President's Message

Dear Reader.

At the outset, I convey my warm greetings to everyone at the beginning of the academic year!

The history of Rajasthani Sammelan Education Trust is a narrative of response to society's call - a call to turn youth of our country as superior human resources so that they can attain excellence in their respective spheres of work. We at Rajasthani Sammelan Education Trust are totally committed to achieve this goal. We aim to mould our students by providing them education in such a way so that they can not only lead a dignified life but be pro-active and innovative. Our aim is to turn our students into a global technical community capable of establishing themselves in any part of the world so that they can lead a happy and prosperous life and are also able to apply technology and knowledge to the benefit of mankind.

It is with great deal of satisfaction and pride that I look back at the journey of 76 years that has brought Rajasthani Sammelan Education Trust from its early beginnings of operating a single school to the present position of running fourteen educational institutions, an online academy, a counselling centre, a sports academy, a women's hostel and a boys' hostel. We at RSET aim for excellence and all the institutions managed by the Trust strive to achieve this in their daily activities. However, we always had a policy of inclusiveness and a will to serve the economically backward sections of the society. Hence, we have kept our fee structure at the lowest in some institutions. At the same time, we are providing such institutions all possible technical, infrastructural and teachinglearning facilities to maintain a very high standard. This has been possible due to the magnanimous donors who have always come forward with large amount of donation for the cause of education.

The new academic year has started with 100% result of the students of Ramniwas Bajaj English High School (RBHS) at ICSE Board examination, 100% result of the students of Mainadevi Bajaj International School(MBIS) at IGCSE examinations and 100% result of the students of Kudilal Govindram Seksaria English School (KGES) at SSC Board examination.  $Greetings for the \, New \, Academic \, Year!$

It gives me immense pleasure to note that Growel Science Laboratory has been a beacon of curiosity and discovery for students from Grade 5 to Grade 10 of Kudilal Govindram Seksaria Sarvodaya School (KGSS). Over the years, it has nurtured young minds, sparking a passion for science that transcends textbooks. In the past three months, Growel Science Laboratory has been a hub of various educational activities aimed at fostering scientific curiosity and innovation among the students.

In April, the lab hosted workshops on renewable energy where students learned about solar power models. May witnessed the launch of the "Young Scientists' Program," in which students worked on projects related to environmental sustainability. June was dedicated to hands-on experiments in Chemistry, allowing students to explore reactions and compounds in a controlled environment. For every experiment conducted, and every question asked, Growel Science Lab has played a pivotal role in shaping the future scientists, engineers, and innovators of tomorrow.

I am very happy to observe that Growel Science Laboratory has given students the tools and the environment to understand the world around them, fostering a deep sense of wonder and appreciation for the mysteries of the universe. The lab is also shared by the students of Kudilal Govindram Seksaria English School (KGES) for conducting their practicals. It is my great pleasure to know that every year, students of KGSS & KGES participate in the Science Exhibition organized by 'P' ward. Many times, students of both schools have won many prizes at the Science Exhibition for their projects.

As the annual and entrance examinations draw to a close, the next quarter often brings a mix of success and unfulfilled aspirations for students. Recognizing this, RMCC has taken significant steps to support students through its robust guidance programs. These initiatives aim to help students achieve their desired careers by aligning their personalities and academic capabilities with their interests.

RMCC's guidance program has assisted hundreds of students in mapping their career paths. Through detailed student profiling, RMCC identifies students' strengths and interests, ensuring a personalized approach to career planning. Individualized sessions with students and parents were conducted to define clear career pathways, providing a tailored roadmap for each student. The 5 dimensional evaluation of the student profile is followed with individualized counseling session and career planning.

For students facing academic difficulties, RMCC conducted psycho-educational evaluations to uncover their academic challenges and determine appropriate interventions. Special

Educators played a pivotal role in promoting inclusive education and supporting students with diverse learning needs. Collaborative meetings involving counselors, class teachers, and special educators were held to address individual student requirements, develop tailored interventions, and implement effective support strategies.

Regular parent meetings have been a cornerstone of RMCC's approach, providing valuable opportunities for parents to connect with counselors and special educators. These meetings served as platforms for discussing student progress, addressing concerns, and fostering a collaborative partnership in supporting student development.

Demonstrating a commitment to hands-on support, Special Educators at RMCC led and participated in a total of 500 offline sessions. These sessions encompassed a range of activities aimed at addressing individual learning needs, facilitating skill development, and promoting academic success.

RMCC has been closely working with RSET schools to provide support and guidance to students. At RBHS, the counselor actively engaged in various activities to support

academic and behavioral development. A total of twenty-four parent meetings were held to discuss concerns related to students' academic progress and behavior. Additionally, the counselor collaborated with the coordinator, principal, and class teacher to address individual student needs. The new session at RBHS began in June with a comprehensive orientation, where the counselor provided detailed information about the counseling services, referral process, and roles for the upcoming academic year.

MBIS conducted an orientation for the new academic year on June 30th, featuring key speakers including the director and the counselor. The event introduced the secondary section to the Career Guidance Cell, which aims to assist students in planning their future careers and making informed educational choices. For primary and pre-primary students, the orientation provided valuable information about the well-being faculty, a dedicated team focused on the emotional and psychological health of the students.

RMCC is dedicated to helping students make their dreams a reality by pursuing careers of their interest both in India and abroad. Regular webinars are conducted to educate students and parents about higher education opportunities overseas. These webinars guide students through the entire process, from career guidance to university shortlisting, application procedures, and visa processes.

Through these comprehensive initiatives, RMCC continues to empower students to achieve their full potential, ensuring they are well-prepared for their future academic and career endeavors.

Everything was very smooth in terms of stay of students in hostel. We have taken seven extra short-term admissions and we were approached by many students from reputed institutions such as IIM Symbiosis and IIFT Delhi. All the facilities earlier provided to the hostel inmates are still continued i.e. Food, House Keeping, Maintenance, laundry, Security and Wi-Fi. The work was also done routinely all the daily work and duties were carried on well. All the students had given good feedback which motivated us to continue working with the same dedication and a highly spirited manner.

We had started receiving admissions from the month of April itself. The admissions and queries were being received from all parts of the country. All the new admissions that we took are for the tenure of 12 months.

All our students were busy with their respective schedules. The students were engrossed in

preparation for the final examinations. We are serving Brunch and Dinner to all the students residing in our Hostel in order to ensure safe and hygienic food consumption. Besides students, we are also looking after the needs of our support staff to provide them with all the necessities.

Weekly Pest Control procedures are carried out thoroughly under the supervision of the Rector. The Rector has been working closely with the entire third-party aide which is working in the hostel to ensure proper functioning of the institute. The Rector has been available round the clock for each and every student in order to ensure the welfare of all the students of the hostel. Security and H.K. had been made available in the hostel WIFI service was also satisfactory and prompt response was received from the team as well.

Month of June:

We had begun to receive admissions from the month of May itself and it was really soothing to see our hard work being paid off so well. The admissions and queries were being received from all parts of the country.

New admissions & students are coming from other prestigious Institutes of Mumbai for our next tenure. The students who were aspiring to get into our hostel also gave really pleasant feedback about our institute.

Many of the students were busy in their professional courses and their examination. The other was seeking admission in their respective universities. The students had also maintained the dignity of the hostel by abiding with the rules and regulations laid by our authorities. New students are also anxious about joining and settling in a new city.

The admissions were received from different parts of the country. Looking at the response we could easily make out that more and more people were interested in accommodating their ward in our hostel for the safety and security measures taken by the authorities. They were really impressed by our hostel. "Dream with ambition, lead with conviction ...

When we talk about Gen Z and Technology, their reliance on smartphones comes to mind from paying lunch with a tab to battling friends in epic mobile games to chatting with classmates anytime, anywhere, mobile technology keeps us connected and entertained. That's the potential of Gen Z and technology together.

Research of Pew Research Center has found that 45% of kids claim they are online "almost constantly" and that 95% of them have access to smartphones. According to Global weindex poll, 77% of Gen Z customers spend at least three hours each day using their smartphones and 53% of them prefer to shop via mobile apps.

Social Media: A True Friend Social media has significantly changed the relationship between Gen Z and technology. They use it to communicate with one another, exchange stories, and air their ideas. As a result, there is now more emphasis on using visual storytelling and social media influencers to market goods and services.

- 81% of Gen Z customers in the US are engaged on social media
- 47% use it for product research, according to a Kantar analysis.

Gen Z and technology are shaping the future

through the use of social media. They are super active on platforms like Instagram, Snapchat, and TikTok and use these platforms to communicate, share their experiences, and stay up-to-date on current events. Generation Z and technology are also shaping pop culture – especially the rise of TikTok and Frontnite we see today. The advent of Chat-GPT does not make you master of subject and Teacher to Teacher, It's totally not acceptable to have more friends and followers on facebook and Instagram as against few whom you can rely on. Social life have become more sophisticated as compared to personal life. Persistency and patience are needed to grow and succeed.

Gig Economy

Though Gen Z and tech dependency are prevalent, it extends beyond consumption and communication. Gen Z technology is shaping current work habits, and the gig economy is on the rise. Upwrok, Fiverr, and Task Rabbit are inspiring Gen Zs to choose freelancing and remote work over regular 9-to-5 jobs. There are a few top side gigs for students, through which they can learn on the job, up-skill, and use the experience for their CV.

Impact on the Future of Work

The inclinations of Gen Z for remote work and flexible schedules are also altering how we view the nature of employment in the future. Due to the impact of technology on Generation

Z, many businesses are now implementing remote work policies and spending on collaboration technologies. The gig economy is also offering freelancers and entrepreneurs new opportunities, which have the potential to upend established businesses.

Implications for Education

Growing up with technology, Gen Z is reshaping education as they enter the workforce. Gen Z and technology are intertwined, enhancing their learning preferences. This demand fuels the popularity of online platforms: you can find some of the best courses to do, through which you can learn about data science, UX design, etc. Udemy, another online platform, offers courses to help Gen Zers upskill from their sanctuary. Traditional classrooms now also integrate Gen Z technology, like interactive whiteboards and gamified apps. The emphasis on online learning, individualised instruction, and Generation Z technology utilisation in the classroom has increased as a result of this.

How technology affects the younger generation?

In general, technology use can cause social and behavioral problems in children because it minimizes the amount of time kids spend interacting with others. Make sure to monitor your child's social media use and be aware of the types of websites they're visiting and the games they're playing online. With children spending more time typing or tapping on a screen,

they're naturally spending less time outside or engaged in physical activities. Research has also found that children and adolescents may engage in more mindless eating while watching TV or playing video games. As a result, we're seeing increased obesity rates in children and adolescents.

Negative Effects of Technology on Social Development

Technology has completely changed the way we interact with each other. Even as adults, we are more prone to send a text vs. make a phone call. Similarly, we often behave differently on social media than we would in person. These differences aren't exclusive to adults. When Gen Z spend a significant amount of time on social media, it can lead to lower self-esteem. Teens are seeing curated content, a digital highlight reel, which can lead to distress due to teens comparing themselves to their peers. In general, technology use can cause social and behavioural problems, because it minimizes the amount of time spend interacting with others. Electronics, like smartphones and tablets, make it harder for people to concentrate and easier for people to be distracted by constant sounds and notifications. According to a research study in Canada, since technology use increased (around the year 2000) the average attention span has decreased from 12 seconds to eight seconds.

How to manage this Roller-coaster?

Prohibit smartphone use while working at home,

encourage conversation and interaction during dinner time, turn the TV off while important family discussions. Encourage yourself to take time to unplug and disconnect. Get outside, interact with others, and engage in activities that don't involve screens, like board games, books, and puzzles. It's important to read, write and review your thoughts. Minimise the OTT subscriptions and spend quality time with your friends and family with a cup of coffee.

Being accommodative, adjusting and appreciative is the new way to live. It's YOU who can make difference in society today, tomorrow and always. So **THINK**, **RE-THINK** & **RESPOND**.

Memorable Events/ Journey in the Institution:

As a student of DSGS, I would like to share my journey. There are amazing moments, honestly speaking I still remember the first day it was so amazing. I was nothing in specific but the method of teaching and the politeness, calmness and the way everyone communicated with each other was amazing. I instantly fell in love with Economics.

Although my batch was online batch due to COVID-19, but I don't think we enjoyed any less than, it would have been if it were to be offline. We had lectures around the clock but each lecture passed in fun even though we had to prepare many projects, as everything is easy and fun with friends.

As time passed by, I learned one thing that every professor had their own style of teaching and it was unique in their own way as I learnt many interesting things. For the first time in life, I was liking what I was learning.

I had fun time at DSGS learning as well as developing my skills as a professional and I found a job where I am mentally happy as Mental health is very important at any work level.

I would like to thank all my professors and may they live a long and a happy, healthy life.

Memorable Events/ Journey in the Institution:

My name is Bashir Mustafa Patel, and I am proud to share my experience as an alumnus of DSJC. One of the most transformative experience for me was joining the NSS. Before this, I was a boy who couldn't speak in front of four people. However, through the opportunities provided by NSS, now I am able to speak in front of more than 500 people. This experience has significantly transformed me socially and academically. The support and guidance from our teachers were phenomenal. They were more than just educators; they were like our parents. Their dedication helped me improve my academic performance, and I scored 87% in my HSC, topping two subjects in my division. A pivotal moment was attending a seven-day f residential camp of NSS. This camp instilled in me good ethics, discipline, respect, confidence, and a whole array of life skills. I was honoured as the "BEST CAMPER AT THE CAMP" and "THE BEST NSS VOLUNTEER" of the Year 2022-23 on Annual Day, a moment that filled me with immense pride and joy. Thank you, DSJC, for an unforgettable journey and for shaping my future.

Memorable Events/ Journey in the Institution:

During my college years, the first two were conducted online due to the COVID-19 pandemic. The only year I physically attended college was in my third year. I am proud to have served as the secretary of The Rotaract Club of Ghanshyamdas Saraf College during this time. Throughout that year, we successfully organized approximately 120+ events. Each event was memorable, but the one closest to my heart is the Monsoon Trek. We organized this trek, which had the participation of over 150 students, resulting in a wonderful and unforgettable experience.

I am particularly grateful to the teacher coordinator of Rotaract at our college. Her constant support and guidance were instrumental in making my last year of college the best one.

PROPOSED

Captain (IN) Anant Yadnik (Retd.), CEO, RSET

Dear Reader,

Recently I have personally come across a very motivating story of a young boy and I have penned down this experience in my own words, the title of which is

A Unique 'Lift'

Guru pournima had just passed, and I had completed most of my office work in the previous week, so I was feeling extremely tired. At such times, I usually go to nature to refresh myself, and be ready to work again with more zeal and enthusiasm. . My wife was not feeling

three days to my favorite place ----- 'Lonavala and its surrounding area...! Historical Borghat, Valleys, Mountain peaks, Streams, Waterfalls, Caves, Forts, and Dense rain, so much so that nothing was visible even twenty to twenty five feet away while travelling... I hadn't seen the sun during the entire journey.

I had booked a resort at Pawna Dam, at Club Mahindra. The road to the destination was so narrow and rough that it was scary, with tall mountains on one side and deep valleys on the other. We had come out to experience this thrill in the heavy rain... At such times, your focus is only on the steering, road, and the white line on the middle of the road... Everything else is forgotten.

I have many memories of Lonavala, starting from my career in the Indian Navy. My first posting was at INS Shivaji. Bhushi Dam was not as crowded as it is today, especially during the monsoon season... The old Pune-Mumbai highway was there, not the current expressway. Whenever I think of Lonavala, I remember the past, three to four decades ago... INS Shivaji, Ekvira Goddess, Bhaja caves, Chikki, traffic jams at Borghat, the peaks of the mountains touching the sky, the

deep valleys, and many ancient and Shivaji-era

We left Mumbai, and it had been raining heavily for two to three days, with dense fog and continuous rains... The resort was in front of 'Tung' Fort, and I felt like going back in history... 'Har Har Mahadev...' Subhedar Netaji Palkar had taken Shivaji Maharaj from Lohgad, and the sound of cannons was still echoing... I felt like bowing down to Maharaj...

Three days passed quickly in the lap of nature, and it was time to return... The rain was still pouring heavily... After travelling just few kms, we saw a small school boy, around sixteen or seventeen years old, asking for a lift... There were no vehicles around, and I was surprised to see him... He was thin, had bright eyes, and a cheerful smile... His name was Prem, and he lived in a nearby village... He was in the eleventh standard... I was curious, so I asked him, 'How do you go to college every day and how far it is? "The college is 27 kilometres away in Lonavla and I take a lift from someone up to town and then walk few kms to the college", said the boy.

'What if you don't get a lift?' was my question to him. 'Then "I go back home" was the reply 'Who is at home?' was my next curious question 'My parents, they work as labourers, and I have three younger sisters... 'What do you want to become? 'was my follow up question, he promptly replied 'Computer Engineer...' He was confident and determined...

I couldn't speak for a moment, and my heart was heavy... The song 'Jindagi har kadam ek nayi jung hai, jeet jayenge hum tu agar sath hai...! was playing on the FM... It was a pure coincidence... We chatted a bit, and I dropped him near his college... He said thank you, and I felt like helping him, giving him some money... But he refused, saying he was happy to get a lift to college... I forced some money into his pocket, saying it was for his sisters... He didn't like it, but he smiled... He waved goodbye and started walking quickly towards his college... I put the car in next gear and moved forward, but my mind was still with Prem... How would he go to college so far from his home every day? Who would give him a lift? Would he get a lift while returning home? Would his sisters study? Many questions were bothering me... The rain was pouring heavily outside, and a storm of thoughts was brewing in my mind...

Prem, a young boy from a small village, was born to honest and hardworking parents... He was well-mannered and determined, but circumstances had created obstacles for him... He had a path to follow, but circumstances were holding him back... Would he find a Mentor?

Our Gratitude to the Large Donors of

All our Donor Trustees, Office Bearers and Managing Committee Members bring with them an extensive experience and knowledge of running their successful enterprises. It is largely due to their efforts, vision and commitment that RSET has grown in the size and stature. Our gratitude to all our Members for joining with us in our educational endeavours.

^{1:} The above table lists the families whose Membership value is above two crores.

^{2:} In the above Table, where the Present Membership Value amount is the same, the order appears as per the date on which the membership was given.

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthani Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthani Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthani Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthani Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthani Sammelan. As they say, "Itall begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthani Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthani.org.in
