

Have we lost our Humanity?

By: Vishrut Vinay Pande

The current hot debate in this country is did humans evolve from animals or not? The Darwin theory of Evolution states that we humans have evolved from apes so one would assume that human possess a certain degree of animal instincts but as the civilisation is evolving, it seems that humans are getting more brutal and ruthless than the animals themselves.

The ongoing war in Syria, The Afghani War, The Indo- Pak Conflict, Terrorism, Women and Child Trafficking, Riots, Civil wars, Protests have dominated headlines in the first 18years of the 21<sup>st</sup> century. The Headlines of today have been screaming in our face with news such as “MAN FATALLY SHOT IN ROAD RAGE INCIDENT IN MIAMI”, INDIANS ATTACKED IN US”. “WAR CLAIMS LIVES IN SYRIA”. “MAN CAUGHT MOLESTING GIRL CHILD”.

Humans were created to live in peace and harmony so that they can live a wonderful life but the power of greed, money and domination has outsmarted the human beings. The people of the world are beating, maiming and killing each other for unfathomable reasons. The stress of modern life is resulting in people losing their cool on the slightest of provocations leading them to commits acts of violence and murder. One of the biggest reasons of rape and molestation of women is the availability of cheap internet, which is leading people to visit pornography sites and thus causing harm to young women in the world. With these ongoing activities of violence and devastation in today’s world the only question which remains unanswered is that **IS HUMANITY STILL ALIVE IN THIS MORTAL WORLD??**

Mahatma Gandhi once said “You must not lose faith in humanity.

Humanity is an ocean; if a few drops of the ocean are dirty, the ocean does not become dirty”. Humanity can be defined as quality of being human; the peculiar nature of man, by which he is distinguished from other beings.

Being human does not mean that an individual possesses humanity.

If you want to understand the quality of humanity in an individual take note of what he does for people who give noting back in return to the favour they have offered.

Humanity has still not lost in this mortal world there are still people in this world who believe in saving humanity at all costs providing all the necessary help which can be provided. NGOS and Human Rights based organisations have been working hard towards the development of mankind and securing a better future in the world. Movements such BETI BACHAO AND BETI PADHAO & MARD provide safety and security to women in India so that they can all have a better tomorrow. The United Nations has been providing their full support towards protecting mankind with the United Nations Human Rights Council or the UNHRC is an inter-governmental body responsible for promoting and protecting human rights around the world. Philanthropist is a person who seeks to promote the welfare of others especially by the generous donation of money to good causes. One such philanthropist is Bill Gates who has donated 4.6 Billion Dollars to his personal charity The Bill and Melinda Gates Foundation to fight against malaria. The Gates foundation will donate a mosquito net for every person who reads his latest blog and takes a subsequent quiz.

Another such philanthropist is the Chairman of WIPRO Azim Premji. He has used his wealth to embark on a number of philanthropic ventures, including the Azim Premji Foundation a non-profit organization working with elementary education in rural government schools in India and the Azim Premji Philanthropic Initiatives which supports organizations whose work has significant potential to contribute to social change in synergistic manner.

The Future us has to be like someone who is made to believe that there is a possibility of a world which is completely, wholly, self obsessively in love with itself. It should be our initiative to create a world because we are the world and we are children and it is our responsibility to make the earth a place a better place to live in.
