President's Message

Dear Reader,

At the outset, I convey my warm greetings to everyone at the beginning of the new academic year!

Overall development of the individual is the goal of education. We at Rajasthan Sammelan Education Trust ensure that there will be no stone left unturned to equip the students of our institutions with required skills. This will definitely help them to face challenges in life. In this connection, I wish to congratulate the entire faculty of all our institutions as well as other staff for encouraging and guiding the students in all facets for their all round development.

In our institutions, we have provided all state of the art facilities i.e. spacious classrooms, air-conditioned staff rooms & offices, libraries with rich collection of books & subscription to a large number of e-books & case studies, well-equipped science laboratories, Wi-Fi equipped campus, computer labs with latest & high speed computers, seminars and conference halls along with a spacious auditorium and a sports academy with a huge playground to nurture talents of students in sports. We have also provided residential facilities to male & female students coming from other cities and countries in our boys' and girls' hostels.

To inculcate the essence of service and discipline, the NCC wing of our colleges encourage our cadets to take part in adventure activities with a spirit of leadership. NSS volunteers, members of Rotaract Clubs & DLLE. Volunteers conduct several social welfare activities such as blood donation camps, tree plantation, various awareness programmes, women empowerment projects & cleanliness drives. Even students of our schools are also encouraged to participate in various outreach programmes to develop compassion & kindness at an early age.

It is a matter of great pride that three schools of RSET, Kudilal Govindram Seksaria English School (SSC Board), Mainadevi Bajaj International School (IGCSE Board) and Ramniwas Bajaj English High School (ICSE Board) have given 100% result at the standard 10 examination. Kudilal Govindram Seksaria Sarvodaya School (SSC Board) also had an excellent overall pass percentage of 99.59%. The school had 98 students in Distinction and 127 in First Class. All the students of Ramniwas Bajaj English High School have passed ICSE examination with distinction. Results of other institutions are also excellent ranging between 95 - 99%. I convey my compliments to all the teachers and students for such excellent results.

In the post pandemic period of past three months, offline teaching was started by the schools & colleges with full zeal and enthusiasm. However, students faced a lot of challenges after coming back to their respective institutions and having transition from online to offline teaching. An orientation on 'Learning how to deal with challenges' for students of MMS and PGDM of Durgadevi Saraf Institute of Management Studies & Durgadevi Saraf Global Business School was conducted by Ramdhar Maheshwari Career Counseling Centre on 21st April, 2022. The students discussed challenges like finding it difficult to adapt to the new routine, managing sleep, diet, difficulty in managing their emotions, giving exams etc. Post discussion, the facilitator then discussed specific challenges that they have faced and recommended strategies to manage them. This led to an interactive discussion with students and how RMCC can assist them with strategies to deal with those challenges and adhering to them

Ashok M. Saraf, President, RSET

can have a positive impact on their lives.

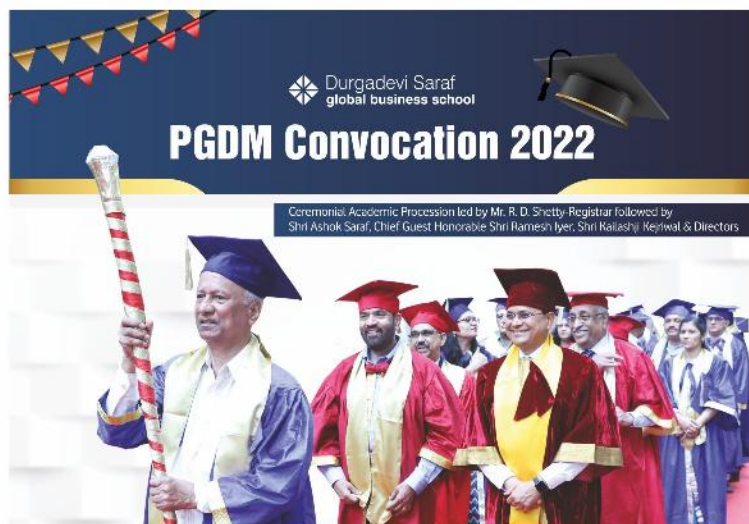

I am pleased to state that recently we have revamped Pravinchandra D. Shah Sports Academy ground by removing the old turf, old nets, zip line for net separators and replacing the same with new ones. The entire structure has been repainted after removing the rust. A new agency - Sportloc Media Pvt. Ltd., has been appointed to manage and maintain the turf area. Like every year before the lockdown, in the months of April & May, 2022, PDSA could successfully organize summer camp which was indeed a very big hit. More than 250 kids participated in different sports like Football, Basket Ball, Table Tennis, Cricket, Chess, Gymnastic and Karate.

It is a matter of great pride that Anika Bhatia, a Grade 6 student of Ramniwas Bajaj English High School was judged as the Best Swimmer in India in her category (under 12) at the recently held Sub Junior National Aquatic Meet at Rajkot. She won 5 gold medals, 1 bronze medal and an individual championship trophy. The Maharashtra relay team too won gold. Her phenomenal performance got the trophy for the state. We are extremely proud of her perseverance, determination and hard work along with the dedication of her family.

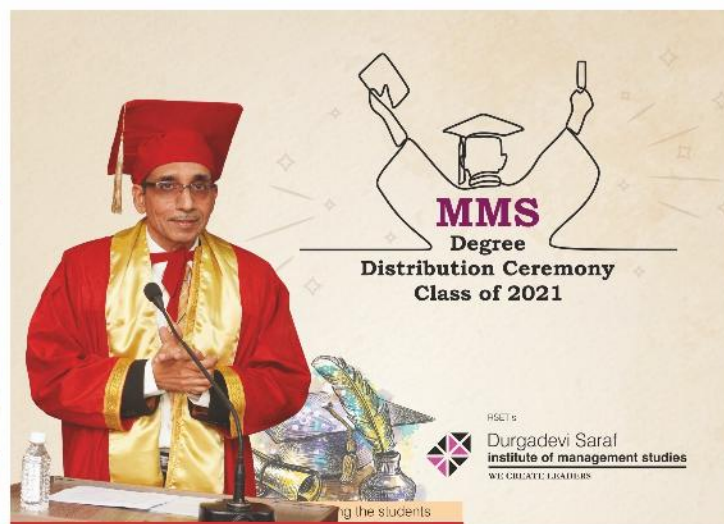

I take this opportunity to congratulate the entire Editorial team for their hard work and dedication for their creative skills ranging from writing to editing and even designing our quarterly bulletin Abacus.

He stated that the strength and resilience should come from family and it is important to give time to them.

He also mentioned that good leaders will always want their subordinates to grow in life and would promote them. The students should aspire to be those kinds of subordinates who the leader would want to lead. Mr. Rajiv stressed on an important point that there should be no reservations on learning. He gave a personal example that he started understanding commodity markets at the age of 54 when he

landed a job at National commodity clearing Ltd. Finally he stated that students should not have qualms about accepting jobs in any location as each location would give them tremendous experience in their life.

Mr. Mohnish, in his address, spoke about the shift from offline to online classes and the challenges that the students faced. Parent Feedback

Dear Principal Ma'am,
Hope you are doing super fine!!

This is in reference to the journey that I witnessed as a mother with my son Master Vansh Gupta from Class 10 A, post lockdown.

To embark upon, the day it was officially announced that the board exams will be held offline, I could feel a pinch of needle pricking not only to me but also with the students. At the initial phase, teachers were struggling to get children in the classroom but there wasn't any stone left unturned to get them back to the classroom learning. Well, this was extremely challenging as our wards had lost that touch of school and in- class learning, however, Kudos!! to all the teachers, especially our class teacher Ms. Shweta Jain, who sensitively dealt with the situation and encouraged every student along with parents to be vigilant and more active. The way she went ahead with the cumbersome job of form filling for class 10 making it look like easy peasy lemon squeezy types, urging parents to be present and personally monitoring the minutest of detail, made me silently appreciate her patience.

Also, how could I forget Ms. Niharika, who assisted me with all the help required during pandemic when the classes were held online in Class 9.

Furthermore, I would also extend my special thank to Mr. Augustin Sir for understanding Vansh in class 8, when he required the most. In addition, I can vividly recall how Vansh would come home and narrate Principal Ma'am addressing to all the board exam takers in the class encouraging with her words of wisdom with a mix of, by being stern too, when required.

Towards the end all I have to offer is A BIG FAT THANK YOU to you dear Principal Ma'am and to all the teachers who put their heart and soul in being a guiding light to shape the future of these young guns. With a feeling of gratitude, now I would like to sign off, by seeking virtual blessings from all of you for my son Vansh Gupta.

Thanks and regards,

Ms. Taranjit Gupta

Change how you see and see how you change. - Zen proverb

For RBHS change was the reckoner during and after the lockdown. Teachers and students both learnt to change their outlook towards what learning was and how it is delivered. They changed the manner of assessing their learning and also the way in which they interacted with each other.

Empathy and Hope were our guiding forces in our willingness to change.

Academia has a successful take-off!!

The academic year ended smoothly with activities and sessions shifting to an offline mode – PTMs, exams, even the ICSE final exams. As grade X completed the first milestone of their academic journey they looked forward to new beginnings.

Goodbye and till we meet again

Right amidst the imposing of lockdown and the so-called 'unlock' during 2021-2022, emerged yet another batch of Grade 10. The school staff endearingly named this batch unique for more than one reason since they studied Online / Hybrid / Offline and attempted not one but two board exams and that too- offline. This was the batch which saw the onset of many academic changes right from the curriculum to the

assessment patterns. Having witnessed multiple challenges, the school only deemed it fit to give this batch of students a wonderful and befitting farewell-as unique as them.

The theme was decided as Spring- a symbol of Hope and New Beginnings. The décor, the arrangement, the performances- all were aesthetically interwoven along with the theme. The school witnessed the arrival of ornately decked up and sharply dressed 23- 16-year-old girls and boys who were given a pompous welcome of drums and beats as they walked into the event hall. Having been welcomed by their juniors and teachers their faces radiated with pride and were beaming with wide smiles. Rhythmic dance performances, Motivating speeches by the Principal, teachers and their peers, Star Award contests, delectable food-music etc.... the farewell included the entire gamut of things that can spread cheer & positivity. The highlight was of course the crowning of the Star Girl, Ms. Nayasa Singhal and Star Boy, Mast. Ujwal Jain.

Farewells are normally an overwhelming experience for both the school & students but at Ramniwas Bajaj High school we consider it as the end of a very pleasant journey and the beginning of an exciting new life.

Spring – Hope and New Beginnings ‘The only thing constant is change’

As school reopened on the 26th of May the members of RBHS displayed their adaptability

to change when they bid farewell to their principal Dr Padmaja Kutty who took over as the Principal of Mainadevi Bajaj International School on campus. They welcomed Ms Florina Fernandes with enthusiasm and zeal as they geared to be led under her baton of guidance and leadership.

At the orientations for parents before the commencement of the new academic year, Principal Ms. Florina Fernandes apprised all the assembled parents, the guidelines and assessment pattern of curriculum for the new academic year thereby paving way for yet another fruitful new academic year.

CO-CURRICULAR

A good teacher is one who educates curriculum, while a superior teacher is one who educates it with co-curricular activities. But a great teacher is one who instils all of this through moral education.

Let's go Clubbing!

With an aim to provide an excellent learning environment for our students to promote their intellectual, moral, social, spiritual and physical growth thus to achieve Holistic value-based development, the school offered 6 Clubs to exercise creativity –

The IncrEdibles (Culinary), Jharoka (Cultural), Khel Khelo (Indoor Games), Thinkers' Paradise (Literary), Earthlings (Nature) and Heart in Art (Art).

Special Days call for Special Acts

The pre-primary **Talent Hunt** organised in April showcased the multiple talents of dancing, singing, playing musical instruments, gymnastic exercises. It was a delight to watch the stage come alive with their energy.

This was soon followed by the **Graduation Day** for the Sr.Kg. students. As they walked with confidence on the ramp to receive their trophies and scrolls, the teachers and parents beamed with pride to see the magic of their efforts unfold.

The Grade X students all dressed in their finery during their farewell

A glance at the World Environment day celebration at school

RBHS celebrated **World Environment Day** in pursuit of the UN Goal (Responsible Consumption and Production). The toddlers of pre-primary had a gala time making paper bags and envelopes out of newspapers, sowing seeds in the pots on the campus.

The older students were guided by their mission of 'Only One Earth'. Song performances, interactive sessions and discussions brought out ways of not only conserving and restoring nature but also how to get closer to it. They pledged to save life on earth while doing tiny acts for the environment. Dr Henna Ganjwala, a veterinarian, spoke about her love for animals and the endangered species in urban areas. The day even initiated a campaign on social media to share moments of these acts to motivate others.

International Yoga Day on June 21st

celebrated 'Yoga for Humanity'. All the students performed musical power yoga with all the benefits of yoga imbibed in them. To motivate the students a healthy competition between the grades was conducted and the winning team was rewarded with the Yoga mudra for the class. The tiny tots of pre-primary were definitely not one to leave school without trying out various yoga asanas.

Father's Day out with the pre-primary kids

Father's Day Out @ RBHS

What is the best way to get papa to school? Organise a special day for him! And that is exactly what we did. The pre-primary students had a rollicking time with their dads when they saw them seated in their classrooms, on those tiny chairs, playing games and literally 'dancing to their tunes'. The dads were excited to be back in a classroom after many years and many reminisced about their school days.

Fantabulous Friday was back for the primary

children and this time to follow the UN Goal 12- Responsible consumption and production. The theme for this Socially Useful Productive Work was Best out of waste. The creativity of the students turned the waste matter into beautiful pen holders, name plates, photo frames, napkin holders, plastic bottle pots and plastic bag flowers. This showcased their innovation and also enhanced an awareness on the importance of recycling and reusing.

Democracy a la RBHS style

Campaigns and polling booths came calling to RBHS when the student council (Senior and

Young voters flaunt their right to vote responsibly

Junior) was elected. This year the process was streamlined with interview rounds for the Head boy and girl to denote the presidential elections and nominations be filed by all candidates.

While the students were trained to make the right choice, they were also taught how they are a part of a team and every member is important to the leader.

The process of nomination filing, selections, interviews, campaigning and electronic voting was not only enjoyable but also one that thought them values. The students displayed qualities of being understanding, critical thinkers, responsible individuals, flexible and self-aware.

We now prepare for the Investiture ceremony where the office bearers are initiated into their responsibilities.

Learning, Learning all the way

At, RBHS every teacher is first a mentee and then a mentor for her juniors and students. Every year different teachers undergo variety of workshops, training programs and attend seminars organised by variety of educational communities. This year too many teachers attended meetings and sessions organised by the CISCE (about examination procedures and academics) and by the Maharashtra Education Dept Mumbai Pradhikaran Vibhag (how to introduce and implement Marathi as a compulsory subject for all the boards).

She won 5 gold medals, 1 bronze medal and an individual championship trophy. The Maharashtra relay team too won gold. Her phenomenal performance got the trophy for the state. We are extremely proud of her perseverance, determination and hard work along with the dedication of her family. We await in anticipation as her sister Arya Bhatia gears for the Nationals in July. Daanya Kazi of

grade 9 secured the Silver medal in the 19th Maharashtra State Wushu Championship Sub Junior group held in Pune. She has shown that she is a force to reckon with.

Building Tomorrow

Gone are the days when school meant just learning the events given in a history chapter or solving tough mathematical problems or reciting poems and sonnets! School today has become the first stepping stone in the life of a child where they learn more about life and living. Developing hobbies, refining them, learning basic etiquettes, getting skilled at

multitasking, developing social skills are some of the many things that a school equips a child with. The growth of society depends upon the quality of education that is being imparted.

We, at RBHS not only develop self-dependency but also fulfil dreams and ambitions, build confidence, make a fairer world and mould the nation's future.

The beginning is the most important

Post pandemic this year the New Academic beginnings were ushered with zeal and enthusiasm from Parents, Students and faculties. Admissions in schools and colleges have been in full swing and Institutes are again live with exuberant energies of the students after their summer vacations.

An orientation on 'Learning how to deal with challenges' for students of MMS and PGDM of Durga Devi Saraf Institute of Management was conducted by RMCC on 21st April, 2022. The session was open for students to discuss the challenges faced by them after coming back to college after a long break due to COVID and having a transition from online to offline college.. The students discussed challenges like finding it difficult to adapt to the new routine, managing sleep, diet, difficulty in managing their emotions, giving exams etc. Post discussion, the facilitator then discussed specific challenges that they have faced and recommended strategies to manage them. This led to an interactive discussion with students and how RMCC can assist them with strategies to deal with those challenges and adhering to them can have a positive impact on their lives.

Life skills are of great import and should be an integral part of student's learning. RMCC introduced **Life skills summer camp** for students of 6th-9th Grade from 2nd - 6th May to equip them with the essential life skills. The sessions focused on Managing teens with topics:- Finding my independence, Managing peer pressure and bullying, Do I look good, I am not a baby anymore and Overcoming failures. They also revised all the skills learned briefly during each session. The students were participative and engaged and were practicing the skills learned. The students were

Life Skills - Summer Camp

encouraged to continue practicing these skills even beyond the sessions and were appreciated for their sincerity and dedication.

Parenting is an engaging and challenging experience for individuals. RMCC has begun with a series of **Parenting sessions** to assist parents to deal challenges faced during their upbringing. A seminar on '**Building self-confidence and self-esteem**' was conducted by the RMCC Team for parents of children with Learning Difficulties and attention disorders on 30th April, Saturday, 2022. The seminar focussed on helping the parents understand the difference between self- confidence and self- esteem, comparison of children with low self-esteem and high self – esteem, factors leading to low self-esteem, strategies for parents to enhance self- esteem. The parents enjoyed the individual activities as well where they were taken back into their own childhood and reminisced memories of people who helped build their self- esteem. Making a list of their child's strengths and weaknesses made them realize that they usually focus more on their weaknesses than their strengths. The seminar brought the parents to an important realization that they need to change their reactions and behavior, before trying to modify their children's behavior.

On 11th June, 2022 a **seminar on 'Building**

self – monitoring skills' was conducted by the RMCC Team of Special Educators for parents of children with Learning Difficulties and attention disorders. The seminar focused on helping the parents understand what is self-monitoring, the importance of self - monitoring, comparison of children with low self-monitoring and high self – monitoring, strategies to practice self-monitoring in the academic areas of reading, comprehension, writing, and math as well as in the domain of behavior. The parents were interactive and clarified their doubts and problems that their children were facing in both areas of academics and behavior. Individual and group activities were held where the parents had to create a self- monitoring checklist for their child on the

basis of a handwriting rubric. The parents felt that the seminar helped them with strategies to help their children become more independent and self- reliant. They enjoyed the practical hands-on activities and felt that the speakers were effective in conveying the importance of self -

monitoring. Overall, it was an interactive and insightful experience.

On account of **International World Yoga Day**, RMCC conducted a session with an expert to explain to all its participants about the importance of yoga and mindfulness. The participants were informed about the importance of yoga and the importance of being mindfully present during the tasks they do. The various benefits of the different Asanas and Pranayamas were discussed. The facilitator then gave the instructions to practice all the different pranayamas and asanas and demonstrated how to perform each.

Choosing a right Career leads to a win-win situation for individuals where their passion becomes their work. RMCC has been assisting students and professionals to choose their right career path. Hundreds of students took career assessments and guidance to take an informed decision and plan career pathways. RMCC has been touching lives of various individuals by assisting them to **ACE** their Academic, Career and Emotional well being.

"We educate women because it is smart. We educate women because it changes the world." - Drew Faust

DSWH has entered the 10th year since the foundation. The journey has been remarkable with the support from management team and being adaptive to the trends of residential stay.

IMPACT OF STAYING IN DSWH:

1) Independence:

Unlike their homes when students reside in DSWH they learn to be independent and self-reliant, right from managing their studies, career to responsibly managing their bank accounts and other official works. They learn to take decisions on their own without being influenced by anyone. Hostel life teaches them to get accustomed to a new environment and take care of themselves from any kind of threat and they learn tricks and ways to protect them. This significantly benefits them lifelong.

2) Interaction and Friendliness:

We have a mix of students coming from different cities and countries belonging to different cultures. Accordingly DSWH serves as a healthy place for bringing together girls from different backgrounds and giving them an opportunity to interact with each other, and learn about cultures other than their own.

Students tend to be compassionate, caring and more understanding, when they share their meals, knowledge, study related work and life experiences, views and ideas with their fellow inmates during their leisure time.

3) A Disciplined Life:

DSWH teaches the most important value of a person's life i.e discipline. They learn way of working as every work has to be done on time and within the fixed time only. For instance, they have to wake up in a particular time in the morning to having breakfast which is served in a fixed time. Similarly dinner is also served in the fixed timing. There are visiting hours and a specific time even for the inmates to go out and come back to the hostel. Besides teaching women to be independent, DSWH teaches them the importance of orderliness and discipline.

4) Sharing and Caring:

Students in the hostel have the most striking attitude of sharing and caring. Right from their opinions to their personal things they don't hesitate from sharing it with their fellow inmates.. Celebrating each other's happiness and birthdays, partying is quite common and a joyful moment for most of the girl students. They enjoy each other's company and plan for outings as well. They even share their sorrows, pains with their friends in the hostel.

5) Significant Life Lessons:

Students staying in hostels gain unforgettable experiences. It's not less than any adventure which enhances their talent, caliber and teaches them to overcome their own shortcomings and fears. Life in DSWH also gives them a chance to know people and develop friendships for life. With numerous experiences, Students see life and problems through a different perspective. Their outlook changes as well as their attitude. And this phase becomes their memory of a lifetime.

6) Boosts Confidence:

Students are confronted with diverse situations and meet all types of people while staying in the hostel. Dealing with different situations and people throughout the year boosts their confidence. Students living in the hostel also tend to get bolder in comparison to those who live in their home and hometown. They truly are better prepared to tackle challenges in their life.

In the period of April to June, all our students were busy with their respective schedules. In the month of April, students were engrossed in preparation for the final examinations.

We are serving Breakfast and Dinner to all the students residing in our Hostel. Weekly Sanitization and Pest Control procedures are carried out thoroughly under the supervision of the Rector. The Rector has been working closely with the entire major third party aide which is working in the hostel to ensure proper functioning of the institute.

Month of April

Everything was very smooth in terms of stay of students in hostel. The colleges had commenced in offline mode so we received several short term admissions. We were approached by many students from reputed institutions such as IIM and Symbiosis Pune.

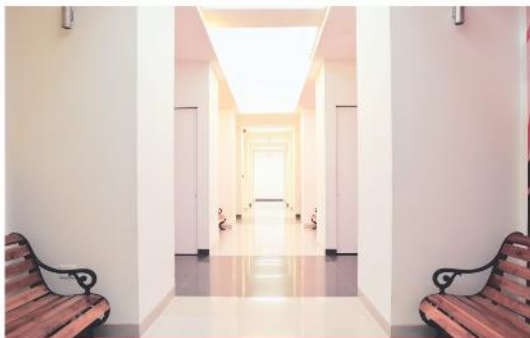

Month of May

Renewal notice had been sent to students on 1st of May. We have received good response from them. We have 2 patterns of tenure
1) July 22 to June 23 - 12 months
2) July 22 to December 22 - 6 months
All the new admissions that we took are for the tenure of 12 months.

Month of June:

We had renewals along with the new admissions and June was again a busy month for the Hostel. We had begun to receive admissions from the month of May itself and it was really soothing to see our hard work being paid off so well. The admissions and queries were being received from all parts of the country.

New admissions & students are coming from other prestigious Institutes of Mumbai for our next tenure. The students who were aspiring to

get into our hostel also gave really pleasant feedback about our institute.

2) Installation of new gym equipment was finalized in the meeting

Many students were busy in their professional courses and their examination. Others were seeking admission in their respective universities. All the students were following rules of the hostel. New students were also anxious about joining and settling in a new city. Mumbai is famous for providing people all over with a vast arena of ambitious courses and environment which is very easy to settle into.

The queries were converted to admission & fees collection. The admission were received from different parts of the country for different courses. All the facilities earlier provided were continued for hostel inmates. New students are joining us from 1st July and all of them were really excited regarding their stay in the hostel

and explore the new vistas in life.

All the old students were back from their vacations and they were getting ready to commence a new journey in their respective field. We are taking all possible measures to make their stay comfortable in the hostel. The students have also been following the rules and regulations laid down by the authorities.

News in the Digital Era:

The Challenge of Subscription as a Source of Revenue

Anand Bhisey

Prof. Anand Bhisey is a media faculty, with long professional experience across print, radio, television and internet, besides digital learning.

Technology has always brought about extensive change in the media landscape. The advent of new technology alters in a big way the manner in which the media functions – how content is produced, distributed and consumed – and this is especially true of news content. The first major technological innovation in the field of media was the invention of the metal movable type printing press in 1450, which revolutionized the way information was distributed. In fact, the printing press may be regarded as one of the key factors fostering the Renaissance and its use spread around the globe because of its effectiveness. The mechanical printing press also spawned a new form of media – the newspaper. The emergence of the new media branch was based on the spread of the printing press from which the publishing press derives its name. At the same time, then, as the printing press in the physical, technological sense was invented, “the press” in the extended sense of the world also entered a historical stage.

The first radio transmission in 1895 followed by the radio broadcasting of music and talk intended to reach a dispersed audience started experimentally around 1905-1906, and commercially around 1920 to 1923. The first radio news programme was broadcast in 1920 on the station 8MK in Detroit, United States, and the station was owned by the daily The Detroit News.

Television followed almost immediately. The world’s first television stations started appearing in the United States in the late 1920s and early 1930s. From the 1950s onwards, television turned from a niche technology into a critical form of communication.

Radio and television both posed competition to newspapers because they brought events into the living rooms almost at the same time as they happened. In the United States, radio was considered a stiff competition to newspapers in the decade immediately after the first radio

news programme of 1920, as this observation at a convention of the American Newspaper Publishers Association in 1931 shows: “... radio competes with newspapers today in news, editorials, features, and advertising, and when you have named those four you have about encompassed the whole newspaper”. Similarly, in 1963, television surpassed newspapers as an information source for the first time in history, with 36% finding television to be a more reliable source than the 24% who favoured print.

Thus, new technology has always created a disruption in the media landscape. However, the disruption has never been as major as the one caused by the internet. This is because the internet has, firstly, liberated content from the constraints of physical infrastructure, and, secondly, it has brought about democratisation by giving everyone access to platform(s) to everyone to make their work public.

Consequently, there has been a major shift in news consumption habits across the world, and, indeed, India. Readers are increasingly turning away from conventional media like

newspapers, radio and television, towards the web for their dose of news. Several (if not all) news outlets have launched online versions to cater to the online demand for news. Some others have ceased publishing their print versions and have gone purely digital. These changes in consumption habits and delivery of news has brought along its own set of challenges, the most major of them being generating revenue – revenue by itself, and revenue through subscriptions. As digital media is posing a challenge to conventional media, keeping the operations viable and feasible, and, indeed, making them profitable, has become a stiff challenge, especially since the cost of producing news (“news-gathering cost”) is high, and it is difficult, if not impossible, to cover the costs by advertising revenue or subscription revenue alone. News is a costly commodity that has to be subsidized and, at least in the mass media sense, display advertisements just are not generating enough revenue.

The cover price of newspapers is less than the production cost, making the newspaper probably the only commodity sold below production cost. Thus, in spite of an inflation rate of 400% over a 15-year period between 1996 and 2011, newspaper prices remained practically the same, making them effectively less expensive than free, as the cover price was less than the salvage (scrap) price for old newspapers. Similar is the case for other news outlets like news portals and television channels. News outlets, therefore, have to depend heavily on advertising revenue to bridge this gap and turn profitable.

As production costs go on increasing and cover prices remain almost the same, this gap in revenue goes on increasing, making news outlets rely more and more heavily on advertising revenue. This not only does not make good economic sense, but is also against

the interest of a free and fair news media as advertisers will tend to attempt to dominate what news the outlets disseminate and what they do not, and what issues they highlight and what they do not.

In the wake of the Covid-19 pandemic, several news portals have started putting up pay-walls for their content. The pay-walls range from subscription for access to premium content, and subscription for access to full versions of content, to subscription for the entire content.

Unfortunately, expenditure on news is the lowest priority in most Indian households today. In the situation of any financial adversity, news consumption (traditionally the newspaper) is almost every single time the first casualty. Ideally, the cover price or subscription cost for consuming news through a news outlet should be at least equal to, if not more than, the production cost. However, news consumers are unwilling to pay that price, or are unaware of the fact that the product they are buying (subscribing to) is heavily subsidized through advertising revenue, and this is the major challenge that news outlets face today. News outlets must devise ways to overcome this challenge and close this gap between production cost and subscription revenue. Media educators must also contribute to this effort.

Efforts need to be made to make the news consumer aware of the production cost for news outlets, and of the gap in revenue because of the low subscription costs. In other words, efforts need to be made to improve media literacy.

While every individual is a news consumer irrespective of age, it would be advisable to boost efforts to improve media literacy in our educational institutions to catch them young. Hence, incorporating media education/media

literacy in school and college curriculum is of paramount importance. Some efforts are already being made: the Central Board of Secondary Education (CBSE) has launched a pilot project and introduced media studies at the 10+2 level; the education boards of some states are also contemplating doing the same. This effort needs to be boosted, and media studies must be made mandatory in the school curriculum.

Participative and interactive events can be organized for the general public as well as students to improve their understanding and perception of the media. The events can include quiz contests, essay competitions, visits to media houses, interaction with media professionals, street plays, documentaries, and so on.

Moreover, media literacy must be treated as a social issue, and campaigns must be launched to create awareness on the lines of those that were implemented for promoting education of girls, clean India and polio vaccination.

Further, popular festivals like Ganesh Chaturthi, Navratri and Durga Pooja can be used as platforms to promote media literacy and highlight its importance.

Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthani Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthani Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthani Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthani Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthani Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthani Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthani.org.in
