RBHS NEWSLETTER

JUNE 2026

Welcome to Our School Story!
“Every month has a story. Here’s ours!”

New Year. New Energy. Same RBHS Magic! ✨
Fresh beginningS..... New friendships.....Endless
opportunities!

As our Pre-Primary, Primary, and Secondary learners stepped into the new academic year, the entire campus came alive with excitement. Hallways buzzed with laughter, classrooms turned into creativity hubs, and every day brought a brand-new adventure waiting to unfold.

Adding to the excitement was the FIFA fever that swept across the school! Jerseys were everywhere, lunchtime debates were all about favourite teams, predictions were flying, and every big match had students and teachers cheering, celebrating, and saying, “Did you see that goal?!” The energy was simply next level! ⚽

From joyful first-day smiles and inspiring orientations to leadership opportunities, engaging workshops, creative learning, competitions, and unforgettable moments, RBHS hit the ground running. Every classroom became a space to explore, question, collaborate, and grow.

So, buckle up and dive into this edition of the RBHS Newsletter, where you’ll find the biggest highlights, proud achievements, exciting events, and memories that made the start of this academic year truly iconic.

New academic year? Unlocked. New goals? Loading.....

INSPIRING LEADERSHIP, EMPOWERING FUTURES - THOUGHTS FROM OUR TRUSTEE

"WHEN YOU TRAVEL, YOU DON'T
JUST SATISFY A CURIOSITY. YOU
OPEN YOURSELF TO A NEW
WORLD. LITERALLY &
FIGURATIVELY."

FROM THE PRINCIPAL'S DESK:

The Courage to Think (for Yourself)

"The greatest enemy of knowledge is not ignorance; it is the illusion of knowledge." – Stephen Hawking
Every day, our children are surrounded by opinions - through social media feeds, YouTube influencers, AI-generated content, WhatsApp forwards, television debates, friends in the playground, and sometimes even well-meaning adults. They are told what to wear, what to like, whom to admire, and often, what to believe.

In such a world, one of the greatest gifts we can give our children is not simply knowledge—it is the ability to think independently.

Independent thinkers become responsible citizens. They are less likely to be manipulated, more likely to make ethical decisions, and better equipped to solve the complex problems of tomorrow.

But independent thinking is not a skill that develops overnight - it must be nurtured intentionally. How can Independent Thinking be developed?

1. By asking better Questions – Why? What evidence? Is there another perspective? What am I missing?
2. Read More – not only material that confirms our beliefs but material that exposes us to different experiences and viewpoints. Intelligent people disagree respectfully.
3. Listen before you Decide – Listening is not agreeing but it means understanding another's perspective before forming conclusions. It helps evaluate and not just react.
4. Separate Facts from Opinions – Opinions reflect a person's belief and interpretation but a fact can be verified. Being a responsible digital citizen implies verifying before forwarding.
5. Learn from Experience – Debates, Community service projects, sports, theatre, collaborative or leadership activities allow students to experience different realities and reshape our thinking.
6. Be Comfortable changing your Mind – Changing your opinion is NOT a sign of weakness but a sign of wisdom. Growth requires intellectual humility.
7. Think before you Follow – Popularity does not determine truth. The loudest voice is not always the wisest. The courage to pause before joining the crowd leads to independent thinking.

Our responsibility as adults is not to dismiss them but encourage respectful disagreement and model thoughtful decision-making.

The future will belong not to those who simply possess information, but to those who know how to evaluate it wisely.

Ms. Florina Fernandes,

Principal RBHS receiving

mid-day

Education Icons Awards 2026

**EXCELLENCE IN
NATIONAL SCHOOL
CURRICULUM**

By

Shri Pravin Darekar

Member of the Legislative Council

Proud Moment: A Milestone Worth Celebrating! ✨
RBHS was honoured with the Mid-Day Education Icons Awards 2026 for Excellence in the National School Curriculum, a prestigious recognition of our unwavering commitment to holistic education and academic excellence. This achievement reflects the collective efforts of our visionary management, dedicated Principal, passionate teachers, enthusiastic students, supportive parents, and committed support staff. Together, we have nurtured a safe, inclusive, and inspiring learning environment where every child is encouraged to learn, grow, and thrive. This award celebrates not just excellence in education, but the strong community spirit that makes RBHS a place where every learner is empowered to reach their fullest potential. ✨

CONGRATULATIONS CHAMPIONS!

🌟 A Shared Effort, A Remarkable Result! 📚 ✨

Excellence is never achieved alone—it is built through dedication, perseverance, and teamwork. We are delighted to celebrate the outstanding ICSE Results 2026, a proud reflection of the hard work of our students, the guidance of our teachers, the unwavering support of our parents, and the vision of our school leadership. Heartiest congratulations to our toppers and every student for their remarkable achievement. Your determination and commitment have made the entire RBHS family proud. Here's to celebrating this milestone and reaching even greater heights in the years ahead! 🎉 🏆

Congratulations

Ms. Florina Fernandes!

Great schools grow when great leaders keep learning.

Successfully completed the
Education Leadership Programme (EDLEAP)
at Indian Institute of Management Calcutta.

Learn.
Lead.
Inspire.

Strong Leaders.
Stronger Schools.
Brighter Futures.

We are proud of you
& wish you continued success.

☀️ **Leading by Learning!** 🎓

A proud moment for the entire RBHS family! We extend our heartfelt congratulations to our Principal, Ms. Florina Fernandes, on successfully completing the prestigious Education Leadership Programme (EDLEAP) at the Indian Institute of Management Calcutta. This remarkable achievement reflects her unwavering commitment to lifelong learning, visionary leadership, and excellence in education. Her passion for continuous growth inspires both educators and students, strengthening RBHS's journey towards innovation and academic excellence. Congratulations, Ma'am, on this well-deserved milestone. We wish you continued success as you lead, inspire, and shape the future of learning with dedication and purpose. ☀️ 🙌

GROWING TOGETHER. LEARNING TOGETHER. THRIVING TOGETHER.

🚀 Learning Hub 2.0: Parents, You're in the Classroom! 📚
"Less PowerPoint. More Participation. 100% Learning!"

Dates: 4 & 6 June | Facilitators: RBHS Academic Team

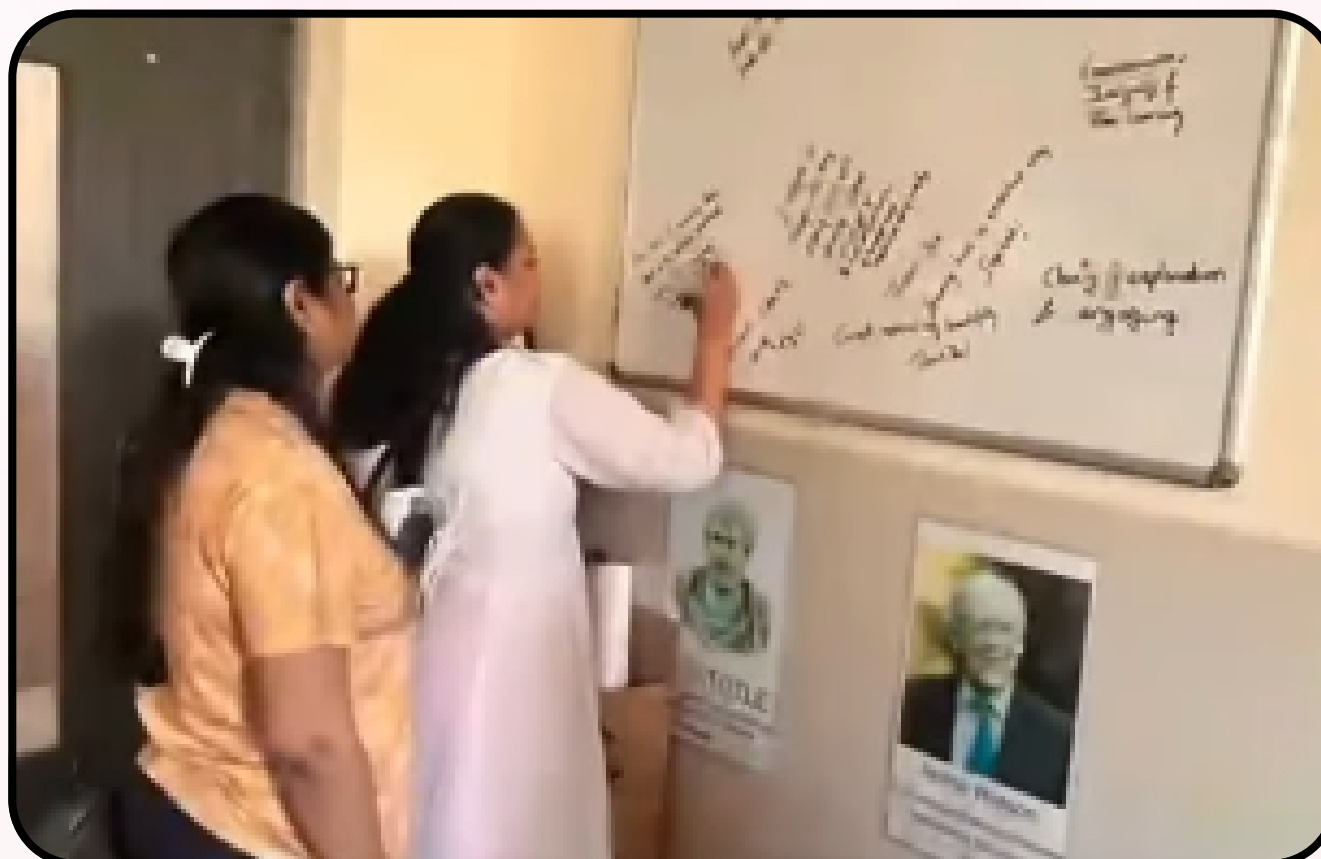

Who says Parent Orientation has to be all talks and no action? At RBHS Learning Hub 2.0, parents swapped their spectator seats for student desks and stepped into the exciting world of learning—just like their children do every day!

Designed as an immersive, hands-on experience, Learning Hub 2.0 transformed orientation into a vibrant journey across subjects. Parents participated in engaging sessions on English, Mathematics, Science, Social Studies, Languages, and more, experiencing first-hand innovative teaching practices that make learning meaningful at RBHS.

From Flipped Classroom and the VARK Learning Model to Experiential Learning, Inferential Thinking, and the Socratic Method, every activity encouraged parents to question, collaborate, create, reflect, and solve problems. Interactive challenges, discussions, and classroom simulations helped them understand how concepts are taught, how skills are nurtured, and how curiosity is transformed into confident learning.

Beyond academics, the programme strengthened the vital partnership between home and school. Parents gained a deeper appreciation of their child's daily learning experiences, while meaningful conversations with educators fostered trust, collaboration, and shared responsibility for student success.

The biggest takeaway? Learning is most powerful when it is experienced—not just explained. By the end of the sessions, our parents didn't just understand the RBHS approach—they had lived it. And judging by the smiles, enthusiastic participation, and countless "Aha!" moments, Learning Hub 2.0 was truly an orientation reimaged.

GROWING TOGETHER. LEARNING TOGETHER. THRIVING TOGETHER.

♥ RBHS Family Meet & Greet
Celebrating the Families behind Our Team

For the first time ever, RBHS celebrated not just its staff, but the families who are their constant source of strength and support. Held on 6th June, the RBHS Family Meet & Greet was a heart-warming celebration of togetherness, bringing colleagues and their loved ones together for an unforgettable day of laughter, connection, and cherished memories.

The event was filled with engaging games, joyful conversations, and moments that strengthened the bonds within the RBHS community. What made the occasion even more special was the overwhelming response—many families rearranged their schedules, and some even travelled long distances to be part of this unique gathering.

A specially curated photo-frame keepsake captured the spirit of the day, serving as a lasting reminder of the smiles, appreciation, and sense of belonging shared by everyone. More than just an event, the Family Meet & Greet reflected the RBHS belief that when families feel connected, our school community grows stronger together.

GROWING TOGETHER. LEARNING TOGETHER. THRIVING TOGETHER.

Bend It Like a Yogi! 🌞💚
Theme: "Yoga for Healthy Ageing"

Who knew one deep breath could unlock so much happiness? This International Yoga Day, the RBHS campus transformed into a space of calm minds, happy hearts, and energetic stretches as students embraced the timeless practice of yoga with enthusiasm and joy. Our Pre-Primary Tiny Yogis stole the show with adorable yoga poses, playful stretches, breathing exercises, and mindfulness activities.

Every "tree pose" wobble and every proud "Look what I can do!" moment reminded us that healthy habits can begin at any age. Across the Primary and Secondary Section, students participated in age-appropriate sessions led by Ms. Kiran D'Souza, celebrating this year's theme, "Yoga for Healthy Ageing." Grades 1 to 3 explored simple asanas, breathing techniques, and relaxation exercises that nurtured balance, focus, and emotional well-being. For the other grades, separate sessions were thoughtfully designed for girls and boys. The girls' session highlighted yoga practices supporting hormonal balance, menstrual health awareness, emotional wellness, and self-confidence, while the boys participated in an athletic yoga session focused on building strength, flexibility, coordination, endurance, and concentration.

Adding a heart-warming touch to the celebrations, grandparents joined a special yoga session, beautifully reinforcing that wellness is a lifelong journey best shared across generations.

More than just perfect poses, students discovered the importance of mindfulness, resilience, discipline, and self-care. The celebrations echoed one powerful message: healthy ageing doesn't begin when we're older—it begins with the choices we make today.

After all, the best flex isn't just touching your toes... it's growing into a happier, healthier version of yourself! 🌱✨

GROWING TOGETHER. LEARNING TOGETHER. THRIVING TOGETHER.

🌍 Mission: Save the Planet! 🌱❤️

Tiny Hands. Big Hearts. One Greener Tomorrow.

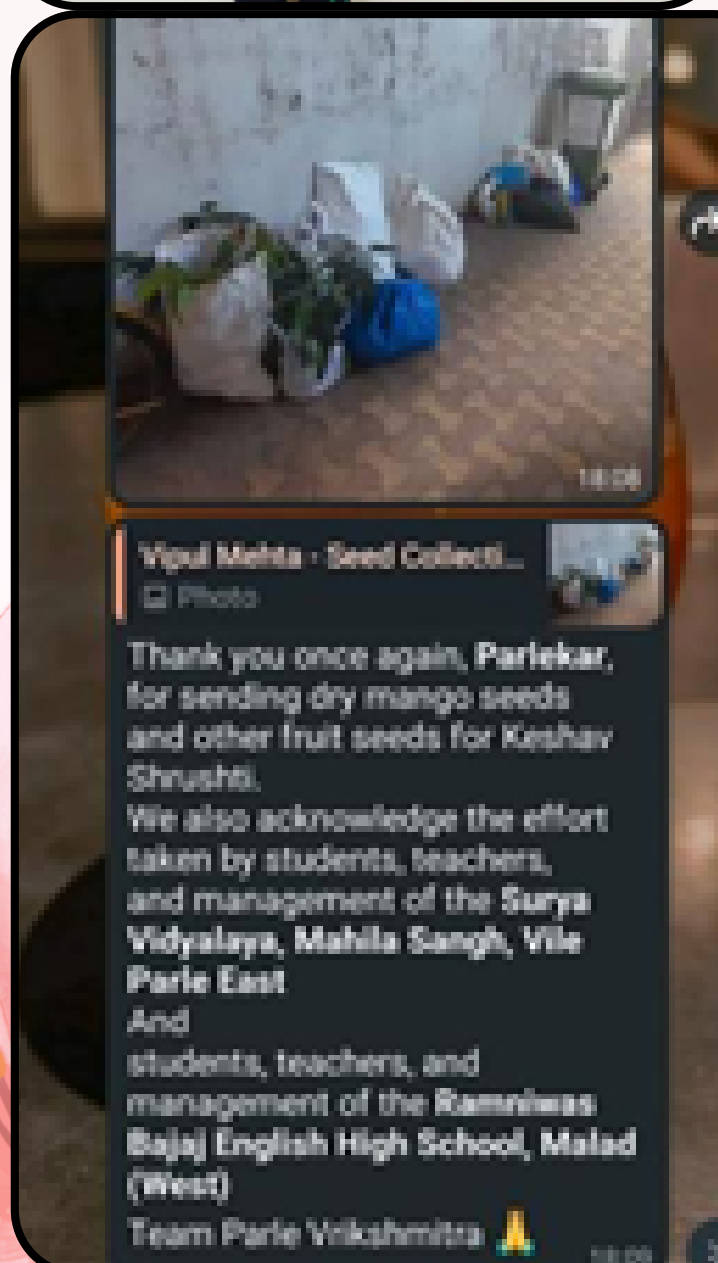

Who says superheroes wear capes? At RBHS, they carry seeds, create from waste, speak for wildlife, and pledge to protect the planet!

This World Environment Day, our students from Grades 1 to 5 transformed learning into meaningful action through hands-on, purpose-driven activities. Grade 1 nature lovers designed eco-themed headgear using natural materials, while Grade 2 artists celebrated Earth's beauty through vibrant nature collages. Grade 3 eco-creators turned everyday waste into beautiful wall hangings during the "Trash to Treasure" challenge, proving that creativity and sustainability go hand in hand.

Our Grade 4 students gave wildlife a voice through the powerful role-play "If Animals Could Talk," encouraging everyone to reflect on the effects of climate change. Grade 5 learners pledged to become Climate Warriors and explored the school's Compost Pit Initiative, discovering how small everyday actions can make a lasting difference.

Taking their commitment beyond the classroom, Secondary students participated in a Seed Collection Drive, contributing over 1,300 seeds, while 15 saplings were handed over to the Keshav Srushti Group for plantation and nurturing.

From recycling and role-play to composting and conservation, every activity carried one important message: there is no Planet B—and every child has the power to make a difference! 🌍♻️🌟

From the Little Learner's Corner

Tiny Steps, Giant Smiles! "Where every little day is a BIG adventure!"

Every day our Pre-Primary classrooms are filled with giggles, discoveries, and magical moments. From messy masterpieces and curious questions to joyful songs and imaginative play, our little learners prove that learning is most exciting when it comes wrapped in fun. Come along as we celebrate their colourful journey of wonder, creativity, and endless smiles!

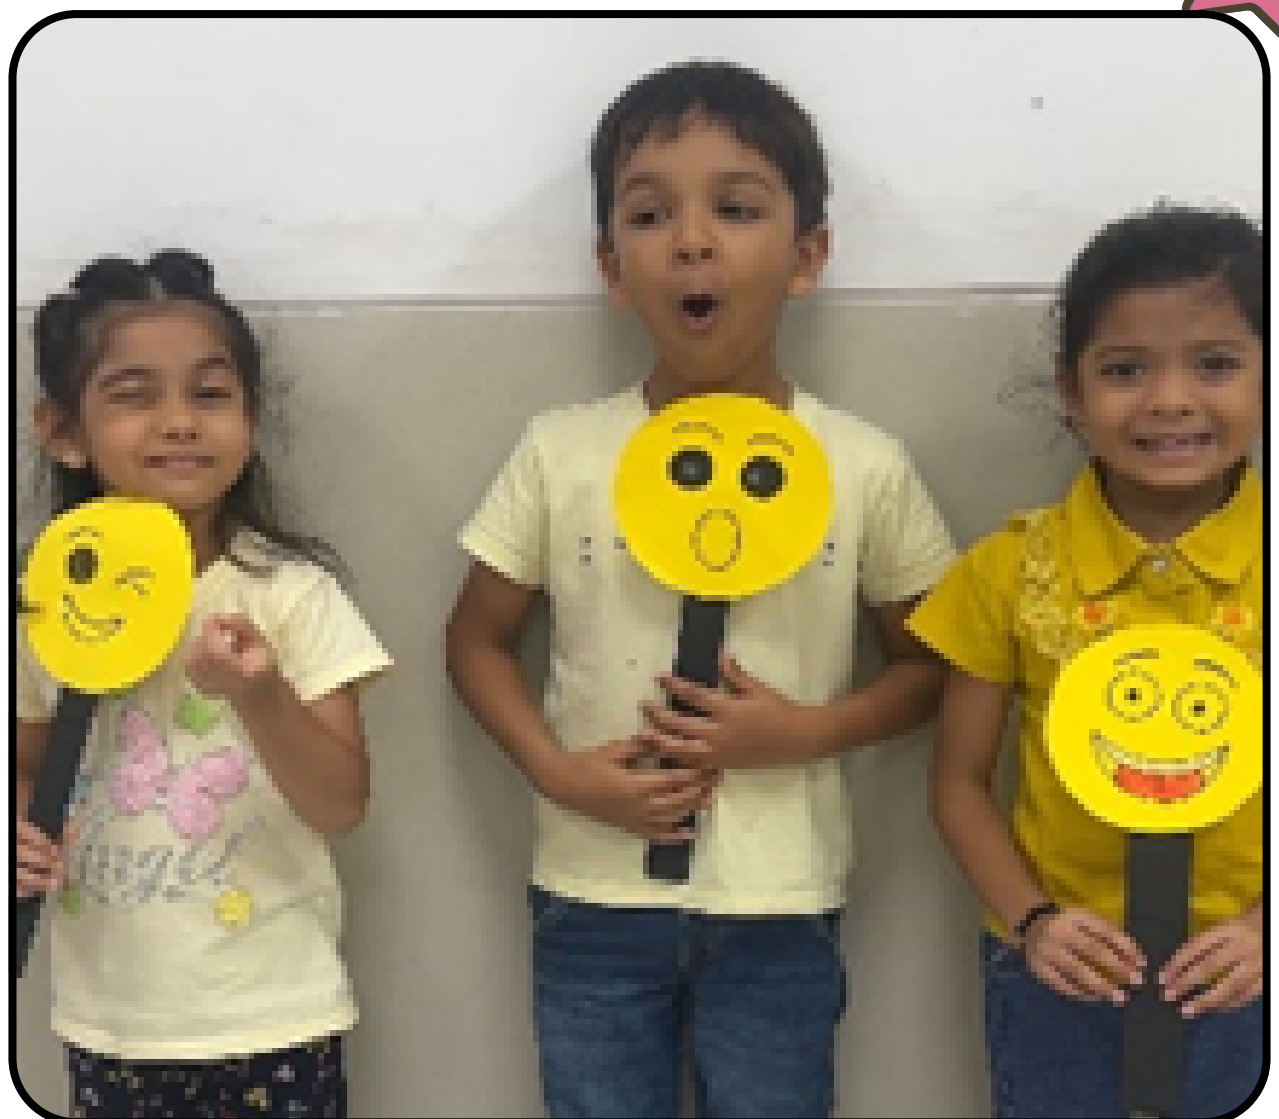

😊 **Emoji Overload: Smiles, Giggles & Good Vibes!**

Who needs words when you've got emojis? 😎✨

Our Pre-Primary superstars celebrated World Emoji Day by turning into real-life emojis! From 😂 giggles and 😮 surprised faces to 😍 heart eyes and 😴 sleepy expressions, every little learner brought their favourite emojis to life.

With fun games, cheerful songs, expressive storytelling, and lots of "Can you guess my emoji?" moments, our classrooms were buzzing with laughter and excitement. It wasn't just fun—it was a wonderful way to help our tiny tots recognise emotions, express themselves confidently, and spread happy vibes all around.

Mood of the day? 🥳💛✨ 100% smiles, 0% buffering!

From the Little Learner's Corner

🐾 Mission: Animal Rescue! 🚒 🦁

Calling all tiny heroes! 🦸 🦸 Our little rescuers jumped into action to save the trapped animals by carefully peeling away the tape—one tiny pull at a time!

While their fingers were busy on this exciting rescue mission, they were secretly building stronger fine motor skills, improving focus, and mastering hand control. The biggest win? Learning that every animal deserves love, care, and kindness. 🌱 🐘

Mission Status: ✅ Animals rescued.
Tiny Heroes: Activated. 🌟 🐾

🎨 Little Hands, BIG Masterpieces! 🖍️ ✨

Messy? Maybe. Creative? Absolutely! 🎉

Our little Picassos had a blast turning simple shapes into colourful works of art. From scribbling inside rectangles like true mini artists to creating vibrant animal prints with sponge dabbing, every splash of colour was packed with creativity, imagination, and fun! Along the way, our tiny creators were strengthening their pencil control, fine motor skills, hand-eye coordination, and pre-writing abilities—without even realising they were learning!

Proof that tiny hands can create BIG masterpieces! 🦁 🎨 🌈 🧡

PRIMARY SNAPSHOTS

Curious Minds in Action! "Where learning comes alive!"

Welcome to the vibrant world of our Primary learners—where questions spark discoveries, ideas turn into creations, and every lesson is an adventure. Whether solving challenges, exploring new concepts, or celebrating milestones, our students embrace every opportunity with enthusiasm and confidence. Here's a glimpse into their exciting journey of learning beyond the classroom!

Spin. Speak. Smile!

Back to school just got a whole lot more fun! Our Grade 2 learners kicked off the new term with an exciting "Spin the Wheel" Vocabulary Challenge, where every spin unlocked a new word adventure. From quick thinking to confident speaking, students laughed, learned, and cheered each other on while refreshing their vocabulary. The activity wasn't just an ice-breaker—it was an instant friendship booster, confidence builder, and brain warm-up.

New year, new words, same unstoppable enthusiasm! 📖 ✨ 🧠

PRIMARY SNAPSHOTS

Mystery Bag, Grammar Magic! ✨

Who knew grammar could feel like a surprise party? 🎉 Our Grade 3 learners dived into a fun-filled Mystery Bag Challenge, pulling out everyday objects and cracking the code between Common Nouns and Proper Nouns. From book to Harry Potter and pen to Parker Pen, every pick sparked excitement, laughter, and learning. The activity boosted speaking confidence, classroom participation, and grammar skills –proving that when learning is hands-on, every lesson is a winner! 📚

Puppets, Songs & Big Life Lessons! 🐜 🎵

Storytime got a major glow-up in Grade 2! Colourful sock puppets brought The Ant and the Grasshopper to life, while catchy songs had everyone singing along. Between giggles and cheers, students discovered that hard work, responsibility, and planning ahead are real-life superpowers. Learning has never been this fun!

Changes Around Us (Grade 3) ✨

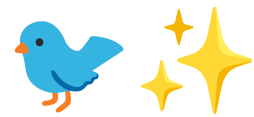

Grow-up alert! ✨ As part of the Social Studies topic Changes Around Us, our Grade 3 explorers took a fun walk around RBHS to spot exciting transformations.

From freshly painted walls and a fabulous Pre-Primary makeover to welcoming new teachers, a librarian, and many new friends, there was so much to discover! The students loved seeing how positive changes make our school brighter, happier, and even more awesome. New vibes, big smiles, and lots of learning ahead! 💙

PRIMARY SNAPSHOTS

Bird Brains in Action!

Our Grade 3 bird detectives flocked together for a tweet-tastic Science activity! Students showcased rare birds, dropped cool bird facts, and explored how nests are cleverly built to keep little chicks safe. From feathered discoveries to confident presentations, curiosity truly took flight. Nature class? Absolutely a 10/10 experience!

Math in Motion: Big Numbers, Bigger Energy!

1 2
3 4

Ready, set, calculate! Grade 5 turned Maths into a high-energy relay where every second counted. Racing with digit cards, teams built the greatest and smallest numbers using speed, strategy, and teamwork. It was brains plus action all the way—because when Maths gets moving, learning becomes epic, exciting, and unforgettable!

Fast & Focused: Rounding Like Pros!

1 2
3 4

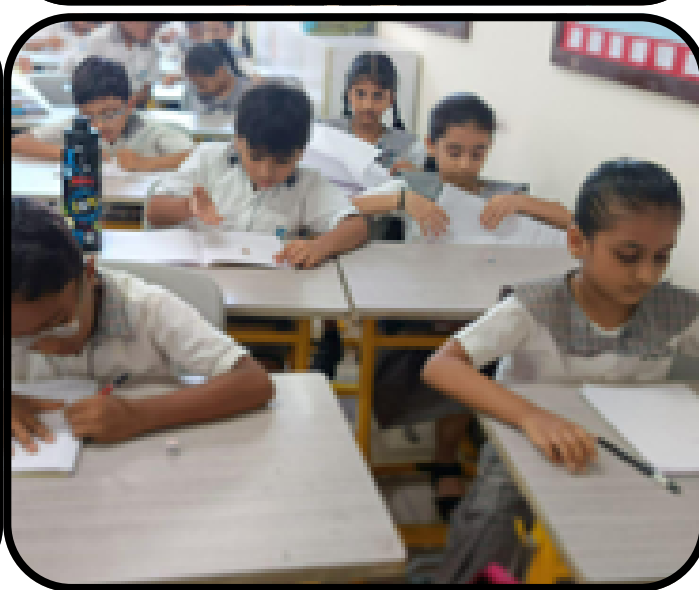

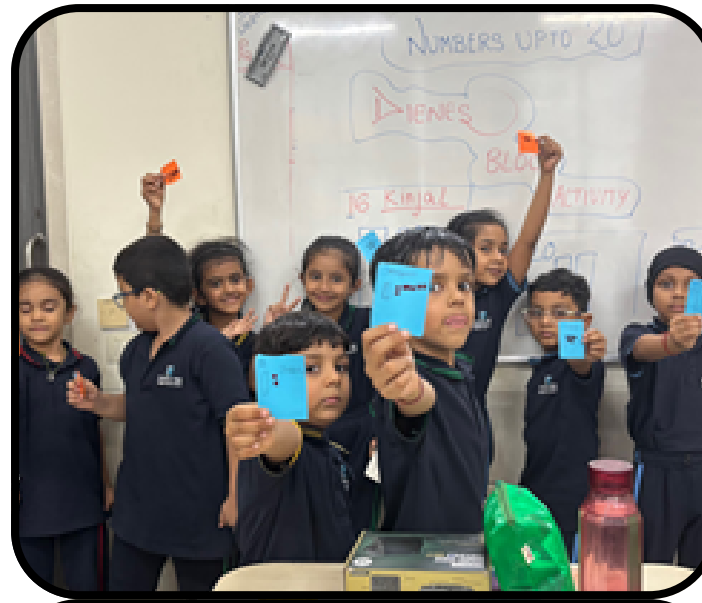

Arrow cards = Maths magic! ✨ Grade 5 students built giant numbers, cracked place value, and rounded like absolute champs. With quick thinking, teamwork, and plenty of “Aha!” moments, they proved that big numbers aren’t scary—they’re just another fun challenge waiting to be conquered. Brainpower unlocked! 🚀

PRIMARY SNAPSHOTS

Tiny Hands, Big Number Power!

Grade 1 mathematicians got busy building, counting, and discovering with Dienes blocks! As tens and ones clicked into place, place value became crystal clear. Every block stacked confidence, curiosity, and smiles—proving that when little hands get moving, big learning happens. Maths fun? Absolutely unlocked! 🚀

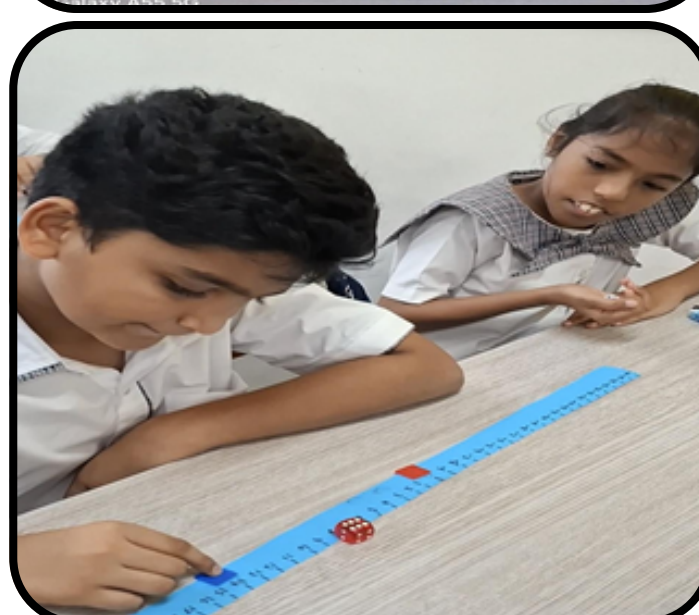

Math Mania: Numbers on the Move!

Grade 3 turned Maths into the ultimate game zone! From lining up with number chits to cracking Roman numerals through a dice challenge, every activity was packed with teamwork, quick thinking, and "I got it!" moments. Learning numbers became fun, interactive, and totally next level—Maths for the win! 🚀

Negative Numbers? No Problem!

Grade 5 students took a fun trip along a giant paper number line to master negative numbers! With every dice roll, they moved forward, backward, and levelled up their addition and subtraction skills. Learning felt like a game, and tricky numbers quickly turned into easy wins. Maths = unlocked! 🚀

SECONDARY SCOOP

Future Ready! Dream..... Discover..... Do.

Our Secondary students are preparing for a future filled with possibilities. Through leadership opportunities, academic excellence, creative pursuits, sports, innovation, and community engagement, they continue to challenge themselves and grow into confident, responsible individuals. Step into a world where passion meets purpose and every experience shapes tomorrow's leaders.

Mic Drop Moments: Inter-House Debate Showdown 🎤 🔥

Grades 9 and 10 brought the heat at the Inter-House Debate

Competition! From influencer culture to the meaning of success, students tackled bold topics with sharp logic, powerful arguments, and confident delivery. Every speech was a battle of brains, proving that great ideas—and great speakers—always steal the spotlight.

Silence Spoke Volumes! 🗣️ 🌍

Actions were louder than words at the Grade 9 & 10 Mood and Mime Competition! Without saying a single line, students delivered powerful messages on pollution, deforestation, and climate change. Their expressive performances proved that creativity can spark change—and that protecting our planet is everyone's responsibility. No dialogue, just impact!

Future Diplomats, Assemble! 🌐 🎤

RBHS students got a sneak peek into the world of I.I.M.U.N. Championship Conference 2026 during an exciting orientation by Ms.Stuti Tak. From committees and diplomacy to leadership and networking, students discovered how their voices can create impact. Big ideas, bold discussions, and future changemakers in action!

Hall of Fame

"Celebrating excellence, one achievement at a time!"

Every achievement tells a story of dedication, perseverance, and passion. Whether in academics, sports, performing arts, leadership, or community service, our students continue to inspire us by reaching new milestones and making RBHS proud. Join us in applauding their remarkable accomplishments!

Math Mode: Activated! ✨

"When numbers become superpowers!"
A huge round of applause for Niara Rajesh Pujari of Class 5(Class 4 – AY 2025–26) for her outstanding performance in the International Maths Olympiad (IMO) 2025–26, conducted by the Indian Talent Olympiad. Scoring an A+ Grade in Round 1 and securing an impressive State Rank 31 in Round 2, Niara earned the Certificate of Merit – Best Performer, Maharashtra State. Her dedication, logical thinking, and love for mathematics have truly added up to success. Keep solving, keep shining, and keep making RBHS proud! 🎉📐✨

🦋 Grace in Every Step! ✨ "Talent takes the stage!"

A standing ovation for Niara Rajesh Pujari (5B) for securing 2nd Position in the Bharatanatyam – Junior Category at ANTARANGA UTSAV 2026, a National Dance Competition organised by the All India Dancer's Association in association with Abhibhava Art Academy, Mumbai, and supported by the Ministry of Culture, Government of India. Her dedication, discipline, and graceful performance beautifully showcased the spirit of classical dance. Congratulations, Niara! Keep dancing, keep dazzling, and keep making RBHS proud! ✨

🌍 Global Rank. Global Bragging Rights! 🏆 ✨ "When numbers meet next-level brilliance!"

A massive shout-out to Banaj Bansal for securing an incredible Global Rank 2 in the Final Round of the International Math Challenge 2025–26! ✨ Banaj's exceptional problem-solving skills, dedication, and perseverance have earned him a place among the world's best young mathematicians. We are immensely proud of this outstanding achievement. Congratulations, Banaj—keep crunching numbers, chasing dreams, and making RBHS shine on the global stage! 🎉📐

Learning Never Stops

"Growing together through new experiences."

At RBHS, learning extends far beyond the classroom. Through enriching workshops for students, teachers, and parents, our community continues to explore fresh ideas, develop essential skills, and embrace lifelong learning. Here's a look at the inspiring sessions that empowered us this month.

💛 **Every Behaviour Tells a Story**

"See more. Understand more. Support better."

Facilitator: Ms. Parishii Jain, School
Counsellor | Date: 2 June

Sometimes, the smallest changes speak the loudest. In an insightful workshop, Ms. Parishii Jain, our school counsellor, guided teachers on recognising the early signs and symptoms of students' emotional, behavioural, and learning-related concerns.

Through relatable case scenarios, interactive discussions, and real-life classroom examples, teachers explored how subtle changes in behaviour, emotions, participation, and academic performance can provide valuable insights into a child's well-being. The session emphasised the importance of observing with empathy, listening without judgement, and responding with timely support.

Teachers also discussed practical strategies for effective communication, early intervention, and building trusting relationships with students. The workshop reinforced that every child deserves to feel seen, heard, and understood. By strengthening awareness and observation skills, educators are better equipped to create safe, inclusive, and nurturing classrooms where every learner has the opportunity to grow, thrive, and succeed.

Learning Never Stops

🌍 From Vacation to
Classroom! 📸 ✨

**"Every journey is a lesson
waiting to happen."**

Facilitator: Ms. Florina Fernandes, Principal | Date: 2 June

What if a holiday could become the best classroom? Our Principal, Ms. Florina Fernandes, proved exactly that in an inspiring workshop on Experiential Learning. Using photographs from her recent trip to Shimla, she demonstrated how everyday experiences can be transformed into rich, meaningful learning opportunities.

Teachers became active learners as they observed photographs, analysed details, responded to thought-provoking questions, and connected their observations to concepts in Social Studies, including geography, culture, clothing, agriculture, houses, transportation, seeds, plants, and human interactions. The interactive discussions encouraged curiosity, observation, critical thinking, and collaborative learning.

The workshop reinforced that powerful learning extends beyond textbooks and classrooms. Participants gained practical strategies to design engaging lessons rooted in real-life experiences, making learning more relevant, inquiry-driven, and memorable. The session inspired educators to help students explore the world with curious minds, thoughtful questions, and the confidence to connect classroom concepts with everyday life.

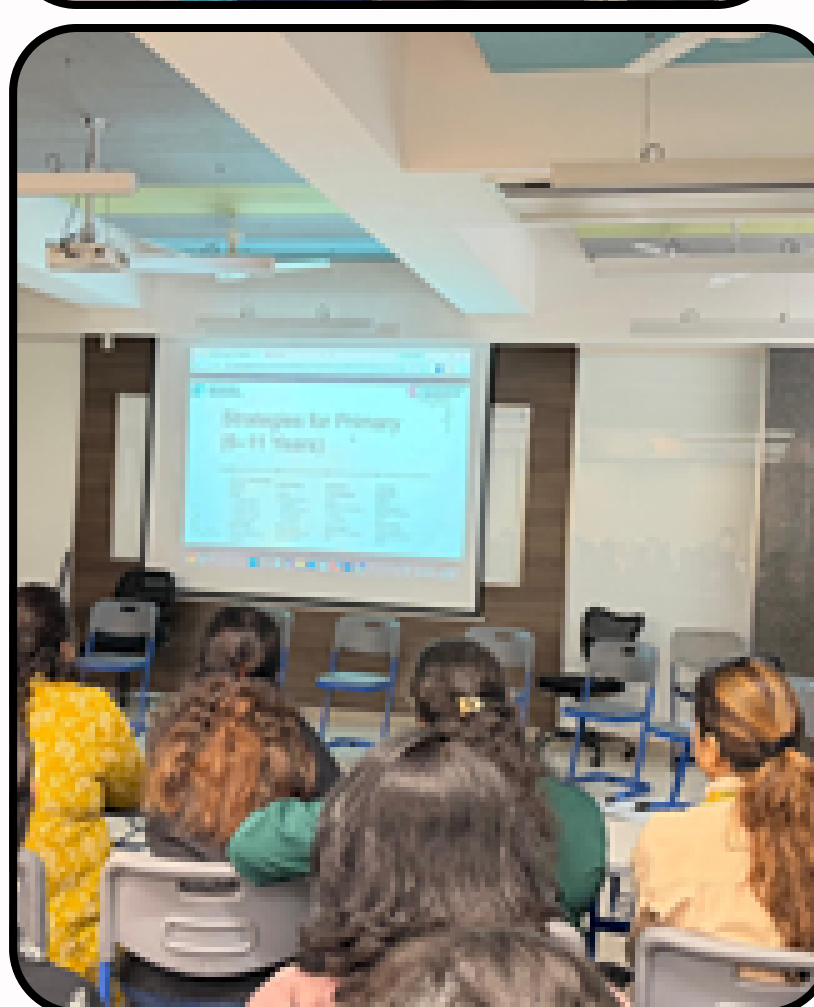

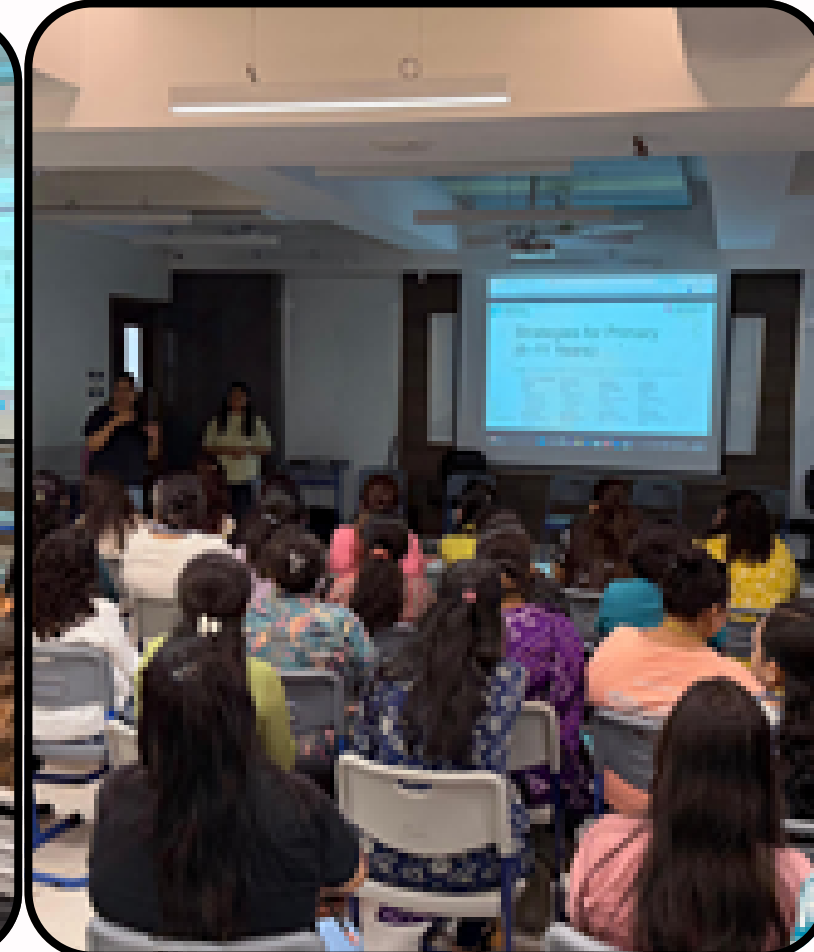

Pause. Think. Respond. ❤️

**"Because every reaction
shapes a relationship."**

Facilitator: Ms. Parish Jain, School Counsellor |
Date: 3 June

What if one mindful pause could change a student's day? In this thought-provoking session, Ms. Parish Jain guided teachers through real-life school scenarios, encouraging them to reflect, discuss, and choose responses rooted in empathy rather than impulse. Using interactive case studies and collaborative discussions, participants explored practical ways to understand students' emotions, manage challenging situations, and build stronger teacher-student relationships. The workshop reinforced that every behaviour has a reason and every response has an impact. Teachers left with valuable strategies to foster emotionally safe, positive, and supportive classrooms—proving that sometimes, the most powerful classroom tool isn't a lesson plan... it's a mindful response. 🌱

Learning Never Stops

Effective STEAM Methodology & Designing Impactful STEM Tasks

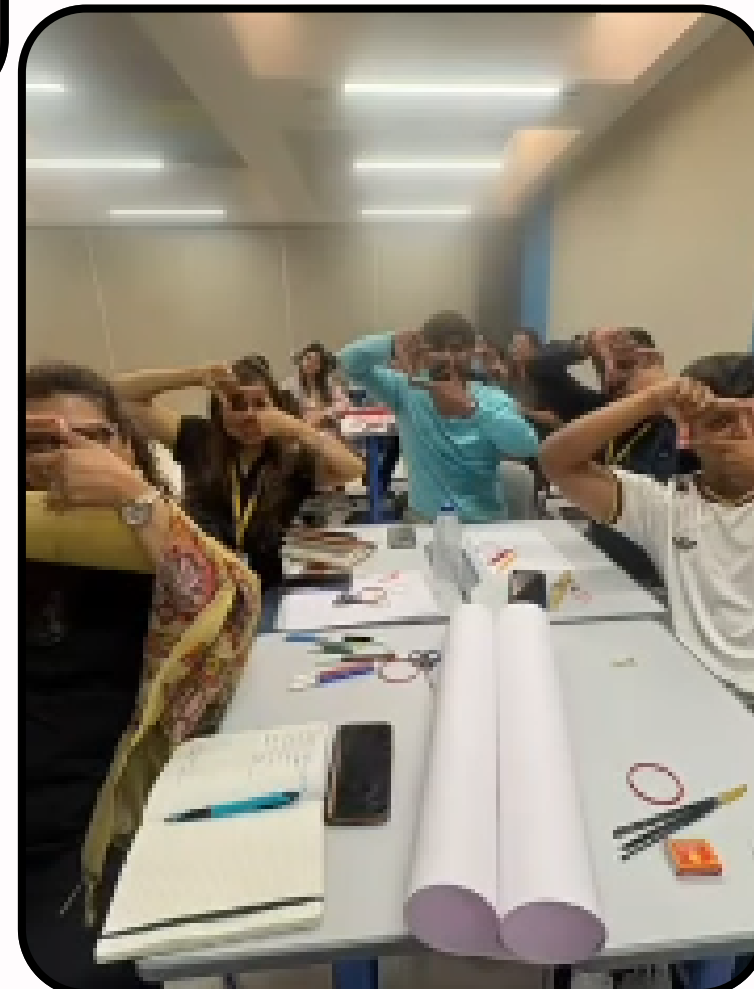

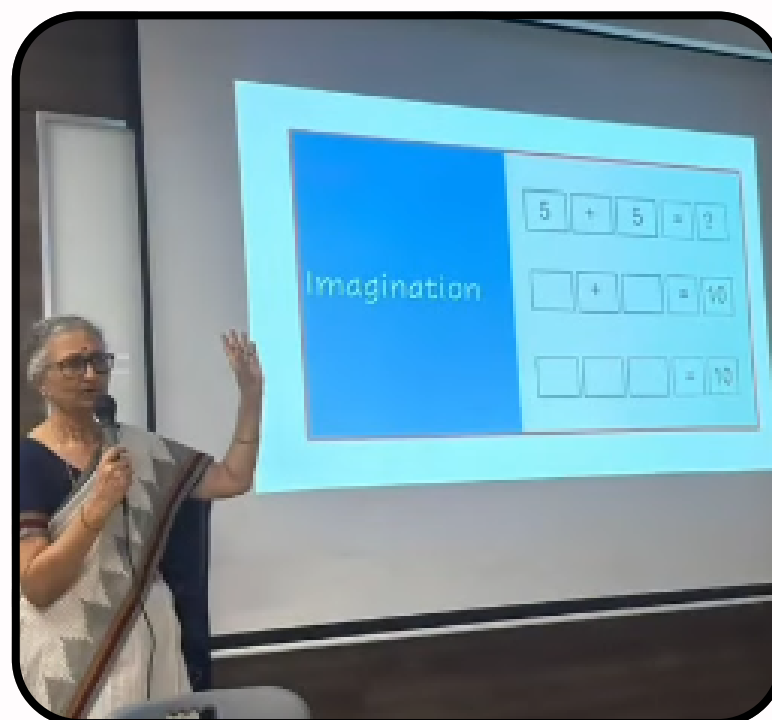

Facilitator: Ms. Pragya Nopany Date: 5 June 💡

STEM Mode: ON! 🚀

"Think. Tinker. Transform."

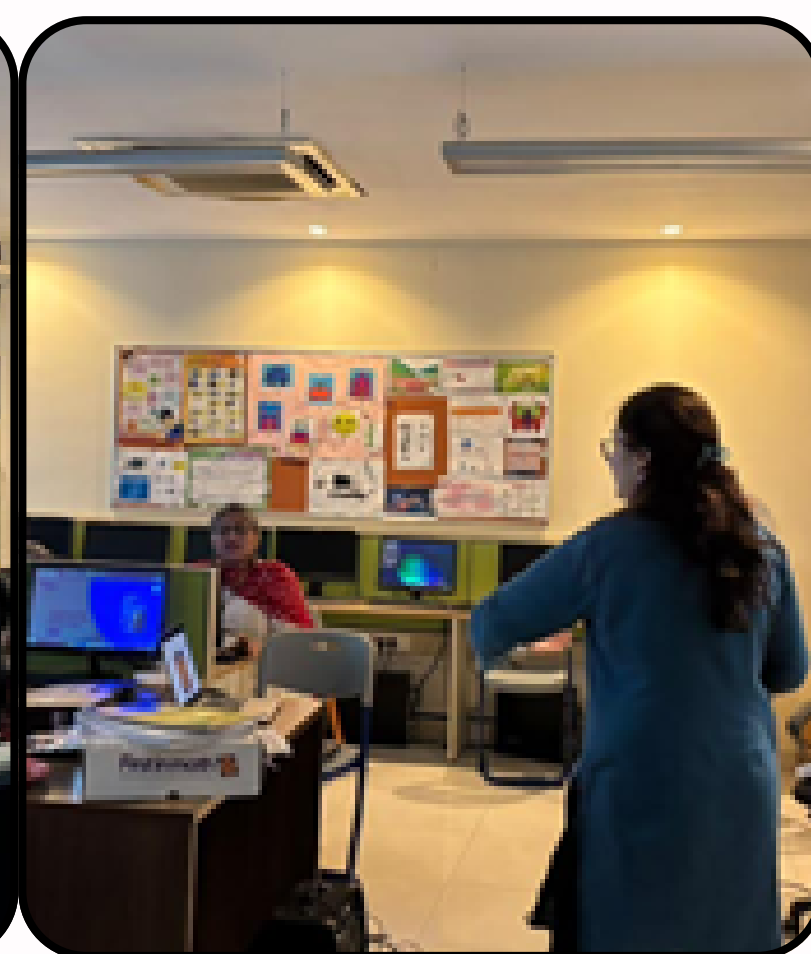

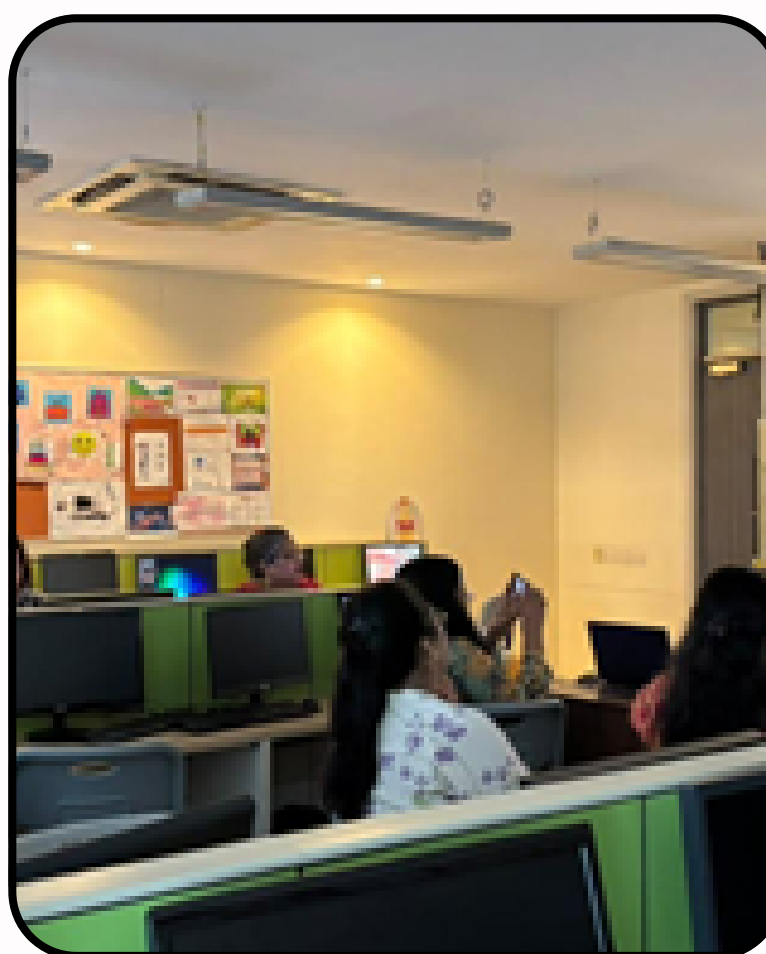

Who knew newspapers, everyday objects, and a simple circle could unlock so much creativity? Our teachers certainly did during an action-packed workshop led by Ms. Pragya Nopany—an acclaimed educator and recipient of the National Award for Teachers (2017), conferred by the Government of India by the Hon'ble Vice President of India. She is also the recipient of the State Award for Teachers (2016) by the Directorate of Education, Delhi, the Prof. H. S. Hans Birth Centenary Silver Medal (2024) by the Indian Association of Physics Teachers, the Lifetime Achievement Award (2018), the Honour Roll Award from the Association of Science & Technology Centres, Washington DC, and the Best Teacher Guide Award at the Eastern India Science Fair. The workshop challenged teachers to think beyond textbooks through exciting STEAM activities such as constructing perfect circles without measuring tools, designing sturdy newspaper containers, and representing temperature data using everyday materials. These hands-on tasks encouraged creativity, collaboration, critical thinking, and innovative problem-solving.

Participants explored strategies for designing open-ended STEM experiences that promote inquiry, experimentation, and real-world application across disciplines. Packed with practical classroom ideas, the workshop reinforced a powerful message: meaningful learning happens when students question, explore, create, and discover. Teachers left inspired to transform their classrooms into spaces where curiosity thrives and innovation becomes a way of learning.

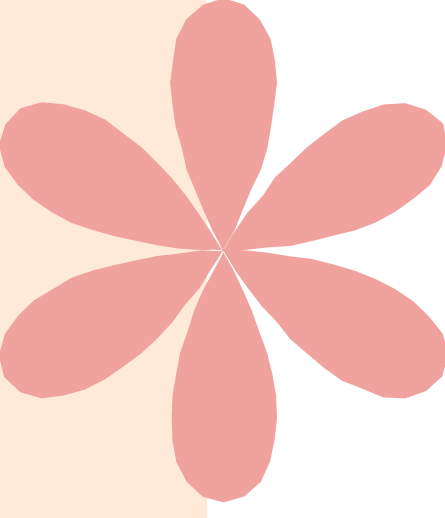

Level Up with First In Math!

On 24th June, Ms Samriddhi Thakur conducted an insightful workshop on the First In Math (FIM) program. Teachers explored platform navigation, student progress tracking, personalised assignments, and skill-based learning modules. The session equipped educators with practical strategies to make mathematics more engaging, interactive, and tailored to every learner's needs
