to work, to the network of distribution & exhibition in contemporary times and the process of working with actors/stars. Subsequently, the panel members engaged in an interactive session with the students clarifying their doubts and inspiring them to write scripts keeping all other 'practical' concerns at bay.

The second day of the festival was scheduled on 13th December 2017 where in we screened 'A Billion Color Story' that has bagged many international awards and the filmmaker Mr. Padmakumar Narasimha Murthy graced the occasion with his presence. This is the story of a family of filmmakers who sell their house in order to finance their film project. It follows the struggle of Hindu wife and Mother Parvati, 11 year old, but wise beyond his years Hari Aziz, and optimistic Muslim Father Imran, who holds a blind faith in the people of India to put their prejudice and hatred aside. The family experience today's India, highlighting modern religious divides, intolerance and prejudice as they fight to make their film. Post screening, Prof. Dinesh Khemani interviewed the filmmaker on the themes and concerns the film expresses, the role of cinema in

contemporary society, the formal elements that the filmmaker employed and his process of working with actors. The forum was then opened to the students who expressed their admiration for the film and questioned him on a few cinematic devices he used in the film.

The third day of Cinevoyage was scheduled on 16th December at Madhuprasad Saraf Seminar Hall in DGMC Campus, wherein we invited the renowned actor Mr. Pavan Malhotra for an interactive session with our students. The hall was packed with students as they were keenly listening to the veteran's extensive journey of starting out as a Production Assistant on Saed Akhtar Mirza's 'Mohan Joshi Hazir ho' to him metamorphosing into a strong character-actor. The long career of Mr. Malhotra had its own challenges and high points, which he openly shared with the students. He also touched upon the various roles he has donned in films like Black Friday, Bagh Bahadur (which won a National award), Punjab 84, Bhindi Bazaar to Bhaag Milkha Bhaag and the different approach he had towards all these characters. The session concluded with Mr. Malhotra sharing some valuable insight into the definition of success, which he said has to be defined personally and one motto by which he lives is 'Maan lena mein hi zindagi hain' (Acceptance is what life is about).

Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthan Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthan Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthan Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthan Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthan Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthan Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthan.org.in.
