**"LET'S CARE FOR OUR FELLOW BEINGS AND MAKE THIS OUR GOSPEL FOR LIFE.
LET'S EDIFY AND SUBLIMATE OUR LIVES!"**

- Dr. A.R.K. Pillai
(Founder President, Indian Development Foundation)

INDIAN DEVELOPMENT FOUNDATION (IDF)(formerly Indian Leprosy Foundation) is a leading national NGO committed to Health, Education and Development.

OUR VISION

To work towards creating a better India which provides basic health, education and empowerment to every citizen.

OUR MISSION

To be a Knowledge/Execution Partner of Schools, NGOs, Corporates, and Government agencies for development programs across India.

OUR FOUNDER

Dr. A.R.K.Pillai (90) is a Social Scientist and Founder President of Indian Development Foundation. Dr. Pillai has dedicated his life for the cause of leprosy eradication and has been involved in the humanitarian work for over 50 years.

"Professor's life dedicated to work of eradicating leprosy from India."
The Tribune, USA (31/03/1993)

"Hope on the horizon."
The Hindu (03/12/2001)

"Instilling hope in lives of the less fortunate."
The Times of India (03/01/2007)

"A Soldier for Society."
The Indian Express (19/05/2008)

"I compliment Dr. A. R. K. Pillai and his team from the Indian Leprosy Foundation for giving out financial grants to leprosy projects out of the funds generated by the Foundation. It's a virtue to give and the Foundation deserves compliments."
- Mother Teresa (TOI - 09/01/1993)

OUR WORK IN THE AREA OF HEALTH CARE

IDF has contributed significantly in designing Communication Strategies for leprosy elimination in India. Leprosy was rampant in India for 5000 years. In 1982, India had an estimated 4 million leprosy patients. Leprosy has medical and social dimensions and social boycott of patients aggravated the situation. Our Foundation, formerly known as Indian Leprosy Foundation, helped in designing "Communication Strategies and Management" towards bringing down the case load from 4 million in 1982 to less than 1 lakh within just 23 years. India declared its leprosy elimination status to the world in 2005, making it a major success in independent India! Indian Leprosy Foundation was then rechristened as Indian Development Foundation (IDF) with an expanded and diversified plan to fit in with the national priorities.

OUR FOCUS AREAS IN HEALTH

- Health awareness campaign on Leprosy/ TB/ HIV-AIDS/ Blindness/Cancer for several lakhs of students in about 20,000 schools across India.
- Eye Donation, Eye Care - Cataract and Squint Eye correction
- Cleft lip and palate correction by specialized medical team
- Toilets / Sanitation – in slum / schools and rural areas
- Cleanliness and Environment programmes for a healthy India.
- Health camps for students & general public
- Blood Donation Drive
- Road safety
- Personal Hygiene for adolescent girls (pH12 Project)

OUR WORK IN THE AREA OF EDUCATION

Bal Gurukuls : IDF recognizes the need for giving basic education for the poor and underprivileged children. There are about 9 million children in our country who have no access to education. The parents being illiterates do not encourage the children to study, but send them for odd jobs to supplement family income. Education is extremely crucial for India's needs and development.

IDF started with a Bal Gurukul concept (an after school programme) for poor children from rural areas of Rajasthan in 2005. Currently IDF has 190+ Bal Gurukuls across India and hopes to exceed 500 Bal Gurukuls by the year 2025.

IDF provides mid-day meals, uniforms, books, play materials, fees, etc., in selected Bal Gurukuls through Project Aashayein and Project Umeed.

Student Leadership Programme : It is our program for fostering skills in the areas of Leadership, Teamwork, Personality and Behavioural traits and providing career guidance to underprivileged students between grade 8th – 10th. This is a 3 month (12 session) program and is run by involving Volunteers/Social Ambassadors from Corporate sector/Colleges/Universities.

Social Internship : IDF welcomes social internship from various schools/ colleges/ national & international universities/management institutes and give them exposure in different fields of humanitarian work.

OUR WORK IN THE AREA OF DEVELOPMENT

Project S-3 : "Sarva Sakhi Swabhiman": Vocational training for women in urban slums/rural areas. It enables women to earn a livelihood through tailoring, embroidery, handicrafts, computer training, making candles/paper-bags etc. *WDC/Rotaxat/NSS*

Mission W2K : Waste to Knowledge is our self-sustaining initiative to collect, old newspaper/books/magazines to extend support to children in IDF Bal Gurukuls. We run this program with the support from Housing Societies/Offices/Educational Institutions etc. IDF Volunteers/Social Ambassadors visit various places to collect the old newspapers/books. The old newspapers/ books will be sold and money utilized for IDF Bal Gurukuls. Good books will be utilized for establishing libraries in various slum and village schools. *engage our library for this project (as a once a yr. program) or once a twice a yr. "*

Clean India Movement : Team IDF creates massive awareness on cleanliness through awareness skits and plays. Mass clean-up drives are organised in different parts of India involving school and college students and volunteers from the corporate sector. Clean-up drives in beaches and public places are also carried out followed by Tree plantation forms a part of the clean-up and environment protection programme. IDF networks with government agencies, corporate bodies and NGOs to spearhead the nation's clean India movement.

iDiscover Programme : Emphasize on inculcating scientific temper in young minds. Children from IDF Bal Gurukuls/ slum schools in India are taken to Planetarium, Science Parks, Industrial units, Edutainment Parks etc., to expand the vision and awaken scientific temper. Science and Thinking Skill talks are also organized for the students and the teaching community. Students get hands-on experience in science and maths through our networking projects.

IDF's Centre of Excellence (CofE) will focus on enhancing employability among youth through 'finishing school' concept. IDF CofE at Bangalore will have a Bal Gurukul, a state-of-the-art training centre, a women empowerment project and a leprosy/TB research unit - all under one roof. Experts from various fields will design content for the 'finishing school' model. The project will be replicated in other cities too to help the youth at large.

I am happy to know that the Indian Development Foundation is planning to dedicate its first Centre of Excellence (CoE) - a holistic sustainable development model project on 16th March 2015 at Bangalore. I am also happy to note that CoE at Bangalore will also be a multi-faceted facility catering to different social projects which will be useful for all sections of the society.

- **Dr. A. P. J. Abdul Kalam**

Former President of India (05/03/2015)

"I am happy that Indian Development Foundation (formerly Leprosy Foundation) has been organizing leprosy awareness campaigns covering several lakhs of school children in different states. The effort to raise voluntary donations towards self-reliance deserves encouragement. Your efforts to enthuse and motivate people for leprosy eradication program are praiseworthy."

- **J. R. D. Tata (11/06/1993)**

"With great admiration and the respect for the work of Dr. Pillai and with prayers that the message of hope should accelerate progress in achieving a leprosy and poverty-free India"

- **Dr. M. S. Swaminathan,**

The father of Green Revolution of India

"The Foundation's contribution in prevention and treatment of leprosy in India have been significant. However, rehabilitation and development of the affected and continued education to prevent the disease are important initiatives to continue. The Tata Institute of Social Sciences sends Indian Development Foundation its best wishes and pledges its support to address India's health issues."
