Project Description

Aim:

•To create awareness about the International Day of elimination of Violence against women. •To imbibe young girls with basic self defense techniques, for thier safety and security.

Groundwork and Flow of the Event:

Our IS director decided to plan an event on 25th November, the day that signifies elimination of violence against women.

As rightly said "The best way to eliminate violence is fight against it , we decided to teach the girls

some basic self defense techniques , with the help of our fellow rotractors who are trained martial

artists, Rtr. Advait tawde (sports director) and Rtr. Vaibhav. Since we needed a soft ground for

effective teaching, we decided to use a nearby garden (Sundar nagar Garden) , whose president, Mr.

Anil Dalvi was kind enough to give us the permission.

We had an amazing opportunity to partner up with 'Nirbhaya Squad'.

A P.R. message was circulated around the GBM groups regarding the event , which mentioned the

details and timings of the same.

The event started on time with all of us singing the national anthem.

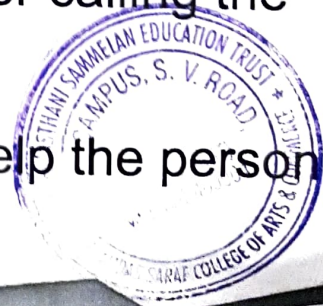

The girls were taught some self defense techniques, and our members were actively listening and

learning. After being taught the members were asked to practice so that they register the techniques

in their mind. We followed the event by welcoming Miss. Manee-sha Kagalkar, Nirbhaya squad

member, who came and informed us that after calling the nirbahaya squad thier officials will be

present on the location within 7 minutes to help the person in need. She even shared a helpline

number with us 103. The event ended with a word of thanks by our vice president.

Impact Analysis:

Our participants (who were majorly girls) learnt basic self defense techniques,

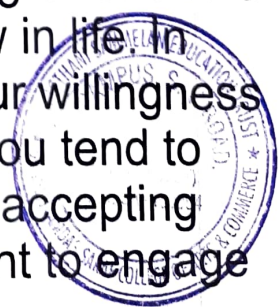

which would help them protect themselves or even a friend in need.

Self-defense gives the tools and skills they need to confidently assess a dangerous situation and navigate effectively.

Self-defense improves focus and concentration. As a result, it teaches participants to focus in stressful situations.

Self-defense will enhance awareness of their surroundings. One never know when it might happen; No one plans to be attacked, so participants must always be on the lookout of their surroundings.

As it is said that "A learning curve is essential for growth". One should not miss a chance to learn something new in life. In the end, it all comes down on perspective and your willingness to learn something new. By learning new things you tend to revolve around encouraging your successes and accepting your defeats as in today's world both are important to engage in a healthy lifestyle.

Follow Up and Feedback:

Participants were very happy with the concept of event. They all were astonish with different techniques of self defence. They found the event very helpful as well as enjoyable.

Some suggested to conduct the event at bigger scale in order to help the society and spread the awareness.
