BIL conducts a wide range of programs ranging from 1-Day workshops to 2-years full time post graduate programs in financial markets. BIL trains over 10,000 participants a year.

BIL also conducts certification exams for financial market professionals to enable them to practice their profession in various areas like cash markets, derivatives, and mutual funds. Every year they certify over 40,000 market professionals.

In addition, BIL also conducts collaborative programs with its international partners which include the Nyenrode Business School (Netherlands), Frankfurt School of Finance & Management (Germany), Singapore Management University, Thailand Securities Institute (TSI), Australian Trade Commission, Toronto Financial Services Center (Ontario, Canada), International Financial Center Montreal (Quebec, Canada) and IBMC Financial Group, UAE.

Our commitment to being at the forefront of the current and evolving practice of business has led to programs that reflect the realities of the marketplace.

Case studies replicate actual business situations and are taught so that students must work together to make difficult decisions under typical management conditions, including a lack of complete information, complex tradeoff situations and time pressure.

For more than two decades, the BSE Institute Ltd. faculty have drawn on their passion for teaching, their experience in working with organizations worldwide, and the insights gained from their experience to educate professionals who have shaped the practice of business in financial markets not only in India but also many other countries around the world.

Our course design and development is firmly grounded in knowledge of business processes—entrepreneurial companies and established firms unconstrained by the boundaries of academia.

This document constitutes a Memorandum of Understanding (MoU) between Ashwattha Advisors Private Limited (AAPL) and Ghanshyamdas Saraf College of Arts and Commerce.

Background

Ashwattha Advisors Private Limited (AAPL), which is a wholly-owned subsidiary of TechnoServe Inc. is conducting a "Campus to Corporate Careers (C2C) Program" for enhancement of employability and workplace skills for deserving youth.

1. In this connection, AAPL intends to be associated and work closely with Ghanshyamdas Saraf College of Arts and Commerce to conduct employability training and career counseling sessions for the final year college students. This will include activities through the year, till students are placed 10-12 months after their final year examinations. Features of the program are as follows:
2. 30 hour program including Personal Effectiveness (goal setting, interpersonal relationships), Personal Finance, Professional effectiveness (how to choose right career option, how to apply for job, tools- CVs, cover letter- etc.), Business communication (effective communication with co-workers and customers), Career Readiness (orienting students to jobs matching their skill sets and exposure to a career path) and Work Readiness (Professionalism, Work Ethics, Email Etiquettes, Workplace dynamics - etc.)
3. 80 hours of training will be delivered in class and few hours of additional training will be available to students on TechnoServe's proprietary online learning platform. The program also includes individual student counselling during the program, post training, pre-placement and also post placements.
4. There is no cost for students to attend the above mentioned training.
5. Each training batch size will be a maximum of 50 students. Sessions of duration 2 hours each to be conducted 5 days per week. Trainings to be conducted for 2 or more batches in one day through one TechnoServe trainer.
6. Counselling support is available on training days for providing career guidance to students who are enrolled in this program.
7. Students will be provided a certificate on successful completion of course with minimum attendance criteria of 90%.
8. Students will be further supported in job linkages and placements from the time of training completion till they are placed i.e. 6-10 months after their training is complete.
9. College is expected to support the successful training and placements of all students, should they take up this service with TechnoServe.

For this purpose, AAPL requires support of the college in the following areas:

1. Facilitating discussions and engagement with the 2019 current third year degree students and 2018 graduates wherever feasible. This involves the following:
 - a. Assistance in batch scheduling with ongoing final year classes
 - b. Support in allocating batches (of 45-50 students approximately) per trainer for optimum utilization of resources and training effectiveness.
2. Infrastructure support for the following:
 - a. Training facility (a training room where 50 students could be trained). Training methodology requires some space in the middle of the room for conducting student activities
 - b. Space for the career counsellor/ trainer who would be available in college on days of training
