Dear Reader,

Education is the most vital and valuable asset that we can provide to our children. Dr. S. Radhakrishnan said – "Civilization cannot be built with cement, sand or bricks, it has to come out from the minds of the people and the best tool is education." It raises the socio-economic status of an individual and helps a person to pursue desired branch of study that will turn him / her into a competent individual capable to contribute significantly to the society and nation and also lead a good quality of life. Therefore, we at Rajasthan Sammelan Education Trust have embarked on the journey of providing education all the way from play school to schools, colleges, management institutes, media college to online education. Rajasthan Sammelan Education Trust (RSET) has been a symbol of quality education accessible by students hailing from different social and economic strata in Mumbai for the past 76 years. Our institutions have upheld high standard of academic delivery to the students while being adaptive to the dynamic educational economic system of our country. Teaching faculty in all the institutions run by the Trust are competent and well qualified. Their experience and expertise is considered as the real asset for the respective institutions. Opportunity is given to the staff to constantly upgrade their teaching skills. Message from Chief Mentor (Schools)

Dear Reader,

The last quarter has been an inspiring and transformative period for the Rajasthan Sammelan Education Trust (RSET), marked by a remarkable initiative that brought together the full strength of our educational ecosystem like never before.

For the first time in the history of RSET, a comprehensive and inclusive educational fair was conceptualized and executed to unite all the institutes under one umbrella on a single platform.

This landmark event, titled TRIGON, was designed to foster engagement between three pivotal stakeholders in a student's academic journey—the parent, the student, and the institute. Just like a triangle, each point is crucial, and together, they form a strong and supportive foundation for the learner's success.

The vision behind TRIGON was not only to showcase the diverse courses and programs offered across RSET's institutions but also to celebrate the collective strength, values, and commitment we share at RSET. It served as a platform that gave students and parents a rare opportunity to witness the full spectrum of education—right from Playschool programs Postgraduate offerings—under one roof.

Held over two days, TRIGON welcomed more than 2,000 students and parents, making it one of the most well-attended events in recent memory. The event featured 21 breakout rooms, each curated to offer seminars, talks, and workshops by some of the most distinguished speakers and educators across various disciplines.

The wide array of sessions covered areas such as Artificial Intelligence, education innovation, sports development, media and communication, health and wellness, performing arts, entrepreneurship, and more. These talks were not only informative but also deeply thought-provoking, aiming to broaden perspectives and inspire future career aspirations.

We were deeply honored to welcome thought leaders, domain experts, and educationists from across Mumbai, who graciously shared their time and insights. Their presence and contributions elevated the event to a higher level and affirmed the value of dialogue, mentorship, and thought exchange in shaping educational futures.

Equally important was the sense of pride and belonging that TRIGON instilled in the RSET community. Students from across our schools and colleges had the chance to understand the wide academic landscape that lies ahead of them, while parents gained clarity and confidence in the quality and variety of education offered within our own educational trust. In many ways, TRIGON served as a living, breathing testament to RSET's mission of holistic, lifelong learning.

The overwhelming response and the positive feedback from all corners of the community have encouraged us to declare TRIGON as an annual

Archita Saraf Rajpuria, Trustee, RSET

flagship event for RSET. It will now be a recurring fixture on our calendar, evolving year after year with newer themes, richer content, and wider participation.

This quarter, through TRIGON, we have witnessed not just the power of planning and execution, but the magic that unfolds when unity meets purpose. We have learned that our institutions are not isolated but rather interlinked pathways within a powerful system committed to one singular vision—"Educate One and All."

As we step into the next quarter, we carry with us a renewed sense of collaboration and optimism. I take this opportunity to thank all the heads of institutes, faculty members, administrative teams, students, and volunteers who poured their heart and effort into making TRIGON a grand success. Your dedication reflects the very ethos of RSET—resilience, commitment, and a deep-seated passion for education.

Let TRIGON not just be remembered as a successful event but as the beginning of a new culture of collaboration and cross-learning across all our institutes. May it inspire us to continue reimagining what we can do when we come together—because when we do, the possibilities are truly limitless.

pays the best interest.**

Dear Reader

Months of January to March, 2025 witnessed noteworthy events in the national and international arena. Our country witnessed Mahakumbh Mela, the largest and significant spiritual gathering which drew millions of devotees in Prayagraj (formally known as Allahabad). In Uttar Pradesh from January 13th to February 26th, 2025 this event celebrated in every 144 years, was the largest peaceful gathering in the world, drawing millions of devotees who came here to purify themselves by bathing in the holy waters of the Sangam, where the Ganga, Yamuna and Saraswati rivers converge. Addressing at the Lok Sabha, Hon'ble Prime Minister Narendra Modi said that 'the event represented a Maha Yagya of Unity'.

It was not only a congregation of devotees. People from all walks of life including celebrities from Bollywood also participated in the Mahakumbh. Several prominent national and international universities including Harvard, Stanford, the London School of Economics, Bill & Melinda Gates Foundation & Kyoto University sent researchers to the Mahakumbh Mela to study various aspects of the event that focused on areas like event management, logistics, cultural impact and the 'Pop-up Mega City' that emerged during the festival. Additionally institutes like AIIMS, IIMS (Ahmedabad, Bangalore) & ITTs (Kanpur & Madras) also participated in the research efforts. Among RSET institutions, Trimester III students of PGDM Batch (2024-2026) of Durgadevi Saraf Global Business School conducted on 15th February under the Project Management Subject 'the Mahakumbh Mela 3D Model project'. This initiative aimed to apply Project Management Principles to simulate real-world planning, execution and co-ordination required for such a mega event of 'Mahakumbh' in Prayagraj.

On Sunday 12th January, 2025 Swami Vivekananda's birth anniversary was celebrated as National Youth Day in our country. Amongst RSET institutions, students of Grades 9 & AS Levels of Mainadevi Bajaj International School participated in celebrating National Youth day. General Anil Chouhan, the Second Chief of Defense Staff of India was invited who shared leadership lessons from the forces and the role of youth in nation building. We also celebrated Parakram Diwas on 23rd January to mark the 128th Birth Anniversary of prominent Indian freedom fighter Netaji Subhash Chandra Bose. International Women's Day was also celebrated on 8th March 2025. Indeed Indian women have demonstrated their abilities everywhere. From Science to Literature, Sports to Space, Judiciary to Politics, Indian women have made history through their stellar achievements.

Dr. Sunanda Kar, Editor

At the international front, Astronauts Sunita Williams and Butch Wilmore returned to earth on 18th March, 2025 after an extended nine month mission aboard the International Space Station (ISS). The mission was originally scheduled for a week, but complications with Boeings Starliner Crew Capsule lead to a significant delay. They safely returned to Earth via a Space Dragon Capsule which splashed down in the Gulf of Mexico off the Coast of Florida.

In RSET campus, our schools, colleges and management institutes have been busy with many academic, extra-curricular and sports activities. All the institutions celebrated Annual Day with great fanfare at Pravinchandra D. Shah Sports Academy ground in the month of January, 2025. A grand freeship & scholarship award ceremony was also organized during Annual Day celebrations on 19th January, 2025 in which freeships and merit scholarships were awarded to selected students of all institutions of RSET. Republic Day was celebrated in RSET campus with Smt. Sharda Bubna, Trustee, RSET, as the Chief Guest on 26th January, 2025. Institutes of higher education organized many national and international seminars and conferences. The NSS and DLLE units & Rotaract Clubs of Colleges conducted many outreach programmes.

During this time, we lost Late Shri Mahavirprasadji Saraf, the great philanthropist, Main Donor & Trustee of RSET who left for heavenly abode on 11th March, 2025. He was the person who showed the light of higher education to the girls of conservative families along with other like-minded people in RSET by giving large donation to start Ghanshyamdas Saraf Girls College of Arts & Commerce (now a co-education college) way back in 1983..

The Maharashtra Education Department has introduced the School Quality Assessment and Accreditation Framework (SQAAC) in all schools and junior colleges, as mandated by the National Education Policy (NEP) 2020. Durgadevi Saraf junior College has successfully completed the SQAAC process with an outstanding score of 464 out of 468 i.e. 99% and uploaded the necessary documents on the SCERT website.

Under NEP 2020, Kudilal Govindram Seksaria Sarvodaya School (KGSS) also successfully registered for the School Quality Assessment and Assurance Framework (SQAAC) and met all required standards, reaffirming their commitment to academic excellence. KGSS got 410 out of 468 marks. We are proud to state that KGSS has been ranked 3rd out of 179 schools at the district level for "MAAJHI SHAALA SUNDAR SHAALA" —a remarkable achievement that reflects the dedication of the students, teachers, and staff of the school.

All institutions of RSET are marching onwards to become an academic centre committed to excellence and learning, dedicated to create a community of well educated, globally exposed citizens. All our institutions aim to discover and develop the potential within their students and thereby enable them to break boundaries and achieve excellence with confidence.

Growel Science Lab
At KGSS

Dear Reader,

It is indeed a great pleasure for me to note that, as the year unfolded with the soft promise of new beginnings, Growel's Science Lab blossomed into a vibrant hub of scientific wonder. From January to March 2025, the lab became a stage where young minds from Grade V to X explored, experimented, and evolved – each day echoing with the sounds of discovery and delight.

For the budding scientists of Grades V to IX, this term was a journey through hands-on learning and joyful exploration. Whether it was observing the magic of chemical reactions, understanding the principles of motion, or peering through microscopes at the mysteries of life, these students approached every activity with sparkling curiosity and wide-eyed enthusiasm.

I am happy to note that students of Kudilal Govindram Seksaria English School (KGES) also shared Growel's Science Lab throughout the year, along with students of Kudilal Govindram Seksaria Sarvodaya School (KGSS).

The month of January carried a special air of focus and determination for the students of Standard X. As they prepared for their board examinations in February, the lab transformed into a realm of rigorous revision and refined technique. Practice practical exams were conducted with precision and care by Standard X students from both schools (KGSS & KGES), giving them the confidence and clarity needed for the road ahead.

National Science Day is celebrated every year on 28th February to commemorate the discovery of the Raman Effect, which led to Sir C.V. Raman, the renowned scientist, receiving the Nobel Prize. On 28th February, National Science Day was celebrated in the Science Lab by the students of KGSS and KGES. Dr. Sunanda Kar, Educational Director of RSET, visited the science exhibition organized by students from KGSS.

I convey my best wishes to everyone associated with Rajasthan Sammelan Education Trust.

UNLEASH YOUR POTENTIAL

Ramniwas Bajaj English High School - STORIES THAT SHAPE US

The Annual Day celebration at RBHS was a spectacular tribute to the timeless art of storytelling, held under the theme "Stories That Shape Us." The event brought together students from all sections—Pre-Primary to Secondary—in a vibrant display of talent and imagination. Through music, drama, dance, and more, our young performers breathed life into stories that have shaped human thought and culture across generations.

As the sun set, the celebrations began with a stunning performance of "Panch Parmeshwar" by our Secondary Section students. This powerful tale of justice and moral integrity showcased the depth of our students' acting abilities and stagecraft some of which they had developed during their masterclass with acclaimed theatre artist Mr. Ravi Mahashabde.

Their nuanced portrayal of values such as fairness and responsibility resonated deeply with the audience.

The spotlight then turned to the Primary Section, who enchanted the audience with a musical adaptation of "The Wizard of Oz." With vibrant costumes, imaginative props, and heart-warming performances, the children took everyone on a whimsical journey of self-discovery and friendship. The school choir's renditions of "Somewhere over the Rainbow" and "If I Only Had a Brain" added a melodic charm that lingered long after the performance ended.

We were deeply honoured by the presence of our Chief Guest, Dr. Alka Mandke, a pioneering Cardiac Anaesthesiologist and recipient of the prestigious Maharashtra Bhushan Award. With over five decades of service in medicine, her words inspired all with their message of service, perseverance, and giving back to society.

Our Guest of Honour, Mr. Shivam Bajaj, founder of Avener Capital, also addressed the gathering. With extensive experience in global finance and entrepreneurship, he urged students to pursue excellence fearlessly and innovate with passion. Among the evening's most talked-about moments was the incredible blindfolded performance by Grade 5 student, Nivaan Gala demonstrating the power of focus and mental discipline. Nivaan's act left the audience in awe and earned him a standing ovation. Adding musical magic to the evening was a mesmerizing tabla performance by Dheer Bajaj which served as a perfect bridge between the dramatic and musical showcases of the evening.

The event also marked the launch of "Sampada – Heritage on a Plate," a unique recipe book created by our Grade 2 students. This initiative revives forgotten family recipes and culinary traditions, guided by their teachers and enriched with love. The cover, beautifully illustrated by

Nylavi Jambe of Grade 4, added a personal and artistic flair. Celebrated chef Aahana Gaur from Westin Goregaon unveiled the book and praised the young chefs for their creative efforts.

The Prize Distribution Ceremony was a proud celebration of excellence, where academic toppers, sports champions, and Trailblazer Award winners were felicitated. A special tribute was paid to staff members who have served the institution with over a decade of unwavering dedication, highlighting the vital role they play in shaping a vibrant learning community.

As the evening drew to a close, students from across sections returned to the stage for a dazzling grand finale. Characters from The Wizard of Oz, and Panch Parmeshwar came together in a joyous curtain call, symbolizing the unity of

purpose and the enduring power of storytelling. The auditorium erupted in applause, a fitting end to an unforgettable celebration.

The celebrations culminated over the weekend with a heart-warming presentation by our Pre-Primary students, who captivated the audience with their delightful adaptation of "The Lion King." From the moment the curtains rose, the stage was transformed into a colourful African savanna. Dressed as lions, meerkats, and birds, our little stars shared the journey of Simba from a playful cub to a noble king-delivering meaningful messages of courage, friendship, and responsibility. The Secondary choir's joyful rendition of "Hakuna Matata" had everyone smiling and tapping along.

A special highlight was the unveiling of the new

Pre-Primary mascot, Olly the Owl, representing wisdom, curiosity, and the joy of learning. Olly was warmly welcomed by children, parents, and staff alike. The event was further graced by Ms. Gayatri Rawal, renowned Gujarati stage actress, and Mrs. Deepa Bajaj, trustee and author, whose words of encouragement added warmth and inspiration to the morning.

Annual Day 2025 was more than just a showcase of talent-it was a moving reminder of the stories that connect us all. From the innocence of our youngest learners to the wisdom of time-honoured tales, the event celebrated the values, dreams, and imagination that shape not only individuals, but entire generations.

GIVING WINGS TO YOUR DREAMS

Mainadevi Bajaj International School
- KAINOS – Celebrate the CHANGE Within You!

The academic year 2024–25 marked a significant milestone at MBIS, as we concluded our inspiring Trilogy of Celebrations. After encouraging our learners to 'Celebrate the Child Within You' in the AY 2022–23 and to 'Celebrate the Glow Within You' in the AY 2023–24, this year's theme- 'Celebrate the CHANGE Within You'– focussed on embracing growth, transformation and new beginnings. Our Annual Day event, KAINOS, beautifully captured the essence of this journey through a vibrant showcase of music, dance and drama.

Our Annual Day celebrations was a spectacular showcase of talent, vision and transformation. The event began with a warm welcome to our esteemed Chief Guest, Ms. Kavita Kerawalla, Vice Chairperson, VIBGYOR Group of Schools, Guest of Honour, Shri Vinodkumar Bajaj, along with

President Shri Ashok Saraf, Hon. Treasurer Shri Lalit Saraf and Trustee, Ms. Archita Saraf Rajpuria.

The show opened with a charming stage setting, where a grandmother narrated a story to her grandchildren. This frame introduced the central idea of the program: the invaluable lessons humans can learn from the animal and bird kingdoms. This narrative guided the audience through each segment of the performance. Students from Nursery, Junior Kindergarten, and Senior Kindergarten set the tone with a lively Celebration Dance in the Forest. Dressed as a variety of birds and animals, they created an enchanting visual that brought the forest to life and established the atmosphere of joy and harmony

Students of Grades 1 and 2 followed with a Welcome Dance in honour of two fictional forest rulers – King KAA (Birds) and King Samarkand (Animals). These performances set the stage for

the central conflict: a baby toucan, born to King KAA, is cursed by the ravens for being excluded from a celebration, resulting in his wings not developing. The resolution of this conflict was creatively portrayed through a global journey of learning and cultural exposure. Students from Grades 3 to 5 presented three distinct world dance performances – Greek, Japanese, and Russian – each rooted in unique philosophies:

These performances were not only aesthetically impressive but also rich in meaning. A recurring group of Egyptian vultures acted as symbolic messengers, carrying the knowledge of these cultural values to the baby toucan. This representation underlined the transformative power of cultural understanding and experiential learning.

The Lower Secondary, IGCSE-Grade 9 and AS Level students captivated the audience with their portrayal of India's evolving perspectives,

illustrating how change drives national progress. The secondary section used the setting of a classroom visited by a few Alumni. While they gladly reminisce their memories of the school, classmates and teachers, a group of students come on stage with concerns that underlie the belly of present day India as well. The students are marred with questions on gender differences and regional differences. The alumni relive their past through the present day concerns of the students and then reveal how over a period of time they underwent changes of their own to become more formed individuals. Each of the Alumni was inspired by true transformative events of the country.

The real life story of Harshini Kanhekar (first woman firefighter of the country) displayed why women can be present in every field a man takes part in. The true story of the King of Gujarat who accepted the Parsis who fled their country seeking refuge in an unknown land, brought to mind the need to accept people from different regions as they are. The self-transformative journey of President Draupadi Murmu became an eye opener that once we decide to move from fear to courage nothing remains unattainable. These stories were interspersed with dances from various parts of the country – Kathakali, Bharatnatyam, Medley of Gujarati and Persian dance and the energetic Chau performance. These dances were drawn from the stories that

were enacted.

Enthralling choir renditions, mesmerizing dance performances showcasing diverse cultures, and thought-provoking skits on new beginnings added depth to the celebration. The highlight of the evening was the school's annual report, uniquely presented in poetic form through an audio visual presentation, by the Principal, Dr. Padmajaa S Kutty. The Chief Guest engaged with the audience by addressing insightful questions from parents, followed by the felicitation of our star achievers. The event concluded on a high note with a grand finale dance that inspired and uplifted the audience

KAINOS was more than a celebration – it was a meaningful reflection of how performing

arts can nurture values, spark imagination, and ignite change from within. It stood as a powerful testament to the potential of every child to grow, transform, and inspire. What truly distinguished this Annual Day was the wholehearted participation and enthusiasm of every student. From expressive dialogue delivery to graceful and synchronized movement, the performances demonstrated emotional depth, stage confidence, and creative engagement.

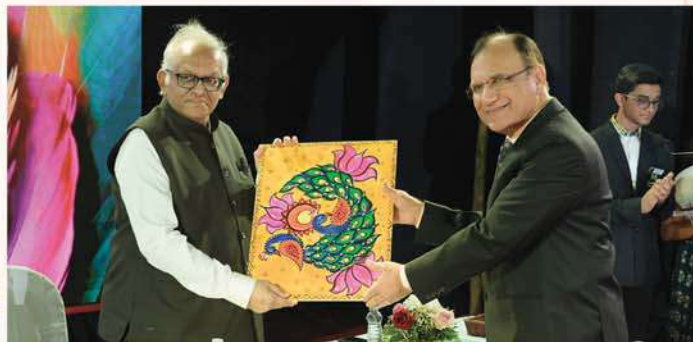

The event left a lasting impression on the audience and reinforced the message that true change begins within – and when guided with love, learning, and creativity, it leads to confidence, joy, and lifelong growth.

"Childhood is not a race to see how quickly a child can read, write, and count. It's a small window of time to learn and develop at the pace which is right for each individual child."

The first quarter of 2025 at MBIP was packed with laughter, learning, and lively experiences for our tiny tots. Each event was thoughtfully curated to ensure holistic development while making learning a joyful experience.

January Joyrides

The new year kicked off with giggles and wiggles at our Pajama Party on 6th January 2025. Dressed adorably in their nightwear, children were introduced to essential bedtime routines and healthy habits in a fun, engaging manner, topped off with popcorn and cake. On 9th January 2025, the excitement moved outdoors with a Beach Party for the children

and their parents. Activities such as fun races, a treasure hunt, and parent-child games fostered physical development and strengthened bonds through shared laughter and teamwork. In the spirit of patriotism, our little stars celebrated Republic Day on 24th January 2025 by engaging in various art activities and donning the tri-colour with pride. It was a heart warming display of love and respect for our nation. To wrap up a wild and wonderful January, we hosted The Jungle Safari event on 29th January 2025. As the children explored creative learning corners, they discovered the fascinating world of wild, farm and domestic animals. Parents joined in the fun by dressing their children in delightful animal costumes, bringing the jungle to life.

February- Full of Love and Learning

As Valentine's Day approached, we embraced the month of love with a Red Day celebration on 14th February 2025. Children came dressed in red and carried red flowers as they explored the theme of "Flowers" through art and nature-based activities.

Teds Birthday Party

Roar some fun

February ended on a high note with Ted the Sleep Friend's Birthday Party on 28th February 2025. This fun-filled event brought smiles all around as the children enjoyed games, cake cutting, and a lesson on good manners during celebrations.

March Moments

We kicked off March by capturing smiles and memories on the Class Photograph Day on 4th March 2025. With the warmth of summer setting in, our tiny tots refreshed themselves on Lemonade

Day which was on 11th March 2025, by preparing and enjoying cool, homemade lemonade, learning about summer essentials and self-help skills in the process. The vibrant festival of Holi was celebrated on 13th March 2025 with an eco-friendly twist. Using flowers instead of colours, our little ones enjoyed a safe, joyous, and fragrant splash of happiness during our Splash O' Splash celebration. The past three months at MBIP were a beautiful blend of fun, learning, and celebration. Each event provided a platform for children to

explore their creativity, build social skills, and understand important values — all while creating unforgettable memories. As we move ahead, we remain committed to nurturing young minds with love, laughter, and learning.

STEERING TO SUCCESS

Ms. Dixha Nath,
Director

“

"Success is the sum of small efforts, repeated day in and day out."
— Robert Collier

The New Year often marks the culmination of the academic year, with students preparing to be evaluated on their learnings from the past several months. It is a period filled with both anxiousness and eager anticipation for what lies ahead. Against this backdrop, the first quarter of 2025 has been a vibrant and impactful time for Ramdhar Maheshwari Career Counseling Centre (RMCC), reflecting its unwavering commitment to student development and well-being. Over these three months, RMCC conducted 50 career assessments and four assessments for working professionals through a combination of online

and offline sessions, catering to students, graduates, and professionals alike. Additionally, six students enrolled in Personal Skill Building sessions that focused on enhancing emotional intelligence, communication, and confidence. To further customize support, sessions under RS30, RS60, and RS120 categories were also provided based on individual needs.

In the area of diagnostic support, RMCC administered several specialized assessments including WRAT-4, WISC-4, CLDA, EQ, ADHD, and BGT-II. These tools were critical in identifying learning challenges and psychological needs, enabling targeted intervention strategies. The mentorship program, launched for Grades 10 to 12, continued to gain traction, offering structured guidance in college planning, study strategies, and time management. Students were provided with weekly follow-ups, personalized roadmaps

for college selection, and tailored support during their pre-board and board exam preparations.

Special Educators played a crucial role in fostering inclusive education through 447 offline remediation sessions conducted over the quarter. These sessions were complemented by 32 collaborative parent meetings that ensured families were actively involved in the intervention and support process. Regular classroom observations helped in identifying academic and behavioral concerns early, enabling effective and timely responses.

Within in-campus school support, RMCC's presence at Ramniwas Bajaj English School (RBHS) and Mainadevi Bajaj International School (MBIS) was robust and dynamic. At RBHS, the counselor conducted one-on-one student sessions, participated in PTMs, organized life skills workshops, and provided accommodations for board exam students. A standout initiative was the "Preparing for Nursery" session held for parents, which focused on easing children's transition into school. At MBIS, the counselor held regular meetings with school leadership, conducted personal counseling, facilitated career counseling sessions, and led interactive workshops such as time management for Grade 8 students. These efforts ensured a consistent and supportive environment for student development.

On the global front, RMCC facilitated eight student registrations for overseas education in countries such as the USA, UK, Ireland, and Germany. Students received guidance on university selection, application procedures, scholarship opportunities, and entrance exam coaching for tests like IELTS, GRE, GMAT, and SAT. A dedicated Study Abroad Desk set up at DGMC in February allowed students to engage directly with counselors, further enhancing their understanding of the application process and increasing interest in global education opportunities.

As the first quarter draws to a close, RMCC continues to stand as a pillar of guidance, support, and inspiration for students and their families. The quarter has demonstrated how personalized counseling, inclusive education, and global exposure can collectively empower young minds. With steadfast dedication, RMCC looks forward to continuing this journey of transformation, helping every learner move forward with clarity, confidence, and purpose.

India stands at a crossroads, facing both unprecedented opportunities and significant challenges in integrating technology into education. This technological integration offers personalized, interactive learning experiences through multimedia resources, simulations, and real-time assessments. Government platforms like DIKSHA, SWAYAM, and e-PATHSHALA aim to democratize quality education, breaking down economic and geographic barriers. Urban students benefit from smart classrooms, consistent internet connectivity, and advanced tools such as AR/VR and AI-driven platforms, bridging socio-economic divides. However, stark disparities persist. Rural students confront infrastructural challenges, including erratic electricity, limited internet access, and a lack of devices. The COVID-19 pandemic highlighted these inequities, with rural students struggling significantly compared to their urban peers. Additionally, rural areas experience technological skill gaps among both students and teachers. Primary obstacles include inadequate infrastructure, inconsistent power supply, digital illiteracy, and high technology costs. Content

quality varies widely and sometimes lacks cultural relevance for rural learners. Data privacy and cybersecurity also pose significant concerns, necessitating careful regulatory management. To fully harness technology, India must prioritize inclusive digital growth. Initiatives that enhance rural infrastructure, subsidize affordable devices, and train educators are critical. Projects like BharatNet, which connects Gram Panchayats with high-speed internet, promise to narrow the rural-urban educational gap significantly.

What is Technological Integration in Education?

Technological integration in education involves incorporating tools such as computers, digital platforms, multimedia resources, artificial intelligence (AI), and internet connectivity into the teaching-learning process. It transforms traditional classrooms into interactive, accessible, and personalized educational spaces. Technology helps tailor learning materials to address individual students' strengths and weaknesses. Platforms like BYJU's and Vedantu in India offer personalized tutoring sessions based on AI algorithms that assess each student's learning pace and style. Students from remote or underserved areas gain access to high-quality teachers, courses, and resources online. Indian

government initiatives like SWAYAM (Study Webs of Active Learning for Young Aspiring Minds) provide free online courses designed by prestigious institutions such as IITs and IIMs. Digital platforms permit learners to explore content independently, fostering a culture of lifelong learning. Educational YouTube channels, such as Khan Academy India, offer accessible, high-quality video lessons, enabling students to learn at their own pace.

Timeline and Short History:

The transformation of classrooms from traditional spaces into dynamic virtual landscapes began in the 1960s with computer-assisted instruction, advancing significantly through establishing open universities and distance-learning models. The widespread adoption of the internet in the 1990s accelerated this shift, with web-based platforms and early Learning Management Systems (such as Blackboard and Moodle) providing new means for interaction and content delivery. The rise of Web 2.0 in the mid-2000s further enhanced collaborative learning through interactive tools like blogs, wikis, and social media. Around 2012, Massive Open Online Courses (MOOCs) revolutionized access to global education. Classrooms have evolved from traditional settings to virtual environments since

the 1960s with the introduction of computer-assisted instruction. This groundbreaking shift gained momentum with the establishment of open universities and innovative distance learning models. The explosive growth of the internet in the 1990s transformed education, as web-based platforms and pioneering Learning Management Systems like Blackboard and Moodle revolutionized interaction and content delivery.

The emergence of Web 2.0 in the mid-2000s took collaborative learning to new heights, introducing interactive tools such as blogs, wikis, and social media that fostered engagement and connectivity among learners. By 2012, the launch of Massive Open Online Courses (MOOCs) fundamentally changed the landscape of global education, making it accessible to a vast audience. Technological advancements such as virtual and augmented reality have further enriched learning experiences, creating immersive and experiential environments that captivate students. The onset of the COVID-19 pandemic served as a catalyst, dramatically accelerating the worldwide adoption of online education and solidifying hybrid and flexible learning models through platforms like Zoom, Google Classroom, and Microsoft Teams.

Today, we stand on the brink of a new era in education, driven by advances in artificial intelligence and the rise of metaverse-based learning environments. These innovations are crafting increasingly personalized, interactive, and fully immersive virtual classrooms, establishing technology-enhanced learning as the definitive educational paradigm of the future. Like virtual and augmented reality enabled immersive, experiential learning environments. The COVID-19 pandemic dramatically accelerated the adoption of online education worldwide, popularizing hybrid and flexible learning models like Zoom, Google Classroom, and Microsoft Teams. Presently, advances in artificial intelligence and the emergence of metaverse-based educational environments are shaping increasingly personalized, interactive, and fully immersive virtual classrooms, firmly establishing technology-enhanced learning as a new educational paradigm.

Challenges in Technological Integration:

Rural areas in India often lack reliable internet connectivity, electricity, and digital devices. During the COVID-19 lockdown, many rural students in states like Jharkhand, Bihar, and Uttar Pradesh struggled with online classes due to frequent power outages and weak mobile signals. The high cost of smartphones,

laptops, tablets, and data plans limits access for economically disadvantaged students. A rural student might share a single smartphone among several siblings, which restricts their learning opportunities. Furthermore, teachers and students may lack adequate skills to use digital tools effectively. Many government schools, particularly in rural regions, struggle because educators are not sufficiently trained to use digital platforms, thereby diminishing technology's potential impact. Online content may not always be culturally sensitive or contextually relevant, especially in rural or tribal communities. Digital content primarily designed in urban contexts might reference city-specific examples that rural students find hard to relate to. Increasing dependence on technology escalates the risk of cyber threats and data breaches. Instances of hackers infiltrating online classrooms or learning platforms to disrupt classes have been reported in various cities, underscoring privacy concerns. The gap between rural and urban India in technological integration within education is significant. Urban students typically enjoy reliable broadband connectivity, whereas rural students often depend on weak or inconsistent mobile networks. In urban settings, students have easy access to digital devices like computers, tablets, and smartphones, while rural students frequently must share limited devices among family members. Digital literacy is also notably higher among urban students due to regular exposure, whereas rural students experience limited opportunities to develop these skills. Additionally, urban teachers generally receive better training in technology use compared to their rural counterparts, who often lack sufficient exposure and professional development opportunities. Consequently, urban students tend to see educational outcomes enhanced by digital resources, whereas rural students struggle to keep pace due to significant resource gaps. For instance, an urban student in Delhi might easily engage in interactive science experiments using advanced AR/VR headsets, whereas a rural student in Rajasthan may find it challenging to participate even in basic online classes, relying entirely on a shared smartphone with unstable internet connectivity.

Government Initiatives to Bridge the Gap:

- **DIKSHA Portal:** A national digital platform launched by the Ministry of Education, offering curriculum-linked educational resources for teachers and students across rural and urban areas.
- **e-PATHSHALA:** NCERT's digital platform provides access to digital textbooks and learning materials free of charge, widely accessed by

students across India.

- **BharatNet Project:** Aimed at providing high-speed broadband connectivity to all village Gram Panchayats, thus potentially bridging the rural-urban digital divide.

Real-Time Examples from India's Higher Education Landscape:

- **Urban Advantage:** Ashoka University, Haryana- Ashoka University swiftly transitioned to virtual learning during the pandemic using digital platforms like Zoom, Google Classroom, and Moodle, facilitating uninterrupted education. But despite technology integration, students reported fatigue from prolonged online sessions, indicating challenges in maintaining engagement and student mental health.
- **Rural Struggle:** Tribal Students of Gadchiroli, Maharashtra - Students in remote regions like Gadchiroli faced severe difficulties during the pandemic due to lack of devices, poor internet connectivity, and regular power cuts. But many students resorted to climbing trees or hills to receive mobile signals for online classes. NGOs and local initiatives stepped in to distribute smartphones and create local hotspots, demonstrating the potential for community-driven digital empowerment.
- **Digital Inclusion Efforts:** Delhi University (DU) - DU effectively integrated technology through virtual classes, online assessments, and digital learning resources, ensuring continuity during campus closures. But numerous outstation students from economically weaker backgrounds faced difficulties accessing reliable internet connections and suitable devices, highlighting socio-economic disparities.
- **Skill-based Virtual Labs:** IIT Bombay - IIT Bombay's Virtual Labs allowed engineering students across India to remotely access sophisticated laboratory experiments, democratizing practical education. But students from rural colleges struggled due to limited bandwidth and older devices unable to handle resource-intensive simulations, emphasizing infrastructural inadequacies.
- **Hybrid Education Model:** Symbiosis International University, Pune- Symbiosis introduced a hybrid model combining online lectures and offline practical sessions, balancing digital convenience with essential face-to-face interaction. But implementation challenges arose, including logistical coordination and concerns about learning consistency, reflecting the complexity of hybrid models.
- **Localized Initiatives:** Government Colleges in Kerala - Kerala government colleges effectively utilized local cable TV channels, such as Vickers Channel, to broadcast lessons, circumventing

internet accessibility issues. But the one-way communication limited interactive engagement, underlining the need for two-way technology-driven solutions.

• **EdTech Boom and Inequality:** BYJU's and Unacademy - Platforms like BYJU's and Unacademy revolutionized higher education coaching, offering affordable, high-quality content accessible across the nation. But many rural and economically disadvantaged students still could not afford subscription fees, exposing financial barriers despite digital reach.

Conclusion:

Effective integration of technology in India's educational system requires a balanced approach that addresses several critical areas: strengthening rural infrastructure to ensure stable electricity and reliable internet connectivity; subsidizing digital devices for economically weaker students to promote equitable access; conducting comprehensive

and regular training workshops for teachers, especially in rural regions, to enhance their technological proficiency; developing culturally sensitive and localized digital learning content specifically tailored to rural communities. This emphasis on cultural sensitivity is not just a strategy, but a value that we must uphold in our educational system. It is this value that will ensure that no student is left behind. And implementing robust policy frameworks and cybersecurity measures to safeguard students' data. These strategies are essential for India to fully leverage technological advancements, fostering inclusivity and equipping learners with vital future-ready skills. Real-world examples of urban students benefiting from advanced digital resources contrasted sharply with rural counterparts struggling with basic connectivity, illustrate the pressing need to bridge the digital divide. Successfully merging "clicks" (digital learning) and "bricks" (traditional classroom learning) through targeted, equitable

interventions can pave the way for a more inclusive, empowered educational landscape in India's diverse college education system.

Memorable Events/ Journey in the Institution:

I am proud to share my experience as an alumnus of LRMC. My college journey has been a remarkable blend of academic growth, personal development, and unforgettable memories. From the very first day, I was greeted with an environment that encouraged exploration, creativity, and learning. One of the most cherished aspects of college life has been the friendships I've formed. My classmates, teachers and I have shared countless moments of laughter, teamwork, and mutual support. College has been a place where I discovered my hidden talents and interests. Participating in cultural events, sports tournaments, and volunteering opportunities helped me grow as an individual. These experiences taught me teamwork, leadership, and time management, preparing me for challenges beyond academics. With this teamwork I have received Best NSS Volunteer Award in the year 2016-17, Asst General secretary post in years 2017-18. Not in college but after my college, I received best supervisor award as engineer in interior work by Reliance Industries Limited in March 2023. I also enjoyed NSS Camp & its various activities with my NSS team. My time at college has been an incredible journey of learning, growth, and joy. It has shaped me into the person I am today and prepared me to embrace the future with confidence and enthusiasm.

Year of Passing: 2018

Present Organisation & Designation:
Pursuing my MS in CS from California State University.

Memorable Events/ Journey in the Institution:

Entering MBIS as a shy and naive little girl in grade 6, I was so delighted to discover a welcoming community, full of unity and support from both the teachers and the students. By the time I graduated in grade 10, I had performed and thrived in multiple extracurricular fields, alongside academics. The exceptional teachers at MBIS played a pivotal role in my growth, inspiring me to be proud of my achievements and believe in my capabilities.

All house events were the highlight of my years. During the last two years being the lead of my house, it taught me to be responsible and how to be patient with my team. From being a part of the team that was always looked down upon and then winning the dance competition in grade 10 was another teary-eyed event I recall very often. To top it all off, receiving the all-rounder award during graduation just rounded up my entire experience completely.

I recently finished my B. Tech in CS at VIT-AP and I'm currently in the US pursuing my MS in CS from California State University. The skills learnt and the people I met during my time at MBIS has permanently positively impacted me and I'm so grateful for that.

PROPOSED

Our Gratitude to the Large Donors of

Rajasthani Sammelan Education Trust

Rajasthani Sammelan Education Trust today is a reputed name in the field of education with multiple educational institutions offering education from Nursery to post graduate studies in management and media studies. **Approximately 16,000 students** study across various schools and colleges located in the state-of-the-art RSET campus in Malad (Mumbai).

This transformation and growth of RSET has been brought about by some of the visionaries who were associated with the Trust since 1948 and had the far sightedness to empower the community through education. What started as a single school for the girl child way back in 1950's today has metamorphosed to multiple educational institutions and students.

RSET owes its gratitude to the benevolence of its **Large Donor families** who had the vision to invest for the cause of education way back in the early years and have continued to do it over the years, knowing fully well that **investment in knowledge pays the best interest**. And rightly so. PV ADVERTISER

Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthan Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthan Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthan Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthan Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthan Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthan Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthanisammelan.org.in
