Dear Sir/Madam,

Greetings from NIIT!

As you already know, the backbone of a student's career is his college education. College is the place where a student lays the foundation of their professional career. And that is why every college is known for their successful Alumni and takes pride in them.

We are happy to present NIIT as a leading Talent Development Corporation, focused in meeting the industry's skill requirements. In this regard, we work closely with Colleges across the country, to add value to their student's overall learning and thereby enhancing the Employability of a student. This year again we are pleased to announce the 26th Bhavishya Jyoti Scholarships (popularly also known as BJS). Over the last 25 years over 4.7 lac students from over 200 cities across the nation have benefited by scholarships to gain a foothold in the Industry.

NIIT being the Talent Development Corporation and with the emergence of New Age Careers in Digital transformation, Banking and Finance etc., we have strengthened our offerings to prepare students across the nation to be better equipped in their preferred domain, by imparting the best content by some of the best faculties through the best learning methodology called NIIT's Cloud Campus. Some of the highlights of NIIT's Cloud Campus are:

- Cloud Classrooms: Learn from the expert faculty from across India, no matter which center you are in. Powered by Cloud Classrooms, that facilitates live interaction between students and teachers
- Cloud Courseware: Intelligent digital device enabled courseware designed to help the student learn on the go. Take notes and share with friends
- BuddyNet Learning: Network with the students to boost scores. Access services like CloudScape, blogs, etc.
- Anywhere Lab: Allows the students to practice the concepts learnt using the Hint System.
- Online Assessment: Review progress with regular tests.

- Lesson on Demand: Online archive of talking presentations to catch up on classes missed and revise previous lectures

Students eligible to participate in the 26th Bhavishya Jyoti Scholarships:

- First year, Second year, Third year / Final year students
- All streams of graduation

Mentioned below are some benefits for a student as a part of 26th BJS:

- Scholarships of up to Rs 40,000 **
- Personalized Career Counselling
- Assured Merit Scholarships on NIIT programs
- Skill-Up subsidy for acquiring Job-Ready skills at NIIT

Basis your confirmation, we would like to initiate the following activities over the next few days:

- Conduct seminars on New Age Careers in the Emerging Trends
- Availability of an auditorium to facilitate the seminar

We look forward for to a fruitful association with your esteemed institution. Thanking you in anticipation of taking this initiative forward in your institution.

Multiple Choice Items**SECTION I**

Directions for Questions (1–5): Read the following passage and answer the questions that follow.

Cloud computing is a computing term that is based on the uses and consumption of computing resources over the Internet. It includes deploying sets of remote servers that allow centralized data storage. In addition to that, it provides online access to computer services or resources. It also helps users to overcome the platform dependency issues as you do not have to install the required software on the local PC. For example, Web-based email services, such as Yahoo and Gmail, provide cloud computing services. Users use these services to access their emails over the cloud from any device, such as computer, laptop and smartphones, irrespective of what kind of hardware is on that particular device.

Security is one of the major concerns that come in mind when it comes to cloud computing because in a cloud-based infrastructure, companies need to share the private data and information with the cloud service providers. It is then up to the cloud service provider to manage, look after and retain these sensitive and confidential details; thus, the provider's reliability is critical. Similarly, privacy is another major concern in cloud computing. Companies and end users have to trust their cloud service providers that they will keep their confidential data safe from unauthorized users.

Implicit dependency on the providers is another major disadvantage of cloud computing. This is what the industry calls 'vendor lock-in' as it is hard and sometimes impossible to change a provider once you start taking services of the provider. It is really difficult and cumbersome to transfer huge data from the existing provider to the new one if a user wants to switch to some other provider.

- Question 1** Cloud computing provides _____ access to computer services and resources.
- Options:** (a) no (b) physical
(c) online (d) offline

Minutes of the Meeting

The first Meeting for TY students of B.Com who have ATKT in Sem I to IV was conducted on 9st and 10th August 2018 in room number 504 at 11.00 am.

Dr. Shripad Joshi addressed the students.

The problems raised by the students was noted.

- 1) Majority of the students did not have problem in teaching. The major set back for not clearing exam was lack of hard work as per students.
- 2) The other major drawback that came out from students was low attendance. Many students agreed that due to low attendance in lecture they were unable to score in exams.
- 3) Few students were unable to attend lecture because of their IPCC classes and few because of sickness.
- 4) Student's concepts was not clear in Foundation Course subject.

Solution provided

- 1) Strategy as how to study was provided.
- 2) Students were motivated to clear the exam. It had a positive feedback.
- 3) Students were informed that a time table shall be formed for Remedial Coaching. The students were urged to attend the same for their benefits.
- 4) Formation of WhatsApp group was suggested so that the students can get information regarding further activities of the Committee.
