Over the years, Rajasthani Sammelan Education Trust has woven together a large network of educational institutions. From Pre-Schools to Primary Schools, Secondary Schools, Junior College, Degree to Professional Colleges and Institutes that offer courses like Management Education and Vocational Courses - all are provided in RSET campus under the aegis of the Trust. Beyond academics, the Trust has provided counseling facility at Ramdhar Maheshwari Career Counseling Centre, residential facility to boys and girls coming from other cities in Draupadidevi Sanwarmal Women's Hostel and Jankidevi Bilasrai Bubna Boys' Hostel. At the same time, talent of students in sports is nurtured at Pravinchandra D. Shah Sports Academy.

At present, more than 16,000 students are daily coming in our campus to receive education. We impart education to our students with the aim of providing proper direction and promise of a bright future. All our institutions have earned excellence in their respective areas of studies. Our institutes of higher education are regularly organizing seminars and workshops. They have placement cells that are trying their best to provide best placements to the students on completion of their respective courses. Students of our schools and colleges are regularly organizing outreach programmes, blood donation camps and various health awareness programmes. It is a matter of great pride that two of our NCC Cadets from Ghanshyamdas Saraf College were selected for Republic Day parade held at New Delhi.

I am pleased to state that our students are provided with state of art facilities like well- equipped science & computer laboratories, libraries with modern resources in the form of CD-ROMS, online data bases, books, e-books, journals and reports. Sharda Cropchem Bloomberg Lab of Ghanshyamdas Saraf College is running successfully. Using Bloomberg service, Saraf College students can perform historical market analysis, compare different investment strategies, evaluate complex financial instruments and analyze specific companies and industries.

It is also our endeavour to create global attitude in our students, Durgadevi Saraf Institute of Management Studies and Deviprasad Goenka Management College of Media Studies have tied up with many foreign universities for Student & Faculty Exchange Programmes. Every year, PGDM students of both the institutions are taken for 'International Immersion' as a part of their Study Abroad Programme. This year 118 students along with 05 Faculty members visited Germany, Switzerland and France in two groups. 11 students from DSIMS also visited University of Finance and Administration, Prague, Czech Republic under Student Study Abroad Programme in the month of October.

To recognize the academic achievements of our students and also to provide financial help to needy students, we have created Scholarship and Freeship Endowment Funds. Every year, scholarships and freeships are awarded from IRB Scholarship Endowment Fund, BKT Endowment Freeship Fund and JBB Endowment Freeship Fund to selected meritorious and deserving students at a grand scholarship award ceremony.

This year too, the scholarship award ceremony was held on 21st

December, 2019 in Pravinchandra D. Shah Sports Academy ground in RSET campus. The highlight of the Scholarship Award ceremony was the grand musical performance by renowned singer Ms. Kavita Murti that mesmerized the audience. We express our humble gratitude to our esteemed Donors of the Endowment Funds - Shri Virendra Mhaiskar, Shri Arvind Poddar and Shri Ramprakash Bubna whose contributions to our Trust have made it possible for us to recognize meritorious students and provide financial help to needy students.

### Hon. Secretary's Message

#### Islands of Excellence

Dear Reader,

Warm Greetings for the New Year!

Rajasthani Sammelan Education Trust has successfully completed 71 illustrious years and has been imparting quality education based on ethics through all the institutions. After seven decades and more, we are poised to look back at the work started by our founding fathers and continued by us in the field of education.

Although it has been very fulfilling to steadily progress on the growth path, at the same time a big responsibility lies on our shoulders as we facilitate the shaping of future of the present generation. At present, we have 11 educational institutions in RSET campus where 16,000 students are receiving education from pre-school to post graduation. Our vision is routed in tradition but it is keeping pace with changing trends in the educational scenario facing new challenges and setting as well as meeting higher bench marks. All our institutions are 'Islands of Excellence', committed to the high standard of academics and value based education. Its ambience inspires learning. Diverse opportunities are provided for learner's self-expression and empowerment - be it a classroom interaction, co-curricular or extra-curricular activities, sports, social service, humanitarian initiatives, NSS, NCC, Rotaract Club, DLLE etc.

Students of our schools, colleges and institutes made us proud by bagging prizes at District, State and National level in sports and extracurricular activities. Ms. Akshata, student of IX standard of Kudilal Govindram Seksaria English School and Master Kshitij Kejriwal, Grade X of Ramniwas Bajaj English High School received 'Student of the Year' award from Times NIE for excellence in academic performance. Many students from RBHS bagged first place in football, Judo, State Level Karate and Interschool Gymnastics.

As in the past, in this quarter also Durgadevi Saraf Junior College was in lime light for its sports achievements. The Kabaddi and Kho-kho teams of both boys and girls won tournaments at District level. Many students of the college received gold, silver and bronze medals in Discuss Throw, Cross Country Race, Javelin Throw, Long Jump, Relay Race and Martial Arts. Mainadevi Bajaj International School held an unique Quidditch Interschool Tournament first time in India. This event saw an overwhelming response with a dozen schools participating in the event. Two NCC cadets - Ms. Rinki Singh and Ms. Shreya Salian of Ladhidevi Ramdhar Maheshwari Night College of Commerce represented the State of Maharashtra at the Republic Day parade on 26th January, 2020 at New Delhi. Both the students are enrolled in 8th Maharashtra Girls Battalion of Ghanshyamdas Saraf College.

Annual Sports Day as well as Annual Day of all the institutions were celebrated in a grand manner with eminent personalities gracing the occasion as the Chief Guests and Guests of Honour. We also had a grand Scholarship Award Ceremony in the month of December wherein Scholarships / Freeships were awarded to deserving students from IRB Scholarship Endowment Fund, BKT Endowment Freeship Fund and Jankidevi Bilasrai Bubna Endowment Freeship Fund. A special mesmerizing musical programme was also a great attraction of the evening.

Alumni are the ambassadors of the institution. They are the most loyal

supporters offering invaluable promotion of the institution and can also provide proper guidance and help in work placement to current students. Most of our institutions have Alumni Association that have a get together once in a year. Besides, with the advent of social media, the alumni can now always stay connected with their alma-mater and their classmates. Recently, Durgadevi Saraf Institute of Management Studies organized a grand Alumni meet 'Rendezvous' organized by Alumni Committee of the institute in the month of December 2019.

Placement Cell also plays a crucial role in the institutes of higher education in locating job opportunities for under-graduates and post-graduates passing out from a college or a professional institute by keeping in touch with reputed firms and industrial establishments. The cell arranges skill development training programmes, career guidance programmes, mock interviews, group discussions, communication skill workshop etc. Durgadevi Saraf Institute of Management Studies, Deviprasad Goenka Management College of Media Studies and Ghanshyamdas Saraf College have very active placement cells and they are inviting from time to time reputed companies to interview the students and also arrange job fair. Recently, Ghanshyamdas Saraf College received an award at the hands of Cabinet Minister for Skill Development' for the initiatives taken by the college in conducting skill development courses.

I take this opportunity to thank each and every Donor, past and present, Trustees, Managing Committee Members and well-wishers who were involved with the development and progress of the educational activities of our Trust.

I would rather have it said, 'He lived usefully,' than, 'He died rich.' - Benjamin Franklin

#### An amalgam of events

Dear Reader,

Wish you a very happy New Year 2020 and Season's Greetings!!!

At RSET we have witnessed the successful and smooth conduct of all events and activities for the last quarter of 2019. As you all know we cater for a learning environment for students from KG to PG at our campus. A team of dedicated teaching and non-teaching staff from all our Institutes left no stone unturned to ensure the best education is imparted to all our students in pursuing their excellence in academic and other extracurricular activities.

At preprimary and primary levels the students have been exposed to various activities like singing, reading books, workshops on safe and unsafe touch, enjoying the role plays. The tiny tots and young kids had loads of art and craft activities and enjoyed a Puppet show too. The kids were involved in hurdle races, rope ladder climbing, and animal yoga, zumba, stretching and warm up exercises also. In turn kids learnt a lot of hand to eye coordination activities which are strongly recommended by the experts in the field of education.

For the students of secondary and higher secondary, the schools have organized plethora of activities like school Olympiads, overnight trips, inter school fest etc. Our board bound students are slogging out with their studies and we are sure, like the past tradition these students will excel in their studies and bring laurels to themselves, their teachers and their schools.

We at RSET are always geared up for challenges. There are always something unique and first time activities. For instance, the secondary

students participated in the Muggle Quidditch match at the PDSA Ground, RS Campus. This was an event organized and hosted by our International School and was conducted for the first time in India. Many renowned schools from Mumbai have participated in this event.

At college level the students have taken active part in various skill-development activities conducted by NCC, NSS, Rotaract Clubs, and College Fests. During the month of December three of our degree colleges have organized an Annual Degree Distribution Ceremony, where all the students who have been graduated from these institutions were conferred with degrees.

The students of our PG Institutes (DSIMS and DGMC) are getting good job offers through our placement cells. RMCC, our Counseling Centre has organized frequent lectures and workshops to take care of all the psychological needs of large number of the students. Our both hostels (boys and girls) are already running to its full capacity. Students coming from all over India and abroad are happy with the state of art facilities being offered and more importantly that these students are being looked after well by our hostel staff. Our young, energetic and motivated team of sports coaches have trained a large number of students in various sports for different age groups. Our students have participated at State, National and even International level in Football, Basketball, Kho-Kho and Kabbadi championships. What is noteworthy is that girls are in forefront in many of these sports. One of our girl student has participated in Denmark in football and got the best player award.

During this quarter, all our schools and colleges conducted their individual Annual Days spread over nine days. They have presented the excellent Cultural Programmes during Annual Days, where the students exhibited their extraordinary talent. All the events were theme based and show cased the rich cultural heritage of our country. The cultural events were followed by the Audio Visual Presentation of the Principal's report of each institution. The detailed report of each institution has clearly brought out the stupendous progress that has been made by each institution. After seeing and hearing the report, any one would get convinced, especially the parents who attended the events in large number. They will surely agree that future of their wards is in safe hands. The word of mouth publicity of our institutions is spreading very fast as most sought after institutes in Mumbai and in India for seeking admissions in these prestigious schools and colleges.

On our part, RSET had conducted scholarship and free ship awards function at our own PDSA ground where a large number of meritorious students from all the institutions received the awards. Bright students, those who find difficulty in paying their fees were given the free ships so that their talent is nurtured. Industrialists from IRB, BKT and JBB trusts have generously contributed towards disbursement of these scholarships for which we are very thankful to all of them.

In the end, on behalf of our President Shri Ashok M Saraf, I would like to assure all our readers and well-wishers that we will do our best in achieving more achievements and greater success to RSET and all its institutions in the field of education in the year 2020.

Children have to be educated, but they have also to be left to educate themselves.

### Message From Director of Schools

#### Working with our slow learners

When the report of a student has some or all of the following comments, you know that you have a slow learner on your hands: He learns well by listening and speaking but does not want to write, he has to be constantly pushed to take notes, he hardly ever completes the assigned work in class, he participates in class only when he is interested in a particular topic, his responses during class discussions are in one or two words, he complains a lot about the other students in his class.

A debate that has occupied academicians in recent times is to do with identifying and approaching slow learners in the classroom. This effort has thrown up many challenges that begin with an understanding of who is a slow learner. Words such as Dyslexia, Dyscalculia, Dysgraphia and ADHD have entered the common parlance with limited understanding of what they mean. Schools have conducted workshops for teachers and have introduced them to these terms and their manifestations and hence it is not uncommon to hear teachers says, ``That child has ADHD or that he has got Dyslexia."

In reality it is impossible to establish which of the above mentioned disorders the child has got and the extent of the seriousness without psycho-educational testing. Often, a child who is underperforming may have none of the above disorders and may just be lazy or may be suffering from stress due to poor relationship between his parents. So at the outset it is important to know that a slow learner does not add up to a child with learning disorders.

It is important to understand that a child with a learning disorder is faced with mental condition that does not allow her to acquire knowledge in the same way that other students can. On the other hand a slow learner is a child who may suffer from a poor environment within his school and family.

There are many reasons why a child may be a slow learner. All knowledge is acquired through the language of instruction. Math, Science, Social Studies and other subjects are all taught in English. So if a child lacks English language skills she will perform poorly across all her subjects. This does not mean she has a learning disorder. Often there is discord and disagreement within the family that leaves the child mentally and physically draine or, in extreme cases, the child may be suffering from physical abuse at home or in school. Other reasons that account for slow learning may be a weak memory, a short attention span or processing speed or even social skills that are needed for successful learning in a classroom. A child may be a slow learner for the simple reason that he is younger than rest of the class and cannot adjust to the social development that is required for a given age. Sometimes this may be accounted merely by the lack of school books, a long school day or even health issues. Hence it is really important that educators observe such children closely, non-judgementally and sensitively before concluding that a child has a learning disorder.

In identifying and approaching of slow learners and children with learning difficulties a major challenge is posed by parents, and handling them in a sensitive manner is a major task for schools. The reality of the matter is that we are still a society that refuses to accept any level of mental or emotional difficulties faced by our children. So when a child performs poorly the parents will remain in denial about possible difficulties and will, at first, want the school to push the child harder and at a later stage

blame the school for not doing enough.

So what can educators do about it? It is important to establish a systematic and transparent process to identify students with learning difficulties — whether they are disorders or merely represent slow learners. In schools of RSET when assessments indicate that a student is performing consistently poorly and when more that a couple of teachers express concern, we hold a grade level meeting. At such a meeting all the teachers who teach such students comment on their academic performance, their behaviour, learning style and personal circumstances. This helps us determine if the problem pertains only to certain subjects or it has to do with the child as a learner.

Once this identification is done a concerted plan is made to give adequate support to the child and the parents are kept informed. If it is evident that such an approach is not helping the child then we involve RMCC, our career counseling center. At this stage the counselor at RMCC may suggest a non-interventionist plan to be carried out by the teachers or a meeting with the parents to suggest the need for pscyhoeducational testing which will determine the gap between the child's current grade and the grade level at which she is performing. For instance it may determine that a child who has been admitted to Grade 4 has a level of Math and English level of Grade 1. In such a case they may suggest remediation by a special educator who will help fill in the gap with an Individualized Education Plan. Both, the teachers and the family, play an important role in this process.

If a child with learning difficulties is to be successfully supported as she advances with her education it is important that all the stake-holders — the school's management, the student, parents, teachers and other students — are working in tandem. These are special children and they need special attention.

## India on the cutting edge of educational practices

Dr. Sunanda Kar

India holds a significant place in the global education industry as it has the major population of about 500 million population in the age bracket of 5 - 24 years. In the past, four years, the government has laid foundation of 141 universities and seven IITs . Besides, the goal of the government is to raise its current gross enrolment ratio to 30% by 2020 which will also lift the growth of distance education in India. India is also the second largest market for e-learning after the US and the size of the market is expected to reach US\$ 1.96 billion by 2021 with around 9.5 million users. Many students and working professionals are taking these courses to get quality education, world class curriculum, comfort and low cost.

The Indian school market is also exhibiting strong growth. India holds an important place in the global education industry. To begin with, Primary education is also expanding. Many foreign schools are making their presence felt in India. Parents are enrolling their children into international schools for better education directly from the primary level.

To compete with international boards as well as national boards of CBSE and ICSE, State Education Board of Maharashtra has also geared up with various reforms to be at par with all these boards. In an exercise to reduce the weight of school bags, the state's text book publishing bureau, Balbharti has proposed to integrate all subjects into one text book and split it into three or four parts for each semester.

Along with introducing integrated text books for various subjects, Maharashtra State Bureau of Text Book Production and Curriculum Research (Balbharti) has also planned to run a pilot project to introduce mathematics and science concepts in a bilingual format for vernacular medium students. For the next academic year, Balbharti plans to print the English equivalent various concepts in mathematics and environmental science in Marathi textbooks for classes I to V. Since these subjects are taught in the higher secondary and higher educational levels, it

will be helpful to vernacular medium students opting for science stream in FYJC.

At RSET campus, our schools, colleges and management institute have been buzzing with many academic & extra-curricular & sports activities. All the institutions celebrated Annual Day in a grand manner at Pravinchandra D. Shah Sports Academy ground which was converted to an open air auditorium.

In the preceding months, many of our schools and colleges have won awards and accolades. Mainadevi Bajaj International School was ranked 1st in Zone D (Jogeshwari to Borivali) and 5th in the city of Mumbai among schools with International Curriculum as per TIMES SCHOOL SURVEY 2019. Ramniwas Bajaj English High School stood 5th in Zone D and 22nd in Mumbai for Top schools with National Curriculum as per the Times School Survey 2019. Kudilal Govindram Seksaria English School also bagged 8th Rank in Times School survey 2019 in the SSC Curriculum category all over Mumbai.

Students of MBIS, KGES and RBHS received awards for their educational excellence. Ghanshyamdas Saraf College received an award at the hands of Cabinet Minister for 'Skill Development' for the initiatives taken by the college in conducting skill development courses. In sports, our students from schools to colleges made us proud by bagging awards in district and state level matches, swimming and martial arts. On Saturday, 30th November, MBIS hosted the first ever Quidditch Inter-School Tournament in India. Almost a dozen schools participated in the tournament.

Rajasthani Sammelan Education Trust is in an unending journey of educational endeavours. The President and his Team have faced many hurdles in their journey but they have successfully crossed those hurdles to start new institutions & in their project of massive expansion & revamp of the RSET campus. Let us take inspiration from them to face challenges coming in our way with determination. Let me end with a few verses of 'Ode to the West Wind' of Percy Bysshe Shelley, a British Romantic poet of 19th century that metaphorically tells us not to lose hope as after facing difficulties, good things are bound to come to us in our life.

Drive my dead thoughts over the universe
Like wither'd leaves to quicken a new birth!
And, by the incantation of this verse,
Scatter, as from an unextinguish'd hearth
Ashes and sparks, my words among mankind!
Be through my lips to unawaken'd earth
The trumpet of a prophecy! O Wind
If Winter comes, can Spring be far behind?

### EXCERPTS OF INTERVIEW OF SHRI J.P. KHEMKA

1) How and when did you get associated with Rajasthani Sammelan Education Trust?

I was a member of Rajasthani Sammelan Education Trust for approximately 25 years. However I was very keen to be closely associated with such a renowned educational Trust. For this I will always remain thankful to Hon'ble Trustees Late Shri Ramnarayanji Saraf and Late Shri Prahaladraiji Saraf for introducing me as a Managing Committee Member some twenty years back. Later I was nominated as Joint Treasurer of the Trust and I continue to deliver my duties with all sincerity for more than one decade.

2) You have been one of the Office Bearers for a long period. Kindly tell us as to how did you contribute to the growth and development of the educational endeavours of RSET?

Apart from working as Joint Treasurer of the Trust, I have worked in various capacities such as chairman of cultural committee, as a joint secretary, as a member of various committees of the educational institutions and subcommittees of RSET. As Joint treasurer of the Trust, I have contributed mainly in controlling the expenses as per budget and also how to increase the receipts of various organizations. I am personally involved with finance, purchase, MIS, and administration department to achieve the goals of the institution. I have also provided input for cost control, mainly in finance cost.

3) What are your thoughts on the current state of education in our country. Do you think that there are any reforms required in the education sector? Tell us something about the one change that would you like to bring to the education sector?

With IITs and IIMs all over the country, we have made a lot of progress but still a lot remains to be done at the grass root level specially at village level. One basic approach which we need to change is the examination centered education. While getting proper means of livelihood, I feel that there is a lot of improvement needed in the field of education in our country.

In all institutes of higher education, some add- on training courses on skilled development should be provided to the students that will help students to get employment on completion of graduation. The Placement Cell in colleges and professional institutes should be very active and must arrange job fair, aptitude test, etc. free of cost. They should regularly be in touch with corporates for placement of their students. All such efforts are needed from institute level as well as from the Government. The government aided institutions should improve quality of education so that there

is less pressure on private institutions. The government aided institutions should not work under the influence of any political party. The ratio of student v/s teacher should be fixed. Academically weak students should be given proper coaching. Institutions of higher education should encourage the teachers to be engaged in research work and Ph.D should be recognized only from reputed institutes as per UGC norms. Donations should not be linked with admission.

### 4) Could you say a few words about the metamorphosis of RSET?

Way back in 1959, the founding fathers of Rajasthani Sammelan Education Trust started Sarvodaya Balika Vidyalaya now known as Kudilal Govindram Seksaria

Sarvodaya School. Over the years, Durgadevi Saraf Junior College was started followed by Ghanshyamdas Saraf College by the Trust. In the coming years, the leadership went into the hands of the new generation. Under the dynamic leadership of the President Shri Ashok M. Saraf and his team, there has been a vast change in the infrastructure as well as educational facilities in RSET campus. New institutions were started such as Kudilal Govindram Seksaria English School, Kirandevi Saraf Institute of Complete Learning, Durgadevi Saraf Institute of Management Studies, Ramniwas Bajaj English High School, Mainadevi Bajaj International School, Mainadevi Bajaj International Playschool, Deviprasad Goenka Management College of Media Studies, Ramdhar Maheshwari Career Counseling Centre and Draupadidevi Sanwarmal Women's Hostel, The Management also started Ladhidevi Ramdhar Maheshwari Night College of Commerce to provide opportunities of studies to working boys and girls. To nurture talents of students in sports, Pravinchandra D. Shah Sports Academy was also started. The Trust also crossed the boundaries of RSET campus to reach to other students by starting Kunjbihari S. Goyal Online Academy in the year 2014. To provide residential facilities to male students coming to Mumbai for higher and professional education Jankidevi Bilasrai Bubna Boys' Hostel was also started in the year 2018. Along with starting new institutions, major revamp of the infrastructure also took place in RSET Campus. It is indeed a metamorphosis of RSET that at present 16,000 students are studying in different

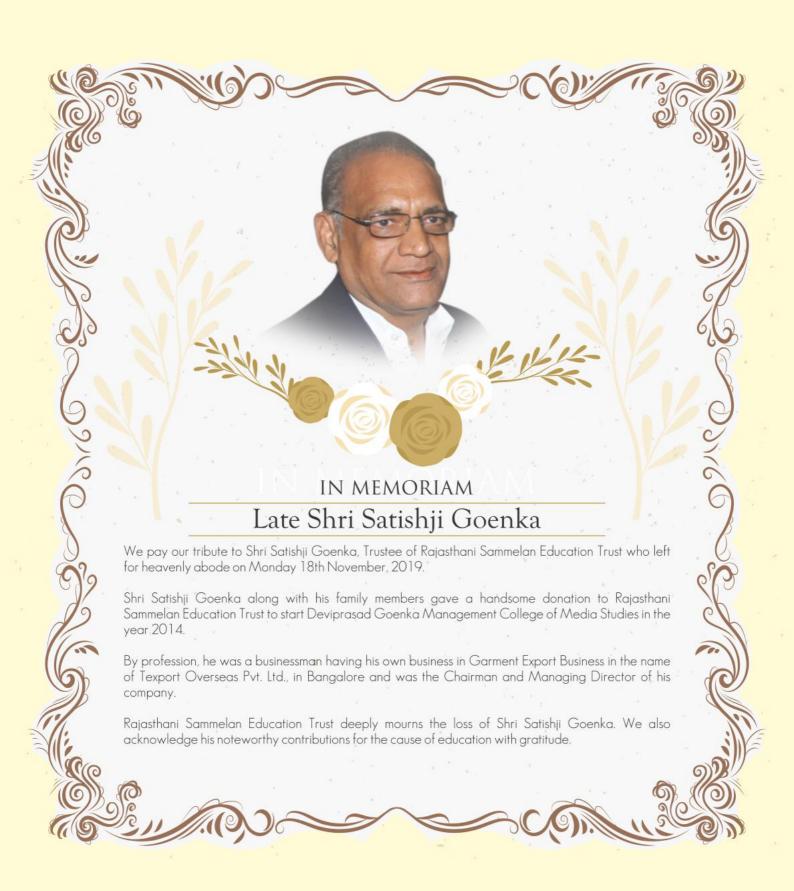

institutions of the Trust. Along with providing educational facilities the Trust has also established Ramnarayan Saraf Educational Outlet and Vijay Pal Singh Heath Centre for the benefit of staff and students. I wish RSET to be classified as a deemed university at the earliest and some new sections to open like law, science and technology, B.Ed and in future a medical college be part of the organization.

### 5) What life lessons would you like to share with the students of present generation?

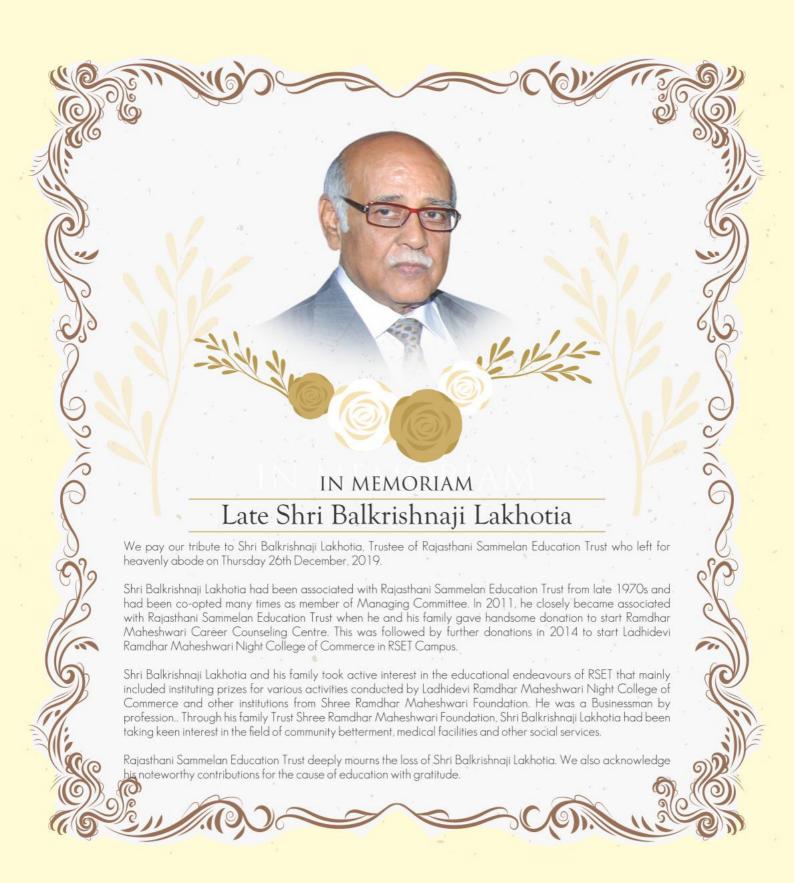

The students have to be sincere, honest, hard-working, illustrious, polite in tongue but bold in action, respectful to fellow beings, teachers, elders, parents and should dedicate and devote themselves to take the flag of our country still higher and higher. Meritorious students and professionals should keep focus for growth of Indian Corporate houses and country's development rather than settle in foreign countries and serve the foreign companies. We have done our best but they have to perform further as life today is full of challenges and changes are taking place at a very fast rate. In this direction, RSET is taking steps in forthright manner with farsightedness. In this regard, special mention is to be made to the leadership of Shri Ashok M. Saraf and Shri Kailash Kejriwal along with their dedicated team members as well as Principals, Teachers and Staff of all the institutions managed by RSET.

Santa Claus as one of the main characters refusing to give Christmas presents to the four main protagonists i.e. the great grandchildren till they showed good values and being humane towards others appropriately matched the title 'Ubuntu'. This act was full of exuberance and excitement, and created some beautiful memories for us all...The perennial existence of songs and dances matched the values depicted and was truly exhibited in the dazzling performances. The grandeur of the climax of Ubuntu where the message delivered was that, "The best gift under any Christmas tree is the presence of a happy family all wrapped up in each other." left the audience enthralled.

centeredness are blossoming .Hence, Arete, the Greek God of Virtue decides to make a plea in the Court of Zeus(the king of all Gods) against Kakia (the Greek God of Vice and Moral Badness) to stop the expansion of the Sins and Crimes among the humans.

The theme was aptly justified through skit and dance performances which reinstated the fact that good always triumphs over evil. It is goodness that always prevails and how when Gods created the humans, they were aware of their weakness- they knew that some of them won't shy away from treading on the wrong path for personal gains... Hence, they created Hope too and until there's hope, there's light. The confidence our students exuded and the captivating manner in which they performed was absolutely splendid. The Annual Day celebration of MBIS ended with a finale in which all the students were back on the stage doing their signature steps of their relevant dance. They danced, jumped, grooved together and made some more memories. The atmosphere was filled with laughter, cheerfulness, dancing, and moreover teasing the mates. Their ecstasy was clearly visible in the moves they made. As the DJ party was over, all the alumni proceeded to dine together.

All the alumni made an effort to give feedback to their juniors. They shared some of their bittersweet experiences which would help juniors in future. The most recommended advice was "enjoy your college life, you won't get it back", "world is harsh, stay strong", "build yourself", etc. Alumni meet helped to build a network between students and alumni and also among alumni. "Rendezvous 2019" - Alumni

Meet of DSIMS, was successful at reconnecting the alumni, binding them in nostalgia and building networks. The alumni bid adieu with a smile on their face and a hope in their hearts to retain the connection. The C.A. students were relaxed after completing September one of the most hectic month for them.

We have commenced the processes for Renewal (January-2020 to June-2020) as well as for new admissions. The students who have not applied for renewal will vacate the hostel by 31st December so that we can start accommodating the new student accordingly.

The students have duly submitted the feedback form for the hostel. The Chorus for cleaning of the hostel was in progress. This Month most of the students were occupied with their respective Examination.

The Food Menu is decided by the students themselves and is found to be hygienic and healthy food as per our requirement.

The students are in a very festive mood and anxious to return home for their Diwali vacations. The girls are busy in shopping for an upcoming festival and enjoying at their fullest. Busy preparing for their safe journey. Also, the students were very excited about the festive season since they left for their homes as Diwali vacation has started. Students have gone on a happy note.

The C.A. Students along with Foreign students are left behind.

But, I must say that enjoyment and discipline both are going hand in hand. They all are abiding with all the rules and regulations of our hostel laid by the authorities. Although they go shopping but keeping the entry timings and I am happy to note that all of them return before time to avoid any chaos. The Girls are very well maintaining the decorum.

The occupancy remained at its peak even this month along with waitlist.

All the students were fully satisfied and happy with the facilities provided to them. Calls received from parents also conveyed their gratitude and praise for hostel facilities. Everything is going on smoothly. Now we look forward to the safe return of our loving students after the festival.

#### The Month of November:

All C.A. students were busy in studies as their examinations were around the corner. The graduation students were also engrossed in their respective internal and external exams.

The work was also done routinely all the daily work and duties were carried on well. All the students had given really good feedback which had motivated us to continue working with some dedication and a highly spirited manner.

#### Month of December

As the year has been coming to an end in month of December, It gives me immense pleasure to say that 2019 has been one of the best years for our Institute. DSWH has completed 8 glorious years with many more yet to come. The hostel is full of all 135 seats besides this we have a waiting list. All of this motivates us to strive harder so that we can fulfill our aim to provide the students with the best.

The month of December was one of the hectic months of the year because one more tenure for the students has come to an end.

On the work front, food provided by the in-house caterer had been satisfactory. We have a new housekeeping agency and aboard agency both of them are in the process of getting a hang of all the work. Most of the students have gone to their home town to bring in the winter vacations. After seeing this year, we truly hope that the coming year brings all the happiness for each one of us. And DSWH could continue helping the students of our hostel on their respective journeys.

We all are working looking forward towards the next tenure to begin, with all the positivity and energy for making the next tenure much more mesmerizing for the students both old and new.

'A sound mind resides in a sound body' Sports and other physical activities improve physical and mental health. Taking this into account 5th **PDSA Interschool** meet was organized on 18th October 2019 at PDSA ground where in the tiny tots of pre-primary section of all the schools participated in this event. For the first time 11 schools participated in this event. Apart from academics, the schools have always encouraged its students to take part in co-curricular events.

The meet included Guard of honour, Sports man oath, Torch bearing ceremony and school wise march past along the direction and rhythm provided by the school band students. Students presented many sports demonstrations as well as spectacular displays. Such events certainly help kids as these make them aware of the benefits of physical activities and exercises. The other exhilarating events were the Fun Races and the track events wherein students contested fiercely. The felicitation of winners was done during the prize distribution ceremony where Chatrabhuj Narsee School (CNS) emerged as a winner of champion's trophy and Kudilal Govindram Seksaria English School (KGES) were awarded Runner's up.

It was an event which showcased the dedicated efforts and innovative presentation of the students.

#### Girls are no lesser than boys

The 2nd Football Championship 2019 was organised by Palkaya Premier League on 08/12/2019. It was an exciting tournament in which PDSA under-12 girls exhibited their skills. The PDSA girls displayed the talents and amazed the spectators with their level of skill. PDSA always gives opportunities and support to young budding athletes to go further. This level of encouragement helped them to play with the extra zeal they needed and ended up as the runner's up against JBCN. As the saying goes "Humari Choriya Choro Se Kum Hai K" the girls have proved they are no lesser than anyone and are willing are give their best shot.

Congratulations to PDSA under-12 girls on their accomplishment as well as to all the other teams in the tournament.

Parents seek to raise their children to eventually become free, independent, self-reliant, and self-sufficient adults who can stand on their own feet and live their own lives. As we raise children to live as humanly as possible, to be themselves and live their own life, we as parents and educators should have a good understanding of the concept of freedom.

Authoritarian parenting, also called strict parenting, is characterized by high expectations of conformity and compliance to parental rules and directions, while allowing little open dialogue between parent and child. Children resulting from this type of parenting may have less social competence because the parent generally tells the child what to do instead of allowing the child to choose by him or herself.

Indulgent parenting, also called permissive, nondirective or lenient, is characterized as having few behavioral expectations for the child. Indulgent parenting is a style of parenting in which parents are very much involved with their children but place few demands or controls on them. Parents are nurturing and accepting, and are very responsive to the child's needs and wishes Authoritative parenting, also called 'assertive democratic' or 'balanced' parenting, is characterized by a child-centered approach that holds high expectations of maturity. Authoritative parents can understand how their children are feeling and teach them how to regulate feelings. Authoritative parents encourage children to be independent but still place controls and limits on their actions. They also expect mature, independent, and age-appropriate behavior of children. They are attentive to their children's needs and

concerns, and will typically forgive and teach instead of punishing if a child falls short. This is supposed to result in children having a higher self esteem and independence because of the give-take nature of the authoritative parenting style.

Overprotective parenting has become a lifestyle for many families, as parents hover over their children in fear that they might get hurt. But kids also need to experience the world firsthand in order to learn and grow. Parents are caught in a bind - if you try to give your child space to explore and learn his or her limits, you run the risk that neighbors, your friends, other parents, a passerby on the street all think you're an absentee, lousy parent. We have to give parents the freedom to parent and kids the freedom to grow while supervising and educating them. Parents need to spend time with their children and regularly speak to them about various issues. Free communication and freedom of expression must be cultivated at home. Children must be free to choose their career paths and follow a life they love and cherish. Parents need to stop imposing their beliefs on children and their unfulfilled desires cannot be laden on their children. There is a need for parent child interaction where mindful parenting interacts with freedom of choice and exploration of various frontiers with the ability to be allowed to make mistakes and learn from the same.

#### The impact of the digital era

The Internet has dramatically changed how most children interact with the world and their families. While the internet may have benefits, there are significant potential risks to children which has led to the emergence of new age problems like internet addiction, exposure to the online relationships, cyber-bullying, online gaming

and pornography. Despite these risks, inevitably children have access to the internet and though parents may set up controls and monitor their children's online activity, children are still exposed to the risks mentioned above. Most parents are unaware about what their children are doing online and a majority of children may hide their online behaviour from their parents.

#### Problems faced with excessive digital media usage

- A preoccupation or obsession with Facebook, Instagram, Snapchat, Online Gaming, YouTube, Pornography, Netflix, etc.
- Lying or hiding online gaming and Internet use:
- Disobedience to time limits.
- Diminished interest in other activities (that used to be pleasurable).
- Social withdrawal from family and non-virtual friends.
- Excessive worry about what is posted and commented on social media.
- 7. Excessive online shopping and spending money for gaming.
- Excessive online shopping and spending money for gaming.
   Psychological withdrawal from the game (when player stops)
- or the Web (when offline).

  9. Using gaming as a psychological escape from depression, anxiety, spiritual or existential void, etc.
- Continuing to game or be online despite the negative consequences to sleep, physical or emotional health, relationships, school, or work.
- Engaging in illegal activities, such as cyber-bullying or hacking.
- Getting angry and aggressive when asked to stop being online or using the phone or asked to stop playing games etc.

# Internet Addiction or Social Media addiction takes the form of particular activities, and might include any or all of the following -

- Relationships: spending excessive amounts of time starting and maintaining online friendships in chat rooms, which replace real-life friends and family and even falling in love and indulging in serious relationships online with others.
- Money: compulsively gambling online, playing poker and compulsive online shopping.
- Information searching: compulsive web surfing or database searches.
- Gaming: obsessive computer game playing, including multiuser games.
- Sex: addiction to adult chat rooms, sexual chatting or pornography on the Internet.
- Smartphone Addiction: this excessive internet use results in all
  these behaviours being enacted via a mobile phone rather
  than a laptop and this leads to a phenomenon called
  smartphone addiction.
- Compulsive Online Shopping compulsive and regular buying from internet shopping sites.

#### Tips for Parents for handling these problems -

- It is prudent to introduce limited Internet usage with children from the outset, to help them become accustomed to the Internet being time-limited.
- It may be appropriate to limit the time spent on the Internet with a timer which you set after agreeing a time limit with your child.
- Keep your computer in a shared family room, not in a child's bedroom.
- Find out how much time your child is spending online.
- Ask yourself if your child's Internet use is affecting his or her school performance, health, and relationships with family and friends.
- Don't ban the Internet it is an important part of most children's social lives.

- Instead, establish reasonable rules about where your children can go online and what they can do there - and stick to them.
- Such rules might include: an Internet time log, i.e. to limit the amount of time online each day (though remember that mobile phones, Internet cafes and friends' houses may provide alternative Internet access points)
- No surfing or instant messaging until they complete their homework; you might have a policy to limit the access to chat rooms.
- There is computer software that can help to limit the amount of time spent online.
- Talk to your child about why they are spending so much time online, and what they are spending their time doing.
- Finding and encouraging your child into an offline activity that links in with their online interests could be a possibility here.
- Consider speaking to your school's counsellor. They may be able to provide the necessary support for your child.
- If your child is demonstrating strong signs of Internet addiction, consider seeking professional counselling.

The American Academy of Paediatrics recommends that parents limit children's screen time - TV, smartphone, video, computer and video games to no more than two hours a day, keeping children's bedrooms "media free" and keeping violent video games out of homes where they may be observed or played by young children.

# Tips to overcome social media or internet addiction for parents and children -

- Face up to the fact that you are addicted. Acceptance is the corner stone of gaining control.
- Realize the amount of time that you waste on doing things on the net. Actually, make a list of the spent time...sometimes we do not realize just how much time is wasted.
- Realize what else could have been done in that time which could have made your life more productive.
- You could either go "cold turkey" ... give up the media totally for a while...or gradually reduce the amount of time spent on media.
- Attempt to fill up the day with interesting and more productive work...this could be playing a game, learning a new language, etc.
- Reinforce or reward yourself when you do succeed in staying off the addiction for a period of time. Be gentle on yourself if success does not happen.
- Specially with social media...it helps to delete people from your friend list. The more the number of friends, the more the messages/social movement...and then the more the time you will spend on the net.
- 8. Invest in real relationships rather than those on the net.
- Sometimes it might be necessary to delete your own account from cyber space...however difficult it might be to do so.
- Occasionally, it might actually be necessary to use medication to reduce the anxiety related to stopping an addiction.
- Physical manifestations of attempting to give up can cause one to get extremely anxious...and might include nausea, pains and trembling, with feelings of impending doom.
- Remember that the addiction is stronger than you are and can be given up easily.
- 13. Sometimes there may be an underlying psychiatric disorder that may be the cause of the internet and social media usage like depression, family problems, social anxiety and parent child relationship issues that also need to be addressed.
- 14. Remember that your child's mental health and his or her psychological problems are more important than their marks and grades. Please do not be hesitant to seek help from a mental health professional when needed.

# ALUMNI FEEDBACK

#### Mr. Amandeep Basara

Name of the Institution - Ramniwas Bajaj English High School Course Completed - Grade 10 Year of Passing - 2019

#### Memorable Events/Journey in the Institution:

This school holds a special importance to me. I still remember the first day, 6 years ago when I joined this institute in grade 5. When I joined here I was just like an ordinary child, but the entire transition from ordinary to extraordinary was done here for which I'm thankful to RBHS. I was able to discover my talent, my interests and learned to become a better citizen of the society. I have made a great collection of beautiful memories which I've made here consisting of my achievements and all other fun filled activities. First, I am blessed with the fact that I have Padmaja Ma'am as my Principal. She has always been there for me for every single bit, from the tough times to the glorious days, Thank you Ma'am for guiding me and motivating me. Also, I will never forget the contribution made by my teachers and the support staff. I am thankful to them for my academic performance. Truly, Principal ma'am and the RBHS teachers deserve everything for what they have done for me.

Now I'm doing the IBDP and I am going to pursue Astrophysics in the future. I really miss this school now. I always think of turning back the clock and want to relive the entire journey. I will never forget this phase of my life. At last I can assure myself now that this is and always will be- "My school, my home".

Year of Passing: 2019

#### Memorable Events/Journey in the Institution:

Universities are brands, alumni are their best ambassadors.

Summarizing the time spent at DSIMS would be difficult as it gives a flashback of the 2 years bringing a smile on my face and tears in my eyes simultaneously. The learning and exposure that PGDM course has given us is plenitude. It granted us the prodigious opportunity to visit Paris, Amsterdam & Brussels as part of our international immersion and a trip to Anand in Gujarat for the rural immersion. As part of my experience in the extracurricular activities, Touge and Sabrang will always be special. From trying my hands on compeering in the first year to being a part of the core committee in the second year — Touge has been a great learning experience. Speaking about about the cultural event of the college, who doesn't wish to be a part of it? But only a lucky few get the opportunity to be a part of the core committee — I being among them. But with great power comes great responsibility.... that's the head of sponsorship speaking! The faculty as well as the non-teaching staff of this institute have been immensely supportive and inspiring guides, and sometimes challenging taskmasters.

#### Most Memorable Event in the Institution:

I stepped in with nervousness and excitement in plenty and came out with confidence in proportion. I climbed up with fear of falling down but the safe hands of Teachers made me touch the sky with my feet on the ground. The rough patch of dream turned into a clear vision of colours. The outstanding faculty and their innovative teaching methods inculcated the limited buffet of knowledge in me as well as the support staff who too nurtured in me the human values. I learned humanity and leadership through NSS from same Institution since taking admission in 1st year of Durgadevi Saraf Junior College in 2006 which continued till my Graduation.

 $Icompleted \,my \,BCA \,as \,an \,add-on \,degree, simultaneously \,with \,B. I'm proud to be associated with such an Esteemed Institution where we students learn and develop various skills like leadership, communication and team spirit which brings out best of our personality. As rightly said we are indebted to our parents for living, but to our teachers for living well.

This fund has been conceived to provide educational enrichment to talented and deserving students studying in Grade 5 and above.

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthani Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthani Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthani Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthani Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthani Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthani Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthani.org.in
