2. How these entrepreneurs used their passion, hard work and skills they reach where they are now.
- 3.

Ground Work:-

1. 10 Entrepreneurs were selected from India and around the world, and 10 articles were written about their stories of how they were able to commence their businesses.
2. These 10 articles were written, edited and combined into a bulletin in a PDF file.
3. A quiz was prepared on based on the bulletin, that would be shared with participants, after the bulletin was released.
4. A WhatsApp Group was made, where the bulletin would be released, and the link of the quiz would be shared after that.

4. From this event we were able to learn by Dhirubhai to always think big and execute it properly. One should aim for the highest, but without execution it is just a mere idea.

5. We were able to learn that patience is the key when building something meaningful for yourself, because even Jeff Bezos had to wait more than 20 years for Amazon to make an impact.
6. Steve Jobs had a vision which he wanted to fulfill at any cost. We should have a vision, and have the passion to fulfill it.
7. Feedback for the project were extra ordinary, many participants were happy that we were able to present some of the entrepreneurs key life moments and their struggle in this bulletin, and they were able to know about it.
8. This event was helpful for the participants, as they were encouraging and also set their goal to become a entrepreneur in future.
9. In the end Thank You note was passed in the group for participants.
