Warm Greetings for the New Year!

Keeping this in mind, we have provided state of the art infrastructure to all institutions that include spacious classrooms, well-equipped computer laboratories, libraries with extensive collection of books and digital resources, communication centre with video-conferencing facility and common areas for collaborative work and relaxation.

Like Indian Culture, 'Unity in Diversity' is the essence of the institutions of RSET campus. Hon. Secretary's Message

Dear Reader,

Greetings for the New Year!

Education is the most vital and valuable asset we can provide to our new generation. Dr. S. Radhakrishnan said, "Civilization cannot be built with cement, sand or bricks, it has to come out from the minds of the people and the best tool is education".

Through our educational institutions, we, at Rajasthani Sammelan Education Trust, are trying our best to create intellectually sharp, emotionally balanced and morally sound future citizens of our country. Academic merit of all our institutions go hand in hand with excellence in extra-curricular activities and sports. The conduct of our students, the general atmosphere prevalent in our Campus, the outreach programmes conducted by our students from school to college level, management institutes and media college make our institutions occupy a special place amongst the educational institutions in Mumbai.

I am pleased to state that many of our alumni have excelled in various fields, making us proud of their accomplishments. Our students' participation in various intercollegiate competitions, academic conferences and cultural events has brought laurels to the institutions. These achievements inspire us to continue our journey with renewed enthusiasm and dedication.

Placement Cell also plays a crucial role in the institutes of higher education in locating job opportunities for under-graduates and post-graduates passing out from a college or a professional institute by keeping in touch with reputed firms and industrial establishments. The cell arranges skill development training programs, career guidance programs, mock interviews, group discussions, communication skill workshop etc. Durgadevi Saraf Institute of Management Studies, Deviprasad Goenka Management College of Media Studies and Ghanshyamdas Saraf College have very active placement cells and they are inviting from time to time reputed companies to interview the students and also arrange job fair.

Message from Chief Mentor (Schools)

Dear Reader,

As we move forward beyond Rajasthan Sammelan Education Trust's (RSET) 75th year, our focus remains on deepening our impact and expanding opportunities for every student. Education is about consistently creating meaningful change in the lives of the young. Our commitment to inclusive, high-quality education remains unwavering. I am pleased to share the progress we have made this past quarter along with new initiatives on the horizon.

Key Developments in this Quarter:

• Progress at KGSS

In our last issue, I spoke about the initiative at Kudilal Govindram Seksaria Sarvodaya School (KGSS), where students from international schools were invited to mentor and teach Grade 9 entrants from BMC schools. I am delighted to share that this collaboration has taken off with great enthusiasm. These mentorship sessions are fostering confidence in our students while encouraging a culture of peer learning. Seeing young minds support one another reinforces our belief that education thrives in a nurturing and collaborative environment.

• Provision of Essentials

Our initiative to provide school essentials, uniforms, and meals has been well received by students and their families. By removing financial hurdles, we are ensuring that every child walks into the classroom with dignity, focus, and the resources they need to succeed.

• Initiatives at RBHS

In Ramniwas Bajaj English High School initiatives have been taken to establish a new admission office in the front lobby to streamline and promote admission, especially for Nursery. The lobby has also been air-conditioned along with aesthetic enhancements to create a welcoming and engaging atmosphere.

• Program Enhancement

We have introduced 3 new programs for our Nursery babies coming to school in June 2025 which will focus on developing the following:

1. Motor Skills
2. Cognitive functions
3. Communication skills
4. Reading competency
5. Problem solving
6. Improved attention span and focus

• Initiatives at MBIS

At Mainadevi Bajaj International School, it has been my endeavor to set up a Boutique Learning Environment for students through the Cambridge curriculum. It has been my desire to empower students with innovative programmes, including the Community Outreach Initiative at MBIS called SEWA [S- Social Initiatives, E-Empathy for All, W-Well Being for Growth A-Attitude of Gratitude]. One of the flagship projects of SEWA has been the adoption of an Ashramshala at Talawade, Palghar district. Through this initiative, the team at MBIS not only supports the underprivileged kids but also nurtures empathy in the privileged students and supports bridging socio-economic gaps.

Archita Saraf Rajpuria, Trustee, RSET

• A Decade at MBIP

It is indeed a matter of great pride that Mainadevi Bajaj International Playschool has completed a glorious decade of success. It is the first IPC accredited Playschool in Mumbai, India and offers a Playgroup and Pre-Nursery. Till date, MBIP had 650 children with three divisions and is catering to the needs of Pre-Nursery toddlers and making them learn about various things in a playway method.

• Career Mentorship & Guidance – RMCC

Recognizing that career choices can be overwhelming, we are launching a structured mentorship program at our Career Counselling Centre. This program is designed to support students starting from Grade 10, helping them make informed decisions about their future education.

We guide students in identifying key factors for selecting the right college, from understanding the application process to aligning their choices with their goals and personality.

The program provides a comprehensive roadmap, offering options, personalized guidance, and support in recommending and applying to universities.

Education goes beyond textbooks and classrooms. It is about nurturing confidence, expanding perspectives, and giving students the tools to shape their own paths. It is about creating opportunities that uplift entire families and communities, ensuring that learning does not stop at the school gates but continues as a lifelong journey. Our heartfelt gratitude to our gracious donors as well as the efforts of our students, teachers, and parents. For without them, we wouldn't be able to work towards our vision.

Thank you for being part of this journey. Together, let's build a future where every child has the tools to thrive.

CEO'S Message

Captain (IN) Anant Yadnik (Retd.), CEO, RSET

Dear Reader,

Last quarter of the year is marked with numerous activities from the students and faculty members of all our Schools and Colleges such as Academics, Social Initiatives, Guest Sessions, Workshops and Conferences, Faculty Development Programmes, Study trips and Festival Celebrations which are elaborated below.

To create awareness among the students of higher grades various faculties, a career guidance session and open house for forthcoming exams was conducted recently. The teachers guided the students and were also subjected to solve the practice test papers of each subject under their supervision. Our Schools have participated in Science, Maths and Hindi Olympiad exams and all our students fared well in these exams.

It's with great pride that we at RSET share with you a great news that one of our schools viz; MBIS (Mainadevi Bajaj International School)was felicitated with the Times Education Icon Award for being one of the Top Cambridge Schools in Mumbai. The award was received by one of our Trustee and the Principal of the School. We at RSET have active participation from DLLE, Rotaract Club, NCC and NSS organizations.

Recently, the NSS Residential Camp was held for 7 days at Dahanu. A large number of NSS Volunteers along with the teaching and non-teaching staff actively participated in the camp. The Principal and Vice Principal also visited the camps to motivate the students. During the week, students learned practical skills like honeybee keeping, grafting, vermi composting, and natural farming, taught by experienced professors at the institute. Volunteers also engaged in social service activities and the community service activities like making and distribution of the food. The camp concluded with a ceremony where the best-performing students were awarded with certificates, making it a meaningful and enriching experience for all those who were involved.

All our Schools and colleges regularly conduct the Parents Teachers Meeting where parents are welcomed and they are told about the importance and significance of regular attendance, active participation of students in all curricular and extra curricular activities. It is heartening that all the parents understand the efforts taken by the Staff for the progress of students and they give their full cooperation and participation towards the success of such meetings.

We are thrilled to conduct alumni meetings for our ex students. During such meetings the interactive sessions are held between the ex-students, our present students and the teaching staff. It's a very nostalgic event for all, as lot of things are discussed and shared like the success of each ex-students, their old association, few good old memories and guidance to the present students.

We at RSET have arranged Dance, Puppet Shows, Movies and Indoor Games for our tiny tot students. For higher grades we have conducted science exhibitions, world mental health day, birth anniversary of Mahatma Gandhi and Jawahar Lal Nehru; celebrated festivals of Navaratri, Diwali, and organized Dandya etc. The Christmas Party was organized where students sang carols, Santa songs and were involved in other fun and frolic activities. Thus, we are educating our students with lessons of life whilst bringing in an ambience of fun and frolic. Further the hidden talent of the students comes to the forefront on such occasions which brings in the confidence among them.

The month of December was very busy for all of our Schools and Colleges. They have organized Annual sports meet at Goregaon Sports Club on various days of the month. This special activity is a must before the students appear for their final exams. The eminent national and international personalities from the field of sports graced the occasion and gave motivational speeches for all the sportsmen. The certificates, medals and trophies were given away for the meritorious performance of the students in respective games/athletic events.

Our Management College, DSGS, hosted a large delegation from Southern Africa recently. The visit was highly beneficial for both the futuristic institutions as the depth of expertise and innovative ideas shared during the sessions conducted has left a lasting impression on the said delegation. The team from Management College of Africa greatly valued the interactions with staff and students, finding them to be both enlightening and inspiring.

All our Institutions hold regular Governing Council Meeting where RSET Trustees and concerned Members of these forums attend the meeting. Various matters like Admissions, the Progress shown by the Institutions in Academics and Extra Curricular Activities, Placements, Budgetary provisions etc are presented by the Institute heads so that the Management is fully aware of the achievements of each Institute of RSET during the three months period.

RMCC, our prestigious counselling centre has planned and executed various events like a special workshop aimed at promoting mental health among working professionals, Mentorship Program for students from Grade 10 to Grade 12, multiple career assessments for both students and working professionals and facilitated students in pursuing education globally through overseas. The comprehensive services offered are not just beneficial but essential in today's demanding world, making RMCC an indispensable partner in achieving growth, clarity, and long-term success of our students.

Dear Reader

Warm Greetings for the New Year!

The New Year brought in its trail many interesting events taking place in our country as well as the international arena. Indian Grand Master in Chess, Gukesh Dommaraju became the World Chess Champion on 12th December, 2024 defeating Ding Liren, the Chinese Chess Grand Master in Singapore at the age of 18. On Friday 17th January, 2025 President Droupadi Murmu honoured Gukesh with Major Dhyanchand Khel Ratna Award at a glittering function at Rashtrapati Bhavan. Gukesh's victory is a milestone not only for Indian Chess but also for the global chess fraternity.

The month of January also witnessed Maha Kumbh Mela at Prayagraj. It is scheduled from 13th January, 2025 to 25th February, 2025 at the Triveni Sangam in Prayagraj, Uttar Pradesh, India. It is the world's largest Hindu pilgrimage festival that witnesses congregation of common people, seers, industry bigwigs and Bollywood actors. The 2025 edition of Maha Kumbh is unique since as per the astrological calculations, the alignment of such constellation of stars is witnessed once in 144 years. Many scholars and researchers from around the world flocked at Prayagraj for the Maha Kumbh Mela 2025. They studied various aspects of the event, including its planning, implementation and economic impact. Institutions that sent scholars included Harvard University, Stanford University, London School of Economics, Kyoto University, AIIMS, IIT Ahmedabad, IIM Bangalore, IIT Kanpur, IIT Madras & JNU New Delhi.

In a significant step towards enhancing education standards, the Maharashtra School Education Department has established the State School Standard Authority (SSSA) to assess schools based on the School Quality Assurance & Accreditation Framework (SQAAC). The move aligns with the recommendations of the National Education Policy (NEP) 2020 and the guidelines developed by the National Council for Educational Research. The education department initiated a "Teacher Capacity Building Training" program, where selected educators were trained as resource persons. These resource persons, in turn will train other teachers in multiple batches, equipping them with a comprehensive understanding of NEP 2020 and its key components.

To implement NEP 2020, the University of Mumbai has taken steps like preparing a curriculum for undergraduate (UG) programs

Dr. Sunanda Kar, Editor

focusing on multidisciplinary education and vocational courses, rolling out the policy in affiliated colleges, and initiating digital learning initiatives. Mumbai University has also introduced 4-year undergraduate programs in multiple variations, aligning with the NEP 2020 framework. Mumbai University also plans to implement the National Education Policy (NEP) in its affiliated colleges, focusing on skill-based education and potentially establishing new colleges. Numerous autonomous colleges in Mumbai have successfully implemented the National Education Policy (NEP 2020). All of them now offer a 4-year undergraduate degree course.

In a decisive move to streamline the accreditation process, National Assessment & Accreditation Council (NAAC) has announced an immediate halt to physical inspection of the institutions of higher education. Accreditation teams will now conduct evaluations entirely online replacing on-campus visits with virtual assessments.

In RSET campus, our schools, colleges and management institutes have been buzzing with many academic, extra-curricular and sports activities. All the institutions celebrated Annual Sports Day in a grand manner at Pravinchandra D. Shah Sports Academy ground or in Goregaon Sports Club. Many sports celebrities were invited as the Chief Guest during this occasion.

In the preceding months, many of our schools and colleges have won awards and accolades. Mainadevi Bajaj International School, Ramniwas Bajaj English High School and Kudilal Govindram Seksaria English School received high ranks in the Times School Survey. RBHS also secured 6th position in the city in the CISCE curriculum category as per Mid-day School Survey 2024.

Institutions of higher education organized guest sessions, workshops, conferences and faculty development programs. On 23rd October, 2024 Shri Jayesh Faria, Director of Motilal Oswal Wealth Management Limited was invited by Durgadevi Saraf Institute of Management Studies for a guest session on the subject of Wealth Management for students of MMS Semester III. In order to enhance the interaction with corporates and to broad base the placement approach, the 3rd edition of Annual Corporate Engagement Event 'Confluence 2024' was held on Saturday 19th October, 2024.

DSGS also hosted a large delegation from Management College of Southern Africa (MANCOSA) on 12th November, 2024. Deviprasad Goenka Management College of Media Studies organized industrial visits for the students to the sets of Kapil Sharma Show and Kaun Banega Crorepati. Ghanshyamdas Saraf College of Arts and Commerce successfully organized a one week National Level Faculty Development Program.

Like plants which provide shade after growing into big shady trees, we wish that the students cared and nurtured by all our institutions, turn into rich human resources for our country as they become mature individuals.

The Foundation Day and Academic Inauguration of the **Durgadevi Saraf Institute of Management Studies (DSIMS)** and **Durgadevi Saraf Global Business School (DSGS)** Batch 2024-26 on October 19, 2024, marked a momentous occasion filled with anticipation and promise. The ceremony commenced with the national anthem and the traditional lighting of the lamp, symbolizing a new beginning for both the students and the institution. This significant day served as an opportunity to reflect on the institution's core values and set the tone for the students' exciting academic and professional journeys ahead.

Foundation Day holds great significance for any institution. It is not only a reminder of its roots and achievements over the years but also a celebration of its future. For the incoming MMS and PGDM students, this event marked the beginning of their educational journey, emphasizing the importance of building a solid foundation for future success. The event served as a platform to introduce students to

the institution's vision, values, and expectations, ensuring that they embark on their academic pursuits with a clear understanding of their roles and responsibilities.

Dr. C. Babu, the Director of DSIMS, welcomed the students and emphasized the importance of management education in today's world. He spoke about how businesses are evolving at a rapid pace and how critical thinking, innovation and leadership are more important than ever. Dr. Babu encouraged students to engage fully not only in their studies but also in extracurricular activities as these experiences would shape them into well-rounded individuals. His message was clear: students must take every opportunity to grow, learn and prepare for the challenges ahead. He further elaborated on how a management degree is more than just a qualification—it is a transformative journey that equips individuals with the skills needed to navigate the

complexities of the modern business landscape.

Similarly, Dr. Sarita Vichore, Director of DSGS, delivered an inspiring address that resonated with the students. She acknowledged the tech-savviness of the current generation, highlighting it as a unique advantage in achieving personal and professional goals. Dr. Vichore encouraged students to leverage their technological skills while also emphasizing the importance of collaborative learning. She underscored that teamwork, knowledge sharing and group problem-solving not only broaden perspectives but also enhance the ability to tackle complex challenges. Her core message was clear: success lies in harnessing the dual power of technology and teamwork. She also emphasized how leadership today is deeply intertwined with adaptability, urging students to remain flexible and embrace new learning opportunities in a rapidly changing world.

Mr. Ashok Saraf, President of RSET, delivered an insightful speech on the significance of planning and time management. He emphasized that time is the most valuable resource, urging students to use it wisely and set clear goals. Mr. Saraf encouraged students to work smart by planning their efforts efficiently, thereby ensuring greater success. His words were a powerful reminder that effective time management is the cornerstone of achievement. He illustrated this point with examples from successful business leaders who mastered the art of balancing priorities, highlighting that success is not just about hard work but about strategic effort allocation.

The event's highlight was the address by Chief Guest, Mr. Krishna Gopal, Global Head at Tech Mahindra, who shared practical advice drawn from his extensive corporate experience. He emphasized the value of networking, encouraging students to cultivate genuine relationships rather than transactional ones.

His recommendation to "call for no reason" reinforced the importance of building trust and mutual respect in professional networks. He shared anecdotes from his career, illustrating how simple yet meaningful interactions can lead to significant career advancements and opportunities.

Mr. Gopal also touched upon adapting to diverse work cultures and fostering collaboration in a globalized world. He spoke about the need for career resilience, urging students to continuously upskill and avoid over-reliance on a single organization for growth. Posing the thought-provoking question, "Why should someone hire you?" he underscored the importance of attitude, problem-solving abilities, and storytelling skills, which are critical in standing out in the competitive job market. He encouraged students to develop a personal brand, highlighting that in today's digital age how one presents oneself can significantly impact career growth.

The topic of gender diversity was another key focus of Mr. Gopal's address. He highlighted the unique challenges women face in leadership roles and emphasized the importance of their representation at higher levels. Women, he noted, bring balance, empathy and unique perspectives to leadership, which are essential for modern business success. Concluding his speech, Mr. Gopal advised students to specialize in one area to establish themselves as experts, gain recognition and excel in multinational corporations. He stressed that the most valuable asset for an MBA graduate is a sense of responsibility—leading teams and making decisions with integrity and accountability. He reinforced the idea that leadership is about making a difference and every student present had the potential to influence positive change in the world.

The week-long initiative was spearheaded by the school's Interact Club, which once again took the lead in organizing a successful charity collection drive. The club identified five institutions that would benefit from our collective contributions:

1. Akshaya Shakti, Thane

"Education is the most powerful weapon which you can use to change the world."

– Nelson Mandela

Education continues to be the driving force behind success, and at Tilak Maharashtra Vidyapeeth (TMV), learning has been in full swing. BCA, BSc, and BBA students from the first, second, and third years have actively participated in lectures throughout this period. These sessions have provided students with the knowledge and practical insights needed for their academic and professional growth.

In November 2024, BBA students displayed their understanding and communication skills through well-prepared presentations. These presentations helped them refine their analytical abilities, teamwork, and confidence—essential traits for their future careers.

The academic rigor continued into December, with BCA and BBA students appearing for their external examinations. Meanwhile, BCA and BSc students undertook their practical exams

in the first week of December, applying their theoretical knowledge to real-world scenarios. These assessments play a crucial role in ensuring that students are well-equipped with the skills required in their respective fields.

Our partner, Helen O'Grady International, has been instrumental in nurturing young minds through various academic and extracurricular initiatives. Counseling for the 23rd batch was successfully conducted during this period, helping students make informed decisions about their educational journey. The 23rd batch students have also commenced their internships at Ramniwas Bajaj English High School and Mainadevi Bajaj International Playschool, where they are gaining invaluable hands-on experience in a real-world educational setting.

Beyond academics, Helen O'Grady International organized Speech and Drama sessions for school children. These sessions played a vital role in boosting children's self-expression, confidence, and creativity, allowing them to develop essential communication skills in a fun and interactive

manner.

Adding a touch of joy and engagement, a delightful puppet show was conducted on 9th November, 2024. The event was met with excitement and enthusiasm, as children were mesmerized by the captivating storytelling and colorful characters. Such creative engagements contribute significantly to a child's imaginative and emotional development.

Another key partner, Kalpana International Institute of Management Studies (KIIMS), conducted counseling sessions during this period, guiding aspiring students toward their academic and career aspirations. These counseling sessions play a crucial role in helping students choose the right path based on their interests and capabilities.

These courses empower students to channel their artistic skills into meaningful careers.

A Commitment to Lifelong Learning

With such diverse academic and extracurricular activities taking place, this period has been marked by learning, creativity, and growth. As students continue to advance in their educational journeys, they gain not only subject knowledge but also practical experience, critical thinking abilities, and interpersonal skills that

will serve them well in their future endeavors.

"The beautiful thing about learning is that no one can take it away from you." – B.B. King

As we look ahead, we remain committed to providing quality education and holistic development opportunities to students, ensuring they are well-prepared for the challenges and successes that lie ahead.

too. The purpose was to enhance hand to eye coordination, build their gross motor skills and also emphasize on the importance of eating healthy, exercising and thus being fit. The MBIP kids enjoyed their first field trip on 17th December 2024 to Maharana Pratap garden wherein they were accompanied by their parents for a lot of fun games and rides. The Christmas carnival was organised from 18th December 2024. It brought along a lot of excitement as the kids had art and craft time, enjoyed decorating the Christmas

tree, sang carols and Santa songs, had fun trying their hands on making chocolate balls, danced during snowy messy play in the class. A Christmas party followed wherein Santa Claus came all dressed to give away goodies to the little ones at MBIP on 24th December 2024. We had a Christmas break from Monday 25th December 2024 to 1st January 2025.

"Every child is a different kind of flower, and all together, they make this world a beautiful garden."

From learning about community helpers to celebrating joyous festivals, from staying fit to exploring the magic of seasons, our tiny tots at MBIP embraced every moment with enthusiasm and curiosity. As we step into a new year, we cherish the memories made and look forward to many more joyful experiences ahead!

"Clouds come floating into my life, no longer to carry rain or usher storm, but to add colour to my sunset sky – Rabindranath Tagore

In today's era, the importance of emotional and mental health is acknowledged worldwide. Recognizing this, the World Federation for Mental Health designated "Mental Health at Workplace" as the theme for World Mental Health Day on October 10, 2024. In line with this theme, RMCC organized a special workshop aimed at promoting mental health among working professionals, focusing on sound and movement therapy. Facilitated by renowned experts Ms. Riddhi Doshi Patel and Ms. Tejal Karia, the workshop attracted a diverse group, including members of the RSET Management and RMCC team, making it a highly

engaging session.

Participants were offered therapeutic techniques to enhance relaxation and mental clarity, which they found refreshing and rejuvenating. This initiative underscored RMCC's commitment to fostering mental wellness in professional settings.

Furthermore, navigating the educational landscape has become increasingly challenging for students pursuing undergraduate programs. Recognizing this, RMCC introduced a Mentorship Program for students from Grade 10 to Grade 12. This program assists students in identifying their interests, aligning them with suitable career paths, and guiding them through the college selection and application process. Students enrolled in the program have reported clearer

direction and reduced anxiety, enabling them to focus more effectively on their academics.

In addition to career guidance, RMCC conducted multiple career assessments for both students and working professionals, offering clarity and pathways for career progression. Individual counseling sessions were also organized to address personal concerns and enhance essential skills.

RMCC's commitment extends to supporting students facing academic challenges. Following first-term evaluations, RMCC organized a charitable academic screening camp, providing free services to help parents understand their children's academic difficulties. The camp aimed to identify underlying issues such as comprehension, fluency, and accuracy, and recommended tailored interventions to support student progress. Students requiring further assistance received remedial support from specialized educators, ensuring inclusive education and personalized attention.

Moreover, RMCC facilitated students in pursuing education globally through overseas services. From guiding college selections to preparing impactful Statements of Purpose, RMCC supported students and parents throughout the application process. As a result, students successfully applied to prestigious universities in the US, UK, France, Poland, and other European countries.

RMCC stands as a vital resource for individuals navigating the complexities of education, career planning, and mental well-being. Through its innovative programs and expert-led interventions, RMCC equips students and professionals with the tools to overcome challenges, make informed decisions, and excel in their endeavors. Whether it's guiding students through academic transitions, empowering professionals with stress management techniques, or providing personalized career pathways, RMCC addresses critical needs that directly impact success and personal fulfillment. The comprehensive services offered are not just beneficial but essential in today's demanding world, making RMCC an indispensable partner in achieving growth, clarity, and long-term success.

Cultivating Critical Thinking

Ms. Megha Bajaj,
Author

"The important thing is not to stop questioning. Curiosity has its own reason for existing." — Albert Einstein

One of the traits of great minds and thinkers of all times is curiosity. Their minds explore possibilities and probabilities. This is also a defining trait of highly effective leaders. If I have to personalize things, I am what I am, and I will be all that I will be because I am constantly asking these two questions, WHY, and WHY NOT? It has helped me derive so much more out of myself and my life.

Every step of our lives deals with decision-making. And it is not always about Yes or No. There are Maybe-s, Ifs, and But-s. If we have options, our minds need to be trained to think critically and choose the best one.

During their learning phase, students are equipped with different life skills which will help them to grow as an individual, not just academically, but also socially and often professionally. Our education system has changed over time to include these essential skills in some way or the other. Critical thinking is one area that must be inculcated into our progressive curriculum to encourage young minds to apply it in the right way.

From managing time to preparing for exams, from understanding concepts to delivering performance, everything has an element of critical thinking in it. Not all can be learned and imbibed from textbooks. It is the real-life application that matters more. Critical thinking deals with assessing all the aspects and prospects of a situation and taking informed decisions.

It is very important for students to inculcate this as an important life skill from an early age. It needs to be incorporated into the educational system and educators must be equipped to nurture this skill in students. I will come to How, but many curious minds will ask Why.

Critical thinking:

- Helps in better decision-making and problem-solving
- Enhances creativity and innovation
- Helps students to become active listeners
- Ramps up their research skills and domain knowledge expertise
- Stimulates curiosity
- Improves presentation and language skills
- Fosters life skills through reasoning

The aim of education should be teaching students how to think, and not what to think. And, simply put, critical thinking is all about that.

One of the biggest indicators of critical thinking is the ability to think independently.

As Napoleon Hill rightly said, "You have a brain and mind of your own. Use it and reach your own decisions."

As parents and educators, let's find out how we can facilitate and integrate these in the classroom, and otherwise too. Through our WoW 3 L's curriculum for schools, we empower youngsters to think way beyond blue skies and green trees and tell them to go into a world of possibilities. Some best practices I have found in my fifteen plus years as an educator are as below:

Urge them to ask questions: Whenever I interact with students, the first thing I tell them is – this is a safe space. You won't be judged for asking questions. For being wrong. For expressing even the most bizarre of views. This helps them to feel at ease in an otherwise judgmental world where each of us feel inhibited to be ourselves. Ask thoughtful questions during a lesson and encourage them to ask as well.

Probe with questions like:

- Would you give me an example?
- Will you provide more details?
- Could you be more specific?

Work in groups: Cooperative learning and teamwork not only exposes students to different thought processes but it expands their thinking abilities to know that a problem can be approached in various ways. Group projects are a great way to harness critical thinking and brainstorming.

This also leads us to our next strategy.

Incorporate different viewpoints: Working with different viewpoints on the same topic gives them the flexibility to explore, listen and express. They start understanding that there can be multiple solutions and they must choose what is the optimum one. Moreover, this enhances their active listening and concentration skills.

Connect ideas: Connecting the dots and relating to experiences has always helped us hone our skills. Whenever we start thinking if it has ever happened to us to someone we know, it opens a plethora of thoughts. This facilitates critical thinking in many ways.

For example: If the educator asks, Do you take a bus to school every morning? What are the challenges you face? What would be the probable solutions? What are the pros and cons of this? This allows them to use their prior knowledge and judgments to come up with solutions and arguments.

Encourage them to take decisions: One of the best ways to approach the problem above is to assess the odds and come up with a feasible

solution. This is the most important output of critical thinking which comes in the form of a rightful decision. Encourage students to make decisions and back up their views with facts and arguments.

Encourage creativity: Finally comes one of the most important aspects of critical thinking – creativity and innovation. Give students the time and opportunity to explore on their own. Their independence will lead to amazing innovations.

For example: If the educator asks them to draw a tree, do not show them that it has to be done in a simple way. If you keep everything ready, they will never get a chance to show their creativity. Supporting the importance of critical thinking in students, Louis E. Newman, former dean of academic advising at Stanford University and the author of *Thinking Critically in College: The Essential Handbook for Student Success* mentioned in an interview, "When responding to students' questions in class, I could have said not only "That's a great question," which I'm sure I did innumerable times, but added, "because you placed this observation in the context of something we covered two weeks ago" or "because you are questioning whether the evidence that the author provides really supports their position."

With traditional concepts of education losing their value, it is time for a change. This a step towards not just creating professionals out of

students, but critical thinkers who can excel in any field of life with determination. I believe critical thinking must not be left to chance – but be added as a special class in every school.

Think about this critically and tell me if you agree!

Memorable Events/ Journey in the Institution:

I am Komal Chauhan. My school life is a part of my life that has played a significant role in shaping my ideals and building my personality. When we were in the X standard, our class had a mix of students in terms of intelligence.

Some were very studious, some were average, and some faced difficulties in studying. At that time, I was the class monitor, and I was aware of all this. Realizing this, we decided as a class X div A, that we would move forward together by helping each other.

We started with small things, like explaining important sums to each other, helping friends who had difficulty in solving problems, listening to each other's answers in History and Geography, and assisting in Science and other subjects. Gradually, the SSC board exams approached. Because of our collective hard work and efforts, we all passed with good marks.

This phase of school life remains unforgettable for me. It taught me the importance of teamwork, empathy, and moving forward together.

P.V. ADVERTISER

Our Gratitude to the Large Donors of Rajasthani Sammelan Education Trust

Rajasthani Sammelan Education Trust today is a reputed name in the field of education with multiple educational institutions offering education from Nursery to post graduate studies in management and media studies. **Approximately 16,000 students** study across various schools and colleges located in the state-of-the-art RSET campus in Malad (Mumbai).

This transformation and growth of RSET has been brought about by some of the visionaries who were associated with the Trust since 1948 and had the far sightedness to empower the community through education. What started as a single school for the girl child way back in 1950's today has metamorphosed to multiple educational institutions and students.

RSET owes its gratitude to the benevolence of its **Large Donor families** who had the vision to invest for the cause of education way back in the early years and have continued to do it over the years, knowing fully well that **investment in knowledge pays the best interest**. And rightly so. From time to time all our **Large Donor families** who have been associated with RSET have seen their investment in education come to fruition and we are reaping the fruits of their vision through the various institutes and the infrastructural facilities that have been built at RSET some of which have been named as per the desire of our esteemed Donors and membership as per RSET rules were given as per the membership rules prevailing at that time.

RSET today is an aspirational brand and is on a growth run. While we are fortunate to have many large existing Donor families associated with us, there are still a large number of Donors wanting to associate with us.

For the benefit of such Donors and Members who wish to associate with us at **RSET**, we are giving below the Present Membership Categories & Status.

All our Donor Trustees, Office Bearers and Managing Committee Members bring with them an extensive experience and knowledge of running their successful enterprises. It is largely due to their efforts, vision and commitment that RSET has grown in the size and stature. Our gratitude to all our Members for joining with us in our educational endeavours.

Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthani Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthani Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthani Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthani Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Rula (Brijmohan Laxminarayan Rula Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthani Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthani Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthani.org.in
