PRESIDENT'S MESSAGE

Dear Reader,

Rajasthani Sammelan Education Trust is in its 70th year of establishment and at present more 16,000 students are regularly coming in RSET campus to study in the institutions run by the Trust. Many of our alumni are well settled in jobs, self-employed, successful professionals and leading quality lives thereby confirming the belief that our students have used all the facilities provided to them to their optimum advantage.

At the same time, all must understand that in this age of globalization they have to excel at all levels to survive the competition. At RSET, we are driven by the belief that every child deserves high quality education regardless of his/her social status. We are of the firm belief that providing ample educational opportunities is one of the most fundamental obligations each generation owes to the ones that follow.

We have been able to maintain high academic and infrastructural standards in all our present institutions right from schools to colleges, management institute and media college. We have never believed in resting on our past laurels. Every academic calendar of our institutions have been dotted with new and special events.

It has been our endeavour to provide various facilities to the students along with providing education. Hence, we felt that it is our duty to provide safe and secured accommodations to women students coming to Mumbai from other cities to pursue higher education by starting Draupadidevi Sanwamal Women's Hostel in RSET campus from the year 2012.

However, we had a keen desire to give similar facility to male students coming from other cities by providing accommodation in a Boys' Hostel. Our dream was turned to reality by a handsome donation received from Shri Ramprakash B. Bubna and we could start Jankidevi Bilasrai Bubna Boys' Hostel in the vicinity of RSET campus from this academic year. The Hostel was inaugurated on 15th August, 2018 by Shri Kapil Dev, former Captain of Indian Cricket Team followed by scintillating function in Durgadevi Saraf Hall of RSET campus. The Hostel is running successfully and is occupied not only by Indian students coming from other cities but also by many foreign students from Bangladesh, Afghanistan, Egypt, Madagascar, Tunisia, Tanzania and Ghana.

As the world is turning into a global village in the true sense of the term, Student Exchange Programme is also becoming popular day by day. In its quest to strengthen global connect, Durgadevi Saraf Institute of Management Studies has signed a MOU with the prestigious Ottawa University, Kansas, U.S.A. in the year 2017 to facilitate our PGDM students to study credit courses. In the recent months, academicians from Ottawa University visited DSIMS to discuss further plans related to students and Faculty Exchange

Ashok M. Saraf, President, RSET

Programme. PGDM students of DSIMS also visited France, Belgium and Netherlands as a part of their International Immersion.

Students of Ghanshyamdas Saraf College and Ladhidevi Ramdhar Maheshwari Night College of Commerce conducted various outreach programmes through their NSS and DLLE units. Both the colleges as well as Deviprasad Goenka Management College of Media Studies and Durgadevi Saraf Institute of Management Studies organized Blood Donation Camps. Beach Cleaning Drive at Juhu & Marve Beach during Ganesh Visarjan was conducted along with other projects by all the colleges including Durgadevi Saraf Junior College. The students of schools and colleges also gave donation in kind for Kerala flood victims

It is a matter of great pride that some of our Heads of Institutions and faculty members have been felicitated by reputed organizations for their excellence in the field of education. Some of them have been invited by prestigious organizations to address top personnel from industry.

At the school level, the choir group of Kudilal Govindram Seksaria Sarvodaya School participated in the school group singing competition organized by Bharat Vikas Parishad and bagged the first prize in patriotic Sanskrit and Hindi folk song. Students of Kudilal Govindram Seksaria English School, Ramniwas Bajaj English High School and Mainadevi Bajaj International School have excelled in sports activities by winning prizes at the interschool sports competitions.

I take this opportunity to thank each and every Donor past and present, Trustees, Managing Committee Members and well wishers who were involved with the development and progress of the educational activities of our Trust. I also convey my best wishes to our Principals, Faculty, Staff and Students in their future endeavours.

HON. SECRETARY'S MESSAGE

Rajasthan Education Trust has very successfully created a vast resource of knowledge in its institutions. All our institutions are progressing successfully and continuously towards further growth and excellence. This year our institutions have made us proud by receiving many awards and accolades for educational excellence as well as for extra-curricular activities. All our institutions have further set higher goals and are geared up to cross more milestones.

The most important event of this academic term was the starting of Jankidevi Bilasrai Bubna Boys' Hostel by the Trust which was inaugurated on 15th August, 2018 by Shri Kapil Dev, former Captain of Indian Cricket Team. The inauguration was followed by a grand formal function at Durgadevi Saraf Hall. It was indeed a proud moment for the staff of the institutions of RSET when Shri Kapil Dev played cricket for a few overs to encourage them and also distributed prizes to the winning team.

At a recent Times School Survey 2018, Mainadevi Bajaj International School has been ranked 5th in Mumbai among schools with International curriculum and 1st in zone 'D'. She was also honoured by Brainfeed Magazine with the 'Acharya Devo Bhava' award.

To create global connect in students, Durgadevi Saraf Institute of Management Studies has been approaching many prestigious foreign universities for student & faculty exchange programmes. The institute has recently signed MOU with Frankfurt School of Finance and Management, Frankfurt, Germany for academic collaboration. DSIMS has also been sending PGDM students to

Kailash Kejriwal, Hon. Secretary, RSET

Ottawa University, Kansas, USA for the past two years under Study Abroad Programme. At the beginning of this academic year, academicians of Ottawa University visited DSIMS to discuss about further plans related to students and faculty exchange programmes.

To strengthen global connect in students, Durgadevi Saraf Institute of Management Studies had signed a MOU with the prestigious Ottawa University, Kansas, USA in the year 2017. This year 14 students of the PGDM batch 2017-19 availed the opportunity to represent DSIMS internationally and study two courses as a part of four week Study Abroad Programme. PGDM students of DSIMS also visited France, Belgium and Netherlands as a part of their International Immersion.

Ghanshyamdas Saraf College successfully organized one day Interdisciplinary International Conference on the theme 'Bridging the Gap: Recent trends in Business and Accounting Practices in Global Context' in collaboration with Association of Chartered Certified Accountants (ACCA). The Kabaddi team of the college came first in Zone II Group finals and qualified for Super 16 Inter-zone in University match. It is a long and continuous journey to attain excellence in educational endeavours that starts from school education and extends to post graduate, media as well as management studies. I appreciate the efforts of the Editorial team who have done an excellent job in compiling activities of all the institutions for the past three months in a systematic manner.

Captain (IN) Anant Yadnik (Retd.), CEO, RSET

Dear Reader,

The quarter of July, August and September 2018 was fully loaded with large number of activities on all fronts viz; Academics, Sports, Cultural, Curricular, Social and National. Our four schools, four colleges, two PG Institutes, Counselling center, PDSA (Sports Academy), Learning Centers and our associated partners were actively involved in planning, coordinating and conduct of these activities for our 17000 students. The focus of all the Institutes was to ensure that our students gets the maximum attention in developing their learning abilities in all the associated fields.

In this quarter we had witnessed a very important event i.e. the inauguration of our state of art Boys' Hostel. The Hostel is named after the 'Bubna' family, main donor, as "Jankidevi Bilasrai Bubna Boys' Hostel" (JBBH). This Hostel has excellent infrastructure, a seven storied building with all the modern facilities like fully air conditioned rooms, round the clock vigilant security services with CCTV surveillance, Wi-Fi enabled recreation area, separate air conditioned study area, a dining room, a dry pantry and laundry facility. The Hostel can accommodate 152 students and is in great demand. The management has started this venture with a noble aim of providing an accommodation to male students pursuing higher education in the Institutions run by RSET.

The JBBH was formally inaugurated on 15th August 2018 by none other than the great living legend, international fame Cricketer, Padma Bhushan Awardee Shri Kapil Dev the Indian Captain, winner of the 1983 World Cup. The another notable achievement during the quarter is that, for first time a total of 16 foreign students (9 males + 7 females) from different corners of the globe have joined our Girls Hostel and Boys Hostel respectively. These international students are from Afghanistan, Namibia, Madagascar, South Africa, Thailand, Sri Lanka, Dubai and from Nepal. We are sure that these numbers will keep on growing with every year through word of mouth publicity. We have sizeable number of NRI students who are studying in our various institutions.

We were very lucky to have Shri Kapil Dev playing on our own PDSA ground on 15th August 2018. As Kapil Dev believes that "Apart from education you need good health and for that you need sports". A Cricket game was organised at PDSA ground in his honour between his team Captained by himself and RSET team captained by Shri Ashok Ji Saraf, President of RSET. We witnessed an amazing match between the two teams and team Kapil stood out victorious. All the players and the spectators who played and witnessed this match were thrilled to be the part of this great opportunity.

Our Schools and colleges have left no stone unturned in all activities where our students have excelled in almost all the

CEO'S MESSAGE

activities. They have won large number of medals (Gold, Silver and Bronze) at various levels of sports in Basket Ball, Volley Ball, Aquatics, Judo, karate etc. The list is so large that it needs to be mentioned on a separate page. We have already decided and implemented that as and when such achievements are noticed, we immediately forward it on WA group so that the large number of our staff and students know it instantly. The other activities of the schools and colleges are given in succeeding paragraphs. NCC activities of the year started with continuation of senior cadets and enrolment of 1st year cadets. One of our student was selected for Inter Directorate Shooting Championship at Chandigarh. Later she was selected for the National Shooting Championship held at Chennai. A large number of GSSC students took part in Tree Plantation, pulse polio immunization and street plays as part of NSS activities.

Blood Donation Drive was organized at RSET "Project Sahyog" in association with Rotary Club DG Goenka Blood Bank. At DSIMS twenty best projects were selected as part of Summer Internship Competition is held every year. After vigorous rounds of assessments, the top five were selected on the basis of average scores of the judges. As part of Swacchh Bharat Abhiyan, our schools and colleges have taken active part in Beach Cleaning Drive. A large number of students of PGDM, MMs have participated in this drive to clean up Juhu Beach. When a natural calamity took place in Kerala where the floods had devastated the human life and property, our staff and students have done their bit by conducting Kerala Flood Relief Drive in collaboration with Goonj (NGO). They have collected and sent several boxes consisting of clothes, grains blankets, utensils etc.

In this quarter we had noticed industrial visits, corporate visits and international collaboration too. Ottawa University will send around 15 to 20 students to our campus for around 10 days on a study tour. Our students will continue to go to Ottawa University for study abroad like earlier years. At RSET we have celebrated the 72nd Independence Day on 15th August 2018, with great fervor and enthusiasm. It was held in the Durgadevi Saraf Hall within the campus. On this patriotic occasion the entire Rajasthani Sannam, showcased a colorful spectacle through their performance. To prove that 'Hindi is the soul of Indian Culture', a large number of competitions were held in our Institutions and it proved to be a good learning experience for the students. The entire week in September was devoted for celebrations of Hindi Diwas and Hindi week by conducting cultural events to get an insight into the evolution of Hindi language. Our Partner institution - International College of Financial Planning conducted classes for the students of the Certified Financial Planner (CFP) program. Counseling and admissions for MBA and CFP courses were conducted during this period. Seminars have been conducted in different colleges during this period. An Orientation was held on 25th August 2018 for the new batch of MBA students. Classes have been started from 27th August 2018.

The Helen O'Grady International, our partner institute conducted Counseling and admissions for new batch during this period. Internship for the 14th batch of Trainees has started. A workshop on making Puppets was conducted for trainees on 28th July 2018. Renowned puppet artist, Kattababu taught the trainees how to indigenously create puppets. It was an extremely interactive and interesting session for the trainees. KSIL partners Ajivasan Music Academy conducted training sessions on Indian classic Vocal in this period. A new weekend batch has been started in July. KSIL partners Rao IIT Academy conducted lectures during this period.

Overall it was a very satisfying quarter where the maximum Teaching-Learning took place.

MESSAGE FROM DIRECTOR OF SCHOOLS

Classrooms, and life itself, across the world are changing as processes are being increasingly digitized. The way we see reality and communicate it to each other has been dramatically transformed. In the field of education this has taken the form of touch on cloud technology being used by teachers which has done away with the use, not only of text books and notebooks, but also of interactive smart boards. In the most technologically advanced schools in the country, and abroad, computer enabled one-on-one learning is replacing the traditional classroom. Parents are instantly aware of what is happening in schools as some schools go live.

While these whirlwind changes take hold of learning processes, educators all over the world are also speaking increasingly of responsible use of digital resources and the impact they are having on the overall development of the child. Parents complain incessantly about their children spending hours late into the night glued to their electronic devices. They say they experience a loss of control over their child's upbringing and are constantly at loggerheads with them over the use digital devices. Parents want to know how to handle this virtual virus that does not seem to respond to any treatment and that is the main source of conflict within many families.

The first response this situation demands is a holistic approach that involves all the stakeholders which include the `problem causing' medium, parents, children, their friends and the educational institutions that the children inhabit. It will also help if we look at digital life as a reality rather than a problem which needs to be sorted out.

Parents and educators need to approach this new reality in a knowledgeable manner. This means that it is important to be aware of the manner in which the students are using this forum including the devices, their capacities, the sites they visit and the content and people with whom they share it. This has to be done not with the intention of putting a stop but to know. Parents and educators should try out the sites that their children visit and play some of the games to know the intensity and the reason why they become so addictive. With this knowledge in hand it is important to talk with our children regarding the use and abuse of the internet without using threats or restrictions.

Just as schools have an internet use contract, it may be a good idea to have a contract between all members of a family to set down rules for use of electronic media. This should include a clear understanding of how and why parental controls are needed on all devices that the children use, the time limits and the sanctions that will follow if rules are breached. Parents need to display exemplary

Nitin Padte, Director of Schools, RSET

behaviour in their own use of the electronic media if this has to have any real effect.

With games such as the blue whale challenge and other abusive mediums easily available it is important to monitor what your children are doing on the internet. However this should not have an element of policing or stalking or else they will go to the house of a friend whose parents are lax and continue with their activities in a covert manner. Empower your children by exploring some sites and apps together and asking them to teach you some of their games.

While schools have firewalls, contracts and ground rules as well as constant monitoring of internet usage by the students, this needs to be fully supported by an equal response from the parents. If the students get a confused signal from either end the purpose of having a healthy cyber environment will be lost.

At the schools of Rajasthani Sammelan Education Trust we are rapidly expanding our information technology reach and are making it available to our staff and students at an increasing rate. At the same time we are also extremely conscious of the appropriate use of this medium. Keeping this in mind not only do we have strong firewalls that prevent access to undesirable sites, IT teachers, the leadership team as well as external cyber security advisors interact with our students on a regular basis so that this fast growing medium is understood thoroughly and is used to further the goals of a good education.

Information technology is here to stay and our children will imbibe at a rate that is not easily fathomable to the grown up world. Our best approach would be to deepen our understanding of this medium and extend a helping hand to our children from a position of knowledge.

The month of October arrived with the celebration of 'Gandhi Jayanti' the birthday of Gandhiji, the Father of the Nation. In order to commemorate Gandhiji's 'Ahimsa Philosophy' the United Nations General Assembly had voted to establish 2nd October as the International Day of Non-violence on 15th June, 2007. Remembering the great leader and his contributions, every year Gandhi Jayanti is celebrated on 2nd October across the globe. This year, the day became all the more important internationally as on this day Nobel Prize in Physics was declared by Prof. Goran K. Hansson, Secretary General of the Royal Swedish Assembly of Sciences. One of the 2018 Nobel Prizes in Physics went to Donna Strickland a Canadian woman physicist and the third female physicist to receive the award after Marie Curie in 1903 and Maria Goeppert- Mayer in 1963, 55 years ago. The prize was shared by Donna Strickland with two laser physicist Arthur Ashkin and Gerard Mourou.

Back home in our country recently, while delivering the inaugural speech at 'Conference on Academic Leadership on Education for Resurgence' jointly organized by UGC, AICTE, ICSSR, IGNOU and some other important universities at New Delhi, The Hon'ble Prime Minister Shri Narendra Modi emphasized on the importance of character building of youth over literacy and called for wholesome education in the country. He felt that students should not just be restricted to classrooms but should also be part of aspirations of the country. He also quoted the views of Swami Vivekananda on Education that stressed on wholesome education to make us human. The Prime Minister also felt the need of improving quality of education and infrastructure of educational institutions and also promised to invest 1 Lakh crore rupees by 2022 for the same.

At RSET Campus, the first half of this academic year was a great challenge for all Heads of Institutions. On one hand, teachers had to complete syllabus in time followed by unit test of schools and junior college and also first term/semester examinations of colleges and other institutions of higher education. In between there were celebrations of national importance such as Independence Day, Teachers' Day, Hindi Diwas and so many other extra-curricular and co-curricular activities. At the same time, festivals were also lined up in a row. Starting from Parsi New Year, Rakshabandhan, Ganesh Chaturthi, Eid and Navratri - all created a feeling of joy and enthusiasm in the minds of school and college students & also broke the monotony of studies. However, the most important event was the inauguration of Jankidevi Bilasrai Boys' Hostel by Shri Kapil Dev, the former captain of Indian Cricket Team on 15th August 2018.

Back to academics, State Board affiliated school children appeared for baseline line tests as made mandatory by State Education followed by first term tests and then they enjoyed Deepawali holidays, the festival of lights. Kudital Govindram Seksaria Sarvodaya School hosted an interschool recitation and debate competition as a part of Hindi Diwas celebrations on 6th and 7th September respectively wherein 17 schools from all over Mumbai participated. Taking the lead, Durgadevi Saraf Junior College celebrated Hindi Diwas in a grand manner with a musical event along with Ghanshyamdas Saraf College and Ladhidevi Ramdhar Maheshwari Night College of Commerce. Other institutions also celebrated Hindi Diwas enthusiastically by holding interesting events. It was a proud moment for all of us when Dr. Latha Venkat, Principal of KGSS was felicitated at the National School Award Ceremony held in Delhi. She was also honoured by Brainfeed Magazine with the 'Acharya Devo Bhava' award. Some other heads of institutions also were honoured by important academic organizations.

Kunjibhari S. Goyal Online Academy (GOLD Academy) and Educational Resources & Process Management Co. Pvt. Ltd. Excerpts of Interview of Shri. Mahavirprasad G. Saraf

Q From a successful businessman to an iconic philanthropist, how has this transition been for you?

Certainly it was a very smooth transition mainly because from a very young age I had seen my parents indulge in charity and social work. This influenced me a great deal. Simultaneously with the setting up my business, I ventured into Philanthropy. When I was a small child, I had seen them offering food, water and clothing to the needy people, distributing school books, stationary to the poor students, paying their school fees and also donated benches etc. These are the first rays that motivated me towards charity.

Q Your journey of Philanthropy dates back more than 3 decades, could you tell our readers about this journey.

It is not 3 decades of Philanthropy but a long journey of nearly 6 decades. It began in 1959 with an auspicious note when I had set up Shri Hanumanji Mandir at Malad East and thereafter there was no stopping. I started 5 charitable trusts through whose medium, I meticulously initiated and accomplished numerous welfare. projects in areas such as social service, educational promotion, women's and child welfare, health care, handicap uplift, blind relief schemes, sports, art, literature and cultural development etc.

Q Tell us something about your Philanthropy mantra.

For me "Giving is the true art of Living" and "to serve Humanity is to serve God". This is my Philanthropic mantra. I'm a staunch believer in "Karma" and strictly follow the Gandhian philosophy of "Trusteeship". The best way to be happy is by making others happy. There can not be a greater happiness than the happiness that comes to us with the happiness of others around us. I strongly believe that "what you give is yours, what you have is not yours".

Q You got associated with RSET way back in 1980 with your significant contribution to promote education among girls. What was the predominant thought behind this gesture?

I got deeply associated with RSET way back in 1983 when it came up with the idea of establishing a degree college primarily to promote women's education I extended generously towards the college and its development. The main objective of setting up of Ghanshyamdass Saraf College was to empower the girl students.

Q You have been managing your philanthropic activities through the various trusts that you have set up. How do you take the decision to associate with any organisation when it comes to "giving".

When an appeal for donation comes to us, we thoroughly scrutinize the appeal, the authenticity of the sender, the objective of the donation and how much benefit the common person gets from our donation. Once we are satisfied, only then we extend the donation.

Q How do you see the growth of RSET over the last two decades, and is there any advise you would like to give to the current team of office bearers.

The RSET growth of the past two decade is fabulous. In a very short period RSET has achieved a great deal. The speed in which it has expanded and undertaken the setting up of various educational institutes in the RS campus for qualitative and professional education is tremendous. I congratulate and compliment the management team under the present President, Shri Ashok Saraf for the extraordinary progress and par excellent performance of RSET.

Q You manage an amazing work-life balance even at an age of 85. What is the secret to this?

When there is a will there's a way. I get the same enthusiasm and eager towards charity as I had when I ventured into it. I get immense inner satisfaction when my charity reaches the deserving persons. This satisfaction gives me the necessary boost to pursue further in this direction.

Q There is a lot to learn from you when it comes to business and your philanthropic activities. Is there any advise you would like to give to our young Philanthropists who have been recently associated with RSET.

Set your goals in life, be focused and you can achieve a lot. Whatever you do give your best shot. My best wishes to those who are recently been associated with RSET. My advice is that please carry forward the torch which the previous generation has set forth. I wish them all the success in their endeavors.

Ramniwas Bajaj english high school

Our Chief Guest, Ms Shweta Chaudhary-Mrs India [Earth] 2017

Leaders are role models who inspire followers and motivate them to reach the pinnacle of success. Leadership, thus is the capacity to translate vision into reality. The elections at RBHS has been a democratic process in the Primary as well as the Secondary. The students elect the members of the Student Council in the Secondary section and the Junior Student Council in the Primary section.

These Council members are then invested with sashes and badges in the Investiture Ceremony. The Investiture ceremony signifies the reliance and confidence that the school consigns in the newly invested office bearers. Donning the mantle of accountability, the Council members also pledge to bestow their duties to the best of their abilities. We believe that this child centric approach will frame a responsible citizen.

The Investiture Ceremony of RBHS for the academic session 2018-2019 was held with great pomp and dignity in a special ceremony at the Bajaj Hall on Friday, 13 July 2018. Mrs. Shweta Chaudhary-Mrs. India [Earth] 2017 who has been also chosen as Mrs Eco International 2018 was the Chief Guest. Dr. Narayan Iyer, CEO, IDF was the Guest of Honour. The occasion was attended by the proud parents of the elected Student Council Members.

The ceremony was conducted with lots of zeal and zest combined with a high degree of earnestness and passion. The ceremony commenced with the school anthem beautifully rendered by the students. This was followed by the introduction and felicitation of the Chief Guest and the Guest of Honour by the comperes, Ms. Anya Talekar and Ms. Omi Saboo. A group song stating the message, 'We can achieve' was beautifully sung by the students. The introduction of the House system and the House teachers was well narrated by the comperes.

The call of the bugle marked the beginning of the Investiture Ceremony. The Student Council members marched their way to

the stage and positioned themselves in order. They were conferred with badges and sashes by the Honourable Chief Guest, Guest of Honour and the Principal, Headmistress and the Primary Coordinator. The elected leaders' profiles were displayed on the screen. Every member after being invested with the badge signed off the chronicle. The chronicle is a book maintained with the profile of the Council members, their hobbies and interests. The outgoing Captains of the AY 2017-18 handed over the flags to the incumbent Captains and Vice Captains. As soon as the flags were exchanged, the Student Council took the oath to hold the school motto of Loyalty, Truth and Honour in high esteem. In this process, the Head Girl took the lead and the other Council members followed suit. After the oath, the Head Girl and the Head Boy placed the school flag on the flag stand. They were followed by the House Captains who placed the House flags on the stand.

The Head Girl, Ms. Kritika Bhabhra then enamoured the audience with her fiery speech depicting the dedication and loyalty towards the school. The Student Council then dispersed. The Principal, Ms. Padmaja Kutty then addressed the audience and stated that leadership is about a life that leads by example. By walking your

talk, you become a person who others want to follow. Leadership is never about positions and titles. It is about one life influencing another. She advised the Council members to be role models and extend a supporting hand for the smooth functioning of the school.

She then invited the Chief Guest, Ms. Shweta Chaudhary to address the gathering. Ms. Shweta, in her address, encouraged the Council members to be impartial and honest in discharging their duties. She also exhorted them to uphold the values. She reminded them that with position comes responsibility towards themselves, their school and peers; and struggles help one to achieve heights. The Guest of Honour, Dr. Iyer mentioned that the motto of their life should be Dream, Believe, Achieve. His words of wisdom left an impact on the minds of the students. The Head Boy, Master Nikunj Asawa then rendered the vote of thanks. The function concluded with the National Anthem. Thus the Investiture Ceremony of RBHS was conducted with elan.

A proud moment for the leaders

Leaders in the making

Students can be seen with dignitaries who graced the investiture ceremony.

If your actions inspire others to dream more, learn more, do more and become more, then you are a leader.” – John Quincy Adams.

On the fine morning of 18 August, 2018, deserving young talents of our Mainadevi Bajaj International School were bestowed with the responsibility of leading their School from the front with their commitment, confidence and competence. The Investiture Ceremony thus marked the inaugural of the junior and senior student council for the academic session 2018-19.

The Chief Guest of the day was our Beloved Founder Madam Mainadevi Bajaj. The event began with the school band giving a ceremonial welcome to the Chief Guest and all the dignitaries present. The ceremony started by lighting the lamp which signifies removal of darkness and the continuous upward movement of the flame denotes the path of wisdom and divinity. The school choir sang the School Anthem with great vigour and voice laced with pride and confidence.

The solemn ambiance of the occasion was enhanced by a meaningful song sung by the school choir. "Make Me A Channel Of Your Peace and Responsibility" were the songs chosen for the occasion. These were appropriately motivational and also marked the commemoration of our Founder's Day.

While the school's Principal, Mr. Pouroshasp F Karkaria, inspired the students to take on their new leadership responsibilities with due seriousness, there was a sentimental touch to the event as

students of Grade 1 walked up to our Founder and wished her a happy birthday. It was truly moving to see Madam Bajaj greet each of the students with a hug or a pat on their heads. With the vigorous beats of the drums and a march playing, the new council marched in procession up the aisle and on to the stage. They stood upright with their heads held high and their hearts in humility as each picked up their precious flags.

The school Head Girl, Head Boy, the Sports Captains and the House Captains carried the school flag, sports flag and the house flags respectively. Thereafter, the guests of the august gathering, Chief Guest our beloved Honourable Founder, Mrs. Mainadevi Bajaj; Director, Mr. Nitin Padte; Principal, Mr. Karkaria; RSET's Secretary, Mr. Kailash Kejriwal; Ms. Archita Rajapuria, member of the governing body and Trustee; Academic Coordinator, Mr. Husien Burhani; IGCSE Coordinator, Mrs. Sumathi Sankar; Pre-primary & Primary Coordinator, Mrs. Priya Natraj; along with the Four House Mistresses pinned up the sashes and offered badges to each council member.

Principal, Mr. Karkaria, administered the oath of office and the members of the council pledged to adhere to the values and principles upheld by the School. Apart from their duty towards School, these representatives also pledged their service to the nation's larger environment. The ceremony concluded with a Vote Of Thanks followed by the National Anthem.

The entire program was competently compered by Ms. Pearl Karkaria of Grade-10 and Master Kunal Dwivedi of Grade-12.

INSTITUTIONS OF RSET CELEBRATE HINDI DIWAS

Hindi Diwas is celebrated in our country on 14 September every year because on this day in 1949, the Constituent Assembly of India had adopted Hindi written in Devanagari script as the official language of the Republic of India. This decision was ratified by the Constitution of India that came into effect on 26th January, 1950. Under the Article 343 of the Indian Constitution, Hindi written in Devanagari script was adopted as the official language. In all, there are 22 Scheduled languages of India, of which, two are officially used at Union government of India level i.e. Hindi and English. Hindi is spoken by 250 million people as the original language and it is the fourth language of the world.

Rajsthani Sammelan Education Trust is a Hindi Speaking Linguistic Minority Trust & hence the President, Trustees & Managing Committee members give special importance in celebrating Hindi Diwas. All the institutions are encouraged to celebrate Hindi Diwas by holding events based on Hindi language. Trophies & prizes are also instituted by the Trustees to encourage students to participate in competitions organized by the institutions. As in previous years, this year too, Hindi Diwas was celebrated by the institutions of RSET in a grand way.

Every Moment is a New Beginning – T.S. Eliot

A new academic year not only brings along with it a new beginning but also an opportunity to better oneself. Students are excited and eager to explore and learn. RMCC continues to assist students to know their strengths and areas of improvements so that they could excel in whatever they do.

RMCC took the initiative to conduct a **FREE SCREENING CAMPAIGN** to assess the reading and spelling age of children for ages 6 and above. Spelling assessment and individual reading assessment was conducted for students both in-house and retail, during the campaign. Post the assessment an analysis was conducted for each student and a short report explanation session was held with each parent individually. It was of great value for the parents, as they were able to identify the academic status of their child, and bring to their awareness if their child needs special academic attention. Recommendations were made during the sessions for further standardised academic assessment, remediation or personal counseling as per the need of the student.

RMCC conducted Mass Screening for all the students of Std IV on 12th July 2018. Post that the students who were short listed as having academic concerns were administered Academic Assessments on 24th July 2018, to identify those students who need special attention in their academics. The **DTLD assessment** was conducted for seventeen students. Post the conduction our counsellors scored the results and prepared a comprehensive report.

Parent meetings were conducted to draw the attention of the parents on the concerns of their child, and recommend to them the steps that can be taken to increase their child's academic achievement.

GRADE GAP ASSESSMENT was also conducted for students of grade VII and IX, on 3rd July. After this a grade gap analysis was conducted where the students were further short listed. A principal meeting was held to discuss the same. Post which PARENT MEETINGS were held for all the 22 students on 25th and 26th of July to explain the results to the parents and recommend the measures that can be taken for improvement.

GROUP REMEDIATION has been initiated for the students who were identified with having academic concerns, after the screening process conducted in the month of July. Four sessions have been conducted for the students of grade IV, four for students of grade VII, four for students of grade V, three for students of grade IX and three for students of grade X.

RMCC conducted a detailed INFORMAL ACADEMIC assessment both in Hindi and English languages for students of KGSS, grades V, VI and VIII. The assessment included the test of reading, writing and comprehension. This was done because these students were consistently showing poor academic performance. The purpose was to identify the grade level in which these students are functioning and to thereafter plan an intervention to aid these students.

Educational Assessment being Administered

Workshop on **Self-Esteem and Resilience Building** was conducted for 10 Sections of Grade IX and X. The workshop dealt with the various issues that teenagers face with respect to their bodies, emotions and social life, the various stressors that they encounter on a daily basis and how to deal with them. Also how to remain stress-free and positive in the face of difficulty was also discussed. The students thoroughly enjoyed the workshop, participated with great interest and benefited from the discussions.

RMCC conducted a Parenting Workshop for the Parents of MBIP on 8th of August 2018. The purpose of the workshop was to address the various concerns faced by the parents in dealing with their toddlers, and provide solutions based on psychological research. Various Behavioural concerns, Physiological concerns, and developmental milestones were discussed with the parents. The workshop was very interactive; the parents got their queries answered and doubts cleared. RMCC received very good feedback from the parents.

MBIP parents attending Workshop

One parent mentioned- "It was a very effective session. All points were discussed very prominently. We would like to join the other sessions also if held anywhere on child psychology"

Most students experience difficulties in their lives. For example, they get extremely stressed before exams, we think we don't look good, we have stage fear etc. Yet the students are hesitant to approach us directly for Personal Counseling. We therefore, came up with a system to make it easier for the students to approach us. We have installed a yellow and blue colour box in each of the RSET Institutes. Students can write their concerns along with an email address or a phone number, and we shall be replying to them with

the best guidance. The entire process is completely confidential.

Our Counsellors also went to the classes and oriented the students about the various emotional concerns and how necessary it is to seek help rather than struggle with it alone and wait for it to blow out of proportion. They were informed about the Personal Counseling boxes and explained how to use them.

We have received a very positive response from the students who have after the orientation written to us via the boxes and many of them have also approached us directly. We have therefore been able to establish a system to provide emotional support to our students.

Remediation students have shown improvements in their Academic skills and parents have been happy with the progress.

RMCC is assisting and guiding students for overseas counseling and coaching. A workshop for parents and students was conducted on 24th September to provide detailed guidance for eligibility and admission procedure.

The team at RMCC continues to work towards bringing out the best in each child and help him/her to succeed.

GURUKUL EDUCATION THE ULTIMATE SOLUTION OF CONTEMPORARY ERA

गुरुर्वल्ल गुरुर्विष्णुः गुरुर्देवो महोवः ।
गुरुः साक्षात् परब्रह्म तस्मै श्रीगुरुवे नमः

DR. MRS. PRATIMA JOSHI (Msc. Ph.D)

Education plays a vital role in overall development of man. During the course of evolution man's tendency has gradually changed from survival to progressive instinct. To quench the thirst of progressive instinct education comes to man's help. In this paper the various issues and perspectives of education as an art of learning and cultivation of values is discussed.

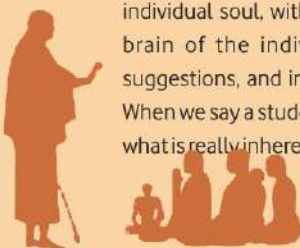

Swami Vivekanand has rightly said about education as the manifestation of the perfection already in man. He has clearly specified the aim and purpose of education in the above statement. Education should be such that, it helps to bring out the perfection in man, which is already latent in his soul.

Education should be according to the natural inclination of the individual soul, with idea that wisdom cannot be drilled into the brain of the individual and that all the books give mere suggestions, and in reaction we get the knowledge of the book. When we say a student is 'learning', in true sense he is 'discovering', what is really inherent in him. Are we doing this? No.

In present day university system, which is a stereotyped way of getting various degree, one gets degree by memorizing the subject matter, which may help in the intellectual development of man. But, to get the essence of the subject matter, one must have highest power of concentration and peace of mind, which is

गुरुर्वल्ल गुरुर्विष्णुः गुरुर्देवो महोवः ।
गुरुः साक्षात् परब्रह्म तस्मै श्रीगुरुवे नमः

missing in today's student's life. Because right environment which is necessary for achieving peace of mind and internal development is not provided.

The object of education is to enable a person properly to stand on his feet and understand the laws of nature, to understand not only the ordinary law of physical nature, but also the mental, intellectual, moral and spiritual nature. Education must enable students to think independently. When one studies a book, one's mind absorbs the thoughts of the writer and one must know that those thoughts are only suggestions which help one to think in that line. Books help us to acquire suggestions, which are like pebbles thrown into a pool. They create ripples and react so, when a suggestion is thrown into a child's mind it begins to react and in that reaction the child reacts and gathers what is called 'knowledge'. Hence, child reacts faster if suggestions are given in one's mother tongue. No doubt English has become international language today but it is everyone's self-experience that we can think and express our thoughts very easily in our mother tongue. Hence, basic education at primary level must be in mother tongue beside learning English as a 2nd Language and other regional languages.

The ideal of all education, all training should be man making. It should aim at overall development of man, at body, mind and soul level. Today's education system produces professionals who are first class university graduates but behaviour wise at social and domestic level, they turn out to be 2nd class husband and third class father. It is not their fault. Because they have been taught with practical training, how to be a successful professional but how to be a good human being, they do not know. Probably that theory is covered in moral education period, but what about practical part of it? It is almost missing.

Qualitative enrichment is the essence of human evolution. Quantitative knowledge, without wisdom, has been the cause of human suffering. Today's educational system is responsible for mass production of specialization job hunters to satisfy their material needs, but has restricted the growth of creative minds.

गुरुर्वक्ष गुरुर्विष्णुः गुरुर्देवो मद्ये'परः ।
गुरुः साधनात् परब्रह्म तस्मै श्रीगुरुवे नमः

Today's education system takes care of one's career aspects and fulfilment of their material needs, but moral and spiritual development of the student is not valued much. Now a days students pay their fees for their education, with the result they feel pride in the thought that their teach is maintained out of the payment they make. This results in diminished devotion and respect for the teacher. Tranquillity and humility are absent form the life of student, because of his sense of pride.

In such a case how one can think of this education system as man-making system? In true sense education should become a vehicle of man's moral & spiritual transcendence and at the same time it should serve as a mean of evolution of human consciousness. This was truly achieved in ancient Gurukula System of education. In that system student used to live from his very boyhood with one whose character used to be a blazing fire and he used to be a living example of the highest teaching before the student. One living example is better than percept. One living example used to change the whole character of the student and it used to help to mould his career according to the ideal which was before him. Students used to raise the vibration of their mind (obviously with the blessings, influence and teaching of the Guru) to the level of vibration and the mind of the Guru and then, like wireless telecommunication the wisdom of teacher's mind would be communicated with the student's mind. That was the process of transmission, the natural principle of proper education. In ancient Gurukula system of education the pupils paid no fees. They were looked after by the Guru whose ashram was in turn, supported through the endowments from kings, merchants and rich patrons. The anchorites and community of house holders enjoyed a symbiotic relationship. Students going into town and villages would be provided food by the people, this was considered as a great privilege by the house holder. In return, the anchorites would impart learning and make spiritual offering on behalf of their benefactors. The heritage of ancient era were usually situated in the sylvan surroundings, in forest and often on the bank of rivers – far from the temptation of urban life. Today's dilemma is how to revive this system? What practical workable from can it be given?

Some practical guidelines are given below for propagation of education for awakening of self – consciousness and fostering of human values.

- To impart free education in order to receive feeling of devotion among the students.
- To meet the expenses, funds of human resources development department can be channelized to impart free education. Because once humanity is revived, man himself will become a good resource.
- Appointment of those teachers who are ethically are aesthetically sound in taking up arduous task of turning out pupils as worthy citizens of tomorrow. For this, help of spiritual organization can be taken, so that talented, dedicated people will get chance to serve the society. Even funds of such organization will be mobilized for imparting education. For this purpose services

of talented, retired people can also be taken. Young students will serve them with respect and old people will impart their wisdom to them. This will help to bridge the generation gap.

- Bifurcation of subjects at very early age should be done. In keeping with the aptitude and interest of the child, detailed teaching should be imparted to him in the subject of his choice, with knowledge of other basic subjects that will help him to spare time for moral and spiritual education.
- Introduction of seva period in daily time table. Seva here means all the activities of the school should be performed by the students, along with their studies. Higher – class students can participate in non-teaching staff's work. This will help in minimizing the expenses of administration. At the same time students will realize the dignity of labour. This practice will make him the host of the school.
- Provision for meditation in daily time table.
- Once in month there should be get together of parents, teachers and students discussing their problems. Humanity consultant should conduct such get together to create a harmonious atmosphere.
- Students doing seva sincerely should be rewarded. This would encourage them to willingly render seva.
- Wherever possible, school should be converted into residential one. Because student should live as simple life as possible. Ideal student is one whose life is an embodiment of simple living and high thinking.
- Besides testing student's intellect in examination, their moral standard should also be evaluated before giving them passing certificates.
- During seva period, students of higher class may be asked to visit localities of down trodden in order to make them understand their problems.
- Vacation time may be utilized for doing social service, like imparting education to small children, serving sick, old and the weak. This practice will revive the virtue of sharing their achievements with others, and this will also inculcate virtues in them.
- Teachers may be asked to spend some in Gurukula to make them aware of working of their internal Guru element. Teachers and

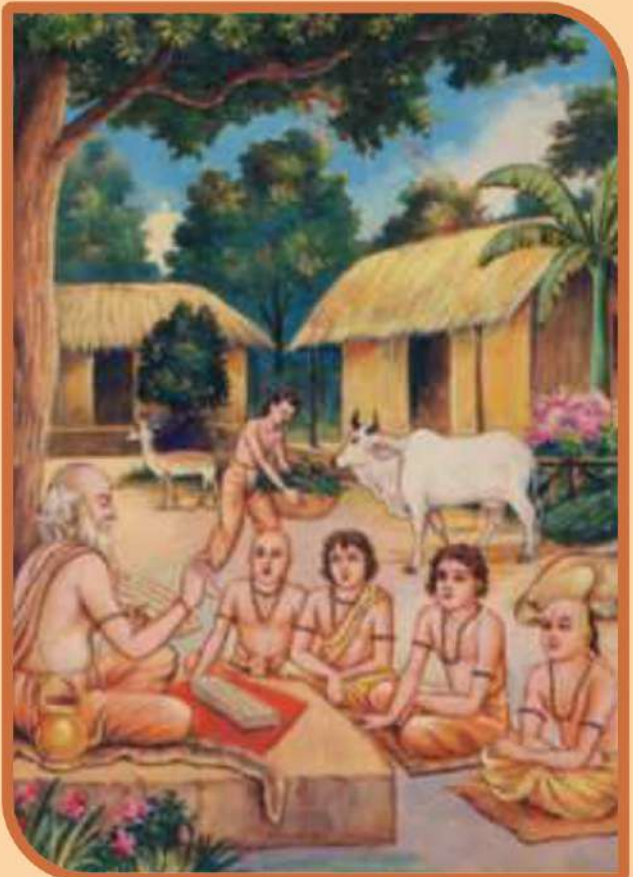

Professors should be respected as Gurus and their life should become living example for the students to follow.

- In all educational institutes, as there are libraries, laboratories, computer rooms and canteen, there is a need for having a 'healer's room – a guru's room, where all the teachers and students should bow down before starting their daily routine.
- Services of Guru's disciples may be taken as healers to make teachers and students stress free and remain in harmonious relation. With practical execution of above suggestions, it may be possible to some extent to achieve the real aim of education i.e. the building of character and development of harmonious personality which knows how to dovetail its own interest with the need and desire of others – a personality that will rouse respect for others and awareness for natural environment. The virtues stressed in convocation should be truth, goodness, selfless service and respect for others. Thus, by blending spiritual aspect in science & technological frame work, education in true sense would become an art of learning & cultivation of Values.

I will attribute it to the atmosphere LRMC provides. The teachers understood our problems and helped us in solving the same. The other memorable part was my involvement in many activities of Sports and National Service Scheme (NSS). One gets a very good exposure by being a part of the activities of the Sports and NSS Department. The Cultural Association of the College is very active throughout the academic year. It provides ample opportunities for students to broaden their horizons and display their talents. Speaking about the Annual Day celebrations and winning Ms. LRMC Title in the fashion show of the Annual Day ceremony in the year 2016 was the memorable moment to cherish and get an opportunity to be crowned amidst dignitaries. Intercollegiate festival of the college "PANKH – A Desire to Fly" over the years has also received a very good response from the students of other colleges. Students who work as volunteers in the staging of the college festival get to learn about many aspects like marketing, finance, hospitality, designing, crowd management and many more. I have also been winning trophy for 2 years consecutively for the rangoli making competition. Our teachers were very much co-operative and humble and also helped us as and when we required.

Thank you
Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthani Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthani Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthani Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthani Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthani Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthani Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthani.org.in
