For this purpose, AAPL requires support of the college in the following areas:

 - b. Support in allocating batches (of 45-50 students approximately) per trainer for optimum utilization of resources and training effectiveness.
2. Infrastructure support for the following:
 - a. Training facility (a training room where 50 students could be trained). Training methodology requires some space in the middle of the room for conducting student activities.
 - b. Space for the career counsellor/ trainer who would be available in college on days.

1. STATEMENT OF PURPOSE

The employability of India's university graduates continues to remain weak even while there is an acute shortage of skilled manpower in an increasing number of high demand sectors. The youth are thus disillusioned about job opportunities post their studies. Though they have educational degrees, they lack the skills and the experience to get employed.

Skilling the youth to enhance their employability and enabling them to be effective contributors to the nation's growth and development assumes paramount importance in the current context.

The Tata Institute of Social Sciences has been working to reach the youth through an innovative programme called 'National University Students' Skill Development (NUSSD)' for the same purpose. The aim is to enable the youth enrolled in the various degree programs in Colleges and Universities in India to acquire skills that would give them a Certificate/Diploma in a specific high demand domain area in addition to their degree. Students will be introduced to holistic education which encompasses components of employment oriented training, exposure to community services, life skills training and civic education to fulfill the changing requirement of

The National University Students' Skill Development (NUSSD) Programme is a unique initiative on skill development designed and delivered by the Tata Institute of Social Sciences (TISS). The programme is currently in its second phase and covers a student population of more than 20000, spread across several states in the country.

The United Nations (UN) Steering Committee on Children and Youth has recognized NUSSD programme among the best skill development practices in the country.

The classes are held in the participating College or University and the programme is designed on a schedule that minimizes disruption of regular studies and personal pursuits of participating students.

3. OBJECTIVES OF THE PROGRAMME

The NUSSD programme aims to increase employability of graduating youths by imparting knowledge, skills and competencies in relevant field. The programme also intends to develop the inner potential, critical thinking a sense of civic responsibility among students.

Our College Ghanshyamdas Saraf College of Arts & Commerce strives to be at the forefront of such change and is known as a change leader. Our recent MOU with CASI Global ensure every student has access to world class certifications designed by IIT/IIM/Senior Management Professionals.

These certification programs are of 6 months duration, completely online & very relevant to industry practices. Students enrolling for these certifications will be awarded joint certificates by Ghanshyamdas Saraf College of Arts & Commerce & CASI Global.

While enrolment for these certifications is optional, we are of the opinion that students should take advantage of these dual certifications and enroll for one program per

BLOOMBERG PROGRAMS

Chandhyamdas Saraf College is the first and the only undergraduate college in University of Mumbai to introduce Bloomberg Terminals to its students.

Bloomberg is a leading technology company established from 1981 providing financial solutions that are needed for 21st century. Bloomberg has succeeded in connecting the decision makers to a dynamic network of data.

Bloomberg terminal is a global software platform which provides transparent and reliable financial, economic and Government information across all the market sectors. One arm of Bloomberg provides this access of data to Universities and Colleges to incorporate this system into academic programs and try to bridge the gap between Campus and Corporate.

With the establishment of this facility in our college we aim that our students will be able to bridge that gap effectively by utilizing this facility in which they would be analyzing the live market, comparing various investments and marketing strategies, evaluating complex financial instruments.

- Bloomberg Market Concept (BMC)
- Workshop on Technical Analysis
