President's Message

RSET matching the cutting edge of technology

Education system all over the world is changing at a faster rate than ever before. As soon as a new information is received, it is quickly shared due to increasing use of internet. Both teachers and students have learnt how to integrate technology in their classroom. Students are also getting more interested in learning with technology. Often students and teachers would like to use hi-tech e-resources such as e-books, e-journals and online data bases that provide latest information of finance, business, markets and other areas of knowledge resources as required by them.

The use of technology in education has removed geographical boundaries. Many universities and colleges have embraced online education by creating virtual classrooms. Online education is flexible and affordable, students can attend classes during their free time and they can also have a chance to interact with the faculty and other students virtually.

We at Rajasthani Sammelan Education Trust have always been concerned to empower students of our institutions with modern education duly supported by technology. Shri Murlidhar Karwa Knowledge Resource Centre at Durgadevi Saraf Institute of Management Studies is well equipped with all modern facilities. Along with books, journals, magazines, newspapers, hi-tech resources like as e-books, e-journals and online data bases are available to students and faculty.

In the same way, Smt. Prabhadevi Banwarilal Saraf Library of Deviprasad Goenka Management College of Media Studies also has subscribed DELNET Online Database having access to 5000 full text journals, books, thesis, dissertations etc. The library is also providing access to other e-resources on sharing basis with DSIMS. All the libraries in RSET campus are using KOHA open resource software for various functions and services. The libraries in RSET campus are equipped with computer to provide internet services to the students.

Recently, Sharda Cropchem Bloomberg Lab at Ghanshyamdas Saraf College was inaugurated by Shri Ramprakash Bubna, Chairman & Managing Director of Sharda Cropchem Limited on 25th August, 2019. Bloomberg is a coveted terminal which is a store house of real time information from all the leading markets across the world. Using Bloomberg's service, students of the college can perform market analysis, compare different investment strategies, evaluate complex financial instruments and analyze specific companies and industries. At present, the college runs a Bloomberg Market Concept Course (BMC) and approximately 100 students and 26 staff members have obtained BMC certification. Ghanshyamdas Saraf College is the first undergraduate college in University of Mumbai to have such a facility. Bloomberg helps universities and colleges to incorporate this system into academic programs to better prepare students for the global job market.

It is also our endeavour to create global attitude in our students. Durgadevi Saraf Institute of Management Studies and Deviprasad Goenka Management College of Media Studies have tied up with many foreign universities for Student and Faculty Exchange Programmes. Every year, PGDM students of both the institutions are taken for 'International Immersion' as a part of their Study Abroad Programme.

In the month of October, students of DSIMS visited University of Finance

Ashok M. Saraf, President, RSET

and Administration Prague Czech Republic under Student Study Abroad Programme for one week. Earlier, students had also visit Ottawa University, Kansas, USA, to study some courses. Faculty members of DSIMS were also invited by Ottawa University to deliver lectures. Students of Ottawa University with their Economics professor and one Trustee also visited DSIMS earlier and students attended classroom sessions in Finance, Marketing, Human Resources, Operations, Indian Economy, Indian Culture etc.

Students of DGMC were also taken to Singapore - Kuala Lumpur to study the media environment and global cultural difference. Even students from our schools are interacting with students of European schools by being member of EUMIND (Europe Meets India) and are participating in various projects.

We are also nurturing talents of our students in Sports through Pravinchandra D. Shah Sports Academy. With the objective of cultivating love for sports and foster sportsmanship in children, 5th PDSA Interschool Sports Meet of eleven schools was organized which also includes four of our schools in the month of October at PDSA ground.

I take this opportunity to thank each and every Donor past and present, Trustees, Managing Committee members and well-wishers who have been involved in the development and progress of the educational activities of Rajasthani Sammelan Education Trust.

Hon. Secretary's Message

Productive in the midst of global change.

Dear Reader,

Rajasthani Sammelan Education Trust has witnessed unprecedented growth and expansion in terms of infrastructure, new educational institutions, strength of students and staff over the past one decade and more. At present, the Trust is running eleven educational institutions that have more than 16,000 students, an Online Academy, a Women's Hostel, a Boys' Hostel, a Career Counseling Centre, a Sports Academy along with many other facilities provided to Staff and Students to facilitate teaching learning.

It is our mission and vision that all the educational institutions run by our Trust not only pursue academic excellence but also motivate and empower their students to be life-long learners, critical thinkers and productive members of an ever changing global society. All our institutions have earned their own niche not only in the city of Mumbai but also in the State of Maharashtra. Many of our institutions have been ranked very high as per the survey done by reputed newspapers and magazines.

As per Times School Survey 2019, Mainadevi Bajaj International School has been ranked First in Zone D & Fifth in Mumbai, among schools with International Curriculum. Ramniwas Bajaj English High School has been ranked Fifth in Zone D among schools with National Curriculum and Kudilal Govindram Seksaria English School has been ranked Eighth in Mumbai among schools with State Board Curriculum. Durgadevi Saraf Institute of Management Studies has been awarded as the best institute for its marketing outreach programme by ASMA, a social media firm. The Director of the institute also received an award from Education World magazine on behalf of DSIMS being the 14th Best B-School of Maharashtra at a glittering function held in Bangalore.

Research is an integral part of the institutes of higher education. It is heartening to note that Durgadevi Saraf Institute of Management Studies has taken a lead role in the area of research under Remsons Centre for Management Research. In the past few months, many faculty members have submitted papers in reputed international and national journals. Case studies have also been conducted by faculty members and have been published in reputed journals. Ghanshyamdas Saraf College is an approved Research Centre of Mumbai University. The Principal and three other faculty members are approved research guides of Mumbai University. Some students have already completed Ph.D. under these research guides. We from the side of Management have always been giving full support to research activities in all possible ways.

Draupadidevi Sanwormal Women's Hostel & Jankidevi Bilasrai Bubna Boys' Hostel are full to their occupancy and are running successfully. Many international students from Afghanistan, Namibia, Madagascar, South Africa, Sri Lanka, Dubai and Mauritius are staying in the women's as well as in boys' hostel. Most of these students are studying in our institutions of higher education.

Kailash Kejriwal, Hon. Secretary, RSET

In the past few months, students of the institutions of RSET have made us feel proud by winning many awards and accolades in sports. The Boys' Kabaddi Team of Ghanshyamdas Saraf College won at the university level and are scheduled to play at state level. Students of Durgadevi Saraf Junior College also won many matches in basketball, volleyball, kabaddi & kho-kho organized by DSO (District Sports Office). Sports activities at Pravinchandra D. Shah Sports Academy are regularly held and experts coaches are giving proper training to the students. Recently students of PDSA, U-16 Boys Basketball team won a match organized by YMCA, Borivali. PDSA also organized an Interschool Sports Meet in which eleven schools participated.

Students need a supportive environment at their educational institutions as well as at home. The parents are the most strengthening power in moulding the future of their children. Their consistent support empowers us to do more and more for the betterment of the students. We have formed Parent Teacher Association in each school and regular meetings of PTA are held by all schools. I convey my gratitude to all the parents for their faith in us.

I am confident that with all such we offer, our institutions will continue to shape the future of the young minds of our country and transform their potential into successful careers resulting in national development.

but should not end there ”

RSET emphasizes the hands-on way

Dear Reader,

We at RSET are once again happy to inform you that there are large number of events and activities that took place during the months of July, August and September 2019.

Our schools and colleges have organised various events like inter collegiate fest, guest lectures, Raksha Bandhan, Janmastami and Garba Night celebrations. Teacher's Day, Hindi Diwas were also celebrated with equal enthusiasm. Every event conducted had sent a message of our rich heritage and culture amongst the students and that itself is a great learning for them.

We have also conducted workshops and seminars and few other events of very high standards whose liking and popularity is increasing every year. These events are being graced by the eminent people of national and international fame from various walks of life. This has inspired our large number of students and we are sure that they will achieve a great success for them and to their Alma matter.

It's indeed a proud moment for us that, one of our Institute, Durgadevi Saraf Institute of Management Studies (DSIMS) celebrated its 10th Foundation Day On 31st August 2019. In a most glittering ceremony where the eminent personalities have graced the occasion, the audience were apprised about the mission, vision and the 10 years of achievement of DSIMS.

Our students' excellence and achievements in sports are so huge that it can't be mentioned in few sentences. Our boys and girls are taking part at all top levels tournaments. Be it district, university, state, national and

even international level, they are making us proud immensely by their active participation and excellence in various categories of sports. This is possible as their teachers, our sports academy (PDSA) and its coaches are doing a fabulous job. Our state of art imported turf at PDSA is busy from morning 6 AM till 3 PM where students are rigorously practicing to achieve the perfection in their respective games.

Students of our Schools and Colleges were given a very wide exposure in plenty of activities through DLEE (Department of Life Long Learning and Extension), IDF (Indian Development Foundation), NCC, NSS and some literary groups. Tree plantation, Beach Cleaning, Student Leadership Programs, Plastic Recycling, Social Programs like health and Hygiene, Roti Bank (distribution of thousands of Rotis to the needy), Collection and distribution of Flood relief materials, participation in outdoor residential camps of long duration, seminars and workshops in financial markets, certificate courses in finance and marketing, Career guidance through placement cell. The list is endless. I am sure that thousands of our students must have got benefited with such activities as it is a practical experience which will be remembered by them throughout their life.

During this quarter, health check-up camps were conducted in all the four schools. These camps were carried out for several days by "Ayaksha" our health partners where thousands of students were checked medically. Specialist doctors examined the children and prepared a health report for every child of the schools.

"A Nation's culture resides in the hearts and in the soul of the people". Rajasthani Sammelan Education Trust celebrated 73rd Independence Day in the campus. It was celebrated with great felicity and respect at our Durgadevi Saraf Auditorium. The Chief Guest has unfurled our National flag in the presence of our President Shri Ashok Saraf, many trustees and committee members. NCC Students have presented a befitting Parade on the occasion. A cultural programme was organized in conjunction with all the institutions of Rajasthani Sammelan. A mesmerizing performances by the students of all the institutions has left the spectators spell bound. Needless to say that such activities and exposure will help the students to achieve overall development. Indeed, it was a day of joy, pride and patriotism.

There are generous donors from the society who recognize, appreciate our work at RSET and contribute whole heartedly. Thus recently, as a gratitude and respect towards such benevolent donors, a library, a music room and a chemistry lab were renovated, refurbished and renamed. The library in DGMC was renamed as "Smt. Prabhadevi Banwarilal Saraf Library". A music and dance Room after carrying out the refurbishment was renamed as Bohnenkamp Foundation Music and Dance Room. Shri Yogesh Sagar, Minister of State for Urban Development, Government of Maharashtra had been kind enough to accept the invitation to inaugurate these facilities. The naming ceremony was attended by eminent personalities, trustees and managing committee members of RSET.

In nutshell, the management of RSET headed by its dynamic president Shri Ashok M Saraf is always ensuring that RSET and Its institutions are actively involved in pursuing its mission of imparting a quality education to all the students studying in the campus.

“ If you want to lift yourself up,
lift up someone else. ”

Message From Director of Schools

The world as a canvass for learning

When students and parents seeking admission to the Diploma Programme of International Baccalaureate, more wellknown merely as IB, meet me and state that their child would like to study a particular subject, say Economics, at a Higher Level, they also express an apprehension that their child has `never studied economics in the past and not even in Grades 9 and 10'. Will she be able to cope? Will she be able to compete with students who have done it for IGCSE? Will she understand all the complex concepts of demand, supply, taxes, tariffs, quotas and development and international economics?

I point out to such parents that Economics is not that which is to be found in bulky text-books supported by extensive curriculums, but the moment your child enters a store with some money in his pocket he has become an economist. I point out that his smallest action of opting for a Coke or a Pepsi, and similar actions by millions of children and adults all over the country, set off a chain of events that end up in the office of the Finance Minister who then decides if the economy has slowed down or not. This is what a good learning environment is all about. It takes that which happens in the classroom out and brings what happens outside into the classroom.

The world of learning extends way beyond a classroom and for a good educator and an inquiring mind every environment provides opportunity to learn and to find out more. During this month the students of our ICSE school, Ramniwas Bajaj English High School went on overnight trips to different locations. They definitely did not focus on multiplication tables, vocabulary, historical dates and chemical formulas on this trip. And yet, all of these were present on the trip as they communicated with each other, visited historical sites and wondered about the differences between the clean environment of the trip destination and the polluted environment in which they live in the metropolis. It made them think of being responsible citizens and doing something to improve their lives as well as those of others around them.

Students of Mainadevi Bajaj International School's Primary Section visited an orphanage at Madh Island to mark a day of giving. They not only brought articles to give to the children in the orphanage but they presented beautifully sung songs and well choreographed dances. They had been practicing for this event for several days.

And what did they learn from this experience? They were so excited as they spoke about the ease or difficulty with which they could or could not communicate with these new friends that they had made. They had learnt that families are not automatic entities and that there are many who do not have parents. They learnt to give and they learnt to empathize. Which subject areas had this visit touched upon? It certainly had touched upon the most important subject – Life. But it also gave them an opportunity to communicate, to consider the prices and value of the gifts that they took, it taught them team work and collaboration and it showed them the social and economic differences that exist in the world.

Just like Economics, Art is yet another subject that is ingrained within us. Everyone who chooses to dress in a particular manner, cuts her hair in a different style or applies make up to her face is an artist. Each boy who chooses a tattoo for his arm, does up his hair in Mohawk style, puts up a sticker on his laptop is an artist. Art is all around us and a classroom can provide only a limited perspective on the meaning and understanding of Art. This week a group of art students from MBIS visited the Nehru Centre

Nitin Padte, Director of Schools, RSET

at Worli and witnessed the works of over 300 artists from all over the country. There were works by sculptors, fine art specialists, Installations and the rest. The teacher reported that it was an amazing experience for the students and the students themselves said that there was so much to learn.

Ada from Grade 9, a good artist herself, said that most paintings held a deep meaning to them. They were all inspirational and contained use of various techniques as well as medium. Zinobia from Grade 11 said that she got to know lot of Indian artists from different cities and the techniques that could be used. What was important to her was that she got an opportunity to speak with the artists who were exhibiting their works. Heramb, also from Grade 11 was really impressed when he found out from the artists that each of their works had a story to tell and that there was a reason why the artists had chosen to produce a particular work.

Learning begins wherever there is the will to learn and this will to learn can be taught in schools by instilling the spirit of inquiry. And a true spirit of inquiry is what real education is all about.

“ No one is useless in this world who lightens the burdens of another. ”

The naming ceremony was performed by Shri Yogesh Sagar, Hon'ble Minister of State for Urban Development, Govt. of Maharashtra.

Another noteworthy event was the naming and inauguration ceremony of the newly renovated Shrivallabh Saraf Knowledge Resource Centre and Sharda Cropchem Bloomberg Lab of Ghanshyamdas Saraf College at a glittering function held on 25th August, 2019. Shrivallabh Saraf Knowledge Resource Centre was formally inaugurated by Smt. Urmila Jain and Shri Vinay Saraf, Trustee, RSET. Sharda Cropchem Bloomberg Lab of the college was inaugurated by Shri Ramprakash Bubna, Chairman and Managing Director of Sharda Cropchem Limited.

All the institutions of RSET jointly celebrated Independence Day with Smt. Viral Saraf Mittal, Director, Vinati Organics Ltd. as the Chief Guest. Hindi Diwas was also celebrated with various cultural programmes, debates and elocution with eminent journalists and educationists gracing the occasion as the Chief Guests and Judges for different institutions. All the schools and institutions of higher education conducted many outreach programmes that included cleaning of beaches after Ganpati immersion, blood donation drive, flood relief activities etc.

Many of the institutions of RSET have been ranked at high position at Times School Survey 2019. Mainadevi Bajaj International School has been ranked First in Zone D & Fifth in Mumbai, among schools with International Curriculum. Ramniwas Bajaj English High School has been ranked Fifth in Zone D among schools with National Curriculum and Kudilal Govindram Seksaria English School has been ranked Eighth in Mumbai among schools with State Board Curriculum. Pravinchandra D. Shah Sports Academy also organized an interschool sports competition in which eleven institutions actively participated.

Recently, eleven students from Durgadevi Saraf Institute of Management Studies visited University of Finance and Administration (VSFS), Prague, Czech Republic under Student Study Abroad Program. During this period, students learnt Geo-Politics with special emphasis on International Business. They were offered seminars on Czech Republic Culture, City Tour and Industry Visit. Students were presented with certificates after their successful completion of the course. Each issue of Abacus is a milestone that marks our growth, unfolds our imagination and gives life to our thoughts and aspirations. I am sure that through collaborative efforts, we can achieve more to benefit our students who are the future leaders of tomorrow.

at MBIS

Dear Reader,

The new catch phrase all over the world today is STEM – Science, Technology, Engineering and Math. To promote this is one of the important goals at Mainadevi Bajaj International School. For students seeking to pursue the science stream as a choice of study and career path, Chemistry becomes one of the important disciplines. The successful pursuit of such a subject is possible only if there is provision of requisite infrastructure.

Suwadevi Doongermal Patodia Chemistry Lab which is located on the 9th floor has been fully utilised by the students of Mainadevi Bajaj International School for their Chemistry practicals, practical examinations, and also for competitive examinations like Science Olympiads. Early exposure to such a facility is important for our young students and hence Primary Section students make occasional visits to the laboratory. The Chemistry laboratory is well equipped with all the essential apparatus and chemicals required for a complete learning as per international standards. Keeping in mind the safety and security of the students, the lab follows all the standard safety precautions and has a safety shower, fire alarms and extinguisher, fume cupboard, first aid kit, safety goggles, lab coat and gloves.

It is heartening to note that on Sunday July 14, 2019, the refurbished Dance & Music room at MBIS was renamed as Bohnenkamp Foundation Music & Dance Room and was inaugurated by Shri Yogesh Sagar, Minister of State for Urban Development, Government of Maharashtra. About Bohnenkamp Foundation Music & Dance Room at Mainadevi Bajaj International School

In any holistic learning environment the co-curricular element of education forms an essential core. Academics without the creative angle given to it by the arts, leaves something wanting. At Mainadevi Bajaj International School, Dance and Music have been an integral part of the school's curriculum. The school employs the services of Shiamak Davar's academy for dance to acquire and enhance the skills of its students. Their acquisitions from this endeavour are there for all to see during the school's Annual Day. Similarly, the school employs a highly qualified and accomplished musician to train its students.

To be able to learn and perform with a high level of proficiency requires appropriate and adequate infrastructure. MBIS, one of the top ranked international schools in Mumbai, boasts of a state of the art infrastructure and as a part of this, it provides a well-endowed music and dance room to its students. Over the years students have benefited from this facility and have achieved high standards.

We very gratefully acknowledge that to enhance the capabilities of this facility further the Bohnenkamp Foundation, has made a significant donation. With this, MBIS was able to refurbish its music room and not only re-do the entire wooden floor but also get the room repainted and decorated. The Bohnenkamp Dance and Music room, which is fully equipped with a variety of musical instruments, a sound system and a mirror wall, is today a place where students and teachers are happy to spend some time being creative.

After its renovation, on Sunday, July 14, 2019, the MBIS Dance & Music room was named as Bohnenkamp Foundation Music & Dance Room by Hon'ble Shri Yogesh Sagar - Minister of State for Urban Development, Government of Maharashtra. On the occasion, Shri Sagar expressed great joy at the strides made by Rajasthani Sammelan Education Trust in general and its individual institutions.

Independence Day of India, which is celebrated every year throughout the Country on the 15th of August, holds tremendous importance since it reminds every Indian about the dawn of a new beginning, the beginning of an era of deliverance from the clutches of British colonialism of more than 200 years. It was on 15th August 1947 that India was declared independent from British colonialism, and the reins of control were handed over to the leaders of the Country. Investiture Ceremony & Founder's Day

"A leader is one who knows the way, goes the way and shows the way" - John C Maxwell.

Mainadevi Bajaj International School, adhering to the democratic soul of its structure and beliefs, conducted the prestigious Investiture Ceremony on Monday, 19th August 2019. The deserving young talents of our school were bestowed with the responsibility of leading their School from the front with their commitment, confidence and competence. The Investiture Ceremony thus marked the inaugural of the junior and senior student council for the academic session 2019-20. These are the students who were voted upon and chosen after a rigorous procedure by the student and staff community of MBIS.

The new academic year ushered in the formation of a new council. With interests that extend across every field of human endeavor, the council plays a pivotal role in the working of the school administration. The council has students both elected and selected; through voting, panel discussions and rigorous interviews. Thus the procedure is a democratic and transparent one.

A loving word of welcome from the heart is the sweetest of all things in life. A smile that radiates love to all the people around makes everyone happy, when hearts are free from gloom, no wonder smiles are in full bloom. With hearts full of love and happiness, the hosts welcomed all the dignitaries, parents, teachers and their peers.

The Chief Guest of the day was our Beloved Trustee Ms. Archita Rajapuria and the Principal of KGES, Ms. Mini Nayar. The school band gave a ceremonial welcome to the Chief Guests. even before this formal ceremony that this batch of Council members take their responsibilities seriously. Like polishing a diamond, there are many facets that go into the making of a leader and each one is important. There are plenty of skills that the Student Leaders require.

Besides the presentation and organizational skills, planning and team spirit are important traits. As a part of the Student Government, the members have to work hand in hand like a cohesive group. There shall be many challenges ahead, but each of these challenges will bring out the best in them and help them evolve as an individual as well.

Leadership also comes with a lot of hard work. The challenge of being a good leader is to keep calm even when the things are not

DSIMS Foundation Day 2019

On 31st August'19, Durgadevi Saraf Institute of Management Studies (DSIMS) celebrated its Foundation Day and Academic Inauguration of the 10th batch of MMS and 9th batch of PGDM students. Dr. Harish Mehta, founder and executive chairman of Onward Technology Ltd. (OTL) graced this occasion as the Chief Guest. He has been recently appointed as an advisor to the executive committee of the board of Small Industries Development Bank of India (SIDBI) for its fund of funds operations.

The event was compeered by Mr. Neel lad and Ms. Priyanka Ganatra, students of DSIMS. The program began with the national anthem followed by the DSIMS anthem. The lighting of lamp was conducted by the Chief Guest Dr. Harish Mehta, along with the dignitaries - Shri. Ashok M. Saraf, Dr. C. Babu and Dr. N.M. Kondap for inaugurating the event which was accompanied by Dr. Sanchita Banerji while the Saraswati Vandana was being played.

The welcome speech was given by Dr. N.M. Kondap, the Director General of Durgadevi Saraf Institute of Management Studies,

former Vice chancellor at SVKM's NMIMS, Mumbai and Chairman of Western Regional Committee of AICTE. He apprised the audience about the mission and vision of the institute. He spoke about the journey of DSIMS, from its inception to the present date. This was followed by the address of Shri. Ashok Saraf, President of Rajasthani Sammelan Education Trust (RSET). He spoke about how important is the role of parents, teachers and hard work of every student for achieving success. He also spoke about the recent developments in the RSET infrastructure that included providing hostel facilities both for boys and girls.

Dr. C. Babu, Director, DSIMS, having several years of experience in the industry and academics further shared his insights. He emphasized that the Foundation Day is not just another event at DSIMS, rather it is an important one since it signifies the relationship between students and teachers. He further continued by giving an example of Dr. A.P.J. Abdul Kalam and how his immense contribution greatly helped the development of India. He said, "A person who has a desire to do something, his heart and spirit will give him an electromagnetic energy towards his willingness to do his work and be successful in it." He asserted that

ten years is still a small number to look at and that DSIMS has a long way to go. This was the first time ever that the parents had been invited along with students on the Foundation Day of DSIMS. Dr. Babu then requested Dr. Harish Mehta to address the gathering.

Dr. Harish Mehta said, "In the late 80s, India was considered a third world country, a snake charmer's country, a country which has no future due to lack of income and wealth. With socialistic policies there was no chance for India to come up. But today we are all proud that India has now become the 2nd fastest country in the world in terms of digitalization."

He explained how digital regulations and policies have a major impact on this fast growing industry. He said, "Digitalization policies are based upon four pillars - financial stability, financial integrity, consumer protection and financial inclusion." He further added, "But now there is a fifth pillar - innovation and competition." The entrepreneur today has a golden opportunity because of the convergence of vast technologies. He mentioned the example of Bitcoin where many entrepreneurs invested so much but their returns were negligible due to lack of enough knowledge. Hence innovation and competition should be looked at as an opportunity and not a challenge.

With the technologies constantly developing, in coming years, it will solve current issues like poverty, unemployment, diseases and other social issues. Dr. Harish Mehta also spoke about Artificial Intelligence (AI), Augmented Reality (AR), Virtual Reality (VR), Bioengineering, Social Media and its interconnectivity. He emphasized that technology should be a base subject for MBA aspirants as it is the future of everything.

Dr. Sharad Kumar, Dean Academics and Research, DSIMS unveiled the In House Research Journal - The Management Quest Volume-2 Special Issue-1 titled - "Digital Transformation of Business." He emphasized on the importance of research in today's date and how well do the DSIMS faculties write national as well as international research papers.

The event was then continued by acknowledging and appreciating the efforts by the students, alumni as well as current batch, who had made immense contributions beyond academics. The following students were awarded by Dr. Harish Mehta and Shri Ashok Saraf.

How to crack the boards

Children today are bombarded with an array of assignments, co-curriculars, academic stress et al. They barely have time to breathe. The most stressful of all is that students have to stay on top of their game, all the time. Since we know how difficult your life is, Avani Ghangurde, Times NIE interacted with Nikunj Asawa, a student of Ramniwas Bajaj English High School, Malad (w) for an insight on how to reach the pinnacle of success

How did innovative learning techniques help you in studying?

Studying can get monotonous. I used to change my studying patterns and habits regularly. I would take help from friends and try to grasp concepts using different learning methods. Once I started doing that, I realised studying became less difficult.

What are some study tips and tricks that you swear by?

I kept it pretty simple. I would study religiously for three hours daily apart from my school and coaching hours. To relieve the stress, I used to play video games and outdoor games. My study plan was also monitored by my principal and class teacher

Nikunj Asawa, class X (ICSE)

both of whom helped me rectify any mistakes I made while forming my timetable.

Can you give a word of advice for our future board aspirants?

Forming a time-table is not

merely the key. It is equally important to review the study plan regularly and if required, change it to accommodate any shortfall as per the desired target. The best inspiration is you, yourself. Keep telling yourself that you can do it.

Participation in IPTA

The Indian People's Theatre Association was formed during the Quit India Movement in 1942. Upon its formal inauguration in 1943-44, IPTA took upon itself the challenge to bring theatre to the people with the objective of building awareness about social responsibility and national integration. Born as a result of a long-felt need among writers and artistes, IPTA brought about a sea change in the prevalent concepts about Indian Theatre. It was formed to co-ordinate and to strengthen all progressive tendencies that had so far manifested themselves in the form of drama, songs and dances. Its roots lay in the cultural awakening of the masses of India, seeking to revive the cultural heritage of the country. Its initial impact was so powerful that a new form of expression took shape. 1972 IPTA started its Inter Collegiate Drama Competition in memory of Prithviraj Kapoor. This competition that recognizes budding talent on stage is regarded as one of the most prestigious drama competitions in Mumbai. It has given many artistes not only to the Hindi stage, but also to Marathi and Gujarati theatre. Students from DGMC "Instant Einstein"

"Anyone who stops Learning is old, whether at twenty or eighty. Anyone who keeps learning stays young".

- Henry Ford.

With the beginning of the new academic year students were seen across Institutes with rigour, enthusiasm and zeal to learn. RMCC planned and worked hands on with the students of RSET Institutes and others to ensure their learnings are enjoyable and meaningful.

RMCC took the initiative to conduct a free screening campaign to assess **the Reading and Spelling Age** of children for ages 6 years to 13 years. Spelling assessment and individual reading assessment was conducted for 69 students, during the campaign. Post the assessment an analysis was conducted for each student and a short report explanation session was held with each parent individually. It was of great value for the parents, as they were able to identify the academic status of their child, and be aware whether their child needs special academic attention. Recommendations were made during the sessions for further standardised academic assessment, remediation or personal counseling as per the need of the student.

Students being assessed for their Reading & Spelling Age.

Workshops on **Time and Stress management** were conducted for the students of Grade IX to help them make effective utilisation of their time and manage the stress usually seen in the students of secondary years. Students key learning styles were evaluated and an **Effective Study Skills** workshop was conducted where students were informed about various strategies for different learning styles.

Impact of positive, negative and neutral peer pressure were explained to the students of Grade X in the workshop **Influence of Peer pressure** to ensure students don't dwindle from their objective in their key academic years.

RMCC also reached out to the faculties to empower them with strategies which would help them to reach out to their students more effectively. Workshops on **Signs and Symptoms of Learning Difficulty** and **Behavioural concerns in Students and Empathy** were conducted for the faculties of MBIS.

A workshop on **Positive Parenting** was conducted for the parents of Pre-primary and Primary students of KGES to address the various concerns faced by the parents in dealing with their children and provide strategies on parenting styles based on psychological research.

To assist students with their Career post graduation RMCC conducted Career guidance sessions for all the Third year students of B.com and Self Financing of GSCC. To equip students with the information of various courses for enhancing their skill sets and career prospects a series of weekly Infobyte is being shared with the students.

Students having academic difficulty were evaluated using psychometric assessment and **Group Remediation** is being conducted for the students to help them integrate with the mainstream.

On 14th September 2019, **RMCC** conducted an informative session on **National and International Boards** in India for the parents. The purpose of the workshop was to address the queries, confusion, and misconception of the parents who are facing the dilemma of choosing the right Board for their child's education. With that objective in mind RMCC took the initiative to come up with the informative seminar to assist parents with the **detail information about different boards, their curriculum, and pedagogy and examination pattern**

The month of July has been a very busy month for Jankidevi Bilasrai Bubna Boys' Hostel as admissions commenced with the new tenure of July 2019 to June 2020. The hostel staff remained busy with new admissions. All the old students were back from their vacation and all of them were ready to commence a new journey in their respective field of study.

In the past few months, Jankidevi Bilasrai Bubna Boys' Hostel has successfully continued to provide all the facilities given to the inmates earlier. This includes free wifi access to the entire building, provision of fire detection and fire-fighting system, CCTV and 24 X 7 Security. The Economics of Indian Festivities

The greatness of the secular fabric of India is best realized through the yearlong celebrations of festivities across the states of the country. The Pongal in January till the Christmas and New Year's Eve in December, the celebrations encompasses Ramadan, Bihu, Onam, Ganesh Chaturthi, Chhath Puja, Makar Sankranti, Hemis, Losar, Hornbill in North East, Saga Dawa, Ram Navami, Dree, Moatsu Mon, Lui Ngai Ni, Gangaur, Losong, Mahavir Jayanti, Teej, Karwachauth, Lohri, Maha Shiv Ratri and Krishna Janmashtami. The list is just an indicative checklist of the myriads of moments of carnivals wrapped in happiness as it transcends time and generations. However, any discourse on Indian festivities would remain incomplete without trio, the Navratri, Durga Puja, Diwali and Bhou Beej.

India is a country of diverse cultures & religions as reported by Rajya Sabha Secretariat, India celebrates 51 festivals in a year, consisting of 17 nationally indicative and one is sure to find a grandiose celebration of life happening across the seasons interspersed with fun and frolic that crosses all recognised festivals. These celebrations often act as national glues that binds the citizens together, promotes communal harmony on a national scale, restores the faith in family values, helps maintain national identity, revitalizes the economy and fosters cultural tourism. But

most importantly, a time to splurge by consumers and an opportunity for businesses to increase their turnover. Apart from religious and social significance, these festivals incite a feeling of togetherness in the society as well as the economy, working as stimuli for the market forces to be rejuvenated.

In the vibrant Indian market space and place, there were weavers of dreams spread all across, from sarees to dress materials to electronics to anything one might be able to remember and spell. A cursory look at the multitude of festivities makes one sense the tremendous economic impact that festivities like this could have on an otherwise sluggish, recessionary, national economy.

The scale of the nation-wide celebrations like Ganesh Chaturthi, Durga Puja and Diwali has a direct impact on the scale of the market resurgence, resulting from a favourable economic impetus received during the festivities. The seasonality of the event notwithstanding, the key ingredient of economic impact lies in creation of livelihoods for the millions who survives just by a few month's horizon of revenue streams generated by a robust demand of goods and services and cascading multiplier effects which have so much growth inducing beneficial effect in the regional, state and national economy.

The brick and mortar stores have already mastered the art of perfection in "Sale", the allurements of festival discount which makes every average quintessential Indian household making the "must to buy" list for their families and themselves. During our childhood the festival shopping was mostly focussed on new apparels and shoes. The electronic commerce in India, dominated by the Amazon and the Flipkart of the country, have completely taken the contemporary shopping captive in the buy buttons of the time starved, eight to eight workplace commuters. The Great Indian Sale, The Lightning Deals and the Flash Sales have added the lustre to the bottom line of the online retailers. Amazon and Flipkart have already initiated their festive season sales from the first week of October and there will be two-three more such events in the run-up to Diwali toward the end of October. Indian and International Brands have expanded domestic business this year by 60-100% over 2018 festive sale, signalling a revival in demand and consumer sentiment at least on ecommerce platforms. The positive start has pacified fears that the economic slump would keep demand low. The festive season starts with Onam in Kerala, extends through Navratri-Durga Puja and ends with Dhanteras-Diwali. It accounts for almost 35-40% of annual sales.

The grand scale of festivities also accounts for tremendous opportunities for small-scale businesses and generates employment for artists, decorators, transporters, HORECA (Hotels, Restaurants and Caterer) segments and the like. Opportunities also abound for Banking and Financial Institutions including Insurance companies and local government. The economic benefits of the festival could be further augmented by the government by encouraging local-level entrepreneurship, particularly catering to the livelihoods of those whose earnings sway at the whimsies of festival seasonality. It is also the time to realize the omnipresent effect of Indian masses in revitalizing the "Made to Measure" stitching and tailoring economy as they look solemnly throughout the year for this month of festivities to bring cheer to households, year after year.

A synoptic view of the economic significance of festivities like Durga Puja can be an eye opener for policy makers and industry captains in India. In ASSOCHAM report titled "West Bengal cashing in on Durga Puja celebrations" pegged it at Rs 1.7 lakh crore in 2019 (Abhishek Banerjee, Business World, 20 September 2019). As West Bengal's current GDP is Rs 11.7 lakh crore, as per the estimate, the Puja economy contributes a little over 10 per cent to

the state's GDP. The contributory share of the Indian festivities in the GDP is possibly much more than what most of the major festivals of the world have on the corresponding societies. Understandably, it's not quite easy to estimate the economy of Indian festivals due to the 'multi-dimensional character' and 'year-long activities' for nation-wide celebrations. Despite a falling rupee, rising inflation and slowing economy, large industries are targeting high profits margins during these month long festivities in India.

The Pandal and the decorations during Ganesh Chaturthi and Durga Puja shall blissfully remind oneself of the rich and varied national cultural heritage in our tapestry of life. The countless intricately designed and ornately painted Pandal puts in perspective the skill and hard work of robust network of village artisans who will now have the opportunity to shape their years' livelihood by creating such wonders in mediums of all tones and hues. The smiling Drum beaters and their mesmerizing drum beats puts one in the groove of the Puja. These four days of work will provide them necessary impetus for the rest eleven months to survive in the harshest economic regime. The garlanded deities that fills our mind with unalloyed joy are all provided by the network of local flower vendors whose downstream supply chain reaches the remotest villages in India. The caterers in these festivities who painstakingly creates the mouth-watering offerings to be served to all devotees thronging the Pandal, the supply chains from local fruits, vegetables and dairy market are all set to ensure that there is an end to end visibility in their network and the supply chain is optimized for an unforgettable festival experience.

The economy is on yet another roller coaster ride in the last quarter of 2019. Forget the past. Look at the brighter tomorrow. It is time to join our hands in reverence to the Goddess Mother India: "Ya devi sarva bhutesu, shakti rupena sanstitha, Namastasyai, namastasyai, namastasyai, namo namaha!" The Mother who is omnipresent as the embodiment of power, I bow to her, I bow to her, I bow to her again & again. I pray for making our nation economically resilient. I pray for restoring the consumer confidence, wellbeing and prosperity of our nation. I pray for making our Institute and RSET the most cherished name in creating better citizens for our tomorrow. Mother Goddess who resides everywhere in all living beings as intelligence and beauty; I salute to You!

Fondest memories at MBIS: It is very difficult to pick my favourite memories from the 7 years I have spent at MBIS. I got the opportunity to take up various Leadership roles like being the perfect of my house and the head boy of the school, where my house won majority of the competitions and I got to organize a lot of events like the Haunted house, treasure hunt for teachers, students vs teachers cricket tournament and MBIS' first ever Model United Nations Conference; Annual Youth Consensus. Due to the support of the faculty and motivation from my peers, I have been able to start an organization where we instil critical thinking skills and logical reasoning through various stimulus like MUNs, debates and seminars. MBIS truly gave wings to my dreams.

Memorable Events/ Journey in the Institution:

The journey began with the Boot Camp and the Ice Breaking session where we were asked to unlearn the things we have learned so far and there began the process of moulding us into the thorough professionals that the institute sincerely works towards achieving. Few months in beginning seemed different with the rules laid to clearly inculcate the discipline of regular learning, keeping all of us on toes. However, the highly experienced and extensively knowledgeable faculty members, the excellent and always upgrading infrastructural facilities, the always ready to help administrative staff; all summed up together with the environment where learning was the top priority made the journey an amazing experience. However, as the saying goes, "All work and no play, makes Jack a Dull Boy." So we had major extra-curricular events which helped keep a balance of curriculum and fun with learning. We started the journey with "Sabrang" – our cultural fest, followed by "Versus" – our sports event. The next thing that follows is the heart of the events at the institute. More than an event it is the students from all specialisations connecting with the industry experts, various other institutes – "The Annual Conclaves". The new addition for us was the "CSR activity" which was a wonderful cause that was undertaken and is being done successfully every year, which is yet another feather on our cap. Would like to end it by saying one of the quotes said by our professor to keep us encouraged through this journey which has stayed and will stay with me forever: "Never Stop Sharpening your Axe"

Most Memorable Event in the Institution:

I stepped in with nervousness and excitement in plenty and came out with confidence in proportion. I climbed up with fear of falling down but the safe hands of Teachers made me touch the sky with my feet on the ground. The rough patch of dream turned into a clear vision of colours. The outstanding faculty and their innovative teaching methods inculcated the limited buffet of knowledge in me as well as the support staff who too nurtured in me the human values. I learned humanity and leadership through NSS from same Institution since taking admission in 1st year of Durgadevi Saraf Junior College in 2006 which continued till my Graduation.

I completed my BCA as an add-on degree, simultaneously with B.Com. I pursued LLB and L.L.M from Mumbai University. My journey from Junior College to Degree College is the most memorable, excitable and unforgettable moments which cannot be explained in words. I'm proud to be associated with such an Esteemed Institution where we students learn and develop various skills like leadership, communication and team spirit which brings out best of our personality. As rightly said we are indebted to our parents for living, but to our teachers for living well.

Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthan Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthan Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthan Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthan Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthan Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthan Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthan.org.in
