EDITORIAL

By education, I mean an all-round drawing of the best in child and man in body, mind and spirit. - Mahatma Gandhi.

In an attempt to follow this great personality's ideology, at Ramniwas Bajaj High School, we too stress on the development of a child as a whole, not just the mind.

Inculcation of a passion for creative thinking and writing among the students is one of the major objectives of RBHS. In this premier edition of "Odyssey" we have taken a step towards it and it has served as a great platform to exhibit the students' passion for writing and encouraging them to think originally. We pride ourselves in helping them grow and develop into sensitive and responsible citizens of the next generation.

"Odyssey" is a reflection of our journey through the year.

Our student authors have put across some amazing pieces of writing displaying their creative thinking and writing skills. The works included in this edition are extremely simple but will surely provide an opportunity to peep into a child's thought process. It is actually a lovely experience to see these enthusiastic writers voicing their feelings.

I am thankful to all the budding writers who have contributed to the Odyssey. I also acknowledge the effort of the teachers who proved to be catalysts in mobilizing the students to write their views and efficiently edited the write ups.

Our school magazine is a milestone that unfolds our imagination and gives life to our thoughts and aspirations. It unleashes a wide spectrum of creative skills ranging from writing to editing and even in designing the magazine. I congratulate the entire editorial team for their hard work and dedication in making this dream come true.

As Plato has rightly said-The beginning is the most important part of the work.

We have made a beginning and now we shall strive to better ourselves with each passing year...

Hope you enjoy this edition.

Warm Regards,

MESSAGE FROM HEAD PUPIL

I am Dhruti Seksaria, the head pupil of Ramniwas Bajaj English High School. I would like to thank our Principal Ma'am, Mrs. Harjeet Kaur Grover, our Headmistress, Mrs. Urvi Pal and all my teachers who gave me this wonderful opportunity to be the head pupil of this school. Our school provides an ideal learning environment for its students to promote their intellectual, moral, social, spiritual, and physical growth. I have been fortunate enough to see myself and my friends around me grow and flourish during our time

here; growing in confidence and competence in our tasks which is due to the high standard held by the staff around us. This school has taught me to handle each and every situation calmly. My experience in this school has really been awesome. I hope, within few years our school will be one of the top schools in Mumbai. I consider myself very to be a part of this school.

MESSAGE FROM JUNIOR HEAD PUPIL

'With great power comes great responsibilities.'

I, Nupur Verma of grade 5 would like to thank my principal ma'am for giving me this wonderful opportunity of becoming the head pupil of primary section. All the credit goes to my class teacher who helped, supported me and suggested my name. Without her support and guidance, it would have been next to impossible for me to cope up with the stress. My parents and my sister were very happy and proud of me but I was a bit nervous, doubting myself whether I would live upto the expectations of my principal and teachers.

It was my dream to become the head pupil atleast once in my lifetime. My confidence was revived by my friends

and others who believed in me and encouraged me.

Initially I used to think that being in a council team is not that big deal but my views completely changed once I was in it. The reasons being I had to be an ideal student, be punctual and disciplined or else I would have no right to become the head pupil. What I learnt through this experience is that we cannot achieve anything easily. Our hard work and support from our teachers greatly contribute to our success. Since the time I became the head pupil, I became more and more disciplined. My goal is to inspire my peers and give my level best to achieve the unachievable.

MESSAGE FROM DIRECTOR OF SCHOOLS NITIN PADTE

As an academic year draws to a close, an attempt to recollect the highlights of the past 10 months leaves one with blurry impressions. As I guide the four schools of the Rajasthani Sammelan Education Trust, we have many things to celebrate collectively and individually.

At Ramniwas Bajaj High School, our proudest moment of the year was given to us by the five students of Grade 10 who stood as standard bearers as the school's first batch of students to appear for the ICSE examination. Teachers who saw them through the teaching of the curriculum and preparation for the examination, were led by our Principal Ms Harjeet Kaur. They put in dedicated time to ensure that their syllabus was completed on time and that adequate preparation was made for the examination itself.

Our annual day revealed that our students not only excel in academics but they are great performers too as they took the audience across the world to give them glimpses of wonders spread through the globe. The entire staff – teachers, administration and support staff – joined hands to ensure the success of the event, showing a rare unity of purpose and effort. Similar efforts were put into the successful conduct of other events including the annual sports day.

As the year came to a close, teachers collaborated to come up with wonderful offerings for the summer camp for all the students exposing them to a variety of skills and games.

On a very positive note the school closes with larger number of admissions for the coming year and an optimistic outlook to the future.

HOUSE SYSTEM

The House system of RBHS is of great importance in school. Its function is to encourage healthy competition within the school. It gives all the students opportunity to participate in various competitions. It helps to develop skills by allowing each & every student to compete in art, craft, dramatics, sciences & technological skills etc. to make them global citizens. Its aims to promote the students' all round development by raising their self-esteem, developing self-confidence and giving opportunities for leadership and team work. Each House is unique in its own strength & talent.

The House system unites the students of different grades under one banner. In our school system, each student is placed in one of the four Houses that are RUBY,

EMERALD, SAPPHIRE & TOPAZ. All the four Houses are assisted by Head Pupil, Sports Captain, House captain & Vice-captain under the guidance of House Mistress and House Teachers.

The House system inculcates in the students the values of team spirit, commitment, loyalty, sharing and healthy competition. Points are awarded to the individual House throughout the year for co-curricular activities. These activities are conducted in Sports, Debates, Quiz, Music, Dance, Art, Craft etc. The House gaining the highest point is awarded a running trophy on the occasion of Annual Day.

The aim of the House system is to inculcate and develop the qualities of leadership & organizational skills among the students.

The Council Members of Houses perform the following duties

1. Maintaining discipline at time of arrival and dispersal.
2. To maintain discipline in assembly.
3. To check the late comers and mark in their diaries.
4. To maintain discipline as and when required.
5. Participate in all Inter-House competitions enthusiastically.

A Daughter

Ms. Dhruti Seksaria Std X

A daughter is a wonderful blessing,
A treasure from above.

Her laughter, warmth and special charm,
Her thoughtfulness and love.

A daughter brings a special joy,
That comes from deep inside.

And she is grown to adulthood,
She fills your heart with Pride.

With every year that passes,
She is more special than before.

Through every stage, thought every age,
You love her even more.

No word can describe the warm
memories The pride and gratitude, too .

That comes from having a daughter,
To love and cherish...just like you !

My SISTER

Aayushi Karwa Std: V

She is like the Flower, which blooms
throughout the year.

She is that precious gem, I might lose, I
fear.

She brought a smile on my face, she
helped me in my life's race.

She gave me courage, she made me bold.

She changed my attitude, she completely
changed me into what I am today.

Oh, my dear sister! I owe you so much.

But you still keep on giving me, your
smooth touch.

Let this bond of love between we sisters,
Never End.

Greatness

Nupur Rajesh Verma Std. V

I will be great, the little girl said,
But everyone laughed,
You're quite off your head!

I will be great, the little plant knew,
But everyone shouted,
What, a fool like you!

I will be great, said the huge green tree,
But everyone said,
You can barely be seen!

I will be great, said the fine young tree,
And everyone mumbled,
We'll see, we'll see.

Now I am great, I said to myself,
And the trees all agreed,
You're the king of us all!

Demonetisation a wake up call

Hitika Sharma Std. II A

My parents always instilled the habit of saving money in me. They always provided for my necessities and wants so I never realized why was it important for me to save in my piggy bank "Gullak".

One evening Prime Minister Mr. Narendra Modi announced that the notes with the denomination of 500 and 1000 were to lose legal sanction from midnight. The whole nation was shocked and so were my parents. The And ATMs were to remain shut for the coming next two days.

In between this havoc and chaos my small value money savings helped my family to carry on their commute and daily chores and that was the moment when I realized the value of saving money.

I appreciate the step taken by PM Modi to curb black money and it has put India in "Bright Spot " today in the global economy.

My School

Yash Sharma Std. IV

I really like my school, and just want to say,
That's where I spend, most of the day.

Countless activities, I get to do,
For Arts and Crafts, I always use glue.

During Math class, I learn to add and subtract,
Ten times ten equals one hundred,
that's an absolute fact.

One of my favorite classes, is fun and called gym,
I can nearly touch the basketball rim.

I also enjoy learning, difficult words to spell,
My ears are programmed, for that as well.

I really like my school, and just want to say,
That's where I spend, most of the day.

Colours

Yajat Sharma Std. III B

The sun above is bright and yellow,
On the phone we say 'Hello'.

Oceans and seas are deep and blue,
We should always be honest and true.

The night sky is dark and black,
To naughty children, mummy gives a smack.

Roses are pretty and red,
After supper it's time for bed.

The grass in the garden is wet and green,
We should never be rude and mean.

The milk we drink is ever so white,
Little children should never fight.

Growing Friendship

Yajat Sharma Std. III B

Friendship is like a garden of flowers,
fine and rare,

It cannot reach perfection except
through loving care,

Then, new and lovely blossoms with
each new day appear,

For, Friendship is like a garden,
It grows in beauty year by year.
There's happiness in little things,
There's joy in passing pleasure,
But, friendships are from year to year,
The best of life's treasure.

LOVE YOU MOM

Yajat Sharma Std. III B

A Mother is a star, who helps us grow,
She teaches us very far to go.
Yes, we do have fights which is a little sad
Yet, mother tries to make us glad.
The love of a mother cannot be counted,
From a child's birth a mother is bonded.
My mother is polite and always in a good mood,
She is always right and cooks us good food.
A mother's job keeps her busy,
Don't we ever think that she too gets dizzy?
So let's help them out so they don't get tired,
LOVE YOU MOM

A letter to parents from kids...

Divyanshi Agarwal Std. I

Hello Mom and dad. How are you? I seem to be fine but I am not. I feel the pressure of expectations from you so much that I now, no more feel like studying or playing or doing anything interesting. Remember I cannot always excel in everything.

I feel pained when you compare me with other kids. I feel like watching television sometime to get refreshed but you have disconnected it too. I feel good when I play football or dance or sing or just scribble but you feel its waste of time and energy. I love to get up little late on holidays; eat chocolates, ice-creams, pastries, kulfis, but you feel it will make me ill.

I feel suffocated. I don't like it at all. I feel like running from my home. Please understand we are kids. We have a long life to face all these challenges. The World will be as usual harsh and tough for us. Please let us grow slowly and beautifully. We are blessed and privileged to have you; even you make us feel the same.

Maa And paa we will always make you proud but give us time and space....Please don't burden us.

Seeking your love always
Yours kid !!!!

Step out of bed
And brush your teeth,
Fight with germs
Because they are so mean.

Get into warm water
And wash your hair,
Clean your body
From here to there.

Eat healthy breakfast
And get ready fast,
Keep your mind cool
It's time for school.

Life is an adventure...go for it!

Ashmeet Pawnoji Std. IV

Life is the name for number of feelings, emotions, love, struggle and dedication etc. Life takes a number of twists and turns during its whole span. There are good times and tough times too, how well you tackle these adverse conditions prove your credibility. Everyone loves good times but hates tough times. Well, tough times are the best times to prove one's ability. When life puts you in tough situations, don't say "Why Me" say "Try Me". One should have courage and stamina to stand firm in front of life's demon. Hard work is the key role to get yourself out of trouble. These incidents make us a strong person. 'Hope' is the key element in life which never lets you down and keeps your morals high. Be optimistic and have faith in God and believe that everything happens for a good reason. Sometimes we think that life is cruel to us but that is not the reality, always remember that "There was never a night or a problem that could defeat sunrise or hope".

Cow

Parnika Sodhani Std. II B

Very morning, on a road next to a Metro station near my house, the Indian way of life has a communion with Swacch Bharat. After collecting garbage from nearby colonies, contracted workers of the municipal council, dump it in the middle of the road. Within minutes, stray cows and dogs start scavenging for food in this putrid pile.

Plight of cows in Jaipur.
The cows search patiently: plastic bags, sanitary napkins, stale vegetables, dry rotis and newspapers laced with food get carefully scanned for anything that is edible. In the end, not satiated by the garbage, the cows turn to the carts of roadside vegetable vendors, who, instead of feeding them, drive the animals away with sticks and chappals. This, essentially, is the plight of the animal that is leading to murders, violence, bigotry and bans in India. While people fight over whether cattle can be turned into food, the poor Gau Mata struggles daily for nourishment.

Cows are symbols of our hypocrisy. We use them in every possible manner, squeeze every drop of milk out of them, inject them with chemicals and hormones to increase their output and then leave them on the roads, hoping some pious Hindu would throw food at them and reduce our cost of

feeding them.

we are ready to kill human beings on the mere suspicion that one of these unfortunate animals we had left in the street to die had become part of his dinner.

Cows gave us milk and other dairy products, they produced oxen that were used in fields and beasts of burden, their dung was used as fuel and manure. For many families, a cow was the centre of their economy. Killing it deprived them of milk, fuel and oxen to farm their land, leading to financial ruin. So, protecting them made lot of socio-economic sense.

But, urbanisation and mechanisation changed the man-bovine relation. Now, we find cows useful only till they can be milked. Once they serve their purpose, they are cast away in the urban jungle. I once asked a group of friends if any of them had ever brought home a stray cow, fed it, sought medical attention for it or tried to find a home for the animal. Did you?

Our cold apathy for cows is the reason we have that unique Indian institution: gaushala (shelter for cows), where hundreds of stray cattle are herded together in the hope that donations and government doles will keep them alive. Since we call cow our mother, these shelters seem inspired by old-age homes where our biological mothers await their end after being thrown out of homes.

Water Water Everywhere

Ayush Kothari Std. IX

Water water all around,
Save every drop that can be found.
No water to drink,
Soon in the sea water we will sink.

In spite of water everywhere,
Drinking water is so rare.
Such a scarcity of water,
Has become serious a matter.

Soon need to be resolved,
Otherwise Earth will be dissolved.
Wasting water isn't good,
So you never should.

Rules of School

Moksh Kapil Shah Std. VI

So here I am trying to write a poem
told by my teacher,
These are the rules of my school,
Don't think I am a preacher.
Punctuality and discipline for all the
students is the main Moto,
Disobeying it might eradicate us
from the class photo.
The colour of my uniform is
amazing Blue and White,
But we always have to be sure that
it is cleaned, ironed and uptight.
The hair should be oiled, the nails
should be clipped clean,
So that the DOS Sir, teacher or the
student council would not be
mean.
So this is the end of my poem and
like I said I am not a preacher,
I love my school, my friends, DOS
Sir and all my teachers.

Greatest Threat

Tabbasum Shaikh Std. X

Our Earth is the most beautiful planet in our solar system. As far as we know, Earth is the only planet that has life. Our Earth's beauty is just not imaginable. Earth's beauty would be enhanced if we people take a step forward to reduce pollution. It is the responsibility of the people living on this Earth to preserve Earth's beauty. It is our duty to take care of our Mother Earth. "Nature has enough for man's need but not for man's greed" is what Mahatma Gandhi had said.

The planet Earth and the life on it are facing myriads of problems. They have grown so serious that one doubts about the habitability of Earth for the generations to come. Survival will become a real struggle for them, as the things stand at present. The global warming has already begun to show its mark. The sea level has risen considerably submerging many low-lying islands in the ocean.

Pollution has gone literally sky high. The life on Earth is threatened in every way. The forests are dwindling at a fast rate creating all kinds of problems like drought, landslides etc. The oxygen content in the atmosphere is reducing and the carbon dioxide level is increasing. We all know the role played by the trees and other vegetation in balancing the levels of these two gases. It is the time to think about the safety of our planet Earth. There is an urgent need to save our Mother Earth.

Lives are crying because it's not clean,
Earth is dying because it's not green.
Grow more trees, make Mother Earth green,
Reduce pollution and make her a queen.

After listing the main problems of this Earth, it is time to think how to remedy it or rather who will find remedies to these problems. The immediate answer will be 'the government and the concerned authorities'. But then, who are these 'concerned authorities'? What are they supposed to do to solve the diverse problems faced by various parts of the world? The problems and their effects are so divers that it is difficult to prescribe a common strategy to deal with them. The common man tends to hoist the

responsibilities to the shoulders of the 'government' and the 'authorities' and go about his own business comfortably. This has been the policy of mankind from time immemorial; put the blame and responsibility on others and escape.

But now the time has come for each of the Earthlings to take up his own responsibility of preserving this planet for himself and the coming generations. But again, it is the habit of man in general, to think that the impact he himself makes on the problem is negligible. He thinks that if he uses a highly polluting vehicle it doesn't make a difference. If he cuts down a tree for his needs that is alright because it is only one tree after all!

He expects others to follow the norms and make a difference. We know that there should be a general awareness about these things. But who will go about spreading this awareness? Of course, somebody else, because we are busy with our lives. This is the greatest threat to our Earth. People think that someone else will save the Earth. This is what everyone think and at the end of the day no one makes an effort to save Mother Earth. We need to realize that Earth is "What we all have in common." "Earth was created for all of us and not someone of us." So it is the responsibility of all of us to save this beautiful Earth. Healing the Earth is indirectly the healing of our future.

The right time has come when we will have to come forward and take a firm step forward. Mahatma Gandhi had said that "be the change that you want to see in the world. We need to stop putting our responsibilities on others. People often say that someone else will save the Earth. People don't understand that they have the great responsibility of saving the Earth. In short, we are so selfish that we are not ready to alter our own lives to find solution to a common problem. We consider talking profusely against the problems will do. When it comes to the solving part of it we expect others to do it. Some of us are not ready to be involved in the campaigns or talk about it because we think, "What can one person achieve?" The need of the hour is that each and every person on Earth should act in every way he can, however small the act may be. If every man on Earth refrains from adding to any kind of pollution, he is doing his bit in saving the Earth from global warming. If every man avoids destroying the vegetation on Earth, he is helping in replenishing the depleting oxygen level on Earth. As the old adage would have it, 'many drops make the sea'. The time has come to call for Global Citizenship. We all need to come together to save Earth.

You never get back sped arrow, spoken words, and lost opportunity

Tabbasum Shaikh Std. X

I totally agree with the statement that we never get back a sped arrow spoken words and a lost opportunity. The phrase makes me aware that be careful about what you say and do. Once put into motion you can't take it back. The phrase speaks to me that we need to be awake enough and bold enough to avail ourselves of the potential that's in front of us.

You never get back a sped arrow. Once an arrow is released from the bow it cannot be stopped. It signifies that your action cannot be changed. One must take thoughtful actions. Once you have done a mistake it cannot be changed but off course it can be avoided the next time.

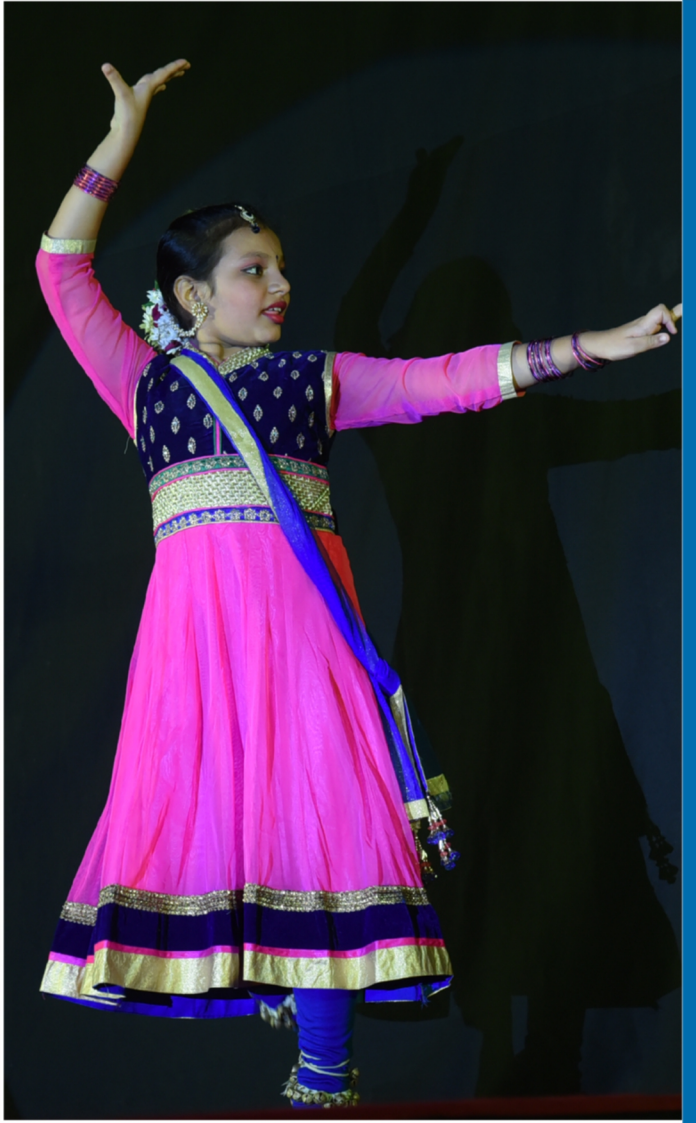

It is very true that we never get back the spoken words. Once spoken out, cannot be returned back. This is the reason why it is advisable to think twice before you speak. Physical injuries get cured but harsh words leave a deep wound on the heart and it remains forever. Before speaking, we must think of its consequences first. Our words may not be of the wrong intention but it may hurt someone.

Lost opportunity never comes back. "Opportunity knocks at your doorsteps only once so grab it." Opportunity is like running water in the river which will never return if you let it go. Successful people are those who grab those chances and take risks. APJ Abdul Kalam was born in a poor family. He grabbed each and every opportunity and he was considered to be one of the best scientists. He had also been the president of India. "It's true that we are still young to do our best to reach our goals but don't wait till you are too old to start it."

वृक्ष

जयश्री शर्मा कक्षा - ४

वृक्ष लगाओ, वृक्ष लगाओ,
वन में हरियाली लाओ, अपने जीवन को स्वच्छ बनाओ,
वृक्ष लगाओ, वृक्ष लगाओ I
आज संसार में मनुष्य लेता वृक्ष की जान,
क्या मनुष्य नहीं जानता, इससे है सबकी शान,
हमारे जीवन को स्वच्छ बनाने के लिए इन्होंने दिए बलिदान,
फिर भी यह सब भूलकर ले रहे हैं इसकी जान,
ईश्वर ने इन्हें बनाया, हमारे स्वास्थ्य के लिए वरदान,
वृक्ष लगाओ, वृक्ष लगाओ
जीवन में हरियाली लाओ
वृक्ष लगाओ, वृक्ष लगाओ I

कहाँ बसे भगवान्!

देशना मेहता कक्षा - ३ अ

भगवान् हमारे दिल में है,
भगवान् हर इक रूप में है,
भगवान् हर कण में है,
भगवान् हर क्षण में है,
भगवान् बसे सच्चाई में,
न मिले बुराई में,
सजाया इस ब्रह्माण्ड को,
इस सुन्दर संसार को,
भगवान् ने कई ग्रह बनाये,
भगवान् ने रवि - चंद्र बनाये,
पर, सबसे सुन्दर धरती बनायी,
जहाँ रहते इंसान हैं,
इसी इंसान के मन में रहते,
हम सबके भगवान है

छोटी सी मुस्कान

मिशा सराफ कक्षा - २ अ

छोटी सी मुस्कान यह आई,
कितनी खुशियाँ साथ ले आई
चेहरे पर रौनक है लाती,
आँखों की चमक बढ़ जाती।
बच्चे लगते इसमें प्यारे,
बड़े लगते इसमें न्यारे।
छोटी सी मुस्कान में भाई,
छिपी है लाखों की सच्चाई।
दुश्मन को दोस्त यह बनाती,
भाईचारे को है यह बढ़ाती।
मुश्किल वक्त को आसान बनाती,
जीवन को फूलों की तरह महकाती।
कौन-सा जादू इसमें भरा हुआ है,
घर-घर में यह फैला हुआ है।
हर पल इसे अपने साथ ही रखना,
जीवन का यह अनमोल गहना।

परीक्षा की तैयारी

जयश्री शर्मा कक्षा - ४

छोड़कर बच्चों बातें सारी,
करो परीक्षा की तैयारी |
खेल-कूद अब बंद करो,
अच्छे अंक लाने का प्रयत्न करो |
टी. वी. फिल्म देखना छोड़ो,
बस पढ़ने से नाता जोड़ो |
मेहनत करने वालों के आगे,
दुनिया सदा ही हारी है |
पढ़ - लिखकर विद्वान बनकर,
अपने श्रम से बना सकोगे |
सुंदर जीवन की फुलवारी,
छोड़कर बच्चों बातें सारी,
करो परीक्षा की तैयारी |

हजार पाचशेच्या नोटा

निष्ठा चाफेकर कक्षा - ६

माझ्याकडे ही आहेत
काही हजार पाचशेच्या नोटा
चलनातून बाद झाल्या तरी
तो माझा पैसा नाही खोटा

समारंभातून कौतुक होऊन
बक्षिस मिळालेली एखादी नोट
वाढलेल्या पगाराची एखादी नोट
शेवटची आवराआवर करताना
आईच्या उशाशी सापडलेली नोट
देवळाच्या पायऱ्या चढताना
सापडलेली एखादी शुभशकुनी नोट
ब्युटी पार्लरची पायरी चढून
तशीच उतरून वाचवलेली एक नोट
श्रीगुरूंना गुरुदक्षिणा दिल्यावर
त्यांनी हातात घेऊन परत दिलेली नोट

अशा ह्या हजार पाचशेंबरोबर
इतरही छोट्या छोट्या नोटा आहेत
ह्यात राखीपौर्णिमेच्या
अन भाऊबीजेच्या नोटा आहेत.

साऱ्या ठेवल्यात मी जपून
कधीतरी काढून डोळे भरून बघते
आठवणींचा उघडतो खजिना अन मी त्यात
अगदी स्मून जातो.

ह्या नव्हत्या जमल्या मी
वेळप्रसंगी उपयोगी पाडण्यासाठी
रक्कमही इतकी मोठी नाही
मुलाबाळांच्या कामी येण्यासाठी

हा पैसा काळा नाही,
तर चमकदार, रंगबेरंगी आहे
चलनातून रद्द झाला असला तरी
माझ्या लेखी तो अमूल्य आहे.

नोटा बदलून आणल्या तर
ठेवणीतील सुगंध राहणार नाही
न बदलता ठेवल्या तर
किंमत शून्याच्या वर होणार नाही.

विचारात पडलं मन
पैशांचं अवमूल्यन व्हायला नको
अन आठवणींचा खजिना माझा
असा रिक्त, सुनासुना व्हायला नको.

मग पटकन निर्णय घेतला
नोटा बदलून त्याचा खाऊ आणला
आनंद पेरला खूप चेहरांवर सिमलवर खूप
मुलांना वाटून टाकला.

स्वप्न

ज्ञानेश्वरी पोपळे ३- अ

आई रात्री गोड अंगाई गाते.
झोप त्यावेळी जवळ येते.
झोपेत छान नगरी दिसते,
गम्मत त्यात सुंदर असते.
नगरीत बाग असते भारी,
मुले खेळतात मजेत सारी.
विसरून जातात अभ्यास सारा,
ईतक्यात येते आईची हाक,
कळते तेव्हा होते मी स्वप्नात

माझी कला

निष्ठा चाफेकर कक्षा - ६

देवाने प्रत्येक मनुष्याला या पृथ्वीवर पाठविताना एक विशेष देणगी देऊन पाठवले आहे.
मलाच देवाने चित्रकलेची आवड देऊन पाठवले आहे. मी तीन वर्षांची असतांनाच मला
लहान लहान चित्र काढण्याची फार आवड. माझी हि आवड माझ्या आईच्या लक्षात
आली. आई तिने लगेच या गोष्टीची दखल घेतली.

मी चार वर्षांची झाले तेव्हा माझ्या आईने मला चित्रकलेच्या क्लासला पाठवले आणि मी
कला शिक्षकाच्या मार्गदर्शनाखाली चित्रकलेत उत्तरोत्तर प्रगती करू लागली.

चित्रांमधून आपल्या भावना व्यक्त करता येतात. लहानश्या चित्रात सुद्धा मोठा आशय
दडलेला असतो.

फार जुन्या काळा पासून चित्रकला हि एक भाव व्यक्त करणारी परंपरा आहे. कारण
आपले पूर्वज चित्रातून आपले भाव व्यक्त करायचे. जेव्हा लिपी नव्हती तेव्हा चित्राची
भाषा होती. आपल्या देशात अनेक प्रसिद्ध चित्रकार होऊन गेलेत. त्यापैकी मला
आवडणारे एम. एफ. हुसेन हे फार मोठे चित्रकार होते.

पण दुर्दैवाने हि कला लोप पावत चालली आहे कारण आज याची जागा संगणक आणि
मोबाईल यांनी घेतली आहे. आज फावल्या वेळात मुले कलेची जोपासना न करता,
ऑनलाईन संगणक आणि मोबाईल वरील चित्रांचा उपयोग करतात त्यामुळे हि सुंदर कला
आणि मुलांची कल्पनाशक्ती कमी होत चालली आहे असे मला वाटते. जसे माझ्या आईने
माझ्यातील कलेचा कल ओळखला तसे सर्वांनी मुलांतील कला आणि अभिरुची जाणून
त्यांच्या कलागुणांना योग्य ते मार्गदर्शन मिळवून द्यावे.

Challenging Times!

Annie Patani
English and Social Studies Department

These are surely challenging times or 'Hard Times' that have fallen upon us all over the world. The question is, how do we gracefully pull through these difficult times?

All over the world, the clash of political ideologies, looming danger and insecurity due to sudden attacks from certain outfits has left the citizens of the world, helpless. Where does this leave the helpless child who is left to grapple with all these changes? Academically and socially there are great worldwide changes of recent.

For a parent, a child and an educationist these are trying times. With great advancement in science and technology which aims at a hassle free life, it surely doesn't get any better. Of course being challenged in life is inevitable. However this challenge only becomes a major obstacle when we give in or bow down to it.

Today, world climate is changing and its repercussions are felt all over- in the human world, animal world as well as plant life. We are threatened- our existence itself becomes a challenge!

Keeping all this in mind, we must keep and revive our core values so that our children can make a better tomorrow. Certain basic concepts like work ethics- based on guidelines such as time management, punctuality and accountability will go a great way to tide over basic issues.

If children are sensitized on issues with respect to the environment and given the responsibility to carry out certain tasks, then only can we produce value based education. Thus making children face challenges on a positive way without demeaning their confidence, will go a long way in moulding their personality.

Reverence, respect for others' opinion is of paramount importance in this intolerant world.

In conclusion, I would say...in the words of a poet...
Be strong enough to accept the challenges of life

Don't ask Life, "Why Me?"
Instead say, "Try Me!"

Habits Die Hard

Sona Naryani

"We first make our habits, and then our habits make us."

~ John Dryden

Parents and Teachers play a vital role in building a child's personality. The good habits we inculcate in our children provide lifelong benefits. After all a habit is a routine of behaviour that is repeated regularly and tends to occur subconsciously, so once habituated, it becomes an intrinsic part of an individual.

Many things taken lightly by us cause a great deal of problems to the child later. A child not wanting to attend school for the slightest of reasons and parents agreeing to it may send a message to the child that school is not a serious matter. We need to assess the reason and only if serious enough agree to it. Children are perceptive and can read our mind and know what we are serious about. So once they get the message that attending school is a serious matter, they will.

When we do not check them in time and indulge them by believing that they will eventually grow out of the habit, we are actually doing them disservice. Some things that seem amusing at an early age become disgusting habits later. Drawing on the walls at home, lifting their feet while sitting on the sofa and chair, making a mess and expecting others to clear up and nail biting are some of the habits that are seen in many children. Gradually it becomes a part of their personality and is difficult to stop.

Laying down some ground rules about behaviour and being particular about teaching them to say Please, Thank you and Sorry when needed will turn them into pleasant personalities. Offering a chair to an elder and greeting people are some of the niceties we need to repeatedly tell them about. Encouraging them to share their belongings and helping out others will increase their self worth. Getting them to do little jobs at home will not only make them self-reliant but also boost their confidence.

Heaps of praise when they act in a desired manner will encourage them to remain well behaved and develop into well-liked individuals.

We love our children and do want them to be the best!!

कलाध्यापनाचा मूलमंत्र

श्री. उदय देशमुख (चित्रकला शिक्षक)

चित्र हि मुलांची भाषा आहे. खूप काही सांगण्यासारखा त्यांच्याकडे असतं पण ते सांगण्यासाठी आवश्यक साधन सामग्री त्यांना वेळेवर आणि भरपूर हवी असते. आपल्या मनातील विचार झटपट आणि परिणामकारक उतरवण्यासाठी ते उत्सुक असतात. म्हणूनच त्यांना योग्य साहित्य पुरवणं आणि आविष्काराला पोषक वातावरण निर्माण करून देणं हे पालकांचे आणि शिक्षकांचे काम आहे.

प्राथमिक स्तरावरील विद्यार्थ्यांच्या चित्रात दुरुस्त्या करणे, त्याला आवश्यक नसताना चित्र असं काढ, तसं काढ, हे नको करू अशा सूचनाही देऊ नये. स्वतंत्र अशी विचारांची दिशा यामुळे खंडित होते. त्याचे असे जे अनुभव असतात. ते आपल्याला कळवतील असे नाही म्हणूनच मुक्तपणे त्याला काम करू द्यावे. शिक्षकांची किंवा पालकांची भूमिका ही शिकवणाऱ्याची नको, मार्गदर्शकाची हवी. मार्गदर्शनाची चित्र काढण्याबद्दल तपशीलाबद्दल नाही तर साहित्य हाताळणीबद्दल असले पाहिजे. शिक्षकांचा व पालकांचा हस्तक्षेप मुलांवर किती अन्यायकारक होऊ शकतो याचा माझाच एक अनुभव मी नमूद करतो. एका स्पष्टच्या वेळी झाडाची पाने केशरी रंगात रंगविताना त्या मुलाला त्याचे बडील हिरवा रंग दे दडवून सांगत होते. "पानांचा रंग हिरवाच असतो." हे त्यांचे वाक्य मुलाच्या निसर्ग-निरीक्षण क्षमतेला चिरडून टाकणारे होते. जी दृष्टी आपल्याला नाही ती मुलाकडे आहे. या उदाहरणावरून एक घडा घेतला पाहिजे की, मुलाला पाहिजे तसं काम करू दिले पाहिजे. मुक्तपणा आणि उत्स्फूर्तपणा हा कलेचा प्राण असतो.

साहित्य हाताळणीत जास्त वेळ गेला तर मुलांच्या विचारांची शृंखला तुटते, म्हणूनच पारंपरिक रंगपेटी ऐवजी पावडरचे केलेले रंग, रंगीत कागद असे कमी खर्चात सुंदर अनुभव मुलांना देता येऊ शकतो. रंगपेटीतील रंग ब्रशने घासून तयार करण्यात वेळ वाया जातो व भरपूर रंग ब्रशमध्ये येत नाही. त्यामुळे अपेक्षित परिणाम साधता येत नाही.

अपनी समझ को ना बिगाड़ चाहे दुश्मन हो अपारा
तेरे नेक इरादें दुश्मनी को दोस्ती में बदल जायेंगे॥

माना कि आज नहीं है तेरे पास खाने को।
मेहनत कर और विश्वास रख ईश्वर पर

तू नई दिशा दे जायेगा इस जमाने को।
बसा! कर्म की बगिया खिलता जा।
एक दिन जरूर इसमें फल आयेंगे।

हमारी हर एक बात लिखी जायेगी॥
हमारी सफलता को मेहनत से नहीं
मात्र संयोग समझा जायेगा।
जो साथी हार गया हमसे
वो हमारी कमी गिनायेगा॥
जो क ख ग नहीं जानते हैं वे चुनौती दे जायेंगे।

Hindi Day celebrated

The students and staff of Ramnivas Bajaj English High School (RBHS) celebrated Hindi Diwas in the school campus on September 14.

It was on this day in 1949 that the Constituent Assembly of India adopted Hindi written in Devanagari script as the official language of the Republic of India. To mark this day the students of RBHS spoke in Hindi the entire day.

A special assembly marked the occasion with students singing melodious bhajans. They even recited Kabir's Dohay, Rahim's Dohay and Thulasidas's Dohay. A quiz was also held.

The students of the secondary section participated in Inter-House Hasya Kavi Sammelan.

The primary section students recited poetry, sang songs and danced to the foot tapping numbers.

THE HINDU IN SCHOOL 1 July, 2016 New student council

The investiture ceremony of Ramnivas Bajaj English High School was held on June 22.

The solemn ceremony began with the lighting of the lamp by the dignitaries - Chief Guest Archita Rajput, Trustee of RSET, Principal Harjeet K Grover and Head Mistress Urvi Pal. This was followed by prayer and the school anthem by the school choir.

The Student Council then took oath and pledged to be

True Leaders.

The contingent was led by senior head pupil Dhruvi Seksaria, junior head pupil Nupur Verma and sports captain Gayatri Chaurasia followed by house captains, vice captains and prefects in the senior and junior wing.

The Principal Harjeet K Grover gave a motivational speech to the young members of the Students Council and congratulated them wholeheartedly on their new roles.

Annual Day celebrated

Ramniwas Bajaj English High School, Rajasthani Sammelan, celebrated its Annual Day on January 19. Dr. Guha was the chief guest.

Members of Rajasthani Sammelan, Harjeet K Grover, principal and Urvi Pal, correspondent, were also present.

More than 300 students took part in the Magic Drum presentation. Meritorious students in academics and extra-curricular activities were awarded prizes.

Tiny tots, big on talent

The pre-primary section of Ramniwas Bajaj High School had some creative projects

The Annual Exhibition of the pre-primary section of Ramniwas Bajaj High School was held on March 3, 2017. The themes – Seasons for the Nursery, Forgotten Games for the Jr. KG and Exploring Countries of the World for the Sr. KG – were depicted creatively and innovatively. Exhibits by kids at Parents were thrilled with the Ramniwas Bajaj way in which the children spoke about the displays and appreciated the effort of the school in making learning by doing enjoyable.
