# President's Message

Dear Reader,

Albert Einstein once remarked, 'Education is what remains after one has forgotten what one has learned in school'. This profound statement challenges the conventional understanding of education, suggesting that true learning transcends rote memorization and classroom instructions. It speaks to the essence of education as a life long journey of discovery, understanding and personal growth. We at Rajasthani Sammelan Education Trust not only pursue academic excellence in our educational institutions but also motivate and empower students of our institutions to be life-long learners critical thinkers and productive members of an ever changing global society.

The diverse academic disciplines integrated with cultural & sports activities is the driving force to make our students proficient to face any challenges of the global community. Therefore, we have provided all latest technological support for teaching-learning, modern infrastructure, have created alumni network and at the same time teaching them basic values of life. The implementation of National Education Policy of 2020 in institutions of higher education has put many challenges before the Management. We have to provide additional classrooms, appoint more faculty along with many other additional facilities to introduce four years undergraduate courses.

# Hon. Secretary's Message

Dear Reader,

Swami Vivekananda believed that if the human beings are persistent enough, they have the potential to overcome any hurdle, when he said "Arise, Awake! And Stop not until the goal is reached". These golden words of Swami Vivekananda applies to the Team of Office Bearers, Trustees and Managing Committee members of Rajasthan Sammelan Education Trust.

We are in an unending journey of our educational endeavours. We are ready to face any hurdle that comes in our way to spread the light of education to the children and youth of new generation. Institutions managed by our Trust have been a symbol of quality education accessible to students hailing from different social and economic strata in Mumbai, all over the country and from different parts of the World. Our institutions have upheld the highest standards of academic delivery to students while being adaptive to the dynamic education ecosystem of our country. Many finest graduates and postgraduates have passed out from the portals of the institutions of higher education. They are now occupying noteworthy positions across the country as well as all over the world.

In the past few months, many important events took place in RSET campus. Dear Reader,

Good quality of education is vital for nation building. India has emerged as one of the world's fastest growing economies. Therefore, our biggest challenge is to ensure that our young population is educated holistically so that our demographic assets provide us rich dividends in future. Unfortunately, educational opportunities are not available to all equally. Youth in an urban area has greater chance of acquiring education and training than someone in rural areas. Our Government is pursuing variety of education related policies for access of education to all. However, role of private educational trusts is important to provide educational opportunities to the present generation.

In the past few years, funding of educational institutions by the State or by the Central Government is slowly dwindling. Therefore, education is becoming costlier day by day. It is therefore becoming very difficult for middle class families to bear expenditure of educating their children, especially to provide higher education. At the same time, teaching methods have also undergone changes. Classroom lectures are supplemented by presentations by LCD projectors, usage of internet, zoom meetings, air-conditioned computer labs and so many other teaching aids. This is becoming a challenging task for Managements of educational trusts to bear the burden of infrastructural costs and at the same time maintain the quality of education.

Recently, Mumbai University has been granted Category 1 graded autonomy status by the University Grants Commission (UGC). This status is a further boost to the University which has scored a NAAC grade of 3.65 in the current cycle, the highest among the state's public universities. The new status has opened a new avenue of educational opportunities for the university. It will help in the internationalization of education in line with the National Education Policy (NEP). It will be now easier to collaborate with leading foreign universities and offer joint programmes. The university has signed an MOU with two renowned American Universities and is exploring dual and joint degrees, exchange programmes and many other offerings. Since all our institutions of higher education are affiliated to Mumbai University, we are sure that we will also be benefitted by the autonomy status of the University.

Rajasthan Sammelan Education Trust has received strong support from many philanthropists in its educational endeavours who have come forward from time to time with generous donations to start new institutions and also to provide various

**Dr. Sunanda Kar, Editor**

facilities in RSET Campus.

With the enactment of laws related to Corporate Social Responsibility (CSR) we look forward to responsible corporate citizens to come forward and support in the educational endeavours of Rajasthan Sammelan Education Trust.

In spite of the high cost of providing good quality of education in all the institutes, the Management members have been fully encouraging all the institutions not only to provide best education to students but also to support sports and extra-curricular activities for all round development of the students. The Management members have always taken care in maintaining the infrastructure.

At RSET Campus, the first half of this academic year was a great challenge for all Heads of Institutions. On one hand, teachers had to complete syllabus in time followed by unit test of schools and junior college and also first term/semester examinations of colleges and other institutions of higher education. In between there were celebrations of national importance such as Independence Day, Teachers' Day, Hindi Diwas and so many other extra-curricular and co-curricular activities. At the same time, festivals were also lined up in a row. Starting from Parsi New Year, Rakshabandhan, Ganesh Chaturthi, Eid and Navratri - all created a feeling of joy and enthusiasm in the minds of schools and college students & also broke the monotony of studies.

During this time, our schools have received high ranking by Times School Survey 2023. Mainadevi Bajaj International School received 1st rank in Zone D and 3rd in Mumbai amongst schools with Cambridge Curriculum as per the Times School Survey 2023. Mainadevi Bajaj International School and Ramniwas Bajaj English High School have received many awards for 'Excellence in Education'. Kudilal Govindram Seksaria English School ranked 8th in Mumbai as per Times School Survey 2023 amongst the schools with SSC curriculum.

Individual achievement of some of the students is also worth mentioning. Mst. Shourya Gowda from Std V of KGES received a place in the Guinness World Record for being the fastest achiever in the 100 metre Inline Skates Tournament in 11.21 seconds. Aarya Bhatia of RBHS won gold in 2 swimming events at the Eighteenth CISCE Zonal Swimming Championship 2023 hosted by Jamnabai Narsee School. Anika Bhatia of Grade 7 won 3 medals as she represented Maharashtra at the CISCE Swimming National Championship 2023 which was held at Padukone Dravid Center for Sports excellence at Bangalore.

We are sure that under the guidance of our visionary President and his team of Management members, our institutions will definitely grow further to greater heights.

On completion of studies, when one applies for a job, it distinguishes the candidate's resume to stand out. To encourage such brilliant students, Rajasthani Sammelan Education Trust is regularly awarding merit scholarships to students of all institutions every year through IRB Endowment Scholarship Fund. The scholarships are awarded annually at a grand function with great fanfare which makes the recipients all the more happy and excited.

It is interesting to note that all the institutions of the Trust have conducted many activities during the past three months. All the institutions jointly celebrated Independence Day in RSET campus with flag hoisting followed by cultural programme with patriotic theme. The Chief Guest on this occasion was Shri Rajkamal Bajaj. This was followed by celebration of Teachers' Day and Hindi Diwas by respective institutions in the month of September. At the same time all the schools and institutes of higher education have excelled in academics also. I am pleased to note that that Ramniwas Bajaj English High School and Mainadevi Bajaj International School have received many awards for excellence in education and for adopting innovative teaching methods.

I am happy to note that institutions of higher education have hosted seminars, conferences, guest lectures and faculty development programmes. Ghanshyamdas Saraf College and Durgadevi Saraf Institute of Management Studies are approved research centers by Mumbai University and many students have enrolled for their doctorate degree in both the institutions. The Management is nurturing talents of students in sports through Pravinchandra D. Shah Sports Academy.

I congratulate the Managing Committee members for their vision and hard work. I wish them further success in their educational endeavours.

Growel Science Lab  
At KGSS

Dear Reader,

Laboratory work is considered essential in promoting students' learning for science and of scientific inquiry. Children are able to retain knowledge for longer when they see the experiments being performed in front of their eyes. Therefore, Growel Science Lab at Kudilal Govindram Seksaria Sarvodaya School is an integral part of teaching-learning of the school. It allows students to explore scientific concepts, view changes in matter and acquire scientific skills in an atmosphere similar to a professional scientific environment. The Lab is also used by students of Kudilal Govindram Seksaria English School.

I am pleased to know that the students are duly supported by the Lab Assistant who keeps the lab ready well in advance with equipments and chemicals. KGSS has also extended help to other institutions for the usage of Growel Science Laboratory as and when needed. I am happy to know that every year, students of KGSS & KGES participate in the Science Exhibition organized by 'P' ward. Many a times, students of both the schools have won many prizes at the Science Exhibition for their projects.

Rajasthani Sammelan Education Trust is also taking care of the physical well-being of school children through Vijay Pal Singh Health Centre. Regular health check-up of school children is being conducted by the Centre. Ayaksha Health Services, working for the health centre also conducts workshop on how to reduce Anxiety, Stress and Exam fear for the students. Many students of schools & colleges participated in prestigious inter-school/intercollegiate competitions & received prizes. Durgadevi Saraf Institute of Management Studies and Durgadevi Saraf Global Business School also successfully conducted Remsons International Conference on 26th August, 2023 under the aegis of Remsons Centre for Management Research (RCMR) in a grand manner.

Suwadevi Doongermal

at MBIS

Dear Reader,

It is a matter of great pride that Mainadevi Bajaj International School (MBIS) received the Award for Excellence in International School Education on Friday, 28 July, 2023 at the celebration of the Mid-Day Education Icons 2023. MBIS was also felicitated by Free Press Journal for being a school imparting Outstanding Learning and Curriculum. MBIS achieved the remarkable feat of being ranked No. 1\* in Maharashtra for providing Holistic Education by Education Today. MBIS has also received 1st Rank in Zone D and 3rd in Mumbai amongst schools with Cambridge curriculum as per the Times School Survey 2023. Accept my heartfelt compliments to the Principal, Staff, and Students for such excellent achievements.

The new catch phrase all over the world today is STEM—Science, Technology, Engineering and Math. Promoting this is one of the important goals at Mainadevi Bajaj International School. For students who are seeking to pursue the science stream as a choice of study and career path, Chemistry becomes one of the important disciplines. The successful pursuit of such a subject is possible only if there is provision of requisite infrastructure.

Suwadevi Doongermal Patodia Chemistry Lab which is located on the 9th floor has been fully utilised by the students of Mainadevi Bajaj International School for their Chemistry practicals, practical examinations, and also for competitive examinations like Science Olympiads. The early exposure to such a facility is important for young students and hence Primary Section students also make an occasional visit to the laboratory. The Chemistry laboratory is well equipped with all the essential apparatus and chemicals required for complete learning as per international standards. Keeping in mind the safety and security of the students, the lab follows all the standard safety precautions. I wish you all excellent growth and development in all the institutions of Rajasthan Sammelan Education Trust.

Vijay Pal Singh  
Health Centre

Dear Reader,

In a metropolitan city like Mumbai, there are nuclear as well as dual career families in which both the parents are pursuing their career. Since they are busy, mostly children are left in Baby-sitting (crèche) or in the care of full time helpers at home who take and bring back children from school. Often, health problems at the early stages go unnoticed. Therefore, Rajasthan Sammelan Education Trust is very wisely carrying on health check-up of children through Vijay Pal Singh Health Centre named after my respected father Late Shri Vijay Palji Singh. The Agency named Ayaksha Health Care Services has been working on behalf of the Trust and is taking care of the health related issues of school children.

It is heartening to note that in this academic year regular medical check-up of school children has been carried out by qualified doctors at Vijay Pal Singh Health Centre and special care has been taken to guide for improving the nutritional condition and health status of the students. The Health Centre has also conducted workshop on Good Touch Bad Touch for small children, Exam anxiety and other issues pertaining to senior students. The Health Centre has also provided full support of providing first aid during sports events organized in Pravinchandra D. Shah Sports Academy. During field trips of schools, the nurse from the Health Centre accompanied the students.

It is a matter of great pride that all the institutions are constantly engaged in the pursuit of academic excellence. Faculty members of the colleges and management institutes have presented their research papers in prestigious conferences. Their research papers have been published in reputed journals. Students have participated in interschool as well as intercollegiate competitions and have won many prizes. I compliment the Management, the Principals, Staff and Students of all institutions for their excellent growth.

Ramnarayan  
Saraf Educational  
Outlet

Dear Reader!

I am very happy to know that Ramnarayan Saraf Educational Outlet has been extensively used in the past few months. With first semester exams approaching, large number of students regularly visited the educational outlet not only for stationery items but also for xeroxing, scanning, obtaining xeroxed study notes and also for other items required for preparing their projects. Ramnarayan Saraf Educational Outlet has proved to be a boon not only for all the institutions to fulfill their stationery requirements but it has helped parents and students of schools greatly as they easily get full set of text books, note books as well as work books as required class wise. Since, the educational outlet is also doing printing work, printing of banners, invitation cards, stationery are also done here.

My father late Shri Ramnarayanji Saraf was devoted to the cause of education & worked very hard for success of educational projects of Rajasthani Sammelan Education Trust. He was always concerned to provide maximum facilities to the students in the campus of RSET. Today, in his absence it becomes moral duty of our family to be involved with the activities of the Trust with full devotion.

It is heartening to note that all the institutions run by the Trust are becoming popular day by day for their high academic standards. Ramniwas Bajaj English High School and Mainadevi Bajaj International School have received many awards for excellence in education and for adopting innovative teaching methods. Mainadevi Bajaj International School has received 1st Rank in Zone D and 3rd in Mumbai amongst schools with Cambridge curriculum as per the Times School Survey 2023.

Agrawal (Nevatia) Seminar Hall  
at DSIMS

Dear Reader,

It is necessary for all institutions of higher education to regularly organize seminars, workshops and conferences for exchange of ideas between the faculty members as well as the students. In modern days technological aid is required for success of such seminars and conferences which is provided in Smt. Smita Mahavir Agrawal Seminar Hall of Durgadevi Saraf Institute of Management Studies for organizing such activities.

I am pleased to note that Smt. Smita Mahavir Agrawal Seminar Hall has been fully utilized in the past few months by DSIMS & DSGS for holding lectures, guest lectures, workshops, seminars and Board Meetings. DSIMS is providing a helping hand to other institutions for conducting Board Meetings and Seminars by extending this facility. Recently, the meeting of Managing Committee and Board of Trustees of Rajasthan Sammelan Education Trust was also held in Smt. Smita Mahavir Agrawal Seminar Hall.

The story shared by the Principal, When One Door Shuts- The story of Julio Iglesias resonated with motivational words instilling the spirit of determination and perseverance. The short poem read out by our Principal, Dr. Padmajaa S Kutty enhanced the entire proceedings. The poem goes as follows:

When things go wrong as they sometimes will  
When the road you're trudging seems all uphill  
When funds are low and the debts are high  
And you want to smile, but you have to sigh  
When care is pressing u down a bit  
Rest if you must, but don't you quit.  
Don't give up though the pace seems slow  
You may succeed with another blow

Success is failure turned inside out  
The silver tint of the clouds of doubt  
And you never can tell how close you are  
It may be near when it seems so far  
So stick to the fight when you are hardest hit  
It's when things seem worst that you must not quit.  
And rest if you must but don't you quit.

UNLEASH YOUR POTENTIAL

## *The* *Investiture Ceremony* of the Student Council RBHS

It is said that in order to win and succeed in life, responsibility is important. This is a part of being an adult and learning how to be responsible for everything. We strive at making our students independent and responsible so that they can be capable to make decisions that can alter their lives in a positive way.

The candidates went through a round of elimination whereby the staff judged their capabilities, strengths and weaknesses based on discussions and anecdotal references. Students selected their leaders by secret ballot by being mindful of the qualities of the candidates. The Head Boy and Head Girl were selected through an interview round conducted by a panel of teachers and the Principal who judged them on their work ethics, futuristic thinking, team spirit and problem-solving ability. The process of campaigning also comes its own bag of learnings – how to be persuasive, how to face a crowd and engage them to listen, how to be respectful of your opponent and not indulge in

malicious means to garner votes.

We elected a batch of 20 well deserving office bearers for the student council for each section of the school.

On 28th of July the members of our Student Council were inducted into their roles. It is always a joy to see our children assume roles of responsibility as they take their baby steps into the world of taking ownership. The occasion was graced by our trustee Ms Archita Saraf Rajpuria and Chief Guest Lt. Col. Manoj Kumar Sinha (Sena Medal- retd) who is not only a motivational speaker but someone who inspires others with his sense of devotion, purpose and dedication to the service of the future generation.

Lt Col Sinha awakened the spirit in all his listeners as he spoke about being selfless and not taking things for granted. It is important, he said, to achieve good marks but it is your duty to ensure that your learning prompts you to

work for the good of the country. He asserted that everyone is looking forward to the change two decades later, but if we do not work for the change but none of this would benefit us.

The office bearers were conferred with badges and sashes. The School Council Members were now prepared to take up responsibilities entrusted to them for the new academic year.

The 2023 ICSE toppers of the school were also felicitated along with Sajjad Nakhwa, an alumni of the 2020 batch, who secured himself a place in the prestigious IIT Powai.

Parents of the ex-students and some ex-students spoke fondly of the experience they had had with the school and the memories they cherished the most.

The PTA members marked the Vann Mahotsav by gifting saplings to the office bearers and the grade 10 toppers.

Hindi Diwas, celebrated on September 14th, honours the adoption of Hindi as India's official

language. In today's tech savvy age, where abbreviations have become the official lingo, it is a gentle reminder how this rich language not only celebrates our rich cultural heritage but also gives us our unique identity globally.

At RBHS, the celebrations began by inculcating this thought in the minds of our young learners during the assembly and culminated in fun filled activities honouring our "Rashtrabhasha". The young students played with play dough and carved the Hindi letters moving on to creating

words by joining various letters. Students recited theme based poems while others indulged in meaningful speeches. Grade 5 tried their hands at debating with their opponents.

The zeal was heightened in the secondary section when Grades 9 and 10 put up 'Nukkad

Made in India - Ad campaign

Creating alphabets out of clay

Nukkad Natak about Road Safety

Natak' with the theme of road safety. This competition was the part of SUPW activity topics such as driving without helmet, not using cell phones, underage driving and seatbelt usage were depicted.

Personnel from the Police Department were invited to judge and they left us with words of caution and advice about following rules. Students also put up an Ad ready competition where they had to advertise for Made in India products like – organic dishwashing liquid, plantable pencils, homemade cloth bag and edible cutlery. The students went the extra mile to create the cutlery and allow the judges to sample it; the jingles and punch lines were amazing.

Students participated in the competition enthusiastically. It was a great learning with so much of innovation and creativity honouring our Rashtrabhasha.

### La Actividades (CO-CURRICULAR)

Swinging it away on the Shilonda trail

Nature is the source of all true knowledge. Shilonda is one of the trails at Sanjay Gandhi National Park. The exclusivity of this trail is despite being short in distance our students could see and explore a vast variety of species of flora and fauna. Shilonda Trail is 3 Km from Borivali entrance of SGNP. The trail is approximately 2 km long. It's a place where students experienced pure nature with zero pollution. It is a home to many amazing plants and animals. The place is

serene and has a freshwater stream at the end.

Being the monsoon season, the entire trail was lush green and showcased nature at its finest. The children saw bamboo, orchid, Siam weed, wild turmeric, a different variety of grape plant, mushrooms, as well as spiders, crabs, earthworms and an ant hill. There were a few leopard pugmarks in the soil or claw marks on the tree. The signboards placed at intervals provided information about the various life forms found on this trail. Also, a small river that crosses the trail is a great place to stop and enjoy splash water on one another. The water was fresh and cool, and we all enjoyed nature at its finest.

The greatest learning is in the lap of the Nature

The students of grade 8 to 10th set out for the monsoon trek to Karnala fort, it is a 1 hour/2.69km from the bottom of the hill. It is a fort of strategic importance as it is connected to the Bor pass to the Vidarbha region of Maharashtra. The trek had steep steps and was quite risky. Each one helped other in climbing up but everyone took it in a stride with a lot of safety and enthusiasm. Under the guidance of the tour escorts and teachers, students climbed up on the top and experienced the light showers. The other place that they visited was the Yusuf

Meherally centre that helped them to gain practical knowledge about compost, soap, and oil making. The students as well as the teachers purchased handmade artcrafts and soaps. The first-hand experience helped them to gather a lot of beautiful memories.

### RBHS Got Talent

RBHS Got Talent

"The person born with a talent they are meant to use will find their greatest happiness in using it."

From recognising flags of the world to Bollywood jatkas on hula hoops, to solving rubix cubes to mono acting - we watched their talents unfold and startle us. What a display of creativity and confidence that our young kids showcased. They owned the stage that morning and stole our hearts. The judges - Bollywood choreographer Ms. Pooja Kale and playwright and director Pritesh Sodha - marvelled at the energy and spirit of the children. The principal complimented the parents on their effort at training their children in the arts.

### Author Talks

Janhavi Samant - The primary students of RBHS had a rollicking time with Author Janhavi

With Author Janhavi Samant

Samant. She read out a few stories from her book "When Elephants had Wings." & "How Giraffes came to have a long Neck" to a rapt audience of students and teachers. As a journalist, she told stories about Mumbai and its people.

Satish Desai - It is rightly said, if a nation loses its storyteller, it loses its childhood. Our pre primary children had an amazing time when for the first time an author visited them. Satish Desai conducted a storytelling session based on his picture book "Where is the Giraffe?"

Sanskriti Arts - It is indeed a pride to see the achievements of our students in every way possible, and a greater pride when their work contributes to the greater good. We are ever grateful to Sanskriti Arts for providing these opportunities to our learners. The inauguration day of the exhibition on 15th August was gratifying with many 'artists' families in attendance. We also had 3 of the paintings sold on the first day! 42 of our student artists' paintings adorned the wall at the exhibition; the proceeds of the painting go towards the IDF Dignity foundation.

Our theme for the first week of July was '**All about Colours and Shapes**'. In order to be able to relate to the topic, a cooking experience was done wherein the kids enjoyed eating a sandwich cut in different shapes.

The MBIP tots celebrated **Friendship day** by making a friendship band and teachers explained the importance of friendship through a story on sharing and caring. Various group activities and games were organised to create a delightful experience for the tiny tots.

As we taught the kids all about their country India, our tiny tots @MBIP dressed up in tri-coloured clothes to celebrate '**Independence Day**' at MBIP.

We also celebrated the **International Clown day** at MBIP. The day kicked off with a lively role play by a teacher as she adorned a colourful and vibrant costume. The kids giggled and clapped as they saw the funny moves of the clown. The celebration filled the classroom with smiles and pure joy; spreading happiness.

The festival of Raksha Bandhan was an occasion which helped us inculcate values like empathy,

compassion and love amongst the tiny tots. The little ones enjoyed decorating the rakhis too.

We celebrated '**Janmashtami**' as **Grandparents day** in the month of September. Our angels dressed up as Krishna and Radha and enjoyed the music and dance time at Durgadevi Saraf hall in the campus. We had organised various games for the grandparents too. We received a heart-warming response from them as they enthusiastically participated and enjoyed themselves.

A vegetable market was created in the classroom to introduce the concept of **Vegetables**. It was organised to promote healthy eating habits and introduce the kids to all the vegetables. They experienced shopping various vegetables from the 'market' and also exchanged fake currency which was provided by the teachers.

As parents at MBIP were curious about the rhymes introduced at Playschool, we organised a **Sing Along** session for the parents wherein teachers sang all the rhymes along with the parents and tiny tots. It was a fun filled experience for the parents and kids as well.

## Emerging Trends in Indian Retail: An Analysis of Post-Covid Scenario

**Dr. Satish Puranam,**

Senior Vice-President, Lifestyle International, Bangalore

The Covid pandemic had large impact on the lives of the Indian consumers in 2020 and 2021. This Covid pandemic and its effects has seen paradigm shifts in the consumer sentiment, lifestyle, buying preferences and buying behaviour. These have been very largely felt by Retailers, Brands, Shopping Complexes and Malls.

Due to the lockdowns, the consumers had been forced to adapt to online shopping for all products across the spectrum and had been flooded with choice of online shopping options. The consumers embraced technology in all aspects of product selection, shortlisting, buying and payments for online shopping. Once the lockdowns opened up, and the malls and shopping complexes were opened up, the consumers went into a frenzy of shopping and binges of shopping which retailers have termed as **"Revenge Shopping"**. Consumers rushed to brick and mortar stores to touch, feel and try fashion products like clothing, apparels, accessories, footwear, beauty, and wellness. In addition, there have been several trends that have emerged in the consumer buying preferences and buying behaviour.

### **A Hybrid Shopping Model or Omni Channel Retailing:**

The advent of Covid had forced consumers to depend heavily on buying virtually for two years, and that became a habit and convenience for several customers. Several retailers in the business of fashion retail had to look at innovative

ways of improving sales, such as providing virtual trial rooms and video-based sales calling.

Consumers are now seeking a combination of e-commerce and brick-and-mortar stores and are demanding the best of both worlds. This has forced many traditional brick-and-mortar stores and retail chains to go online and provide the customers the options to shop online. Likewise, many online retail sites, such as Nykaa, Urban Ladder, Pepperfry and Zivame are setting up physical stores in shopping malls or high street to drive offline growth. While most Indian customers have fully embraced the internet and online shopping platforms, the Indian shoppers still place their trust in physical stores as these stores allow them to touch, feel, and try their products in person. This has forced retailers and brand stores to upgrade their physical locations, forward-thinking retailers are implementing an omnichannel framework that treats all channels as a single cohesive experience.

### **Technology Enabling Shopping:**

Consumers after the Covid phase are demanding services such as automated check-outs with Digital enabled Point of Sales and Billing Systems, digitally enable electronic rewards programs, crowd control and management measures, contactless shopping and touchless technology. This has led to emergence of "Phygital" spaces of retail, wherein a merger of physical and digital retail with the help of virtual reality and artificial intelligence has entered the retail space in India. It is seen that both online and physical

stores are going to have real time data and system integration that will embrace immersive technologies and intelligence to understand consumer psychology and requirement. Majority of the after sales services have been digitised and automated to reduce human intervention and drive speed and efficiency.

### **The Trend of Retailtainment:**

Consumers had to remain indoors for several months due to restriction imposed due to the Covid. The easing of the restrictions has seen that now customers are seeking a lot of entertainment avenues and along with the retail shopping trips at the Malls. This is the concept of 'retailtainment' which has seen a huge resurgence at upscale malls, and due to this massive demand and footfalls in the Family entertainment zones such as Time Zone, Fun City, Ameoba, Bounce, Smaash, Busters and Hangout which has propelled malls to transform into recreational and retail destinations. There is a new trend of trampoline parks and trampoline-based activity spaces in the Family Entertainment zones, that have been seeing a very high consumer demand. It is evident that Indian shoppers now also visit swanky shopping malls for more than just shopping, and they want to indulge in culinary delights served out by multi theme fine dine restaurants. The last six months has seen the launch of a plethora of restaurants serving luscious delicacies, as well as an outdoor section where a variety of flea markets and live performances are held for customers so now Malls are, therefore, no longer

just places where products and services are sold, but are centres for customers to indulge in entertainment, gaming, bowling alleys, fine dine theme restaurants and lounge bars. For all malls it is imperative to create memorable experiences for customers, and shopping malls must strive to provide a high level of engagement by focusing heavily on unique experiential content.

#### **Safety and Health- Pivotal Role:**

The pandemic saw very high levels of hygiene, social distancing, and sanitizing frequently. Now, customers are very cautious and are always keeping in mind the health and safety of themselves and their families, and hence all customers are very particular about hygiene in all the spaces of the mall and expect good hygiene and safety precautions along with stringent adoption of sanitization. Many malls and shopping centres had to upgrade their toilets and washrooms. The parking areas, common areas and mall atriums have been upgraded by several malls. There have been upgrades in the air conditioning systems of several malls in the country to enhance the air filtration and air purifying technologies. During the period post Covid many of the Malls have quickly adapted to cater to dynamic consumer demands, by re-strategizing and reinventing the mall experience with enhanced focus on safety, hygiene and wellness, thereby keeping consumer's fears and apprehensions in mind.

#### **Changing Fashion Preferences:**

Post covid the apparel and clothing fashion has become multifunctional in nature. As many people continued to continue to work from home, the category of comfort-fit loungewear or athleisure wear has been very popular and continues to be in great demand. Consumers are now taking their athleisure wear and loungewear to all facets of their life. This trend has got amplified as more influencers and fashion bloggers are promoting this category, and it is evident that comfort wear will rule the fashion roost for the times to come.

Consumers are only changing the wardrobe to suit ceremonial events like weddings and cultural events. Post Covid era has seen the resurgence of lavish theme-based weddings, and the consumers are warming up to these themes with ensembles that are co-ordinated and in line with these themes. In fact theme based wedding in exotic locations of India and overseas is the norm, and this has seen a lot of customized occasion wear with high design content being lapped up by consumers.

#### **Sustainable Fashion and Environmental Concerns:**

Consumers are now more aware of sustainable and green practices in their shopping journey. It is common to see consumers carrying their own re-sable cloth bags for shopping at Malls, and thereby reducing the consumption of paper bags. In addition the sustainable cotton garments and organic dyed and plant pigment based prints on apparel are being sought after. Consumers are willing to pay premium to consumer such sustainable products. Several brands have started eco friendly ranges in their stores to cater to this surging demand for sustainable products. Many Malls are now installing Solar Panels on the top of their Malls to generate green power for the malls.

#### **Home Décor and Home Improvements:**

The lock down period of the pandemic ensured that the entire family stayed indoors and hence they felt the need to have more variety in the home furnishing, curtains, bed spreads, table top products and towels. This saw a substantial increase in online ordering of Bedspreads, Towel and curtains during the lock down period. Post the pandemic, the home has seen a massive investment for revamping and renovating their homes to entail multi-functionality. The new trend is that homes have become multi-functional, automated with modern state of the art equipment like Robotic Vacuum Cleaners, Automated Dishwashers, Intelligent Refrigerators, Automated Washing Machines, with Clothes Driers, Upgraded Home Theatre Systems and upgrades UPS or Invertors. The Home décor has seen major upgrades and investments with quirky artefacts, furnishings, stackable furniture, workplace essentials and decor items which go along way in making home much more aesthetic and appealing. This behaviour has resulted in massive business growth of the brands such as Croma and Reliance Digital, and also the local white goods chains.

#### **Self-Care & Wellness on the Rise:**

The Covid period was a wakeup call for all consumers on the importance of investing on one's health and wellness. There is a awareness amongst all consumers that they need to slow down their pace of life and focus on their health and well-being. This has resulted in consumers finding themselves with a lot of precious 'me time', where they are indulging in grooming themselves & experimenting with their looks. Consumers are more conscious about taking care of their skin and hair, due to which there is a massive boost in the sales of the cosmetics and

beauty segment. Innovative brands that use and communicate traditional and natural ingredients and with ancient formulae for skin and hair care are doing exceptionally well.

Food and Food Supplements that enhance immunity and help to build strength are seeing very high sales. Exotic Super foods like nuts, Shia seeds, spirulina, makhana and several other super foods have become very popular with many consumers. On the wellness side of activities practising yoga, Zumba workouts and Aerobics are some of the activities they pursue, which has led to enhanced consumption of Athleisure, Active Wear and Sportswear products.

#### **Focus on Organic Foods and Home Cooking:**

The lockdown period was an opportunity for several families to explore and innovate with new foods and recipes. Cooking healthy food with organic farm inputs was considered as the best option. There was an upsurge of demand for earthen cookware and cast iron pans, and consumers started going back to the roots. There was frantic dash for exotic ingredients and immunity building foods such as fermented products like yogurt, healthy teas and probiotics. Supermarkets and Hypermarkets had slew of new organic products that were launched and these were soon very much in demand from consumers.

In summation, the post pandemic era has seen consumers getting more aware of choices that are healthy and have greater focus on health and well-being. The Consumers have also become mindful of organic products, sustainable products, and environment friendly processes. These changes indicate a more responsible consumer behaviour and this will go a long way in making our lives on this planet better.

**Year of Passing:** 2019

### Memorable Events/ Journey in the Institution:

I joined MBIS halfway through 7th grade, new to the board and to the people around me. It took me exactly a week to feel at home with my peers and my teachers. I joined while we were studying for the checkpoint exams so naturally I had missed a good chunk of the portion. Since I was a little lost, I received utmost care and attention in each subject so I could be at par with everything that was being taught. It's been 4 years since I graduated with an IBDP Diploma and with friends that I can proudly call MBIS my family. Today, I am a professional pastry chef graduated from School for European Pastry, Mumbai with a diploma from City & Guilds London.

I am grateful for the love and all the memories that came from MBIS.

## Our Gratitude to the Large Donors of Rajasthani Sammelan Education Trust

**Rajasthani Sammelan Education Trust** today is a reputed name in the field of education with multiple educational institutions offering education from Nursery to post graduate studies in management and media studies. **Approximately 16,000 students** study across various schools and colleges located in the state-of-the-art RSET campus in Malad (Mumbai).

This transformation and growth of RSET has been brought about by some of the visionaries who were associated with the Trust since 1948 and had the far sightedness to empower the community through education. RSET owes its gratitude to the benevolence of its **Large Donor families** who had the vision to invest for the cause of education way back in the early years and have continued to do it over the years, knowing fully well that **investment in knowledge pays the best interest**. **All our Donor Trustees, Office Bearers and Managing Committee Members bring with them an extensive experience and knowledge of running their successful enterprises. It is largely due to their efforts, vision and commitment that RSET has grown in the size and stature. Our gratitude to all our Members for joining with us in our educational endeavours.**

# Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthani Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthani Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthani Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthani Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthani Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthani Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on [rs@rajasthani.org.in](mailto:rs@rajasthani.org.in)
