# President's Message

Dear Reader,

Education sustains growth and is fore bearer of civilisation's progress. Striving to enhance the knowledge capital through quality education, as such, is a service to the developmental demands in all ages and time. It, therefore, gives me immense satisfaction as President of Rajasthan Sammelan Education Trust for the valuable contributions our Trust has been making and continues to make towards the cause of education.

We at Rajasthan Sammelan Education Trust, have never believed in resting on its past laurels. Every academic calendar of our institutions has been dotted with new and special events that add one more proverbial brick to the building of an even greater colossus. We started our educational endeavour in 1959 with just one institution and at present we have fourteen institutions with more than 16,000 students studying in our educational campus from Play Group to Post Graduation, Media and Management Studies. We are also providing hostel facility to boys and girls coming from other cities and countries for higher and professional education. We have a counseling centre that is providing students not only career counseling but also counseling for the mental well-being of the students as well as parents.

National Education Policy (NEP) 2020 has thrown great challenges on educational trusts as well as institutions. It has proposed various reforms to revitalize the education system in school and institutes of higher education. Through NEP 2020, government is looking forward to making India a 'Global Superpower' and it will be possible only by making the education system for schools and colleges more flexible, holistic and multidisciplinary. Currently, children in the age group of 3 to 6 are not covered in the 10+2 structure as standard 1 begins at the age of 6. In the new structure a strong base of Early Childhood Care & Education (ECCE) is also included from age 3 which is aimed at promoting better over all learning development and well-being of children so that they become ready for school as they join standard 1. In higher education, some autonomous colleges are ready to move from the 3+2 structure to the 4+1 pattern to offer the honours programme to implement NEP. Hence as Management of an education trust, it becomes our responsibility to give support to our schools as well as institutions of higher education as the NEP is implemented in schools and colleges.

With the arrival of the month of April, curtain falls on yet another eventful academic year at RSET campus. All our institutions have once again succeeded in providing the students with a meticulously and carefully planned mix of academics and extra-curricular activities. Students of all our institutions have proved yet again that it's not just studies that they excel in but also in every single co-curricular and extra-curricular activity that the institution chose to organize.

In the recent past many important activities took place in our RSET campus. Annual Day of our institutions were celebrated in Pravinchandra D. Shah Sports Academy ground in the month of January. We invited important dignitaries as the Chief Guest and Guest of Honour. On this occasion, we had invited as Chief Guests noted actors Shri Manoj Joshi & Shri Sharman Joshi, Shri Sandeep Sangave, Deputy Director of Education, Mumbai Region, Smt. Geeta Jain, MLA, Mira Bhayander Constituency, Dr. Niranjan Banka, Gastroenterologist, Bombay Hospital, Shri Yogesh Agrawal, Managing Director, Ajanta Pharma, Shri Jai Kumar Gupta, CMD, Best Roadways Ltd., Dr. Sharad Kumar Saraf, CMD, Technocraft Industries (India) Ltd., Shri Vinod B. Saraf, Executive Chairman, Vinati Organics Ltd. and Smt Josephine Vas, Senior Advisor Education, Jamnabai Narsee School. All the dignitaries were extremely overwhelmed by the programmes presented by our students. All Donor family members also graced the Annual Day celebrations as the Guests of Honour. A grand Scholarship Award Ceremony was also organized on 15th January 2023

Ashok M. Saraf, President, RSET

in which, IRB, BKT & Jankidevi Bilasrai Bubna Scholarships and Freeships were awarded to the selected students from all the institutions of RSET. This was followed by a grand 'Kavi Sammelan' that received great applause from the audience.

During Annual Day Celebrations, 'Naming Ceremony' of some of the institutions and facilities were also performed with great fanfare. The naming ceremonies included naming of Nalini Shah Music Academy, Mainadevi Bajaj Physics Lab at Ramniwas Bajaj English High School, Ramniwas Bajaj Cafeteria at Mainadevi Bajaj International School, Growel Science Lab at Kudilal Govindram Seksaria Sarvodaya School and Nathmal Garodia Physics Lab at Mainadevi Bajaj International School. Durgadevi Saraf Institute of Management Studies and Durgadevi Saraf Global Business School jointly organized their Annual Sports Festival 'Versus' and 'Sabrang', the Annual Cultural Fest with great joy, fun and enthusiasm. All the institutes of higher education organized conferences, conclaves and guest lectures for the benefit of staff and students.

It is a matter of great pride that as member of EUMIND (Europe Meets India), five group of students of RBHS from grade 8 & 9 prepared the project with the theme 'Environment and Sustainability' by interacting with the students of Schoonhovens College Netherlands on Zoom & Whatsapp. Students of Mainadevi Bajaj International School (MBIS) also worked on the EUMIND Project by interacting with students of Baken Park Lyceum, Netherland. Students of both the schools have received 'certificate of excellence' for their projects from international jury. They were also felicitated by Ms Noa de Zeeuw, the Co-ordinator of EUMIND Junior at an assembly in MBIS.

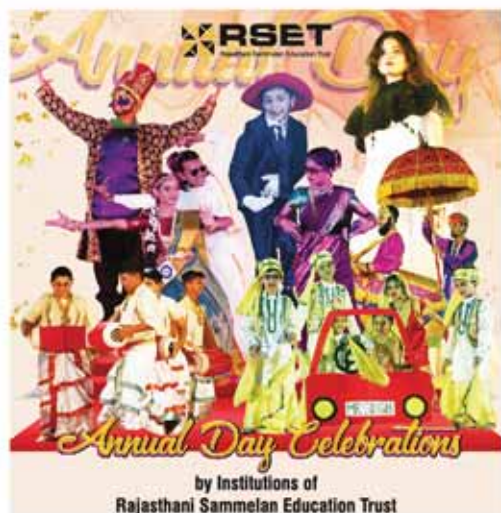

I am confident that all our institutions with their rich legacy will continue to shape the future of the young minds of our country and transform their potential into successful careers resulting in national developments.

Dear Reader,

The month of January arrived with many interesting events taking place in our country as well as in Mumbai. On Thursday 12th January, 2023 Mumbai joined the nationwide celebrations to mark the 160th birth anniversary of Swami Vivekanand. It was felt that the philosophy of Swamiji and the ideals for which he lived and worked could be a great source of inspiration for the Indian Youth. That is why, his birthday is observed as National Youth Day every year. Swamiji's most unique contribution to the creation of new India was to open the minds of Indians to their duty to the downtrodden masses. He also stressed upon inculcating moral values in youth.

Our country also celebrated 'Parakram Diwas' on 23rd January to mark the 126th birth anniversary of prominent Indian freedom fighter Netaji Subhash Chandra Bose. On this occasion, Prime Minister Narendra Modi virtually unveiled the model of a proposed memorial dedicated to Netaji to be set up in Andaman and Nicobar islands as here Netaji Subhash Chandra Bose unfurled the national flag for the first time in 1943.

We celebrated International Women's Day on 8th March 2023. Indeed Indian women have demonstrated their abilities every where – from science to literature, sports to space, judiciary to politics, Indian women have made history through their stellar achievements. Even at the beauty pageant of 'Femina Miss India' hosted by Manipur Tourism and held at Manipur for the first time in the month of April, the beautiful contestants won over jury with their keen intellect. Nandini Gupta of Rajasthan – a model and business management student was crowned 'Femina Miss India' World 2023. She will represent India at the Miss World contest in which our country has so far seen six crowning moments from Reita Faria in 1966 to Manushi Chhillar in 2017.

At the recently announced results of Civil Services Examinations 2023, women secured top four slots with Delhi University graduates Ishita Kishore from Greater Noida in U.P., Garima Lohia from Buxar, Bihar and Smriti Mishra from Noida bagging all India rank 1, 2 and 4 respectively. IIT alumna Uma Harathi N of Hyderabad took the third rank.

At RSET campus, our schools, colleges and Management Institutes have been buzzing with many academic, extra-curricular & sports activities. All the institutions celebrated Annual Day in a grand manner at Pravinchandra D. Shah Sports Academy ground which was converted to an open air auditorium. A LED backdrop was provided during Annual Day celebrations that helped to create a better impact to the

Dr. Sunanda Kar, Editor

performances presented by the participants of all the institutions. At the formal function of the Annual Day of each institution, student achievers in academics as well as in extra-curricular activities were awarded shields, trophies, prizes and cash prizes that made the students feel very special and proud. A grand 'Scholarship Award Ceremony' was also organized during Annual Day Celebrations in which merit scholarships and freeships were awarded to the selected students from all institutions of RSET. Republic Day was celebrated in RSET Campus with Shri Vikas Pavan Kumar, Trustee, RSET as the Chief Guest who hoisted the National Flag in the campus. This was followed by cultural items presented by students with patriotic theme in Durgadevi Saraf Hall.

On the occasion of International Women's Day, the Finance Club of Durgadevi Saraf Institute of Management Studies conducted financial workshop for all women employees of RSET on 8th March 2023. The theme of the workshop was "From IQ to FQ- Walk the path of Financial Freedom". The workshop was well received by the 14 participants who attended the Workshop. The workshop was designed and delivered by Dr. Shailja Badra under the guidance of Dr. Sarita Vichore, Director DSGS. On account of extended celebration of international women's day, a flash mob was also done by students of DSIMS, on importance of 'GIRL CHILD EDUCATION'. The message of the act was, if given the right opportunity, a girl can also achieve greater heights of success and accomplishments.

Institutes of higher education organized many seminars, conferences and conclaves. Research Cell of Ghanshyamdas Saraf College organized two days workshop on Research Methodology on 3rd and 4th February, 2023 at Nathmal Garodia Seminar Hall, DSIMS. IQAC and Research Cell of GSCC organized One Day Multidisciplinary National Conference on the theme 'Survival, Resurgence and Sustainability in Digitalization: A Global Perspective' in Durgadevi Saraf Auditorium on 15th February, 2023. Keynote address was delivered by Dr. Rajnish Kamat, Vice Chancellor, Dr. Homi Bhabha State University. Paper presentations were held in the post lunch session.

Durgadevi Saraf Institute of Management Studies and Durgadevi Saraf Global Business School jointly organized many conclaves- OpSession 2023, Financia 2023 & Marketing Bonanza 2023 along with many Guest Lectures and Workshops. Deviprasad Goenka Management College of Media Studies organized an International Conference on zoom with the theme "The Changing Dynamics of Human Security". The conference was organized in collaboration with Misr University for Science and Technology, Egypt as Academic Partners; Global Communication Research and Association (GCRA) and Women's Indian Chamber of Commerce and Industry (WICCI).

All institutions of RSET are marching onwards to become an academic centre committed to excellence and learning, dedicated to create a community of well educated, globally exposed citizens. All our institutions aim to discover and develop the potential within their students and thereby enable them to break boundaries and achieve excellence with confidence.

Students from the Preprimary section welcomed the dignitaries and parents through a welcome dance performance. The Little Angels wearing beautiful attire looked attractive and innocent while showcasing the advantages of eating healthy food.

The primary section with the same theme demonstrated through a performance, the impact of healthy and junk food on one's life. Performance by the students of secondary section through a play and dance was based on

the theme of Effects of Technology, through which they depicted that if technology is used in the right way it can improve one's life but on the other hand technology can also make one's life harder depending on how we use it. The city of Rajasthan is known for its courage and valour. This was shown through a very graceful and energetic Rajasthani dance by the secondary section students. The dance was

greatly cheered by the audience. The audience was awestruck with the talent and skill revealed in each performance. There were feet-tapping dances and side splitting skits. Ramniwas Bajaj English High School celebrated the uniqueness of the land; and in a way celebrated 75 years of the country's freedom.

The entrance to the venue was adorned with kites decorated with artwork by the students. The kites depicted the heights we have reached without letting go of our roots and probably that is what makes us unique.

The evening celebrated Adwitiya Bharat through the varied display of dance, music, ballet and drama of its culture. The programme was rich in its diversity with dances, traditional fashion displays, yoga ballet, jattras, nukkad natak, and dances and of course the television soaps. Through the programme 75 facts were revealed to the audience.

The chief guests for the evening were Dr Sharadji Saraf, the Chairman and Managing Director of Technocraft Indutreis India Ltd. The special guests were Shri Rajkamalji Bajaj, Trustee, and Shri Atmaramji Mishra, Divisional Fire Officer of Mumbai Fire Brigade.

The day was important as we inaugurated the Physics lab as Mainadevi Bajaj Physics lab at the hands of the Chief Guest and Shri Rajkamalji Bajaj.

The evening opened with the choir belting out devotional songs in varied languages yet creating a serene calm around. The preprimary children put on a bright display of the fabulous traditional attire that the country boasts of. It was a pleasure to watch the young kids walk and dance with confidence and a certain air of finesse as if the last two years of lockdown had not had an impact on them.

The folk dances focused on bringing to the audience music and movement that often is not known or lost in this fast paced life. How often have you seen Kumaoni dances, Lambadi a tribal dance of Andhra, Chaau of Jharkhand, Sama Chakeva festival dance of Bihar or Ghoomar dance or Karma Nach an autumn dance of MP and Chattisgarh? Often these are names not even heard and that is what we wanted to bring to the audience – the beauty of the unknown. The well-

known dances of Kathak, Kathakali, Garba, Koli, Bharatnayam and Bhangra were presented with a different flavor of neon lit up faces or stories of the land with the dances. The Paika dance which is a martial folk dance of Jharkhand was energetic and robust matching the music. The little kids dancing to the Kashmiri Rauf dance looked like small flowers blossoming in the valley. Even the Bihu dance was welcome to the eyes especially when danced to a popular tune. Saang is a folk dance with a theatre form and was showcased with a jugalbandi with kathak.

The Nukkad Natak was a satire on the dilemma and angst of students and parents battling the academic pressures. The well-known jatra (Santanchi Vari) seen in Maharashtra was displayed with children belting out abhangas and Marathi bhajans while displaying the acrobatic feats of the women.

The yoga ballet was gripping and chronicled the origin of yoga from Lord Shiva-the Yogesha- and how it is practised today by us mortals. The students displayed various yogic poses through

dance form and also their prowess at various asanas.

The one that tickled everyone's funny bone was a spoof on two tele shows aptly called Sarabhai ke Ulte Chasme ki Kitchdi. It was a satire on how the mother tongue is often given the step motherly treatment in the aim of mastering English. The play was commendable as it was entirely produced, directed and executed by the students. The students outdid themselves as they projected the characters to the T on stage.

The finale was what was awaited by parents as it was the last time we would see our grade 10

performing on stage.

The highpoint of the programme was the involvement and responsibility of the students in all the backstage work. The LED backdrop was amazing transporting the audience into the land of the dancers. The IT team of students had worked day and night with their teacher to put up an exquisite display. The art team was responsible for all the beautiful kites and props prepared for the dances. The backstage team was on their toes ensuring the transitions were smooth, commendably looking after the little kids so that they reached their class safely. What was also unique was the webpage prepared that

helped the parents navigate through all the information being uploaded and delivered at different intervals.

It is events like these that not only brings out the best in us, but also teaches us values of team spirit, camaraderie, understanding, sacrificing and appreciation. It forces us to go beyond our comfort zone and makes us introspect into our capabilities and strengths. It also builds a stronger bond between the stakeholders of the institution and makes the road wider for the rest of the journey.

The Annual Day of Mainadevi Bajaj International School was held on Thursday, 19 January 2023. The theme was 'Tale-a-thon', an amalgamation of stories. A platform to exhibit their hidden talents, every student got a chance to enhance their confidence by performing on the stage. Emerging with a great sweep of energy, the students of pre-primary and primary sections of MBIS brought Akbar and Birbal to life with a prodigious concoction of dance and drama to mark the

It was a spectacle of sheer joy to see a student of Senior KG and Grade 5 come together and narrate the skit. The choir group added spark to the song, 'I Want Something Just Like This' by modifying the lyrics according to the theme of the event. The dance performances by tiny tots of Nursery, Junior KG and Senior KG made the audience reminisce their care-free and fun-filled childhood days. The audience was on the edge of their seats to see the nail-biting dance performances by Grades 1-5. The cart-wheels, flips, front rolls and the dance moves gave a rise to the occasion. The visuals of it will definitely

remain with the audience. Mesmerizing performance of Gr 5 Thea Harsora on "Moana-How far I'll go" swept the audience off their feet.

The evening also pioneered the felicitation of achievements of the young learners. Feeling nostalgic about childhood stories - 'Vikram-Betaal, Chacha Chowdhury, Tinkle comics, et al? Well, the students of MBIS left no stone unturned to help their parents reminisce about their childhood memories. The Annual Day for Secondary began with a Horror dance performed by students of Grades 11 and 12 followed by a jaw dropping skit depicting Vikram-Betaal. A thought provoking story of Siddharth and the swan was brought to life by the students of Grade 6. The students of Grades 7 and 8 performed a heart-rending contemporary dance which brought out emotions of sadness as well as compassion. To cheer up the mood, Grades 11 and 12 brought to life the so-very-often-told story of ShekhChilli. Within the skit was the adorable dance enacting the 'Buddhu' in ShekhChilli. The Fairies and Demons of Grade 7 reminded the audience that the conflict between Good and Evil is existential.

The audience experienced a never-seen-before Ballet performed by the girls of Grades 6, 7 and 8. How can one fondly remember stories of the past and not be reminded of the witty, humorous, down to earth Tenali Raman? An incident in the life of Tenali was enacted by students of Grade 8. The audience was being served one impactful performance after another, they were then left baffled by the sheer brilliance and ease with which Grade 6 students performed the Shadow Act. Well, having narrated stories and tales written in books, Grade 9 students took it upon themselves to enact a story written in history. They re-lived an important event in the life of the great Maharana Pratap. Not only was their acting performance filled with powerful dialogues evoking patriotism, their dance left one and all with goosebumps. It was indeed an evening well spent. In the words of King Vikram - it is upon us to spread the goodness and values held within the stories we have heard and it is upon us to pass these stories to future generations to reimpose India's rich cultural heritage. This Tale-A-Thon will continue as we spread the message of 'Live Life Childlike' to others.

On 29th March, 2023, Yuwa the cultural committee of Durgadevi Saraf Institute of Management Studies (DSIMS) and Durgadevi Saraf Global Business School (DSGS) organised the annual cultural event "Sabrang". The theme of Sabrang which was selected by the committee members this year was "OTT" (over-the-top). OTT is a means of providing television and film content over the internet at the request and to suit the requirements of the individual consumer.

This year Sabrang was held across RSET campus

including Saraf Hall, Turf and Management building. The theme itself stands for "over-the-top", which implies that a content provider is going over the top of existing internet services, it is particularly popular amongst teenagers due to the availability of new web series, TV shows, play stations, etc.

The director of DSIMS Dr. C. Babu and the director of DSGS, Dr. Sarita Vichore both declared Sabrang 2023 open and addressed the crowd briefly. The convener of Sabrang 2023 Prof. Sharmila Bonnerjee and co-convener Prof.

Kusum Pawar welcomed everyone on behalf of the YUWA committee. The core committee members of Yuwa presented a surprise opening performance where they danced on various songs from Bollywood movies to set off Sabrang 2023 on an energised note.

The entire day was filled with various events which were based on OTT theme. The first event was Quiz which kick-started Sabrang 2023 wherein everyone including the directors, faculty and non-teaching staff of DSIMS and DSGS both got to brainstorm and relive their memories of

the shows they watched. It was a very interactive as well as entertaining event. The quiz consisted of 3 rounds where participants were eliminated after each round based on the scores. Muskan Bhat & Ronan Gomez from MMS first year got the highest scores and were declared as the winners for Quiz competition.

After Quiz competition, the anchors enthusiastically introduced the next event which was Debate. During this competition the participants were given freedom of choice to put forth their views as they pleased, the only condition they had to follow was to highlight various advantages and disadvantages of OTT platforms with a clear logic. Niraj Modi from MMS first year won the Debate Competition with the highest votes from the judges.

The Debate competition was followed by Treasure Hunt. All the eight teams consisting of not more than 5 members each were called to a meeting point where the volunteers explained about the Do's and Don'ts of the event before the event officially began. The clues were hidden across the RSET campus including Saraf Hall, Management building and the turf. Treasure Hunt was one such event which made the entire Sabrang event very exciting and adventurous as the participants had to run against the time and find the clues before anyone else did. The event was highly competitive in its true senses. Akriti Jha, Akansha Mahajan, Shubhangi Tiwari, Kusum Yadav and Himanshu Rangari from MMS first year were able to find all the clues and get to the treasure before everyone else and were declared the ultimate winners of the Treasure Hunt event.

Tug of War made everyone come together as a team and showcased the power of unity

and strength. It was one of the most sought-after event amongst all the students of both DSIMS and DSGS. The objective of the game for each team was to pull the rope along with the members of the opposition team, to their side in order to win the game. Almost all the students of DSIMS and DSGS were found around the turf in order to cheer the participants who were representing their class. The winners for Tug of War (boys) were Karan Thanvi, Dev Dani, Suraj Sharma, Mohit Sidhapura, Prakash Sharma, Niraj Ujawne, Sagar Pawar & Chinmay Parshurampurua from MMS first year and the winners for Tug of War (girls) were Kajal Kothari, Veedhi Jain, Priya Singh, Kinjal Shukla, Rhea Rodriguez, Namrata Sawant, Anushka Gujar, Princy Swamy from PGDM first year.

The second half of the day was set in motion with the most awaited event, the Talent Hunt, which showcased hidden talents of not only the students but also the teaching and non-teaching staff of DSIMS and DSGS, through poetry, singing, dancing and playing musical instruments. These hidden talents were unknown to others during the academic rigour. The students took this event as an opportunity to connect with each other during the practice sessions after lectures and came up with great performances. The faculty members pleasantly shocked the students by enthusiastically adding their flair to the talent hunt with their surprise performances, may it be singing songs, dancing, reciting self written poems or even ramp walk! The winner for solo dance category was Samidha Angane from MMS first year and group dance category were Suraj Nishad, Miloni Vyas, Shubhangi Tiwari, Sakshi Kankariya, Yuvraj Singh and Kushal Dixit from MMS first year. The winner for singing competition was a tie between Poornima Menon from PGDM first year and Tejashree Pawar from

Bhavan's College, Andheri. A special shout out was given to Namrata Sawant from PGDM first year for astonishing everyone with her outstanding tabla performance.

The concluding event of Sabrang 2023 was Fashion Show, where participants were dressed up as characters from various series from the OTT platforms and were evaluated on the basis of various factors such as confidence, pose, attitude, walk & portrayal of theme. Aakash Gupta and Suman Pal from MMS first year were the winners for the Fashion show with the highest scores from all the judges.

Fashion Show was followed by the Prize Distribution ceremony, where the winners and runner-ups from all the competitions which were held throughout the day were felicitated with mementos and certificates. The judges also gave their comments on the winners and shared the evaluation criteria, based on which they choose the winners. All the events came to a final end and Sabrang 2023 concluded with DJ night which brought all the students on the dance floor and everyone enjoyed to the fullest. This year Sabrang 2023 was celebrated with participation from everyone, from students to teachers to the staff. Everyone wholeheartedly participated in all the events. True to its name SABRANG 2023, showcased different colours of talent, performances and abilities and brought them together on one platform for all to savour and enjoy. It was a fulfilled day where great bonding and camaraderie was observed between students, faculty and staff of DSIMS and DSGS. Sabrang 2023 ended on a very positive and energetic note.

## FOUNDATION DAY 2023

Durgadevi Saraf Institute of Management Studies (DSIMS) & Durgadevi Saraf Global Business School (DSGS) are twin examples of excellence and perfection in the field of management education. Rajasthani Sammelan Education Trust (RSET) runs the Institutions with a vision to provide value-based, technologically advanced, holistic education to aspiring managers. The process of nurturing leaders of tomorrow requires hard work, persistence and exemplary commitment of all. Both the Institutions-DSIMS & DSGS have flourished in the VUCA World because of exceptional contribution of Management, Faculty Members Administrative Staff and the primary stakeholders – the students. The founders have created a culture of academic excellence with emphasis on social sensitivity and a global mind-set among

students.

Foundation Day is a milestone in the history of DSIMS & DSGS. The day is filled with nostalgia for all employees – the Directors, Faculty Members, Administrative staff and support staff. The seat of learning was established in the year 2010. Thirteen years later, the seed has germinated into a full grown, fruit bearing tree. The day is an admiration of long days of hard work, the pursuit of excellence and sacrifices of all stakeholders. The challenges due to the pandemic, presented a fresh opportunity to refine and redefine the course of management education. Indigenous ways to carve a new and untravelled path in the face of adversity, makes all employees in the two Institutions very special. RSET Management recognises this feeling of oneness and solidarity

towards the Institution and therefore, the day is celebrated with great fervour.

This year, Foundation Day function was held on February 11, 2023 to celebrate two futuristic management schools - Durgadevi Saraf Global Business School (DSGS) and Durgadevi Saraf Institute of Management Studies (DSIMS). The stakeholders came to Durgadevi Saraf Hall to mark the occasion with excitement and fervor. The charm and energy of returning to normal times was felt by all present in the Hall. April – Aperire – Open up, Blossom and Grow

It is the closing of the academic year of the school. Closures signify wrapping up, taking stock of what has been and what could have been. But a school year end signifies looking back on the beautiful moments and reminiscing the growth that developed through the months. It is ironic then that the year-end coincides with the month of April. April, or 'aperio' in Latin means the opening of a bud. Like the flowers and trees, it is a time to bloom and show growth spurts that have been enabled by the months gone by.

All beings are flowers blossoming in a blossoming universe

Padmashree Bhawana Somaya and author Reeta Ramamurthy Gupta with the Principal @RBHS

Several meaningful changes helped the students to blossom and display their inherent strengths. A change in the methodology of project work proved to bring about maximum learning as it took on an activity-based approach. Discarding the traditional cut-copy-paste method of blind research, the students dug deeper to understand perspectives, effects of actions, communication techniques and apply thinking strategies.

The dramatization of poems was unique and innovative. Sarojini Naidu's 'In the Bazaars of

Hyderabad' prompted a class market with students using various persuasion techniques to ensure maximum sales. On the other hand, the ballad 'The Inchcape Rock' allowed students to look at the poem from the perspectives of its characters and understand the reasons for their actions. Some had a news anchor interviewing some pirates and others dramatized the reaction of the Abbot to the pirate's misdeed. Students used the activity-based method in Math to calculate the percentages of discounts offered by shops by simply getting to class various price tags of goods. Such methods undoubtedly enhance learning and highlight the connection of academics to daily life.

**Women in Literature** – RBHS was proud to host an author discussion with stalwart women in the field of journalism and writing. Padmashree Bhawana Somaya and author Reeta

Ramamurthy Gupta spoke about women in literature while speaking about their journey, sharing interesting anecdotes. Their books *Letters to Self*, a collection of poems written by Shri Narendra Modi and translated by Ms Bhawana and Sanjeev Kumar – *The Actor we all loved*, were discussed. Their advice to the students to

write 1000 words a day, read 100 pages a day and learn 5 new words daily was what was valuable as Ms Bhawana was an example of how one can enhance one's writing only if one devotes time and energy to it. Ms Reeta spoke about the benefits of reading and how using your 'spare time' to read a book will go a long way. (By the spare time she referred to the time wasted in waiting for a post to be uploaded and then waiting for responses). Students were intrigued and wanted to know more about how to be a strong writer while still maintaining the

freedom to express themselves or when would male writers take on feminine pseudonyms.

*Bloom like a flower; unfold your own beauty*

We all know that travel leaves you speechless – then turns you into a storyteller. But we observed more benefits about travel as a school group and that is – it develops responsibility, team spirit, caring and a sense of self.

Our students seemed to have learnt more than that as they travelled with their tour groups from Durshet, Pune to Dehradun and Mussoorie. These trips were planned with the objective of educating them about the history of the land, and information about the defence forces at IMA at Dehradun. Adventure sports, team games, and DJ nights will always be etched in their memory for a long time. While the parents were initially sceptical about their children managing an entire day without them, they reconciled to the fact that their children came back stronger, happier and more responsible than before.

*Blooming like a flower to fill the world with the fragrance of joy*

The pre-primary children had a free play day organised where the class was divided into four corners like At the Garden, At the beach, At the office, Dress up corner, Water play, etc. The children enjoyed enacting different role plays. They also enjoyed the experiments shown to them in the lab on Junior Scientist Day.

The culmination for the primary and pre-primary years was a day that displayed creativity and confidence in abundance. Creative corners

displaying cultures, monuments and famous sights of the city and world. Students spoke about the importance and beauty of these places along with their significance to world history. The primary students displayed in varied ways - by playing word games, Marathi puzzles and math online games. They engaged them in taking them on tours around India and literary trails. Both parents and grandparents were found busy playing games like 7 tiles, tyre and stick and hopscotch.

The secondary hobby clubs are aimed at nurturing interest for an activity and to make them responsible global citizens. The culminating event displayed what the children had been working for during the whole year. The Jharoka club displayed the culture in the form of song and dance of Goa and Gujarat, and the parents took up the cue to join in when called. Thinkers Paradise showed off their literary prowess by organising games of Taboo and Scrabble and singing an Earth song written and composed by them. Khel Khelo engaged parents in games of a giant Snakes and Ladders, Tic Tac Toe and Carrom. It was a perfect way to begin the day before rushing off to work. The Heart in Art club displayed their enhanced individual thinking and creativity as they got the parents involved in making Fridge Magnets with pebbles, Mini-frames, Bookmark decoration and Tattoo and Mehendi. The IncREDIBLES (Culinary Club) served refreshments with butterfly pea tea with everyone flocking at the stall to grab a bite. The Earthlings were admired for their effort to create a sustainable environment and promote greenery with their seed bombs and compost bin using peels of fruit and vegetables at home. What are the Do's and Don'ts to be used in the compost bin to keep it fresh and non-smelly. The compost once made can be used in our small kitchen garden. The enthusiasm in the students worked wonders as everyone enjoyed

the Culminating session.

### **Like a wildflower, grow in all the places people thought you never would**

The annual day was a day not of celebration but one to create memories, to learn and learn again. It was a day of looking after the other person, your group. It was a day to realize how beautiful and confident they individually are. We celebrated a unique India - **Adwitiya Bharat** - a land of mysteries, cuisines, cultures, nature and modernity.

The evening celebrated Adwitiya Bharat through the varied display of dance, music, ballet and drama of its culture. The programme was rich in its diversity with dances, traditional fashion displays, yoga ballet, jattras, nukkad natak, and dances and of course the television soaps. Through the programme 75 facts were revealed to the audience.

The chief guests were Dr Sharadji Saraf, Shri

Decoding the Preamble

Rajkamalji Bajaj, Trustee, and Shri Atmaramji Mishra.

### **A flower does not think of competing with the flower next to it. It just blooms**

It is the objective of a competition to push you to your potential. They are the ones that make you realise that you are growing. The unique competitions organised helped them unleash their creativity. On the eve of Republic Day the children had an activity called 'Decoding the

Preamble' where they had to use headlines and pictures from newspapers to show how or how not the Preamble was being followed in the country. The younger children took on an artistic twist with them painting the national bird and animal in the colours of their choice with reasons to explain why.

A one of a kind photography competition (My City, My Preamble) was organised for the students where they had to go around clicking pictures of Secularism, Liberty, Fraternity, and Equality being showcased in the city. And one must add that the photographs captured some amazing shots and stories to tell.

There was an amazing display of acrobatic feats by the students of Grade 1 to 5 at the Republic Day Function of RSET Campus with the message of educating the girl child 'Mulgi Shikhi Pragati Jhali'

### **Inter School Competitions**

Neev Sharma of Grade 4 participated in the district level Wushu competition and won Gold.

Hetvik Mistry, Aavahan Agrawal, Dyumna Mehta, Hridhan Mehta, Saachi Shinde, Vraj Patel, our primary students, participated in the 45th Open State Level Athletic Meet organised by YMCA Mumbai. At the MSSA football match our students of Grade 3 and 4 played 2 matches and won both. The highlight was Aarav Wadkar of grade 3 who was the hat trick hero scoring all the goals.

At the NESISM Junior MUN held at NES International School, Mulund, - The students of Grades 4 and 5 had a fantastic opportunity to get a head start in their journey of becoming globally responsible citizens. It was a two-day conference where Avni Jayakumar, Kitika Kothari, Jinanshi Shah, Ira Khatu, Banaj Bansal and Aaryan Daga participated as delegates representing themselves. The conference enabled the students to experience the rich format of debating, discussion and documentation and

conducted along with competitions as the culmination. Students and teachers from 12 schools participated. It was a day full of fun and learning.

**One day you will look back and see that all along, you were blooming**

It is said that when an opportunity presents itself, do not be afraid to go after it. Hence when VJT, Mumbai announced an ISRO Space Exhibition, we jumped at the opportunity of harnessing an interest in that field into our children. The students marvelled at the exhibits and came back with a lot of information and interest in astronomy.

resultantly develop critical 21st century skills Avni Jayakumar was awarded the Amazing Collaborator trophy and the school received the Award of Appreciation shield.

**The Panache Artholics Fest**, a unique Inter School art fest was organized by RBHS. It was an extraordinary open platform for students of Grades 5 to Grade 8. Various art competitions such as Mumbai doodler, Nail Art, Fabric Jewellery, Paper Quilling, Visionary Umbrella and Wall Art were conducted. What was unique was that there was learning with different workshops

To kickstart National Science Day, students were given several activities to carry out. These curated exploratory activities were meant to tickle their curiosity and inquisitive nature. While the pre primary children visited the science labs and carried out fun experiments, the primary children had present evidence of their activities. The photographs shared showed how the children and parents had engaged wholeheartedly and come back with stories to share. Students had to collect pictures of leaves which were not green, while some had to use a

The PTA has been on a journey of blossoming into a strong pillar of the school. Their winter carnival was attended by one and all and enjoyed thoroughly. The parents had put up various stalls on art and craft, culinary, fashion, gifting and beauty products. It was commendable to see NGOs given a space to proclaim their good work and garner support for the cause. The children enjoyed the magic shows and topsy turvy game stations.

As they celebrated the day, the students were engaged in many exciting activities like picture colouring, word-activity, and poster making activity. ## FIELD TRIP

'Any Field Trip' experience – is an Education in itself.

On 20th March 2023, the students of Grades 4 and 5 visited **D C Textile Mills and Sancholi Silk Mills Pvt Ltd. situated at Palghar** as a part of their educational field trip. They visited three different units or factories where they observed how the raw materials were transformed into beautiful fabrics through the different stages of the dyeing and printing process. The students saw how the fabrics are dyed and then made smooth on different machines. They also saw how the same prints could be dyed in different colours. In one of the units they saw how machine embroidery was done. It was breathtakingly beautiful and incredible to see the same design being embroidered at the same time in multiples. The students learnt that the command given by the computer enabled the machines to stitch the same pattern all at once. In the third unit the students witnessed how the print is first copied on to a paper and then printed on to the cloth thereby minimising any mistake by default. The students were able to view all the machineries and also interact with the workers. The visit to Late Vidya Vinod Adikari Vidyalaya where 2500 Adivasi students get free education was an eye opener for our students to realise how privileged and blessed they are.

This trip paved the way to bond with their classmates. It also helped students to improve their observational skills. Such trips provide students with the opportunity to visualise, experience and discuss information. The trip apart from the rich field experience was also a wonderful experience in terms of all the delicious food provided by the Agrawal family- right from the sumptuous breakfast, lunch and evening snacks, not to forget the return gift given to each

student which was truly appreciated by one and all.

## PICNIC TO MONTERIA VILLAGE

All the students got an opportunity to try their hands at carpentry, weaving, and stitching at the tailor shop, making shapes from metal strips at the blacksmith's shop, and visiting the Anganwadi, barber shop, and clinic. Their most loved activity was pottery, where the students happily got their hands dirty and tried making different shapes at the potters' wheel. The students then witnessed a fantastic magic show, faces all lit up in shock,

and had fun-filled laughter throughout the magic show. The next stop was a puppet show and rope balancing act. The students cheered on the performers with loud applause. The students then played to their hearts' content in the play area that had swings, bicycles, rope, beam-balancing bridges, and a lot more. This certainly increased their appetite and they headed towards the cafeteria for a lunch buffet that had a variety of vegetarian delicacies. Post

lunch students rested and played group games on the hammocks. The students were then taken through a tunnel of the Alibaba caves towards a bridge that they had to balance on to move towards the Gerbera flower nursery, where they were given information about the flowers and their uses. The students got a chance to visit the biogas plant and vermicompost area, where they interacted with the guides and learned a lot about these topics. They also attempted to hold the earthworms, a little nervous at first. The students then walked through the fields and saw different crops and walked through the compartments of a still train. They enjoyed the views of the

open fields when walking towards the Nakshatra garden. Here they got to know of different moon signs and trees linked to it. Traditional games awaited them at the end of the trail where the students enthusiastically participated in tug of war and displayed a lot of teamwork and sportsmanship. They played a few more games before heading towards refreshments. They left the venue with a lot of new memories they will cherish forever. It was indeed a day filled with a lot of joy and excitement.

## ANNUAL DAY

Emerging with a great sweep of energy, the students of pre-primary and primary sections of MBIS brought Akbar and Birbal to life with a prodigious concoction of dance and drama to mark the Annual Day of MBIS. The skit was woven around the theme 'Tale-a-thon' which was an amalgamation of stories. A platform to exhibit their hidden talents, every student got a chance to enhance their confidence by performing on the stage. It was a spectacle of sheer joy to see a student of Senior KG and Grade 5 come together and narrate the skit. The choir group added spark to the song, 'I Want Something Just Like This' by modifying the lyrics according to the theme of the event. The dance performances by tiny tots of Nursery, Junior KG and Senior KG made the audience reminisce about their care-free and fun-filled childhood days. The audience was on the edge of their seats to see the nail-biting dance performances by Grades 1-5. The

cart-wheels, flips, front rolls and the dance moves gave a rise to the occasion. The visuals of it will definitely remain with the audience. Mesmerizing performance of Grade 5 Thea Harsora on "Moana- How far I'll go" swept the audience off their feet.

The evening also pioneered the felicitation of achievements of the young learners.

## ANNUAL DAY

Feeling nostalgic about childhood stories - 'Vikram-Betaal, Chacha Chowdhury, Tinkle comics, et al? Well, the students of MBIS left no stone unturned to help their parents reminisce about their childhood memories. The Annual Day for Secondary began with a Horror dance performed by students of Grades 11 and 12 followed by a jaw dropping skit depicting Vikram-Betaal. A thought provoking story of Siddharth and the swan was brought to life by the students of Grade 6. The students of Grades 7 and 8 performed a heart-rending contemporary dance which brought out emotions of sadness as well as compassion. To cheer up the mood, Grades 11 and 12 brought to life the so-very-often-told story of ShekhChilli. Within the skit was the adorable dance enacting the 'Buddhu' in ShekhChilli. The Fairies and Demons of Grade 7 reminded the audience that the conflict between Good and Evil is existential. The audience experienced a never-seen-before Ballet performed by the girls of Grades 6, 7 and 8. How can one fondly remember stories of the past and not be reminded of the witty, humorous, down to earth Tenali Raman? An incident in the life of Tenali was enacted by students of Grade 8. The audience was being served one impactful performance after another, they were then left baffled by the sheer brilliance and ease with which Grade 6 students performed the Shadow

Act. Well, having narrated stories and tales written in books, Grade 9 students took it upon themselves to enact a story written in history. They re-lived an important event in the life of the great Maharana Pratap. Not only was their acting performance filled with powerful dialogues evoking patriotism, their dance left one and all with goosebumps. It was indeed an evening well spent. In the words of King Vikram - it is upon us to spread the goodness and values held within the stories we have heard and it is upon us to pass these stories to future generations to reimpose India's rich cultural heritage. This Tale-A-Thon will continue as we spread the message of 'Live Life Childlike' to others.

### TEP-Mindful Teacher, Mindful School

As the world is rapidly changing, our education

system must evolve and change if it wants to stay relevant. On 7 February 2023; the teachers of MBIS had the opportunity to attend a Teacher Enrichment Program - Mindful Teacher, Mindful School conducted by Ms Farzana. She was very informative and gave teachers strategies to be aware of their own feelings so they can become better equipped with strategies for dealing with stressors that come up in a classroom setting. She explained how mindful teachers have been shown to be more patient and less reactive in tough situations. They also have better listening skills and are able to empathize with their students, helping them understand their feelings, rather than just reacting with judgment. The goal of a mindful teacher is to create an environment of compassion, understanding, and respect in their classroom and the Teacher enrichment program gave teachers many relevant and doable takeaways to apply in the classroom and make teaching-learning more effective, so that teachers can create better bonds with their students. Ultimately, teaching mindfulness can help create an environment where both students and teachers feel supported no matter what the situation may be.

**"Educate students' minds with your heart" is the message the teachers took with them at the end of the wonderful program.**

“

Education is not the learning of facts, but training the mind to think.

manage anger more effectively. Most of us perceive anger as a negative emotion and hence tend to use unhealthy coping mechanisms to deal with anger. The students were encouraged to interact throughout the session and they gave their inputs constantly and were involved during the session.

**RMCC Raging Readers program** is a comprehensive program which helps children develop a love for reading and lead a solid foundation for future academic success. The program uses effective and interactive ways to teach young learners the reading fundamentals and comprehension skills they need to become successful readers.

**A workshop on intentional breathing techniques** was conducted by Ramdhari Maheshwari Career Counseling Center on 11th March, 2023 for mothers and others. In this interactive session, participants understood the purpose of breath and the power of breathing right. The session focused on how breath, apart from supplying oxygen to the body, can also act as a tool to relax and meditate, boost focus and energy, manage stress and anxiety, deal with overthinking and insomnia, restore and revitalize the body and lead to an overall state of wellness. The participants understood the difference between breathing and intentional breathing and how it can be inculcated in their daily routine to enhance their life.

The participants learned what the effect of different types of breathing was and what happens at a physical and psychological level when you change it. This was explored practically and theoretically by revisiting a few traditional Pranayama along with 4 new techniques, with the purpose and the method to do the same. They also learnt depending on the need which technique should be used and how. These techniques help a person become more emotionally resilient as they are now in control of how they would like to respond. Participants identified the challenges they are facing right now and which breath they will be practicing now.

RMCC has conducted hundreds of Career assessments and counseling for students and working professionals in the last quarter guiding students to pursue their dream careers assisting them in evaluating their interest and understanding the career path. As rightly said "The best way to predict the future is to create it".

# Why EDUCATION IS IMPORTANT?

## Introduction:

Education is the study of topics for in-depth understanding and to comprehend the numerous topics that will be used in our everyday lives. The term "education" refers to knowledge that we have gained outside of books and classrooms as well as knowledge that we have learned from books. Education alters the way we view the world. The value of education begins in our early years at home, and it is a lifelong process that will finish with our death, or perhaps if there is a hereafter, it will continue there as well. A civilization without education cannot guarantee our planet a good future. Every person's life is significantly impacted by their education. Character, opinions, and intelligence are all strengthened by it. No matter how we were taught, every one of us will still have our own opinions and methods, but in the end, the education we received and continue to get throughout our entire lives is what constitutes our genuine intelligence. Education isn't about how well you can read and write; it's about how well you can interact with and comprehend the outside world. A quality education not only imparts knowledge but also broadens your horizons, improves your viewpoint, and empowers you to make your own decisions. People are extremely aware of social inequalities today and feel comfortable discussing them. This can be due to the expanded educational opportunities available globally, which has led to a more accepting and tolerant culture. Education is thus a component of human evolution. Creativity and innovation are other areas where education is crucial. Education supports creative problem-solving and trying out novel concepts.

## What is Education?

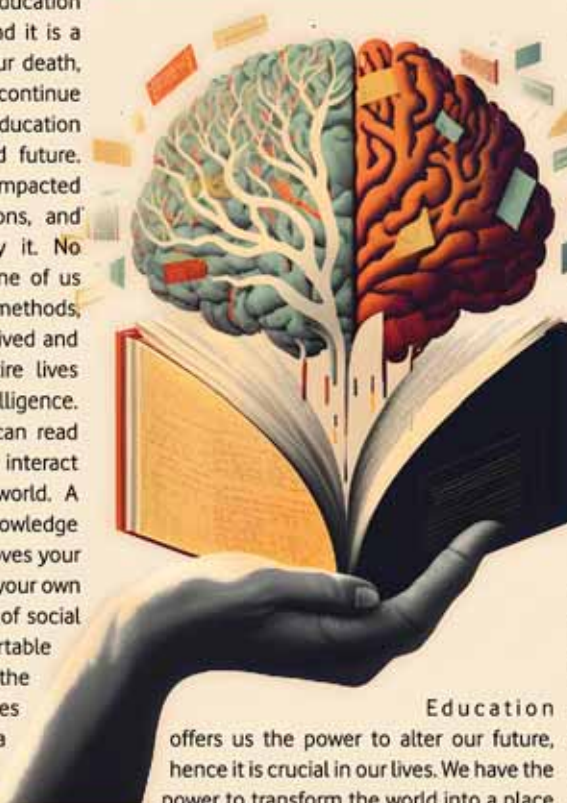

A person gains fundamental knowledge from other people through education, which is a significant life activity. As part of the educational process, a person:

1. Hone his abilities
2. Learn moral principles
3. Acquire communication abilities
4. How to interact with society

5. Learn to distinguish between right & wrong.
6. Learn to make the best choice at the appropriate time.

The basic goal of education is to support a person in leading a dignified life and making a positive contribution to the society.

## Why is Education Important?

Education offers us the power to alter our future, hence it is crucial in our lives. We have the power to transform the world into a place where everyone can live happily ever after. And in order to do this, we must possess the reading and writing skills that will follow us throughout our academic careers. As a result of education and the capacity to read and write, the individual will become literate because most of the knowledge may be acquired by reading books, texts, journals, magazines, etc.

One of the most crucial elements of both personal and professional development is education. It plays a significant part in forming people's knowledge, skills, and abilities and can give them the resources they need to be successful in their chosen careers. There are several factors that make schooling vital.

First off all, education can aid people in developing their knowledge and critical thinking skills. They gain the knowledge and abilities necessary to analyze and assess information, which is crucial for making defensible decisions. The development of creativity and problem-solving abilities, which are necessary for success in any sector, is another benefit of education. These abilities support people in recognising issues and resolving them effectively and efficiently.

Secondly, education leads to various employment prospects and is frequently a requirement for many positions. Those who have a good education might also expect to make more money and compete better for jobs. Educated people can keep themselves updated in their respective fields and adapt to new technology and developments in their sector. This will in turn help them to make progress in their career.

Thirdly, education is crucial for the growth of the economy. A population with more educated people is more creative and productive, which can promote economic expansion and prosperity. Education can also help lessen poverty and inequality by giving people from disadvantaged origins the abilities and information they need to succeed. Building a robust and sustainable economy depends on this. Fourthly, education is essential for promoting civic engagement and well-informed choices. A well-informed populace is more inclined to take part in political and social processes and make decisions that will affect their daily life. Building a robust and healthy democracy depends on this.

Last but not the least, education also equips people with a variety of life skills that are necessary for success on both a personal and professional level. These abilities include the capacity for effective teamwork, time and resource management, critical and creative thinking, and effective communication. These abilities are crucial for personal development and fulfilment, and they can create numerous opportunities for both success on the personal and professional levels. The role of education in our society is huge. Education is the key to

opening more resources for growth and progress in life. An educated person can push his family and society in various fields to grow more. So now, let's discuss some reasons which will give you an idea that why education is so important:

## Reasons behind the importance of education in life

### 1. Stability

The significance of education gives stability in our daily lives. Our degrees and knowledge will help us to boost our chances of having a better career than others.

### 2. Monetary stability

Our financial security benefits from education. Today, those with greater qualifications tend to find better-paying professions, which helps them to secure their future.

### 3. Self-dependency

We become more independent as a result of our education. An individual's education is solely his responsibility, and with its aid, he or she can feel comfortable and independent. They have freedom to choose any stream of their choice.

### 4. More employment options

Finding a job today is the most difficult endeavour. For a job, a person must outperform thousands of other applicants. The number of applicants for a job is directly inversely correlated with education level. There will also be low-paying employment if you are applying for positions requiring lesser levels of education. But, if a person has strong credentials and a solid educational foundation, he can improve his chances of acquiring the desired position.

### 5. Affluence

A career that pays more than other jobs is available to those with a strong educational background. More education is required for positions that offer better salaries. A person can accomplish all his ambitions with a bigger income. Every person has some dreams to fulfil in his/her life. Education is one of the most important element that helps to fulfil such dreams. So, if you want to make your dreams come true, suitable education is a must in your life.

### 6. Equality

The right to equality belongs to everyone. There would be less of a divide between the classes of people if everyone had the chance

to pursue higher education, which increases the likelihood that everyone will get equal opportunity.

### 7. Improvement of problem-solving techniques

The best advantage of education is that it equips us with the skills necessary to make rational judgments under pressure. A pupil who grows up and becomes an adult deal with a lot of issues every day. As a comparison to an uneducated person, an educated person can handle the issue with ease.

### 8. Confidence

Being confident is one of the best qualities of a successful person. Education helps people become more confident. You can talk about a subject that you are already familiar with. With the knowledge you have acquired via your education, you can speak about that subject far more intelligently than others.

### 9. The advantage of society

An educated person donates his or her valuable time by working on various projects to maintain society. Every task completed in a nation aid in the continued growth of its citizens. It implies that a person who undertakes various tasks in his life is also assisting his country and society.

### 10. Relationship with other nations

In our daily lives, digital education enables us to communicate with people throughout the world. We are now able to communicate with people from other cultures and nations because to digital schooling. It expands our circle, allowing us to consider more viewpoints, and it promotes harmony in variety.

### 11. Using contemporary technology

Everyone who has suitable education can use current technologies without any issues. One of the best instances of how we may seek and complete various chores while seated is the use of mobile phones. People who are seated at different locations can participate in an electronic contract. Today, websites like Amazon, Flipkart, and others are more useful.

### 12. Equal opportunities for all

The importance of education in society is very important because educated people are treated equally based on their knowledge. There is no discrimination depending on caste, race, gender, religion, etc.

### 13. The economic growth of the Nation

An educated society is a reason for the economic growth of a country. With a more education rate in a country, there will be more opportunities for jobs or employment.

## Conclusion:

Education offers guidance. You cannot advance your lifestyle or learn about the wider world without education. Education boosts self-assurance and enables you to assess your skills and ability.

The fact that education gives direction is among its many significant benefits. We can develop goals to improve our quality of life because education provides us with a framework for how to approach life. People cannot advance in society or alter their lifestyles without education. For instance, educated individuals can make plans for the future if they are aware of their talents and flaws.

Also, education broadens your thinking capacity which makes it simpler for you to face challenges in life.

There are many memorable events with the college; it's difficult to put a finger on one such event. One of the many things that I learnt from college is public speaking. I owe it to all the faculty members who push us students that extra mile and helped us to overcome our greatest fears of life. Faculty members are experienced and friendly in nature to all the students. The college also provides a platform to show and enhance talent in sports and other co-curricular activities. Contributing to the society always gives a sense of satisfaction.. Being an outstation student, I used to face some difficulties, but they were easily solved by the faculty members & staff of the institution. ## Our Gratitude to the Large Donors of Rajasthan Sammelan Education Trust

**Rajasthan Sammelan Education Trust** today is a reputed name in the field of education with multiple educational institutions offering education from Nursery to post graduate studies in management and media studies. **Approximately 16,000 students** study across various schools and colleges located in the state-of-the-art RSET campus in Malad (Mumbai).

This transformation and growth of RSET has been brought about by some of the visionaries who were associated with the Trust since 1948 and had the far sightedness to empower the community through education. What started as a single school for the girl child way back in 1950's today has metamorphosed to multiple educational institutions and students.

RSET owes its gratitude to the benevolence of its **Large Donor families** who had the vision to invest for the cause of education way back in the early years and have continued to do it over the years, knowing fully well that **investment in knowledge pays the best interest**. And rightly so. From time to time all our **Large Donor families** who have been associated with RSET have seen their investment in education come to fruition and we are reaping the fruits of their vision through the various institutes and the infrastructural facilities that have been built at RSET some of which have been named as per the desire of our esteemed Donors and membership as per RSET rules were given as per the membership rules prevailing at that time.

**All our Donor Trustees, Office Bearers and Managing Committee Members bring with them an extensive experience and knowledge of running their successful enterprises. It is largely due to their efforts, vision and commitment that RSET has grown in the size and stature. Our gratitude to all our Members for joining with us in our educational endeavours.**

# Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthani Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthani Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthani Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthani Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthani Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthani Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on [rs@rajasthani.org.in](mailto:rs@rajasthani.org.in)
