President's MESSAGE

Ashok M. Saraf, President, RSET

Dear Reader,

At the outset, I convey my warm greetings to everyone at the beginning of the academic year!

Education system in our country is undergoing changes at a fast pace. National Education Policy (NEP) 2020 has thrown great challenges on educational trusts as well as institutions. It has proposed various reforms to revitalize the education system in schools and institutes of higher education. Through NEP 2020, government is looking forward to making India

a 'Global Superpower' and it will be possible only by making the education system for schools and colleges more flexible, holistic and multidisciplinary. Currently, children in the age group of 3 to 6 are not covered in the 10 + 2 structure as standard I begins at the age of 6. In the new structure a strong base of Early Childhood Care & Education (ECCE) is also included from age 3 which is aimed at promoting better overall learning development and well-being of children so that they become ready for school as they join standard I.

I am pleased to state that at present three of our institutions of higher education have obtained Autonomous status namely Ghanshyamdas Saraf College of Arts & Commerce (GSCC), Durgadevi Saraf Institute of Management Studies (DSIMS) and Deviprasad Goenka Management College of Media Studies (DGMC). Accordingly, they have implemented required changes in the structure of their syllabus by making it multidisciplinary and have also formed new committees as per the guidelines of the Mumbai University & UGC. DGMC also has future plans to contact some reputed foreign universities to start collaborative degree programs so that the students have the benefit to obtain degree

from foreign universities while studying at their home institution.

"Education has to be holistic" and co-education is a part of that. Keeping this in mind, from this academic year, we have opened the gates of the Secondary Section of Kudilal Govindram Seksaria Sarvodaya School for boys and made it co-education from "only girls school". This was welcomed by both the parents and students as the Primary Section was already a co-education school. With the handsome donation received from our Donor Shri Ashok Sanghvi, free bus service has been provided to the students coming from Malwani area from this academic year who were facing great inconvenience all these years.

We plan to construct a new building in the premises of Dhurmal Bajaj Bhavan and will start a Skill Tech University by 2028. The new building will house both Dhurmal Bajaj Bhavan and Skill Tech University with separate entrances.

In this quarter, many interesting & important activities were conducted by the institutions of RSET. Results of Board & University

examinations were declared that were excellent. It is a matter of great pride that students of Ramniwas Bajaj English High School (ICSE Board), Mainadevi Bajaj International School (IGCSE Board) and Kudilal Govindram Seksaria English School (SSC Board) gave 100% result at the Board Examinations held in February-March 2025. An Educational Fair, 'TRIGON' was held on 26th & 27th April that received great response. International Yoga Day was celebrated on 21st June, 2025 by the Trust as well as all the institutions. Colleges and Management institutes held many conferences & faculty development programs. In sports, students of our institutions have made us proud by winning matches at the national level.

I take this opportunity to request our Donors and well-wishers to come forward and render their generous support to be a part of our educational endeavours that aims to offer best education to our children and make them true world citizens.

Dear Reader,

Warm Greetings for the New Academic Year!

Education enables one to meet life situations. With diligence, knowledge and intellect, one can soar to any extent one desires. The thrust of education at the institutions of Rajasthani Sammelan Education Trust is not to produce mere degree holders but the bright young men and women equipped with an all-round personality. I am pleased to state that every year, our Trust is adding a new step in the field

of education and other related areas. We are in the process of constructing a new building in the premises of Dhurmal Bajaj Bhavan and will start a Skill Tech University. It will house Dhurmal Bajaj Bhavan as well as the Skill Tech university having separate entrance lobbies for both.

It is a matter of great pride that students of Ramniwas Bajaj English High School (ICSE Board), Mainadevi Bajaj International School (IGCSE Board) and Kudilal Govindram Seksaria English School (SSC Board) gave 100% result at the Board Examinations held in February-March 2025. Results of other institutions at the Board/ University examinations were also excellent. On 26th and 27th April 2025, a landmark Education Fair 'TRIGON' was held by the Trust under the mentorship of Ms. Archita Rajpuria, Trustee, RSET and duly supported by the management. TRIGON welcomed more than 2000 students and parents who were given a rare opportunity to witness the facilities of education in RSET campus right from Play School program to Postgraduate offerings in commerce, management and media studies

21st June, 2025 marks the 11th International Yoga Day under the theme - "Yoga for One

Earth, One Health", echoing India's vision for global wellness. This year, Rajasthani Sammelan Education Trust also celebrated International Yoga Day in a grand manner in Durgadevi Saraf Hall. Smt. Sharda Bubna, Trustee RSET and a Yogacharya with 25 years of teaching experience of yoga graced the occasion as the Chief Guest. The instructors accompanying her demonstrated different asanas to the students followed by breathing techniques demonstrated by Smt. Shardaji.

In this quarter, many faculty members from Durgadevi Saraf Institute of Management Studies and Durgadevi Saraf Global Business School presented research papers in reputed national and international journals and other publications under Remsons Centre for Management Research. The Principal and faculty members of Ghanshyamdas Saraf College were nominated by University of Mumbai as VC's nominee, subject expert and in other important positions.

We nurture talents of the students in sports at Pravinchandra D. Shah Sports Academy by giving them training by expert coaches appointed by the Trust. In the month of April, Annual Multi Sports Summer Camp was

organized successfully. Twelve of the Basketball players of RSET schools from different categories were selected to represent Maharashtra in the prestigious Stair Foundation Basketball Nationals which was held under the aegis of Ministry of Youth Affairs and Sports in Delhi from 19th to 22nd May, 2025. All five categories in which Maharashtra participated secured a podium finish. Disha Dubey of Durgadevi Saraf Junior College won Gold Medal in second Maharashtra State Boxing Championship, organized by Muba Boxing Association Maharashtra in the month of June. Shri Dharmraj Yadav, the Sports In-charge of PDSA was recently honored with the AFA International Excellence Award.

Today, we are imparting education to approximately 16,000 students in our institutions of Rajasthani Sammelan Education Trust. We are sure that the students cared and nurtured by all our institutions will definitely turn into rich human resources for our country as they become matured individuals.

Rajasthan Sammelan Education Trust (RSET), a leading name in the field of Education is all set to come up with new educational and community projects in Malad (West). Established in the year 1948, RSET has come a long way and is empowering young minds with quality education to over 16000 students across 16 educational institutions under its aegis.

Since its establishment, RSET has been at the forefront of education and community service for over 77 years. It is among the leading Educational Trusts in Mumbai and caters to the educational needs of students coming from different strata of the society. RSET, today, is amongst the leading educational brands in the city of Mumbai. Recognizing the need for practical industry aligned education, RSET is all set to start work of a Skills University located close to the iconic RSET Campus in Malad (West), Mumbai. The proposed Skills University will bridge the skill gap and offer courses that focus

on 21st Century skills and prepare the students to be industry ready through a bouquet of new age courses. This will not only empower the students with the skills and knowledge they need to become successful professionals, but also address the needs of a dynamic economy.

The proposed Skills University will also collaborate with reputed International Universities, which would not only enhance the curriculum but also facilitate access to innovative teaching methodologies thereby enriching the learning experiences for students and faculty.

Watch out this space for more updates on the progress of these Projects in the coming issues of Abacus.

MESSAGE from Chief Mentor (Schools)

Archita Saraf Rajpuria
Trustee, RSET

Dear Reader,

As a mentor guiding several schools under RSET, I am always on the lookout for innovative educational experiences that transcend traditional classroom learning. This quarter we were excited to have Ellie the Elephant - Asia's first life-size animatronic empathy-building elephant, voiced by actor Dia Mirza and brought to us by PETA India, exemplifies such a rare and profoundly impactful initiative.

"Ellie is a unique, empathy-building initiative available in English and Hindi. She's Asia's first realistic educational animatronic elephant, visiting schools across India to teach children about kindness and empathy."

Crafted with striking lifelike traits-blinking eyes, flapping ears-Ellie tells her own story: a heartbreaking separation from her mother, abuse endured in the circus, and eventual rescue leading to a sanctuary life filled with joy and safety.

Ellie's voice imbues authenticity and compassion, thanks to Dia Mirza, who not only voiced the character but also permeated the project with her deep commitment to environmental advocacy. Mirza, known as a UN SDG and UNEP Goodwill Ambassador. Ellie's presence did not merely fascinate our students-it catalyzed deep reflection and a renewed sense of responsibility toward animal welfare.

KGES, KGSS and RBHS welcomed Ellie into their schools and within moments, students gathered-eyes alight with wonder-as Ellie came to life, elegantly mimicking a real elephant's movements, and shared her poignant tale with them.

The classroom atmosphere shifted from idle chatter to rapt attention. With every blink, every ear flap, students leaned in, truly hearing the narrative of hardship and redemption.

Post-session reflections revealed a remarkable shift. Students asked thoughtful questions about

animal rights, the ethics of entertainment, and humane living environments. Several students, previously reserved, volunteered to lead empathy projects-organizing poster campaigns discouraging visits to circuses and fundraisers for wildlife sanctuaries. Teachers reported meaningful classroom conversations extending into home; a new echo of empathy resonated. Ellie's visit aligns with PETA India's Compassionate Citizen program-a free humane education initiative crafted for students aged 8 to 12. Remarkably, it has been implemented across over 2 lakh schools, reaching nearly 9.3 crore children nationwide.

Why Ellie Matters -

- **Experiential Learning:** Ellie transformed abstract concepts into vivid, embodied experience-students didn't just hear about cruelty; they felt its emotional gravity.
- **Ethical Awareness:** Her story triggered meaningful conversations about our responsibility toward sentient beings.
- **Emotional Empathy:** Students developed a deep, emotional understanding of animal suffering.
- **Motivation to Act:** A wave of student-driven initiatives and ongoing empathy-focused

dialogues affirmed that the visit catalyzed real change, not just awareness.

This initiative underscores several key learnings for us at RSET:

- **Interdisciplinary Value:** Ellie's visit blended STEM (animatronics), arts (voice performance), ethics, & social learning-a Trans disciplinary gem.
- **Group Resonance:** The collective experience amplified impact; empathy, when experienced as a shared journey, resonates more powerfully.
- **Scalability:** Digital Programs like Compassionate Citizen-can be enhanced through experiential add-ons like Ellie's tours to deepen impact.
- **Community Engagement:** Such visits can spark wider school - community engagement through exhibitions, campaigns and ongoing initiatives.

I am heartened by the student enthusiasm that followed Ellie's visit-from heartfelt essays to active campaigns challenging animal exploitation. These are the signs of education that transcends curricula-it shapes humane, informed, and emotionally intelligent future citizens.

Dear Reader
Warm Greetings for the New Academic Year!

The period of April to June 2025 was marked by significant economic growth (7.8% GDP) and declining inflation in our country.. Nineteen year old Divya Deshmukh of India became a world Champion in Chess by winning the FIDE Women's World Cup 2025 that also earned her the Grand Master title. In academics, both autonomous and affiliated colleges have adopted four-year degree program from this academic year as per the National Education Policy 2020. Autonomous colleges have more flexibility, allowing them to keep their courses up to date as per industry needs. From this academic year, Mumbai University students pursuing traditional degree programs like BA, B Com. & BSc can gain hands on technical skills through newly introduced open electives.

In RSET campus, on 26th and 27th April 2025 an educational fair 'TRIGON' was organized by the trust that welcomed more than 2000 students and parents. In the months of May-June, Board/ University results were declared. Students of Ramniwas Bajaj English High School Mainadevi Bajaj International School and Kudilal Govindram Seksaria English High School made us proud by

giving 100% result at the ICSE & IGCSE and SSC Board Examinations respectively. Other important activities included celebration of International Yoga Day on 21st June, Summer Camp by Pravinchandra D. Shah Sports Academy (PDSA) and brilliant performance of students at the national level in sports, Degree Distribution Ceremony by Durgadevi Saraf Institute of Management Studies (DSIMS) & Deviprasad Goenka Management College of Media Studies (DGMC), Convocation of PGDM students of Durgadevi Saraf Global Business School (DSGS), Summer Internship Program of the students of DSIMS & DSGS, signing MOU with BNI Foundation India by DSIMS & DSGS, outreach programs by NSS, DLLE units & Rotaract Clubs of all institutions of higher education.

Team work is the hall mark of the institutes of Rajasthan Sammelan Education Trust. I am sure that through collaborative efforts, we can achieve more to benefit our students who are the future leaders of tomorrow.

Rashi Peripherals
Play Area
at MBIS

Dear Reader,

Wish you all warm greetings for the new academic year!

I am pleased to note that in the new academic year, Rashi Peripherals Play Area is regularly used by the students of Mainadevi Bajaj International School as well as toddlers of Mainadevi Bajaj International Play School. Every day the toddlers of Mainadevi Bajaj International Play School are taken there as a part of their schedule. The little ones indulge happily in outdoor play. Most of the events of the Play School are organized in this area for the toddlers. The play area is fully covered & hence it is useful during monsoon too. Since Rashi Peripheral Play area is well-endowed with playing equipment for the younger students and basketball rings for the older children, it is a favourite place for students of all categories. Almost all Physical Education classes of the Primary and Pre-Primary students are conducted in the Play Area. It is used for the practice of Yoga and training and for Martial Arts.

I am very happy to know that on 21st June 2025, all the institutions of RSET celebrated International Yoga Day in a grand manner with yoga sessions. This year, Rajasthan Sammelan Education Trust also celebrated International Yoga Day with school children and students of Deviprasad Goenka Management College of Media Studies in Durgadevi Saraf Hall with Smt. Sharda Bubna, Trustee, RSET and Yogacharya as the Chief Guest. She taught students some asanas as well as breathing techniques.

It is a matter of great pride that for the first time, the Trust organized an education fair TRIGON on 26th and 27th April. The event brought together all RSET institutions to showcase their academic offerings and engage with aspiring students and parents.

I wish a bright future to one and all in the institutes of RSET.

TRIGON 2025

An Education Fair by RSET

Rajasthani Sammelan Education Trust (RSET), founded in 1948, continues to uphold its foundational mission: delivering quality, holistic education across all stages of a learner's journey. Its expansive network now includes international accredited pre school, state board primary & secondary schools, CISCE and IGCSE schools, junior and degree colleges, vocational institute, media and management institute, a music academy and an online academy.

However, beyond infrastructure and academics, what distinguishes RSET is its commitment to holistic student development—offering a wide array of supporting facilities like a Career Counselling Centre, Sports Academy, and residential hostels for boys and girls. With a student body exceeding 16,000 learners, RSET has emerged as a symbol of educational excellence and holistic growth.

In line with this legacy, RSET hosted its first-ever, all-encompassing educational fair—TRIGON 2025—on the 26th and 27th of April 2025 at its educational campus in Malad, marking a historic milestone in its journey. Conceived as a platform to showcase RSET's wide spectrum of offerings, TRIGON was a gathering of its three core stakeholders—student, parent, and institution—thereby giving the Fair its name and underlying philosophy. It carried the guiding theme "Decode the Future of Education", emphasizing forward looking learning paradigms

TRIGON was organized under the leadership of our Trustee and Chief Mentor of Schools Ms. Archita Saraf Rajpuria, who provides mentorship across RSET's four schools. With the unwavering and dedicated support of her core team, heads of institutions, faculty members, administrative staff, student volunteers, and the entire RSET fraternity, the education fair was hosted with great success.

The name TRIGON—a result of extensive collaboration between the core team and their creative agency—symbolizes the synergy between the three central stakeholders in a learner's life: the student, the parent, and the institution. Like the sides of a triangle, each component is essential, forming a strong foundation that supports educational growth and success.

With the theme "Decode the Future of Education", TRIGON 2025 aimed to reflect both RSET's diverse offerings and its commitment to future-ready learning.

The event commenced with a vibrant inauguration ceremony on April 26 at Durgadevi

Saraf Hall, graced by renowned television and theatre artist Ms. Aparna Mehta as the Chief Guest. She was welcomed and felicitated by Mr. Ashok M. Saraf, President of RSET. The ceremony was attended by a distinguished gathering of trustees, office bearers, heads of institutions, faculty members, students, and parents.

Ms. Mehta later visited all the stalls, engaging warmly with students, teachers, and heads of institutions. She commended RSET's infrastructure and its commitment to serving over 16,000 students, and appreciated TRIGON as a much-needed initiative to bridge stakeholders and spotlight innovation in education.

TRIGON transformed the Durgadevi Saraf Hall and the Mainadevi Bajaj International School lobby into an immersive education zone. Professionally branded registration counters, campus signage, and exhibit spaces gave the Fair a premium, interactive feel.

Each of RSET's institutions had its own exhibition booth showcasing its distinctive programs, pedagogical approaches, achievements, and admission information. Visitors were encouraged to participate in activities and Q&A sessions, creating a lively and informative atmosphere.

Across its two day spread, TRIGON welcomed more than 2,000 attendees, including parents and students, marking it as one of Mumbai's most well attended educational events recently. The highlight of TRIGON 2025 was its lineup of 20+ high-impact sessions, including seminars, panel discussions and workshops. Spread across 21 breakout rooms, these sessions brought together a wide spectrum of speakers—from leading educationists and industry experts to

wellness coaches, authors, and artists.

Sessions ranged widely in subject matter:

- Artificial Intelligence & Education Innovation
- Sports Development & Careers in Sports,
- Media, Communication & Performing Arts
- Health, Wellness & Mental Fitness
- Entrepreneurship & Career Readiness
- Emerging Educational Technologies

These sessions were deeply engaging—mixing theoretical insights with actionable guidance, and stimulating conversations that broadened the participants' perspective.

Thought leaders and educationists from across the city contributed their time and expertise, bringing conversation to life through mentorship and open dialogue. Their participation reinforced TRIGON's stature not just as a showcase, but as a hub for collaborative learning and insight-sharing.

In her concluding address, Dr. Amee Vora, Principal, DGMC on behalf of the RSET Management thanked all the faculty, administrative staff, student volunteers, and institute head for their tireless efforts in making TRIGON a reality.

Buoyed by its success, RSET has committed to making TRIGON an annual flagship event, promising richer content, expanded partnerships and more immersive experiences in future editions.

Going ahead TRIGON is set to grow, inspiring countless students, families, and educators every year.

Emphasis was also placed on enhancing teaching-learning practices and integrating AI into management education. The retreat featured presentations on unique DSGS initiatives such as ISR, LiM, Capstone Projects, Rural Immersion, Mentoring, SEP and Research Cell activities. Outcomes from these sessions will be ratified and submitted to the Academic Council for final approval, ensuring a cohesive and forward-thinking approach to academic excellence.

STEERING TO SUCCESS

Ms. Dixha Nath,
Director

“

"The difference between ordinary and extraordinary is that little extra.

– Jimmy Johnson

The second quarter of 2025 unfolded as a dynamic season of growth, connection, and transformation at the Ramdhar Maheshwari Career Counseling Centre (RMCC). As the academic year bridged transitions between examination closures and new beginnings, RMCC's initiatives across career counseling, skill development, remediation, and overseas education reflected its commitment to nurturing confident, self-aware, and future-ready students. Throughout April, May, and June, RMCC assisted students, graduates, and professionals to navigate the maze of career possibilities. In these three months, a total of 91 students enrolled for career assessments, alongside three working professionals who sought tailored guidance. These assessments were conducted both online and offline, reflecting RMCC's flexible and inclusive approach to outreach. Each session, rooted in research-backed psychometrics, acted as a compass for individuals seeking clarity and direction in their academic or professional pursuits.

Beyond career guidance, RMCC counselors actively worked to support emotional resilience and self-growth. A series of personal skill-building and life coaching sessions helped students develop essential soft skills, cope with anxieties, and articulate their personal goals. The counselors' empathetic, student-first approach was evident in how they balanced structured psychometric tools with personalized conversations that addressed deeper aspirations, doubts, and anxieties. In June, the launch of the Career Development Program (CDP) witnessed ten enrollments, signifying a rising interest among students to invest in holistic career

planning that included skill building, vision setting, and guided exploration.

RMCC's commitment to identifying and addressing learning challenges remained steadfast. Over the quarter, students underwent a range of psycho educational assessments which were critical in uncovering academic hurdles and designing meaningful remedial interventions. Counselors and special educators collaborated to ensure these tools were not just evaluative, but also empowering—giving students and parents actionable insights into the next steps of their learning journey.

The Mentorship Program, which had gained momentum in previous quarters, continued to flourish. Ten new students joined the program between April and June, with many more continuing their journey from earlier months. The mentorship offered a well-rounded experience, guiding students through exam preparations, university/college applications, and decisions around career and life transitions. Weekly follow-ups ensured consistent progress, while tailored roadmaps were crafted for each mentee. In

June, six students from the program celebrated a milestone as they received and confirmed their undergraduate admissions. Others remained actively engaged, with continued support for upcoming applications or school transitions.

Over the three months, a total of 247 remediation sessions were conducted, catering to students with diverse needs through one-on-one guidance, hands-on learning, and individualized strategies. Equally significant were the 18 parent meetings that facilitated open dialogue and collaborative problem-solving. These engagements ensured that parents remained not just informed, but actively involved in shaping their children's educational progress. Through these interventions, RMCC reaffirmed its belief that every child deserves a supportive environment to thrive, irrespective of learning differences.

Within RMCC's in-campus school support system, the second quarter marked a blend of continuity and new beginnings. At Ramniwas Bajaj English School (RBHS), April witnessed vibrant engagement through classroom observations, individual student counseling sessions, and parent meetings, many of which centered around accommodations for board exams. The counselors' presence created a safe space for students to voice concerns and receive affirming guidance. In June, a Teacher's enrichment workshop on identifying signs and symptoms of learning difficulties was conducted, fostering a school-wide understanding of inclusive practices. Counselors also extended transitional support to younger grades—Nursery, Grade 1, and Grade 5—as the new academic year commenced.

At Mainadevi Bajaj International School (MBIS),

MBIS - Teachers workshop

the quarter was shaped by both reflection and readiness. While mid-April and May saw the closure of the academic year with assessments and counseling follow-ups, June was spent preparing for the fresh school term. The well-being mentor proactively planned life-skills content, reviewed past referral cases, and designed targeted interventions for students requiring continued support. Orientation sessions across pre-primary to secondary sections laid the groundwork for consistent engagement, while logistical planning for students with physical disabilities reflected the centre's sensitivity to accessibility.

TRIGON - Students interacting with RMCC Team

At Kudilal Govindram Seksaria English School (KGES), RMCC's influence continued to grow. A career seminar in April introduced Grade 10 students and their parents to the possibilities and purpose of career counseling. This was followed by orientation sessions in June for both primary and pre-primary sections, where the school counselor introduced RMCC's services, emphasizing the center's role as an ally in the students' academic and emotional well-being.

On the global front, RMCC's Study Abroad division continued to be a crucial launchpad for students aspiring to international education. Between April and June, three students formally registered for overseas admission processes in countries such as the UK and the USA. Each application was supported by a team effort involving profile building, application documentation, and visa guidance. Success stories began to unfold—most notably with visa approvals for U.S. universities and offers from reputed Universities like UAL, London and University of Sheffield in UK. In parallel, university updates and country-specific information were regularly shared with RMCC's student database, ensuring every aspirant remained informed and inspired. Promotional campaigns and free registration drives also helped build awareness among new audiences, especially through outreach to local colleges and institutions.

April brought a high point in RMCC's engagement calendar with the much-anticipated Trigon 2025

event hosted by RSET. Over two days, RMCC set up an interactive stall that introduced students, parents, and faculty to the spectrum of services it offers—from psychometric assessments and mentoring to global education guidance. The stall attracted over 150 visitors, resulting in nine on-the-spot registrations. The energy of the event was further amplified through participation in workshops, video reels, and social media features that showcased the vibrancy of the RMCC team and the real-world impact of its work. Trigon not only amplified visibility but also validated RMCC's position as a central contributor to the larger academic ecosystem.

The months of April to June were marked by RMCC walking beside every learner, understanding their journey, and helping them discover their unique strengths. Through meaningful conversations, strategic guidance, and a genuine belief in potential, RMCC continues to illuminate the path forward for thousands of students—one story, one step, and one success at a time.

Renewal notices for July-2025 to June-2026 (Displayed on both the Notice Board) and mails had been sent to the students who were at home for vacations. According to notice the last date of renewal confirmation mail was given

to the students as 20th May 2025 and for fees Payment it was 30th May-2025.

We had received good response from the students. We have 2 patterns of tenure:

- 1) July 2025 to June 2026 (12 months)
- 2) July 2025 to December 2025 (6 months)

We had started receiving admissions from the month of April itself. The admissions and queries were being received from all parts of the country. All the new admissions that we took were for the tenure of 12 months. All our students were busy with their respective schedules. The students were engrossed in preparation for the final examinations.

Weekly Pest Control procedures were carried out thoroughly under the supervision of the Rector. The Rector has been working closely with the entire third-party aide which is working in the hostel to ensure proper cleanliness of the institute. The Rector has been available round the clock for each and every student in order to ensure the welfare of all the students of the hostel. Security and housekeeping staff had been made available in the hostel. WIFI service was also satisfactory and prompt response was received from the team as well.

Month of June:

We had renewals along with the new admissions and June was again a busy month for the Hostel. We had begun to receive admissions from the month of May itself and we were happy to see our hard work being paid off so well. The admissions and queries were being received from all parts of the country. New admissions & students are coming from other prestigious Institutes of Mumbai for our next tenure. The students who were aspiring to get into our hostel also gave really pleasant feedback about our institute.

Many of the students were busy in their professional courses and their examination. The other was seeking admission in their respective universities. The students had also maintained the dignity of the hostel by abiding with the rules and regulations laid by our authorities.

New students are also anxious about joining the hostel and settling in a new city. Mumbai is famous for providing people all over with a vast arena of ambitious courses and environment which is very easy to settle into.

The queries were converted to fees collection. The admissions were received from different parts of the country for different courses. Looking at the response we could easily make out that more and more people were interested in accommodating their wards in Draupadidevi Sanwormal Women's Hostel due to the safety and security measure provided by the Management.. They were really impressed by our hostel. We had seen many students from elite institutes of the city to apply for seeking admission.

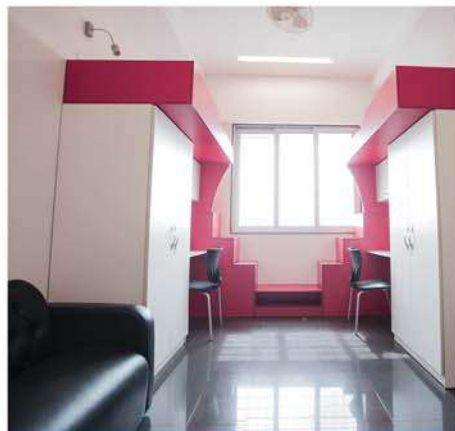

Either you run the day or the day runs you.

- Basketball
- Football
- Table Tennis
- Chess
- Martial Arts

Each sport was led by expert coaches with deep experience in their respective domains. The training model integrated foundational skill development, advanced drills, tactical sessions, fun games, and physical conditioning routines.

The summer camp had a two-fold objective:

1. Enhance fundamental and advanced skills in each sport.
2. Promote a holistic environment where students could enjoy, learn, and bond through sport.

With over 300 participants, the camp ran in structured batches and sessions to ensure individual attention and injury prevention. AI in Education:

From Intelligent Tutors to Super Agents

Mr. Ashish Shetty

Business Intelligence & Data Analytics
Specialist | Learning & Development
Expert

I

ntroduction

Imagine stepping into a classroom where lessons adjust to your learning style, assignments grade themselves, and your virtual assistant never asks for a coffee break. Welcome to the evolving world of Artificial Intelligence in education. What once sounded like science fiction is now rapidly becoming the new normal.

As institutions, educators, and learners adjust to this wave, AI is reshaping how knowledge is delivered, consumed, and assessed. This article explores how AI is transforming education and offers a perspective that Learning and Development professionals, teachers, and learners like us can use to prepare for what's next.

Personalized Learning: Education, Tailored Like a Suit

AI has made education personal. Not in an emotional way, but in a data-driven way. Adaptive learning platforms assess individual performance in real time and change the difficulty, sequence, or format of content.

Think of it as the Spotify of education. If a student excels in algebra but struggles with geometry, the system knows and adjusts. The outcome is less frustration and more learner confidence.

Institutions in India and abroad are already adopting this model, helping students learn faster, retain information longer, and stay more engaged. Personalizing content in regional languages and integrating local context are making AI even more inclusive.

Intelligent Tutors and AI Assistants: 24/7 with Zero Complaints

The days of the dreaded 9 PM homework panic are fading. AI-powered tutors are always available, never tired, and infinitely patient. These smart systems can guide students through problems, quiz them, explain concepts, and even adjust their tone and approach based on the learner's behavior.

Generative AI tools like ChatGPT have introduced powerful study companions that can summarize lectures, create practice questions, and offer feedback. Instead of replacing educators, these tools are helping them provide different types of instruction and support where it's most needed. The result isn't just efficiency. It's empathy enhanced by technology.

Administrative Efficiency: The Silent Revolution

Ask any educator, and they'll say that paperwork

often outpaces teaching. Enter AI automation. From tracking attendance and grading to generating reports and analyzing feedback, AI is quietly turning hours of admin work into minutes.

This gives educators more time for mentoring, curriculum design, or simply taking a breath. For institutions, this means smoother operations and happier faculty. That's a win-win scenario we can all support.

Immersive Learning: Beyond Chalk and Talk

Imagine a civil engineering student walking through a 3D construction site. Or a biology student dissecting a digital frog without creating a mess. AI, when combined with augmented and virtual reality, is making this possible. These immersive experiences aren't just flashy extras. They help learners visualize abstract concepts, apply knowledge in simulated environments, and develop skills in a risk-free setting. AI avatars can even deliver lessons in multiple languages, providing accessibility and inclusivity like never before.

Smarter Collaboration: Rebooting Group Work

Group projects are a classic part of the academic

experience. With AI, collaboration becomes smarter and more effective. Tools can now analyze learning styles, group compatibility, and participation patterns to create balanced teams and assign roles accordingly. This leads to better teamwork, less freeloading, and more meaningful learning experiences. AI isn't just managing collaboration. It's improving it.

The Ethics Imperative: Data, Decisions, and Dilemmas

With significant data comes significant responsibility. As AI collects and processes student information, concerns about privacy, bias, and transparency must be addressed directly.

Institutions are now expected to implement clear data policies, conduct algorithm audits, and create opt-in models for AI use. For educators and administrators, this means staying informed and advocating for ethical frameworks that prioritize learner well-being. Building trust is not just good practice. It's essential for successful AI adoption in education.

Enter the Super Agent: AI with a Master Plan

AI is evolving from reactive bots into proactive agents. These systems don't just respond to requests; they also predict needs, manage tasks, and coordinate multiple apps and tools.

For example, a super agent could track student performance across subjects, identify patterns, suggest new learning pathways, and schedule

a meeting with faculty—all before the student realizes there's an issue. This level of integration is the future of AI in education. It's not about automating tasks. It's about enhancing intelligence and foresight.

Challenges Ahead: The Elephant in the Server Room

Let's not romanticize it. AI in education also brings its challenges. Plagiarism is easier, critical thinking may decline, and over-reliance on automation can result in intellectual complacency.

More concerning, if educators and institutions use AI merely as a fix for old systems, they risk masking deeper issues like outdated teaching methods and assessment models. The solution? Rethink education itself. Shift from rote testing to project-based assessments. Move from content delivery to mastering concepts. Transition from one-size-fits-all to learner-first design.

What This Means for L&D Professionals and Educators

As an educator, your role has never been more crucial. The rise of AI requires a shift from traditional training to strategic talent development. Here's what you can do:

- Embed AI fluency into training programs
- Conduct faculty development programs focused on prompt engineering and ethical AI
- Use dashboards and BI tools to assess

program effectiveness in real time

- Encourage interdisciplinary learning across business, technology, and pedagogy
- Design certification programs that reflect industry needs, not just academic traditions

Education Reinvented, Not Replaced

Despite the noise, AI is not here to replace teachers. It aims to support them. Degrees may change. Classrooms may evolve. But the core of education, human curiosity and growth, remains timeless.

AI is just another tool in our toolkit. Like calculators once were. Like search engines have become. It's not about fear. It's about understanding.

So, whether you're teaching a class of engineering students in Palghar or training professionals in the UAE, AI is your new assistant, strategist, and co-pilot. If used effectively, it can help you become the best version of yourself as an educator.

Final Thought

The AI era in education is not on the way. It is already here. And like any major shift, it requires clarity, courage, and a bit of creative rebellion. You've delivered workshops, trained thousands, and helped institutions embrace change. Now it's time to tackle the biggest change yet. AI isn't just a trend. It's your next chapter.

Memorable Events/ Journey in the Institution:

I remember the time when I stepped into DSGS. It was an unforgettable experience for me. I was filled with excitement and anticipation as I entered the campus grounds for the first time. I was welcomed by my new peers and professors and explored the campus. It marked the beginning of a new journey for me. I was filled with the hope of what my B-school experience would bring. It was indeed a day of mixed feelings and emotions.

College events are always filled with fun and excitement. This excitement starts from the time the event is designed. Starting from the day of arrangements till the D-Day of the events. You bond, work together, laugh and create memories. Talking about one such event is Sabrang. It is the most celebrated annual cultural festival. Every year, the students organize a cultural festival that includes music, dance, competitions and many other activities. The festival is a great opportunity for students to showcase their talents and bond with their peers. It also serves as a platform for the students to learn about different cultures and gain a better appreciation of their own culture. This event is an integral part of the campus life and has become an unforgettable memory for many students.

The Annual Events in the B-school helped us to explore ourselves and our skills. Working in many Annual Events for instance sports, cultural and functional during my time at DSIMS is one memory I cherish and am proud of as it played a very vital role to develop me as a new evolved person. Participating in Sabrang and simultaneously organising in the year 2022 has enabled me to showcase my skills at different levels. Apart from all this, I am happy to have garnered skills that will be with me forever. There has always been a freedom here to express my feelings and never been judged about by any of the faculty, students or alumni's. DSIMS also have a very strong alumni connect which gave me a one to one true and real experience about how a corporate life is. To end with, I am proud that I am a colour of DSIMS rainbow which creates new leaders and future of our country.

Our Gratitude to the Large Donors of Rajasthani Sammelan Education Trust

This transformation and growth of RSET has been brought about by some of the visionaries who were associated with the Trust since 1948 and had the far sightedness to empower the community through education. PV ADVERTISER

Thank you Donors

Our family of donors include illustrious business families, individuals, corporate partners, foundations and all those people who are committed to our philosophy of providing "Quality Education for All" and have been coming forward with their contribution from time to time to create an institution of educational excellence.

Through these columns, we thank and acknowledge the support of our donors for their generous contribution over the years. Your support and contribution plays an important role in helping Rajasthan Sammelan to achieve its mission of developing a community dedicated to achieving national and international levels of excellence in various fields of education.

Your generosity has significantly contributed and helped the students in various areas. Every donation that you make impacts the life of our students in some way or the other. Your contribution has helped us build various institutes of excellence with the best infrastructure that include state of the art computer labs, knowledge resource centre, communication centre, health centre, educational outlet, sports facilities and scholarships instituted for meritorious students. All our institutes have benefitted immensely from your support.

Undoubtedly, you as our esteemed donors have made Rajasthan Sammelan stand tall in stature and have helped it grow from time to time. Like you, there have been many others whose contribution to Rajasthan Sammelan way back in the early 1950s has been significant and notable. And we gratefully acknowledge their noteworthy contribution in setting up the edifice of this great institution.

We gratefully acknowledge the contribution made by Late Shri Kudilalji Seksaria who donated the land on which the current structure of Rajasthan Sammelan stands. This contribution cannot be valued in terms of money, and it would only undermine his contribution if we were to measure this in monetary terms.

At the same time, had it not been for the significant contribution of Rs. 50,000/- by Shri Brijmohan Ruia (Brijmohan Laxminarayan Ruia Charity Trust) way back around the year 1950, the landmark Sarvodaya Balika Vidyalaya would not have come up. A small dream way back in early 1950s has today paved the way for a number of institutions under the banner of Rajasthan Sammelan. As they say, "It all begins with a Dream".

We are proud to have you all as an integral part of the positive impact and an enduring legacy that we are creating at Rajasthan Sammelan. May your benevolence continue to bring about the change we wish to see in our educational system. We stand committed to spread our wings and fly higher. In this journey of growth, we seek your continued support.

We constantly endeavour to maintain accuracy in the list of donors and we thank you for the feedback in case of any discrepancy that has been noted. Should there be any errors or omissions in this list, we urge you to contact our Donations Officer on rs@rajasthanisammelan.org.in
